First Meeting of the New Council Attracts Much Attention.

THERE WAS NO FIGHT FOR SMITH'S CHAIR

At the Last Moment Lobhart and His Friends Concluded Not to Make a Demand for the Position-Reports of the Officers,

The council meeting last evening was attended by an audience that filled every inch of available room in the council chamber and extended half way down the stairway outside. No one grumbled because a seat in the parquet or dress circle had not been reserved for him, but everyone appeared to be satisfied if he could find floor room enough to put one foot upon. It was the opening meeting of the new council, and that fact meeting of the new council, and that use alone would have been sufficient to crowd the room. But when the added at-traction of a "scrap" between the two men who claim to be aldermen from the l'ifth ward was promised the cagerness to get in became something tre-mendous. It had been expected that Lobmake a formal demand that Smith's chair be turned over to him, and such indeed had been their plan until within twenty-four hours before, but those who looked for anything of this kind were doomed to disap-pointment, as no move of the kind was made

preven hinted at, although Lobhart, his attorneys and friends were there en masse. At 8 o'clock the meeting was called to order by ex-Mayor Macrae, who proceeded at ouce to the reading of his parting address as tol-

The report of the city solicitor is short, but the gist of it is as follows: Judgments against the city when the solicitor assumed the duties of the office, \$59,062,75; money in In the treasury and judgments paid during my term of office, \$59,062.75; thus making the judiciary department virtually out of debt Judiciary department virtually out of debt. The report of the city physician shows that the death rate is only 9 in 1,000, mak-ing us one of the healthiest, if not the healthiest city in the United States. Heretofore croup, diphtheria and like con-tagious diseases have been responsible for the majority of deaths here, but careful quar-antine and strict injunctions to parties iu-

volved have reduced the mortality to the present low standard. The report of the chief of police presents will be right, for this is the BOSTON STORE,

for consideration certain points which he makes in connection therewith. They in-clude the following: First, The large de-crease of arrosts during his term of office. Second, The increase of receipts for city crime, and the large increase of days' work done by prisoners on the streets. The report of the city engineer shows an

The work action in completing the severage system of the city. The sewers of the city have been thoroughly cleaned and purified, Indian creck has been deepened and straightened to the city limits and an outlet has been con-structed to the Missouri river outside of the site limits. The undertaking cost a large city limits. This undertaking cost a large sum of money, but the results in increased healthfulness and the purity of homes and surroundings will repay the cost which has been entirely liquidated.

The finances of the city are in a sound condition as will be seen by a perusal of the reports of the city cierk, auditor and treas-The receipts for city crime have been extraordinarily large, a sum approximating \$80,000 being received within the last two years for fines, licenses, etc., of which amount the taxpayer has had to pay no portion.

The bonded indebtedness has been reduced within the last two years \$52,000 over and above the amounts expended for severare, bricks, paving, deepening Indian crock, grading, etc.

The mayor continuing, said : "I am sorry to remind you that Fairmount park is still in litigation. It seems to me that in order to estop the large drain of money required to keep these suits in court that a compromise should be effected between the park commissioners, the city council and the parties in suit, which would forever settle the title to our beautiful park and stop the constant demand for means to carry on these suits. "In conclusion, gentlemen, allow me to thank you for the uniform courtesy you have extended to me, and in taking leave of you I can honestly say that I have nothing but pleasant remembrances of my intercourse with you during my term of office as mayor of the city of Council Bluffs." Mayor Lawrence then took the chair and the regular business was proceeded with without any further formalities. The follow-ing committees were announced for the comvear:

MOTOR COMPANY IS LIABLE.

Must Decide Under Which Charter It Has Existence. Judge McGee handen down an important decision yesterday in the superior court with reference to the Omaha and Council Bluffs Bridge company and the paving between its tracks, which has already caused so much litigation. Three suits were de-cided, one of which was that brought by J. C. Bixby to enjoin the company from run-ning its trains over South First street. In all the itigation over the question who shall pay for the paving between the tracks the company has claimed to be operating under the charter granted to the Council Bluffs Street Railway company in 1898, in which there was no stipulation as to paving between the tracks. At the same time it claimed to have all the privileges granted by the new

charter of 1886. The suit was brought for the purpose of compelling the company to decide under which charter it is really running. Judge McGee in his decision held that if,

