FAVORS FOR UTAH MORMONS

Violators of the Edmunds Measure Will Be Granted Amnesty.

HOW THE PRESIDENT REGARDS THE CASE

He Belleves Polygamy Has Been Permanently Abandoned by the Church-Some Doubt as to the Scope of the Proposed Move.

> WASHINGTON BUREAU OF THE BER. 513 FOURTEENTH STREET, WASHINGTON, D. C., March 22.

President Harrison has at last definitely made up his mind to grant amnosty to Utah's violators of the Edmunds anti-polygamy act, in accordance with the petition of President Woodruff and the Morman church. As noted in THE BEE specials, the president from the outset expressed a desire to grant the prayer of the petitioners but he hesitated to act until he had fully satisfied himself that the general pardoning power under the constitution empowered him to remove the political disabilities of a class. The thorough investigation of the law bearing upon the question made by the then solicitor general and now Judge W. H. Taft, has satisfied both Attorney General Miller and the president of his full warrant for such action. President Harrison is now undetermined as to whether he will grant a general amnesty to all parties convicted of violation of the act of 1882, including those convicted of polygamy, unlaw-ful cohabitation and other kindred idiosyn-cracies, or whether he will confine it to mem-bers of the Mormon church convicted of

polygamy.

He has had several interviews with Senator Paddock upon this question and today sent for Senator Duboise to converse with him regarding the matter. Senator Paddock was at the white house at the same time. Not Positive About the Matter.

The president expressed a doubt whether a general pardon to those convicted of un-lawful cohabitation and kindred offenses, which would include a number of gentiles, might not be considered as an undue laxity on his part toward sexual immorality. expressed perfect willingness to pardon polygamists who were connected with the church, offering as his ground the petition of the church authorities and their statement that the teachings of the church had led these parties to such action, Both Senators Paddock and Duboise strongly urged upon the president to make the am nesty a general one, but left him without being able to ascertain exactly the limits to which the presidential pardoning power would be extended. One impression, how ever, of the visitors to the white house who have talked with President Harrison upon the Utah question have obtained is, that the president is not thoroughly satisfied that the professions which the church is now making are genuine, and that the people have be come in reality, and not in name alone

Nothing is more certain than that President Harrison, should either of the bills for statehood or provisional statehood now be fore congress become a law, would yoto it, He is willing, so he says, to go to the fullest extent to go to the fullest extent consistent with safety to the gentiles who have made their way in Utah against the obstruction of the church, in affording an op-portunity for the Mormon people to show that conditions have actually changed and that their obligations to the government are paramount to that of the church. But he is not willing, upon the simple statement of the leaders of the church and a few office seek ers from the republican and democratic par-ties, to turn over Utah to a two-thirds major-

ity which has, until a few years ago, beer openly defying the government, Preserving Yellowstone Park,

By the very decided vote of 7 to 3 the house committee on public lands have decided against the proposition to segregate a portion of the Yellowstone National Park, situated in the northeastern portion of the park in which is located Cook City, to the park in which is located Cook City, to the public domain so that railroads may enter it unrestricted. It is stated that all of the four absent members of the committee also oppose the segregation proposition. The committee upon a bill gran Cook City, a distance of probably ten miles. for a railroad to be operated in the interest of mining property. The idea of the sogre gation scheme was to evade the gation scheme was to evade the pop-ular demand for a railroad to Cook City on the ground that if one railroad was admitted others would demand admittance It is said the Northern Pacific railroad is be-hind the scheme of segregation, but the ouse will likely pass the bill the public lands committee has agreed upon, and if Northern Pacific influence does not have its way it will be adopted in the senate.

Miscellaneous A favorable report has been made by the house committee on claims upon Representa-tive Bowman's bill authorizing the secretary of the treasury to pay to the city of Council Bluffs \$2,165, cost of constructing pavements and building sewers in front of the United States court house and postoffice building, constructed under the laws of the state of Constructed under the laws of the state of Iowa and paid for by the city of Council Bluffs, the amount being one-half of the ex-pense of paving and building sewers on Broadway and Sixth street and the alley ad-joining in the rear of the property owned by the United States. PACKERS WANT THEIR RIGHTS

Representatives of Big Western Plants Holding a Meeting in South Omaha.

WILL ORGANIZE FOR MUTUAL BENEFIT

Railroads and Insurance Companies to Have an United Interest to Deal with Hereafter-Men who are

in the Plan.

