THE CONDITION OF TRADE

The Volume of Goods Moving is Very Satisfactory.

NO VERY GREAT CHANGE IN VALUES

Both State and National Banks Have Made Reports During the Past Week-Mil-Hons of Money on Deposit in Omaha Banks.

Goods continue to move freely in a jobbling way, and trade in that direction is highly satisfactory. So much has been said of late regarding the phenomenal increase in the jobbing trade of Omaha that nothing remains to be added. It is sufficient to say that the trade of the past week has been

fully up to expectations. The retail trade in the country is very fair and collections are accordingly up to the average. In the city the retail trade has not been overly active although about on an

average of that of the past two weeks.

Perhaps the most noticeble event in business circles last week was the publication of the banks tatements of both national and state banks. For some time it has been talked in business circles that the deposits were rapidly increasing, and that there was not a cor-responding increase in the demand for loans. The publication of these statements bears out

the assertions previously made.

The nine national banks of Omana, with a combined capital of \$4,000,000, are carrying a line of deposits amounting to almost \$17,000, 000. The eleven state banks show total de posits of \$3,485,095.98, making in round numbers \$20,000,000 on deposit in O naha banks. Comparing this with the statements made in February and June of 1891 it will be noted that Omaha banks have gained about \$2,

A compiled statement of the national banks was published last Wednesday. The

LIVE STOCK MARKETS.

Close of the Week Finds Cattle Values Steady and Hogs Higher. OMAHA. March 12 - Receipts for the week, 12,798 cattle, 15,963 hors and 4,413 sheep, against 12,495 cattle, 22,369 hogs and 5,608 sheep last week. and 12,888 cattle, 40,519 hogs and 3,870 sheep the second week of March last

against 12,495 cattle. 22,399 hogs and 5,878 sheep last week and 12,888 cattle. 40,519 hogs and 3,870 sheep the second week of Marchiast year.

There has been a very uneven run of cattle all week and in consequence values have fluctuated somewhat. Up to Wednesday with comparatively light receipts prices in general were well maintained, all buyers appearing to want a fair number. Wednesday unusually heavy receipts for this time of the year produced a very bearish sentiment and all grades of beef steers suffered a decline of anywhere from 10c to 25c. Eastern markets being also overloaded, and demoralized shipping and export buyers were afraid to take hold, and the market was about as slow and mean as it gets. With comparatively meager offerings the latter half of the week a good part of this decline has been regained, but the feeling is still anything but strong. The rattle market is very sensitive at present, but more sensitive to heavy than light receipts on account of the prevailing opinion that the country is full of marketable stock. Any circumstance tending to verify this opinion produces an immediate weakening of values. A feature worthy of remark is the very small proportion of cows among the daily receipts. This fact has kept butcher stock selling at relatively strong prices, the supply being hardly squal to the demand. Prices are not quotably different from last week. Stockers and feeders are selling ac to 10c lower than a week or ten days ago, the supplies being large and constantly increasing, while the demand, on account of the unfavorable weather and bad roads, being decidedly limited.

The run of hogs has been very light, and partly on this account and partly on account of the sheep received this week have been offered for sale the build being cither billed through to Chicago or, as was more frequently the case, considered direct to local slaughterers. The demand continues active with prices are not quotaloned nothing really toppy or choice. Conditions of the offerings were beef steers, generally v

Chicago Live Stock Market.

Chicago, Ill., March 12.—[Special Telegram to The Her.]—With less than 1,020 head on said the market was necessarily very quiet. It was simply nominal, so far as the shipping grades were concerned, most of the offering being of the sorts that go to local canners and buethers. Quotations were from \$1.25 to \$1.50 for inferior to extra cows and helfers \$1.30 to \$1.75 for holders, \$1.00 to \$1.75 for holders, \$1.00 to \$2.75 for shipping steers and \$2.00 to \$4.55 for Texas cattle. Today's receipts were estimated at 10.00; making 10.774 for the week. This is an increase on last week's total of about \$0.00 head. but is a decrease of 10.300 head as compared with the corresponding week last year. There was good shipping demand. The hog market opened a shade higher this morning, but the advance was not sustained, the close being about as on Friday. Sales were from \$2.50 to \$2.55 for cuils to \$2.10 for the best heavy and medium weight. From \$1.00 to \$2.05 secured the greater part of the supply, though a number of sales were effected at from \$4.075 to \$2.10. The market is 5c higher than at the close of last week.

