The Heerwagen, representing Farrand & Voege of Detroit, is in the city waiting to carry out the order for Monday, but if delayed he will not guarantee the completion of the instrument for dedication purposes. The instrument proposed to be furnished is a magnificent organ similar to but smaller than a \$10,000 one which the company has just finished putting in a Denver church. The new organ structure is one of the finest in the state and anything but a first class organ would be out of place in it.

IN A PANIC.

Results of the London Elections Demoralized the Ministerialists.

LONDON, March 12.—The Sunday Sun reports that a cabinet council yesterday discussed the advisability of changing the labor bill as a substitute for the Irish local government bill. The Sun states that the whole election machine of the ministerialists is in a panic as a result of the London county council election, and that the ministers have been strongly urged to take the step they contemplate.

In the Interest of Religion. Elder T. C. Clendenen and Rev. C. N. Dawson departed last Friday for Pittsburgh to attend a national conference of ministers in which plans for the more successful evangelization of the world will be discussed. McClure's Estimate of Hill. It is Not a Very High One—An Interview With the Editor.

CHARLESTON, S. C., March 12.—Colonel A. R. McClure, editor of the Philadelphia Times, was in Charleston for a few hours today en route to Philadelphia. In an interview with a reporter of the News and Courier today he discussed the presidential situation and relative standing of Hill and Cleveland. He said:

"No man of average intelligence who dispassionately reviews the political situation in the north can hope for a single northern state voting for Senator Hill if nominated at Chicago, and the nomination of Hill would be seriously enough of when the convention meets. The only possible effect of the Hill movement is the defeat of Cleveland, but this is by no means certain, as he is the choice of two-thirds of the people who will elect a democratic president if one shall be elected this year, and he cannot be defeated by a rail road house machine politician on the presidency."

Attractiveness of Hill's Methods. "Senator Hill's political system has many attractions for a considerable class of men who are active in modern politics. It offers them a chance to serve out their sentence, but he claims to have been assured by the judge who released him that he need not come back unless he is wanted to serve out his sentence. The judge also promised him to discharge him and Barker at the next term of the court, which opens on the 12th inst. This report was adopted and the committee instructed to fill any vacancies that might occur in the representation."
