Bubject of Competition in the Awarding of Decoration Contracts Considered-Views of Members on the Matter-Important Measures Passed,

The city council declared itself last night and decided to learn just what rights the city has in the lands along the river front, north of Izard street, that have been taken possession of by the railroad companies.

The action was taken when Mr. Munro in troduced the following resolution, which was adopted :

Wherens, In a suit between the state of Ne-braska and the state of Iowa, pending in the supreme court of the United States, to deter-mine the boundary of the two states in front which is of the value of several thousand

Trouble Over the City Hall.

There was a spirited discussion over the matter of making the proposed changes in finishing the rotunda of the city ball. The committee on public buildings and property reported that the bid of John F. Coots, \$17,217, was the lowest. Mr. Elsasser declared that the council had

made a mistake, that there had been no com-petition. He said that the council had made many mistakes in the work of erecting the building! Extras had been allowed from time to time.

President Davis took issue with Mr. Elsasser. The council had not made mistakes, and he would not allow Mr. Elsasser to say so. Mr. Elsasser said that the Eichteenth

street entrance had been changed; the stone in the building had been changed and that stone for cornice had been substituted in the place of galvanized iron.

Right at this point the council decided to hold another meeting this week, and Friday night was the date fixed. Mr. Edwards offered a resolution instruct. Mr. Edwards offered a resolution instruc-ing the committee on public property and buildings to insure the city hall for 50 per cent of its value. Mr. Tuttle said the build-ing could be insured at the rate of \$1.50 per \$1,000 for the term of five years. The resolution was referred. By resolution the city attorney was instructed to look up the condition of the suit now pending between the city and the water works company. [PROM YESTERDAY'S SECOND EDITION.] SEVEN ALDERMEN INDICTED

True Bills Returned Against Chicago Boodlers by the Grand Jury.

COUNCILMAN ROTH EXPOSES THE BRIBERS

What a Vote Was Worth-Evidence of a **Positive Kind Accumulating Against** the Accused-Names of the Guilty Parties Made Public,

Cancago, Ill., March 21.-The great state of Illinois may soon have a few more "star boarders." After three days of investigation into the boodle methods of the city council the grand jury this afternoon found true bills against seven aldermen. This indictment charges conspiracy to commit bribery. The roll of dishonor is as follows: W. J. O'Brien, Daniel R. O'Brien, Nicholas A. Cramer, T. J. Gorman, Phillip Jackson, S. M. Goslin, John F. Gorman. Two more in-dictments were found, but not returned against the first named W. J. O'Brien. 'They charge bribery and state that O'Brien gave Alderman Roth \$1,000 to vote for the North-

ern Pacific ordinance and \$750 to vote for Economic Gas ordinance. There is a Woman in the Case.

: The names of the witnesses signed to the Indictment pesides City Clerk VanCleave, Aldermon Kunz, Chasey, Roth, Vierling and Smith and Secretary Zimmerman of the Pecple's Gass company are John Williams and Hannah Larkin. The fact that there is a woman in the case has heretofore been kept quiet, but it will prove an important factor for the prosecution. In regard to her ap-pearance State's Attorney Longeneckorsavs: "There are certain houses of ill-repute which certain aldermen visited while much the

worse for liquor, and they talked too freely while there for their own good." Asked if more indictments might be expected the state's attorney replid: "You may look for about one a day from this time

until the whole batch is indicted." As soon as the indictments were out Judge Anthony of the criminal court fixed ball at \$10,000 each. Caplases were at once issued and placed in the hands of a deputy sheriff. Rumors, however, flew faster than the off

cers and most of the capiases were served in the criminal court building, the indicted alderman having come in of their own accord. By 6 o'clock all except Alderman Gorman and Gostin had furnished bail, and these two, although not yet found by the officers, are understood to have their bonds in course of preparation. Alderman Roth Explains,