There was a moderate demand for sheep at from \$4.50 to \$2.05, and for poor to extra qualities for lambs at from \$5.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$0.85. The supply, though a number of \$2.00 to \$2.00.85.

but outside of this branch 1.200 lb. to 1.500 lb. beeves soid at \$3.50 to \$1.20. Fair to good \$10 lb. to 1.200 lb. steers soid from \$1.30 to \$1.50. Several bunches of common and light steers soid from \$1.30 to \$1.20. Not over one-fifth of the fresh receipts were cows and mixed stock. They were in active demand and trading was tolerably briss with prices firm. Good to choice cows and helfers soid from \$2.70 to \$2.20. fair to good stuff from \$2.20 to \$2.20. fair to good stuff from \$2.20 to \$2.20. Buils, oxen and stags were not more than steady at from \$2.00 to \$1.20. Calves were in fair demand at \$1.80 to \$4.50 for common heavy to very good veals.

Trading in stockers and feeders was limited and prices not quotably different from Friday. The supply of stale cattle was large but fresh receipts were light. Outside orders were not free buyers at present prices. In general prices are from 5c to 10c lower than a week or ten days ago. Representative sales:

MANDERSON FOR PRESIDENT.

The Very Latest Rumor from Political

Headquarters at Washington. NEW YORK, March 12.-The Herald's Washington correspondent says: "A strong effort is being made by the opponents of President Harrison in the senate to have as many state delegations sent to Minneapolis uninstructed as possible. Some of the senators who are favoring this plan hope that by so doing they may be able to prevent the president from securing votes enough to suc-

president from securing votes enough to suc-ceed himself and thus enable some of the outside candidates to win the prize.

"Senator Manderson of Nebraska is the list of these geatlemen who is talked of as a presidential possibility. The Nebraska senator is very popular in the transmissis-sippl country, and I am told that his own delegation will be a unit in his favor if he so designs. Mr. Manderson himself riductes desires. Mr. Manderson himself ridicules the suggestion and says that he has no ambi tion in that direction.
"His friends insist that there is good presi-

dential timber in him and are talking seriously of making a concerted effort to

MONSTERS IN JAIL.

Petty and His Mistress Arrested-An Awful

Story of Crucity.

Pronia, Ill., March 12.—Matters begin to look dark for W. H. Petty and the woman who is posing as his wife. They were arrested for maltreating their adopted daughter, who is only 9 years old. In the preliminary hearing it was shown that Petty stole the child in St. Louis, She is the daughter of Mrs. Pufnam, a widow, who is enroute to claim her daughter. Additional particulars brought out at the trial show Petty to have practiced the most revolting cruelties on the child. She complained of being cold after being out begging all day, and he removed her scanty clothes and, after tying a handker chief over her mouth se herscreams could not be heard, held her down on a red hot stove until she was terribly burned.

The police learned that the woman with Petty ran away from Memphis three or four weeks ago. Her name is Prentice and she belongs to a good family. The diamonds found belonged to her husband and father.

BREWERS COMBINE.

Chicago Concerns Agree to Unite Their Interests. CHICAGO, March 12 .- The Inter-Ocean

says: Within forty-eight hours there will be incorporated under the laws of Illinois, with a capitalization of \$20,000,000, a concern under the title of the Chicago Brewing and Malting association, which will peol under one general head the interests of twenty-three of Chicago's biggest breweries. It is the most stupendous business scheme ever undertaken in Illinois, and its formation

will end the bitter war between the brawers which has been raging here since last September. The pool embraces every one of the twenty-three breweries outside of the English syndicate and has caused a cut of from \$6 to \$4 a barrel and has a most depressing effect on brewing investments. While competition is ended it is declared there will b giish syndicate of Chicago breweries.

