Crop Damage Reports Caused Lively Manipulations on the Board.

CABLES WERE AGAIN

But the Crowd Took Less Notice of Weak Interests Than of the Continuation of Cold Weather in the Winter Wheat Country,

CHICAGO, Ill., March 18 .- It was nip and tuck today on the Board of Trade with the crop damage ireports and the contradictions. Opinions differed wildly as to the outlook. ne of the soild speculators on the board who have not had the opinion that wheat was likely to get into the slough in which cotton is at present foundering, were buyers on a break which inaugurated the session but there were others who did think that wheat was getting into a cottony condition. The cables were again depressing to holders of wheat in obedience to, it is said, dictation from this side. But the crowd took less notice of weak interests than they did continuation of cold weather over the winter wheat country at home. There were purchasers of May wheat at the opening at from 81%c to 84%c with one or two transactions at 81%c a few seconds later; then Pardridge commenced selling and N. Breem took a hand in the same direction: from being inclined to favor reaction, the scalpers turned in a body to the selling side and kept putting it out until for about an hour and a half of such work it was down to 824c. The news which followed the early dispatches was in favor of lower prices. First came the report of the receipts

the early dispatches was in favor of lower prices. First came the report of the receipts at Minneapolis and Duluth—624 cars against \$42 on Friday of last week. Then a warmer weather prediction from the signal service bureau, and upon the same authority the statement in answer to an inquiry that the winter wheat belt, with the exception of Illinois and Nebraska, was all snow eovered. The knock-down blow came from the seaboard, from whence came the announcement that no wheat had been cleared yesterday from New York, Boston or New Orleans. New York missanges said 600,000 bu, of wheat was now londed ready to clear but the bears here were in the humor of saying, "We shall believe that when we see it," and they set the statement aside. Buillish news was confined to reports of crop damage. A member of an influential house was heard to express the opinion that wheat at 54c was a safe sale for 14c per bu, profit and that it would even then at 70c look as heavy as cotton was recently at 7c. It is only now that the bears are plucking up courage to announce themsetves and they no longer pat Parciridge patronizingly on the back; the latter took the decline quickly and said he did not feel like doing anything to stop it. Without any perceptible cause beyond the uneasiness of those in the crowd who had sold wheat short under 8ic, there was a sudden rally of le per bu, from the lowest price named above.

Some New York messages reported continental cables closed steadier at a slight improvement and there was a repetition of yesterday's buying orders from people in the rountry, who reported injury to the wheat from the recent freezing weather. Ream, Linn, Roche, Georze Smith, George T. Smith and many more of the best speculators on the board appeared to think that after wheat had broken below \$8i\$ it was not good policy to be found fighting for a further 14c decline, but were on the contrary found buying, and the price bergan advancing under such buying, closing at \$5c, about 15c higher than yesterday.

Corn was firm early, but

position to cover early in the session on the temporary strength in wheat, a bearish sentiment soon got the ascendancy and weakness ruled for the time. May corn opened at 185c, sold at 385c, but then broke to 385c. The market strengthened to 365c and at 12 o'clock was 385c. The market strengthened toward the close, chiefly in symbathy with wheat, May touched 33c and the close was at 385c, a shade higher than yesterday's final figures.

Orts wire quiet. May sold early at 285c, broke to 275c, reacted some, but at 2 o'clock was 285c. The market grew firmer after the noon hour and, influenced by corn and wheat, May sold to 285c at the close.

The speculative market for provisions opened steady at about the closing prices of yesterday. There were only a few trades at and near the top figures, when the market for pork broke badly, selling down to the lowest point of the season for May delivery. Live hogs were lower and to add to the weakness there was free selling by the longs and heavy hammering by the shorts. Lard and ribs were fairly steady. May pork sold early at \$10.224c, fell to \$10.124c and at 12 o'clock was \$10.124c. May hork sold from \$6.274c to \$6.224c, and May ribs from \$5.574c to \$5.50c. During the last hour the market showed a decided improvement on free covering by shorts on the provement on free covering by shorts on the decline and the firmer tone in the grain pits. May pork reached to \$0.17\forall and lard to \$0.27\forall element \$0.27\forall e cars: corn, 410 cars; oats, 183 cars: hogs,

Traders' Talk,

Traders' Talk,

Chicago, Ill., March 18.—Counselman & Day to Cockreil Brothers: May wheat opened with a tendency to raily on scarce buying, influenced by cold weather, but met fierce short seiling induced by weak cables and under liquidation, started by smail clearances, broke sharoly to 80½ cand as quickly recovered to 81c. Corn and oats each suffered ½c forther decline on general unloading by outside holders. Receivers, shippers and local shorts absorbed the offerings and prices afterwards recovered easy, closing firm at ic advance for the day, Provisions opened steady but declined with grain and further selling by commission houses. Packers were again constant buyers and local shorts covering late in the session caused a complete recovery in lard and ribs. Pork closed barely steady at 5c decline. Strong local parties are buying on overy weak spot.