as was claimed by the defendants, the charter of 1868 was the one in force, the company had no right to run on First street, and an application for an injunction would be granted. He was inclined to favor it so far le, however, and accordingi until Wodnesday for it to come in and amend its picedings and admit that it was running under the 1836 charter. The writ of injunc-tion is, therefore, withheld until that time, when, if the amendment is made, the injunc-tion will probably be refused. The property owners will get what they are after, how-ever, as the company will have to stop run-ning on First street or else agree to run-ning on First street or else agree to rununtil Wodnesday for it to come in and amend under the 1886 charter, which compels them to pave between the tracks. The case will probably be appealed to the supreme court. however, as there have been a number of conflicting opinions rendered in the various states on the points raised. The cases of Crossland against the bridge com-pany and Everett against the bridge comany were also decided, the court holding that the company was liable for the cost of the paving between the tracks, the value of the paying at the time the tracks were laid being the measure of damages to be paid to the property owners. The case was left open so as to allow the question of the value of the paving to be decided. This will be done in the course of a very few days.

Sr. Louis, Mo., March 21,-As the result of the explosion of a boiler at the works of the Lacleda Fire-Brick Manufacturing company, Manchester road, near Sublette avenuc, Cheltonham, a St. Louis suburb, at 2:45 o'clock this afternooa, four men are lying dead and two are fatally injured. The dead are:

LARRY HUSSEY, married, crushed to death REYNOLD DIEDRICK, married, thrown 100 feet in the air. JOSEPH BECKLEY single, thrown 100 feet n the am JOHN DUBUCHY, married, thrown 100 feet

in the air. The fatally wounded are:

FRANK ZEGER, fotally scalded. MORGAN INMAN, fatally injured about the head.

The boller exploding was one of a battery of six, which it is supposed ran out of water and was suddenly supplied with cold water and the explosion followed. The boiler house and contents were completely wrecked.

Beckley, Dubuchy and Diedrick were at work on the boiler house roof, putting up a whistle at the time of the explosion. Beckley and Dubuchy were blown high in the air, while Diedrick's body was found on the third floor of the clay mixing building, having falling from so great a height as to break a hole in the roof, passing through to the floor below. It is to be hoped the weather will be pleasanter this week so that the crowds outside can better enjoy the spectacle of an artist painting a large handsome landscape in oil with lightning rapidity, completing a picture often in ten minutes time. Many of these pictures are very fine, and would not be out of place in any drawing room. As fast as they are painted and dried they are given away to the cus-tomers of the store with every \$5 purchase. All these pictures are framed on the place at about one-half the cost commonly paid for the various styles of frames, ranging in price from 65c to \$1.75. This is much less than the frames can be bought for elsewhere. We trust that each of our patrons will get one of these pictures. Started Early as a Tramp. A little fellow about 6 years of age was found wandering about the streets last even ing and taken to the office of Marshal Tem-pleton with a view to finding out where he belonged. When he arrived at the station an examination was made and a brass placard was found securely fastened about his waist by a chain and padlock, bearing the follow-ing inscription: "This boy has a mania for running away. His name is Harry Taddicken and he lives at 320 South Ninth street, St. Joseph, Mo." He said that he had run away from home about three times, he thought, but this was the first time he had done so since his people moved to Chi-cago two weeks ago. This time he succeeded in beating his way in some manaer from Chicago to this city, and, although he had no complaint to make as to the way he had ing and taken to the office of Marshal Temcomplaint to make as to the way he had been treated at home, he said he was not at all auxious to get back. COUNCIL BLUFFS, Ja., March 21 .- To the

DAY BEE referring to my withdrawing a pe tition for paving Pierce street, etc., leads the public to believe that the incoming council was not capable of ordering a street paved unless I was in it. I would like to say a few words in explanation. My opinion is that the city council will attend to the business of the city just the same as if I wasn't in existence. Now as to the petition; we have two-thirds of the abutting property owners sign-ing in favor of paving Pierce street, and the only reason that the council has for not or-dering it paved is a little triangular piece of ground 550 feet iong. The selling price of this probably, at the present time, wouldn't more than pay half of the abutting paving. I wish to state that this strip of paving is a fraction over eight blocks. In that eight blocks there is at the present time but one-half intersection. By this you can plainly see that the city cannot pave the street for less money than it can at the present time. Now as to the petition; we have two ence. My object in taking out the petition was to circulate it through the city and get the en-dorsement of large taxpayers who are interested in the city and its public thorough-fares that lead to it, and who know that that part of Pierce street is one of the that part of Pierce street is one of the beaviest thoroughfares leading into the city. The city in general would receive more ben-efit than from any other strip of paving in the city. It is my belief that had 1 sub-mitted to the Seventh ward political scheme the street would have been ordered paved. The same council that refused to pave Pierce street ordered Frank streat paved no into

The same council that refused to have Pierce street ordered Frank street paved up into Morning Side, and that street included 900 feet of parking, for which the city will have to pay.