Cut Her Rival's Throat CHARLESTON, W. Va., March 11.-Liza Hackney, the divorced wife of Lewis Elswick, was arrested on Slack's branch in the country and brought to this city and lodged in jail, charged with the murder of Bettie Moore, whom she killed by cutting her throat last Wednesday. Hackney's divorced husband has been visiting the Moore girl for some time and was engaged to be married to ber, and when she found it out she swore vengeance and the murder was the result.

Cold Snap in the South. New IBERIA, La., March 12 .- The cold wave touched this section last night and the mercury fell to the freezing point. Heavy frost and ice was seen this morning.

CLINTON, Miss., March 12.—The thermometer ranged down to 30° yesterday. Ice formed and the ground is frozen. It is feared great harm will be done to fruit trees as they are in full bloom.

RICHMOND, Va., March 12.—Rev. John Jas per, the most noted colored preacher in the world, announces his determination to take a third wife. He is now in his 80th year.

Engineers Contemplate a Strike. Utica, N. Y., March 12.-It is reported nere that all the brotherhood engineers on the New York Central road contemplate a

BULLS WERE TIRED AND DISCOURAGED

All the Nerve and Confidence Was With the Bears, Still the Covering Was Same ent to Prevent Any Great Slump.

CHICAGO, III., March 12-Everything dealt n on the Board of Trade was again weak and lower to lay. The news was generally bearish and the conditions rather discouraging to holders. Caples were weak and lower on the continent. Some demoralization was reported, especially at Berlin, and one dispatch said that the London buyers had reduced their bids is, though the public report quoted the market as reak but only from I to 19d lower. Domestic markets all hau a downward tendency and the bulls seemed tired out and discouraged. The fine weather here and the mildness which the weather has shown to be prevailing throu hout the winter wheat beit was also a weak factor. The trade was light, the demand being iar ely confined to the covering of shorts, very few operators being disposed to buy for investment, even after the 3c drop and with selers plenty and at times urgent the weakness was most natural and the ce-

cline easy.

Foreigners were said to be selling freely at the seaboard and a full was reported in the export movement. New York reported a failure there of an export house, but when it was found that the concern was not a large one and that McIntyre & Wardweil had assumed all their contracts its effect was not very all their contracts, its effect was not very important. Pardridge, Schwartz-Dupec and Brosseau were among the most generous seli-Brosseau were among the most generous seit-ers, though Baidwin & Farnum also disposed Brosseau were among the most generous seliers, though Baidwin & Farnum also disposed
of a good line. There was some effort made
to check the weakness by using a weather
scare, and the story was started that
a cold wave was headed for the winter
wheat country, and that the mercury woud
be 15 to 20 degrees below zero in some parts of
Kansas and Missouri, but it fell flat, the
univercurrent being too weak to be much affected. It was generally accepted as an effort
to make a hard spot, either to unload long
wheat on or to get out more shorts. The exports from both coasts for the week were
3.734,000 bu, against 4.30,000 bu, for the previous week, and thirty-nine boat loads were
reported at New York, but even this had no
perceptible effect.

Buils were tired and discourazed and the
bears had all the nerve and confidence. Still
the covering on the break was sufficient to
prevent any great slump in values, May
opened at from 87% to 87% against 87% at
the close yesterday, broke to from 88% cto 87c,
railled to 87% c, went off to 80% c, strengthened
on covering by shorts and closed steady at
87%c.

Corn continued weak and a lower range of

7%c. Corn continued weak and a lower range of Corn continued weak and a lower range of values was again recorded. The weakness was due to liquidation, largely by country holders, the covernment report evidently having a bearish influence in the interior, and the weakness in wheat caused a sympathetic bearish feeling in the corn pit, longs offering quite freely. Large receipts were also a weakening factor. May opened at from 40½c to 41c, against 41c at the close yesterday and sold down to 40½c, then shorts began to cover, and this, with some investment buying, stopped the decline and caused a raily, which brought the price up to 4 ½c at the close. Oats were traded in freely dur ng the early part of the session, but in the last hour the market became quet. There was free liquidation by the longs and no demand except by shorts, who bought liberally. The heavy offerings, however, produced weakness, and May closed at 29½c, a loss of ½c, after having touched 29½c.