Chicago, Ill., March 18.—F. G. Logan & Co. to

others were liberal buyers and torned the market. The subsequent raily was due mainly to covering by shorts. Pardidge, who stated yesterday that he was practically out of the market was a free sellor. Foreign advices are more encouraring than could be expected and considerable new export business was reported today. It is believed by the conservative element that prices have gone low enough for a substantial raily and that it is unwise to be short, at least until it is definitely known what daming the crop has sustained. Corn and coars slumped off early and have shown considerable weakness, but they railled with wheat near the close. A further raily is not improbable but there is nothing in sight to sustain it. Provisions touched the lowest price for many months, railying feebly with other products. There is no cataldedemand and professionals find the load rather heavy to carry. Better prices are warranted by the situation, but investors are slow to take hold.

STOCKS AND BONDS. Indications That Teaders Have Little Interest in Present Transactions.

NEW YORK. March 18.-The transactions in the stock market provel conclusively that interest in the speculation has been reduced to a minimum, and while there were rumors in plenty of deals and combinations, none of market out of its rut of gullness and stagnaion. There were no real features in the market at any time except the early decline and recovery in Sutar, said to be the result of ket at any time except the early decline and recovery in Sutar, said to be the result of buying orders emanating from Philadelphia, and the sidden drop of 4 per cent in Great Northern preferred from 112 to 133. The slow and almost unnoticed advance of Great Northern from below par to 142, which has been accomplished without activity in the stock at any time, at last created rumors which as deals are now the fashionable thing, took that form. The only late trading was marked by the awakening of the traders and an attack on Reading which depressed that stock about 1 per cent, carrying the rest of the list as a rule slightly below the opening prices, while Wheeling & Lake Erie was specially weak, falling 12 per cent before the decline was cheeked. The rad was accompanied by the only approach to activity seen during the day, but it soon died away, and though there was no recovery in prices the market closed duil and heavy at about the lowest prices reached. The final changes are in almost all cases small fractional losses, but Wheeling & Lake Erie is down 1% per cent. Reading 1% per cent and Northwestern, which was one of the weak stocks in the afternoon, i per cent. Government bonds have been duil and easier.

State bonds have been steady.

Financial Review. New York. March 8.—The Post says: At the opening of this mouth it was clear to the observer that a period of stock exchange duliness and lasetivity was before us. The articial movements forced upon the market have only served by the early and complete have only served by the early and complete fizzling to emphasize the truth of this general forecast. Today's market was a reflection of current conditions, and in a sense, too, of conditions prevalent not alone in Wall street, but in almost the whole industrial and financial world. Whatever the cause may be—and there are a score of theories, varying with the particular example selected—the salient fact is that in the country at large, the speculative spirit is temporarily extinct and the normal nonsneculative demand supplied; quite as completely so in dry goods and from and produce as in cotton and silver and securities. No one can doubt that this is a general result made un from many diverse factors, virtually, however, and necessarily operating in unison.

New York Money Market. NEW YORK. March 18.—MONEY ON CALL— Easy at 114@2 per cent; last loan, 2 per cent; closed offered at 2 per cent. PRIME MERICANTILE PAPER—5@31/5 per cent. STERLING EXCHANGE—Quiet, but steady at \$1.83/5 for sixty-day bills and \$1.87/5 for de-

London Stock Market.

[Copyrighted 1822 by James Gordon Bennett.]
Loxdon, March 18.—[New York Herald Cable—Special to The Ber.]—We have again to record a very quiet though not altogether featureless day in the Stock exchange. Consols are 1-16 to ½ per cent bigher. Indian rupee paper gave way ¼ per cent owing to weakness in silver, after being generally depressed. The tendency of foreign government securities is more favorable, at the close some improvement being reported on the Paris bourse and other continental bourses. Home railways will be favorably influenced by fine weather and the collapse of the coal strike, but dealings have been on a very reduced scale, so that movements in prices are unimportant except in the case of Great Northern deferred and Sheffield deferred, the former having risen 1½ per cent and the latter ½ per cent. The rise in others does not exceed ½ to ¼ per cent. Southeastern deferred are except on ally weak, the monthly working statement causing some disappointment. An absence of business have characterized the market for American railways, but the tendency has been favorable, a good tone being reported in New York. There was little business and no change in the discount rate. Three months bank baper was quoted at 1½ to 1½ per cent. Call loans for the week are 1½ per cent. [Copyrighted 1892 by James Gordon Bennett.] 15 per cent. Call loans for the week are 1%

LIVE STOCK MARKETS.

Cattle in Good Demand at Steady Prices-Hogs Active but Lower.

Hogs Active but Lower.

Hogs Active but Lower.

DOMANA. March 18—Receipts for five days foot up, 11.413 cattle, 23.161 hogs and 41 sheep, against 10,121 cattle. 11.545 hogs and 3.344 sheep the corresponding five days inst week.