Alderman Roth this evening makes public,

for the first time, the part he has taken in the boodle transactions of the city coun-cit. This statement, after reciting the manner of his selection to be a mem-ber of the council, says: "I had not been long in the council until I found ordinances were not always passed on their merits, nor even upon friendship existing among aldermen, but in some cases settled down to a dispensation of money. At the time of the passage of the Economic Gas ordinance over the mayor's veto it was found by the boodle members of the council would be necessary to bring into line some alderman not in line line some alderman not in line on the original vote on the ordinance. I suppose, that thinking my voting for it would be worth more in satisfying the pub-lic the ordinance was not wholly bad, than the vote of some members whose reputations were less satisfactory than mine, led them to prefer me to others who might have been

bought. I was spoken to by one of the O'Briens, who said that I could receive a consideration for my vote. Knowing the Daily News and other newspapers had taken a vigorous public stand against boodling in the council, and that they would be friendly to any exposure of the council's methods, and with the view of bringing the corruptionists to justice, I called on the Daily News. The matter was carefully talked over by various persons interested in public affairs and arrangements were made for re-ceiving the money promised in such a way that witnesses could testify to the visit of

the man who paid the money.

The fact that he had aiways treated the district judge with the utmost professional kindness, courtesy and decorum was no reason why he should have supported the judge's unfounded precensions to promotion or failed to denounce his official malfeasance if opportualty offered therefor. As to that part of the srticle relating to the Cov case, be (Mr. Turple) did have a casual conversation with Judge Woods, being at his chamber on other subjects. He had not congratu-lated Judge Woods on "his" ruling or construction in that case. He had not congratulated him on 'our' construction of the statute which had been upheld by the supreme court of the United States. He (Mr. Turpte) had made the first construction of the statute in the Coy case in his arguments and his construction Judge Woods had followed. The judge had even borrowed his (Mr. Turpio's) language and made it part of his opinion. After that opinion had been confirmed by the supreme court Judge Woods had abandoned this construction for

Frog Eaters Like Omaha.

TOLEDO, O., March 21.- |Special Telegram to THE BEE. |- The base ball schedule of the Western league suits Toledo, but there would have been greater joy had Omaha been booked for either Decoration day or Labor day. Toledo has a sort of awe of Nebraska's metropolis, anticipating that the untiring energy which is credited to that city will pervale its ball team and make them formidable opponents for the rest of the clubs. If Omaha reciprocates Toledo's feeling there will be 20,600 people at the Fourth of July games in that city. Toiedo is not overjoyed at the team she drew from the bat in Chicago. But few of the players were ever heard of here before,

and there is no indication whether the Frog Eaters will be champions or tail-enders. The Toledo club will wear gray and black uniforms when abroad and clear black when at home. The plans have been completed for a new ball park here, to be called the Olympic. There will be seating for 6,000 persons and two lines of electric cars.

Of Interest To Dyspeptics.

1 went to Excelsior Springs, Mo., in March, 1883, suffering with a chronic case of dyspepsin. I had been treated by some of the best physicians in the country (at Kausas City, Cincinnati and Balimore), but without relief. I was very much dis-coaraged but was induced to try the Ex-celsior Springs Waters. I experienced almost immediate relief after commencing their use, and geneed in the first thirty days 25 pounds in weight, and from that time to

their use, and gained in the first thirty days 23 pounds in weight, and from that time to the present, a period of over eight years. I have had no more trouble from dyspepsia. My weight when I went to Excelsor Springs was 110 pounds. I now weigh about 130 pounds. I fully believe these waters properly used will care any case of dyspepsia. This is perhaps a sweeping statement, but they cared me and I know of scores of others who have been permanently cired of the same complaint by the nee of these waters. (Signed) W.E. FowLER. The Netraska Telephone company, through its manager, Vance Lowe, asked permission to locate telephone poles along the line of everal of the streets. The communication was referred.

Contractor Cools stated that with the excaption of the council chamber all of the rooms in the new city hall were ready to receive the furniture. Acting upon this report Comptroller Oisen was instructed to notify the Ketcham Furniture company that the furniture would be expected and put in place within thirty days. Superintendent Tilly named R. D. Duncan

They further stated that the bids had been referred to the council and that they had been returned without definite action

President Davis said that the Turner tract at Thirty-first and Farnam streets had been offered at the rate of about \$1,500 per lot.