Hog products, in the absence of any other

touched 29%c.

Hog products, in the absence of any other news to affect prices, were governed largely by the fluctuations in wheat and corn. The market was dui! and with narrow fluctuations. Pork and ribs closed 2%c lower, while lard was outshand. lard was unchanged.

Traders' Talk.

CHICAGO, Ill., March 12.—Counselman & Day to Cockrell Bros.: Speculative markets were dull in tone and narrow in action today. The decline for the week in May futures have been in wheat. 1%c; corn. 2%c; oats, Ic; pork. 3 c; lard. 12%c, and ribs, lbc. The ordinary commercial news was generally depressing and continued selling by discouraved small holders constituted the bulk of the offerings. Ruling quotations offered good profits to the local bear element, and their purchases to corner short sales gave the markets their closing raliles all around. In the sample crowd buyers were indifferent and sellers generally were accepting for shipping grades of wheat lc, corn 1%c, and oats %c less than yesterday. Provisions were very dull and an unusually small business was done. Speculation is at a standstill, and packers rejuctant to sell the product at the market rates, which they claim are about 50c per 100 lbs too low compared with hors.

are about 50c per 100 lbs too low compared with hoge STOCKS AND BONDS.

terest to the Dealings.

NEW YORK. March 12 .- The stock market tolay suffered from liquidations of the advances of the week and the list presented a dull but slowly drooping appearance, leaving most stocks at small fractions lower than last evening. There were a few special features, however, which gave life and interest to the dealings, conspicuous among which were the Richnond & West Point stocks, the coalers, the industrials and the Baltimore & Ohio. The transactions in Reading were again more than haif of the total dealings in listed shares, and rumors of action against the combination by the state authorities of Pennsylvania were the state authorities of Pennsylvania were the occasion of heavy liquidation on long accounts in the stock. All the other stocks interested in the deal, however, were dull, though sympathizing in the downward movement in Reading and all scored even larger losses than the leader. The rumors and expectations of a favorable outcome to the reorganization proceedings in Richmond & West Point made those stocks the strong feature of the active list and the preferred made a very sharp improvement, while the common, which was very largely traded in, was held close to list first price. The new rumors in regard to the control of the Franklin refluery by the Sugar trust was the occasion of a further material improvement in the prices of the latter stocks, but the preferred failed to hold its gain and late in the session the decline in the common from the best figures became important.

Among the active stocks, Balt more & Ohlo was strong on buying or maninulation, sup-

common from the best figures became important.

Among the active stocks. Balt more & Ohio was strong on buying or manipulation, supposed to be for the account of the synaicate which recently has taken a block of stock. The opening was made at irregular changes from last evening's figures, but the Richmond & West Point stocks and the Sugar held for more than I per cent hizher than last night. These stocks made further material gains in the early dealin; s, but the weakness of the coalers were imitated by the rest of the list and a slow but steady dropping tendency was seen throughout the rest of the session in which the Sugar stocks joined toward the close. Except in the cases mentioned, however, the whole list was kept within the narrowest limits and the changes in quotations were as a rule insignificant. The market closed active and heavy generally at about the lowest figures. The final chan es of note include only two notable advances, Richmon & West Point preferred, 50; per cent, Sugar 1s, per cent, while Lackawanna lost 2s, per cent; Jersey Central 12; per cent; Delaware & Hudson 1s, per cent and Reading and Cordage each i per cent, Government bonds duil and steady. State bonds neglected.