The general cattle market was moderately active and practically at Thursany prices. Offerings were only moderate and appeared amply sufficient to satisfy the present demand. There was a very good demand from shippers and exporters and eastern butchers bought a few loads, and while local dressed beef buyers did not act as if they were over, y anxious for the cattle, with the limited supply and good outside demand they were unable to effect any material reduction in prices. Eastern advices, too, were rather favorable, and this had its effect on the trade. Altogether it was a fairly satisfactory market to the selling interests, although by no means as active and strong as could be wished. Dealers generally had little difficulty in coming to terms and a good and early clearance was effected. Good to choice 1.230 to 1.501 lb. beeves sold from \$1.65 to \$1.25; fair to good 1.100 to 1.30; lb. grades from \$1.40 to \$1.61, with common and light stuff around \$1.25 to \$3.35.

There were searcely a dozen loads of cows and mixed stock in the yards and the general quality of the offerin; s was rather common. Trading was moderately active and prices firm, with sales largely from \$2.00 to \$2.70; choice grades selling as high as \$3.00 and canners as low as \$1.41. Buils, oxen and stags were firm and in good demand at from \$2.00 to \$3.25 for common to choice veals.

In the stocker and feeder line a gool business was transacted at steady to strong prices. There was a fair country demand, but local

In the stocker and feeder line a goo! business was transacted at steady to strong prices. There was a fair country demand, but local speculators were the principal buyers. Fair to good stock and feeding steers sold largely at from \$2.8) to \$1.25. Representative sales: STEEKS. No. Av. Hogs-The hog market was slow and uneventy lower. Receipts were somewhat lighter than Thursday but nearly double last Friday's light run. So far this week there has been an increase in receipts of over 14,559 head compared with last week. The general quality of the offerings was very fair-better than usual of late.

Business opened slow and dull. There was a fair de nand from fresh meat men and shippers for good light and butcher weight hogs, but on account of lewer eastern markets all buyers were bearish, and in general sales ranged from nearly steady to fully 5c lower than Thursday's general market. Good light and butcher weight hogs sold from \$4.45 to \$4.55, but nearly everything selling above \$4.51 was more or less sorted. Heavy and mixed packers sold from \$4.40 to \$4.5, with odds and ends, throwouts at \$4.00 to \$4.5, with odds and ends, throwouts at \$4.00 to \$4.5. Nearly everything changed hands, aithough the market dragged along through the greater part of the day. Sales were largely at from \$4.40 to \$4.50 against \$4.41 to \$4.55 Thursday, the general average of prices paid being \$4.44 against \$4.45 thursday and \$4.72 last Friday. Representative sales:

Chicago Live Stock Market

Chicago Live Stock Market
CHICAGO, Ill. March 18.—[Special Telegram
to The Her.]—With the fresh receipts
scarcely reaching 8,000 head and the total for
the week showing a decrease of nearly 10,000
head there was increased firmness in the cattic marset. All classes of buyers bought
with more or less freedom, and although the
demand lacked the business necessary
to boost prices to any important extent,
there was a perceptible strengthening of
values all around. The offernes did not include any strictly prime 1,000 to 1,700-ib, cattle
and it is impossible to say just how much
something in that class would have brought,
but they may safely be quoted at from \$5.00 to
55,75. Good to choice 250 to 1,600-4b, steers were
salable at from \$4.25 to \$1,75, and common to
good droves, averaging from 1,000 to 1,250 ibs. sainbie at from \$4.25 to \$4.75, and common to good droves, averaging from 1.00 to 1.29 lbs., found ready buyers at from \$4.05 to \$4.05. Cows were in good demand at from \$4.25 to \$4.55, and buils at from \$4.55 to \$4.75.

There was continued weakn as in hogs. Trade was dull at the opening of business, and was not less so later in the day, at from \$4.25 to \$4.75 for medium and heavy. As high as \$4.90 was paid for a few fancy light, and at from \$4.25 to \$4.75 for medium and heavy. As high as \$4.90 was paid for a few fancy light, and a load or two of heavy weights fetched \$4.80. These quotations indicate a decline from yesterday's opening price of about 12c per 100 lbs. Only a small part of the supply sold above \$4.80. In fact, there were no sales of heavy and medium weights at a higher figure. The prevailing prices were from \$4.70 to \$4.80 for light, and at from \$4.5) to \$4.70 for medium and heavy.

The sheep market was active all the week and in spite of the very full receipts prices have remained at from \$4.0 to \$4.30 for culis. Sales ran up to from \$4.2 to \$4.35. Few of the offerings sold below \$5.25, nor were there many trades above \$5.35. Lambs have also remained firm. Today's market was active and strong. It was a triffe higher for good to choice grades.

It was a trifle higher for good to choice grades.
Receip's were: Cattle, 8,600; hogs, 27,000; shoen, 7,000.
The Evening Journal reports: CATTLE—Receipts, 8,000; shipments, 4,000; market steady; good to choice, \$1,8562,169; others, \$1,2562, 3.89; stockers, \$1,0062,3,15; Texans, \$1,2562,360; cows, \$1,8562,15.