Decided to Investigate.

The council decided to take a trip Thurs-day morning and view some of the proposed park lands.

Mr. Conway wanted to know how Mr. Conway wanted to had street car members would go. They had street car passes and could ride on the cars. Mr. Elpasses and could ride on the cars. Mr. Fi-snsser suggested that official carriages would convey the members to the places to be examined. Mr. Specht insisted that by waiting a few days the citizens in his portion of the city would be on hand with a proposi

on to sell lands for parks. Hugh G. Clark notified the council that he would provide carriages to take the members out to view some land near Vernon Heights. The park commissioners will be invited to ride with the council.

A communication from the Ketcham Fur-niture company furnished the information that the furniture for the city hall would be nanufactured and ready for shipment som time aest month.

John Grant proposed to iny a slagolithic walk around ; the city hall for 30 cents per

The bill about raising the marriageble age for women in Sweden from 15 to 16 will in all probability soon become a law, having al-ready been passed by the first chamber.

Paid Him for His Vote, "Seven hundred and fifty dollars were paid me in my office, which money I immediately showed to my bookkceper, explaining who had paid it and why it was paid, on the Wednesday after the passage over the mayor's veto of the economic gas ordinance This money, within five minutes after re ceiving it. I took over to the Daily News of fice, and, in the presence of witnesses, de pozited it in a safe in a sealed envelope

earing the date and statement as to what i referred to. "About two weeks after that the ordinance of the Northern Pacific passed the council the second time. A certain alderman from a south side ward informed me about noon on July 28, the day after the ordinance had passed, that Billy O'Brien had money and that he was to meet O'Brien at the Sherman house at 2 o'clock. I at once com-

municated the facts to the Daily News office, and I understood they the Sherman house watched discovered the statement which had and bad been made to me was correct, and that the aldermen met at the place appointed. Very soon after 2 o'clock Billy O'Brien met me in the city clerk's office and conducted me inte the washroom, where he handed me an en velope, with the word "Roth" written on the outside of it. The envelope was scaled. I went over to Baker, the attorney for the Tribune, and telephoned for representatives of other papers. Handed Him \$1,000.

"The envelope was opened in the presence of all these witnesses and was found to con-tain two five hundred dollar bills. The witnesses took the numbers of the bills and they were then carefully sealed up in the envel ope and the signatures of those presen placed on the outside of the envelop This was then, I understand, taken to the Daily News office and placed with the other money

Afterwards, 1 am told, that various papers hired detectives watch various members of the council, and in this manner secured much corroborative evidence. But with this I had nothing to do. I myself took no money at any time for any other purpose than bringing to light the corrupt methods provailing in the city council, and have profited in no wny hereby other than in the feeling of satisfac

tion that follows a duty performed." Although Alderman Roth was before the grand jury for two hours, he did not tell all he knew and will be again called upon.

Among the witnesses before the grand ury today were President Hosmer of the Jefferson and Suburban Transit company, Secretary Zummerman of the People's Gas Light and Coke company, President Knapp of Equitable Gas company, C. F. Bryant of the Consumers Gas company, and Attorney Darrow of the Jefferson and Suburban.

CARES OF THE CABINET.

alisbury's Note Unsatisfactory - Govern ment Firm in Bering Sea Affair.