New York, March 1:—The Post says: It is worth while to call attention again to the factor which underlies and governs all active trading in the present stock market. The shifting of control, or of powerful investment in which there is half a dozen great railrods, has cast doubt upon the real market value of all the securities thus affected. It is easy enough to say when the formal and simplest bas a is touched. But the influence of campaigns for actual control is much loss readily summed up. The consequence is that not only is there a constant query as to whether insiders' will buy or self and if either, how

extensively, but the further question arises, how far will new addances or other purchases for control be necessary to fortify positions already assumed? This is ample explanat on for the feverish activity of many stocks and their prompt response to speculative bidding in a market whose normal condition as reflected by the greater part of the list is duliness with a tendency to slow reaction. Eventually this combination of forces must result, unless all signs fail, in a generally lower level, unless all signs fail, in a generally lower level. The following are the closing quotations for the leading stocks on the New York Stock exchange today.

London Stock Market.

Copyright 1 191 by Jan 16 or to a Branch.

London, March 12.—[New York Herald Cable—Special to The Bre.]—If anything, less than the usual Satarday's business has been transacted on the Stock exchange today. Yet the markets have not been devoid of features. Funds and Indian rupee paner are undecided in tone and so f rare not serbously affected by the coal crisis, but business today has been on too small a scale to test the market Metropolitan. Brighton deferred, Great Eastern and Northeestern show fractional declines, while a triff ur rise is market in Great Western. Hull, Barnesley, Midiand, London and Northwestern. American railways close less firm than they opened simply from want of support or rather absence of business features. Miscellaneous socurities are heavy. Mining shares have been alto ether unfavorable. There has not been alto ether unfavorable. There has not been nuch demand for money on Lombard street today. With a fair supply of floating capital short loans have been obtained at from 14 to 14 per cent.

HAS A RIGHT TO THE STREET

Decision Reached in the War Between the Street Railways.

METROPOLITAN WON A GREAT VICTORY

Judge Davis Uses Some Plain English in Refusing a New Trial in Court-Damage Suits Against the City-Court Notes.

The Metropolitan Street Railway company won a victory over the Omaha Street Rallway company in the courts yesterday.

Some months ago the Metropolitan people entered upon some of the streets of South Omaha and commenced building their lines of road. As soon as the Omaha Street Railway people learned what was being done, they entered upon the same streets and commenced the work of laying their tracks. At the same time they applied for and secured a temporary injunction straining the Metropolitan people from

going ahead with their work.

Immediately after this order was issued by the court, John J. Mahoney applied to the courts for an order to restrain the Omaha Street Railway company from taking possessions. sion of the streets. The case was argued be-fore Judges Doane and Irvine, the Omahs Street raliway people contending that the Metropolitan folks had not performed work to entitle them to any rights upon the streets which they had built ever.

The case was submitted, and yesterday in

handing down the opinion the court anid:
"While the work done by the Metropolitan Street Railway company was not extensive, in character it was a bona fide commencement of construction as evidenced by the later acts of the company, and therefore the injunction asked by the Omaha Street Railway company is denied, while that asked by John J. Mahoney is granted."

Denied It With an Emphasis.

The matters disposed of in criminal court were of more than usual importance, as it was sentence day with Judge Davis. Mickey Cochran was the first man to stand before the bar. This man, in company with his prother, Neil Cochran and Dutch Fred, alias Fred Hagerman, some months ago mes a Swede, John Carison, in South Omaha, Carlson had just reached the town and was at once taken in tow by the trio of cutthroats. They first filled him with liquor and then piloted him into Syndicate park, where after beating and bruising him until life was nearly extinct robbed him of a gold watch and \$40. They left him in an unfrequented ravine to die. Fortunately he was found and taken to town. For several days he lingered between life and death. Upon recovering he gave an accurate account of the three highwaymen, who were arrested, tried and held to the district court. Last week when the case was triot court. Last week when the case was called for trini Hagerman turned state's evidence, confessed the crime that implicated both of the Cochran boys. With this evidence and that that County Attorney Manoney already had a speedy conviction followed.

Yesterday Cochran's attorney filed a motion for a new trial, setting forth the statement that suror Ward had expressed an opinion in the case before he went into the jury box. The affidavit on which the motion was based was sworn to by one Eva Porany and in it she avered that she heard Ward say in it she avered that she heard Ward say that he knew Carlson and the facts connected with the robbery; that the Cochrans were hard citizens and ought to go over the road. The motion also charged that the court had erred in some of his feelings.

Judge Davis in passing upon the motion stated that he was willing to stand upon his rulings, and as far as the affidavit of the woman was concerned, he had no hesitance

face.
The judge overruled the motion and inviting Cochran to listen to a few words, told him that the crime was the most dastardly that had ever been brought to his attention. Four strong men, each of whom was superior in strength and intelligence had met a poor, ignorant Swede, who was unacquainted with the ways of the country. In a cowardly manner they had taken the man to a secluded spot, and like fiends had beaten and robbed him and then left him to die.

"There is not a palliating circumstance connected with the whole case," continued the court. After concluding the lecture Cochran was sentenced to a term of twelve years in the penitentiary, to be devoted to doing hard labor. doing hard labor.

Drunkenness No License for Crime. Dutch Fred, alies Fred Hagerman, who hoping to lessen his years of servitude at Lincoln, was next called up. He was asked if he had anything to say why sentence should not be pronounced. He begged the court to be lenient, as he was drunk at the

"That's no excuse," responded the judge.
What I have said to Cochran applies equally as well to you, and the sentence of he court is that you be taken to the peniter tiary and there be confined for the period of fifteen years at hard labor." It is understood that part of the sentence was on account of it having been known that

Hagerman committed perjury while on the witness stand. Other Criminal Cases.

Earnest Stunt through Clerk of Court Moores, contributed \$25 to the school fund. It happened like this. Some time are Stuht was sued in Justice Wilcox's court on a \$4 account. He conducted his own case and was defeated. C. L. Day, the lawyer on the other side was helping the justice figure up the costs. Stuht protested and hot words followed. During the animated discussion Stuht lapped Day over the head accounts. Stuht tapped Day over the head a couple of times, after which he was arrested on the charge of assault and battery. The case charge of assault and battery. The case went up to the district court, where Stuht pleaded guilty. In passing sentence Judge Davis smilingly remarked: "Mr. Stuht, you ought to have bired a lawyer to have conducted your case and then paid him about \$25. As you did not, I will fine you about that amount."

Alfred Laughlin, a young Scotchman who, for a year was bookkeeper at the Grand Island sugar factory, came to the city December 16. The next day he forged a check on W. V. Morse & Co. for \$9.51. This he negotiated, but was arrested, tried in police court, and convicted. He was sentenced to fifteen grounds in the peritorities.

fifteen months in the penitentiary.

Assistant City Attorney Cornish is feeling unusually happy over the outcome of the case of James Richards against the city of Omaha. The case went to trial several days ago, and yesterday the jury returned a verdict, finding for the defendant. Richards owned property on Eighteenth street, south of Leavenworth. Last summer, when the street was graded, he appealed from the award of the appraisers and alleged \$4,000 damages.

In the suit of John B. Findlay against the city, brought to recover on account of alleged damages resulting from the widen-ing of Twentieth street, from Lake to Locust, the jury returned a verdict and placed his damages at 5 cents.

The Home Investment company has brought suit to recover \$5,100 from W. J. Martin. The plaintiff sets up in its petition that Martin represented that he was the owner of twenty shares of stock in the Douglas County bank and that the stock was of the value of \$10,000. The company bought the stock and for the same paid Martin the sum of \$9,800. After the deal was closed plaintiff learned that the stock was worth only \$4,700 and that

the representations of Martin were faise.

Judge Irvine handed down an opinion in the case of the American Water Works company against Metz. Some months ago the company presented a bill of \$1,000 for water used in the Brewery. Metz refused to pay the bill, charging that the mater did not register correctly. Metz admitted that he owed \$400, but no more. The court decided that that amount constituted the entire ic-

Judge Irvine also heard testimony in the case of Anna Hill against William Hill and granted the divorce for which the plainting

"Late to bed and early to rise will shorten the road to your home in the skies." But early to bed and a "Little Early Riser," the pill that makes life longer and better and