WASBINGTON, D. C., March 22 .- The entire session of the cabinet today was consumed in a consideration of the Bering sea question. Lord Salisbury's reply to Mr. Wharton'

note of the Sth inst., refusing a renewal of the modus vivendi for the present season. was read and formed the basis of the discussion. The utmost reticence is maintained by members of the cabinet as to the contents of Lord Salisbury's note, yet there is reason to believe that it is unsatisfactory to this government. The position announced in Mr. Wharton's note of the Sth inst. is not, in the opinion of the president and his cabinet, successfully controverted. Lord Satisbury' reply as to the main point is said to be inde Lord Salisbury cisive and although he contends against the re..ewal, he does not commit himself so far as to decline to give his assent to is also reason to believe that Thera Salisbury suggests as a condition Lord precedent to any modus vivendi that might be established between the two governments, that the United States should obligate itself to indemnity Canadian vessel owners for any 1038es sustai them in the event that it is decided th ommissioners of arbitration that the United States has no right to prevent pelagic seal

ing. It is said that a reply is now being pre pared in which the government will in no sense recede from its former position, but on the contrary will stand tirmly by it. Lord Salisbury's note was received by cable and was not of great length. It is possible that the silver question may

detain for a short time the subcommittee of the house which intends to visit Chicago and investigate World's fair expenditures. Un less fillbustering tactics are resorted to on the silver question the subcommittee will leave here Friday on the limited express for Chicago, but Chairman Dockery of the sub-committee feels that if flibustering be indulged in it will be necessary for him to w main in Washington and vote until the mat ter is settled.

Fire in the House,

WASHINGTON, D. STRIKERS TROUBLESOME.

JACQUES ST. CERE.

WINNIPEG, Man., March 21.-The Canadian Pacific strike has assumed a most serious aspect today. The conductors and trainmen on the Pacific division from Doland to Van couver, were called out on the strike Sunday and today Dispatcher Williams at Rat Portage Lake reports serious trouble at that point.

General Superintendent Whyte received the following message from Mr. McKenzie, who is at present in charge of the affairs o the company at Portage:

"Must have some protection here at once Prince and Barnes trains were cut between here and Keewater. I had to send a full fores of men and stockmen on every car of Roberg's train and self and Stewart went to Keewater. I got in without being cut. Prince's extra east from Rennie was cut this side of the tunnel in about thirteen pieces. Some drawhead were stove in, new trainmen shot at and the head brakeman had a rock thrown at him. The conductors or brakemen would not come out of the caboose. It took myself and Red from about 12 to 2 o'clock to get the train in I ran in with seven cars and went back for The balance of the train, but ran out of links and pins so made a second trip with five cars. When approaching the cast switch I found that one of the former cars brought in had been cut off and shoved on the main line switch, breaking the same and blocking the main line. This work is getting serious and must be stopped. Prince's brakeman refused to go out of the

engine cab as stones were thrown at him, and while he was putting on brakes on the cars he had been cut. Several stones were brown at myself when turning the switches The section to let the engine in and out. man reported that while repairing the east switch some of the men came alor g and broke his lamp. I will not give men time cnecks until we are sure of protection. One con luctor claims that several shots were fired

at him. Upon receipt of the above message General Superintendent Whyte waited upon the licu-tenant governor and laid the facts before him, sking that a sufficient force of militia be sent to prevent any further acts of violen and to protect employes and property of the It would soom that the force of special policemen sworn in by the company a not adequate to ensure the maintenance of aw and order and that a disciplined force is necessary.

General Superintendent Whyte has also called on Colonel Villars, adjutant general of called on Colonel vinars, adjutant general of this district, but the latter explained that Rat Portage is outside his district and, consequently, he could take no action until he received instructions to move from the militia department at Ottawa Should orders be received Colonel Villars has everything prepared to send a force to Rat Portage or any other point.

Mr. Whyte says all steps will be taken to procure the desired protection to the com s property. A contingent Northwest mounted police a at Brandon from the of arrived ter ritorial barracks at Regina and are quartered in the vicinity of the Canadian Pacific rail-way property. The police were brought at the request of the company for the protection

of its property. A dispatch from Vancouver, the headquar ters of the Pacific division, says all trainmen, yardmen and switchmen went out at midnight Sunday. The same is reported from the moundivision. New men were put on hes. No disturbance of any kind has tain witches. occurred there yet. The engineers and fire-men are at their posts. It is believed that the latter are considering appeals of the strikers to join the strike.