An important meeting of the western packers was held at the office of Manager Babcock of the Union stock yards yesterday afternoon. The object of the meeting was to perfect a scheme that has been in contemplation for some time. That is the amalgamation of the western packing interests by the formation of a permanent association of

western packers

The object of the association is for mutual protection and to secure a unity of action in matters relating to freight rates, insurance, etc. The packers have been more or less handlcapped heretofore in their dealings with railroad and insurance companies by the fact that they were not in a position to act as a unit in making their demands. It is believed that with a permanent organization embracing the entire packing interests of the Missouri valley, much can be accomplished that has been impossible heretofore The prime movers in the movement are H P. Chessley and James V. Mahoney of the Sloux City stock yards and it is thought that Sioux City will be a little more benefited than any one else by the arrangement,

The meeting was organized with John S. Knox of the Cudahy Packing company as chairman and U. S. Epperson of Kansas City secretary. The proceedings were in the nature of an informal consultation and about the only business transacted was the appointment of an executive committee to perfect the organization and report at a future meeting. The committee consists of John S. Knox of Omaha, James V. Mahonoy of Sioux City and A. J. Van Landingham, who, as freight commissioner, represents the entire business interests of Kansas City.

The association will be known as the Western or Missouri River Packers association, and another meeting will be called by the cointment of an executive committee to per

and another meeting will be called by the president, which will probably be held at Sioux City or Kansas City.
It is understood that the first matter to be

considered by the new organization will be the readjustment of freight rates between Missouri river points and Chicago. I'wo years ago the rates on live stock between these points was greater than those on the dressed beef and hog products for the same distance. A subsequent de cision by the Interstate Commerce commis ion equalized these rates. The packers sert that this is an unfair decision, and their first effort will be to have the rates restored to the former basis. The meeting was an al-most complete representation of western packing interests as represented by the fol owing list of delegates:

Sloux City—A. S. Garrettson of the Stock Yards company; H. P. Chesley, manager of the stock yards; E. Hawkinson of Hawkinson & Co.; A. Heller of Heller & Sons; G. W. Maxfield of the Sioux City Dressed Beef and Canning company, and James V dahoney. St. Joe-Henry Krug of the Krug Packing

company, and John Donavan, jr., of the Stock Yards company. Kansas City-John H. McEwaa of the Kansas City—John H. McEwan of the Kingan Packing company; A. J. Van Londingham, representing the stock yards and the Armour Packing company, and George Fowler of Fowler, Son & Co. and U. S. Epperson. Harry West of the Des Moines & Liverpool Packing company of Des Moines and Mr. Raymond of Raymond Bros., Lincoln, were also present.

Deisartean Entertainment Given by the Presbyterian Young Ladies. The young ladies of the Young People's ociety of Christian Endeavor of the Presbyterian church gave a Delsartian entertain ment last evening and were favored with an audience that filled every seat in the church The entertainment was of exceptional merit and the applause that they received from the usually undemonstrative South Omaha audience was decidedly fisttering.

The rehearsals had been in charge of Misses Myrtle Ketchum and Evelyn Alleu of the Omaha Conservatory of Music, to whom much of the credit for the success of the entertainment was due. The Delsartean features of the program consisted of a series of living tableaux, representing the entire gamut of human emotions. These were par ticipated in by fifteen of the leading young society ladies of South Omaha, who per formed their parts to perfection. They were attired in flowing draperies of the Greek pattern, which produced strikingly artistic effect as posed in imitation of the various

The elecutionary part of the program was sustained by Misses Ketchum and Allen, who delighted the audience with their versatility of talent, and that the audience ppreciated their efforts was evident from the well merited applause that greeted the close of each selection. "Prince," "Parental Discipline" and "Aunt Peggy and High Art," were the selections cuosen by Miss Ketchum, and Miss Allen recited "The Bartender's Story," "Heard in a Street Car" and "The Fight of Emily," from David

Copperfield. The difficult parts of the latter selection were given with a dramatic effect which evinced a natural genius for the art. 3oth young ladies were obliged to respond to repeated encores.

The musical selections were equally well rendered and enjoyable. Mrs. W. R. Sage sang "Ob, Restless Sea" in her usual pleasing manner, and in response to an encore gave "Annie Laurie." W. F. Wood contributed a bass solo and Miss Anna Wood contributed a bass sol

This attracted the attention of passers by and the neighbors and a policeman was hastily summoned. Before the officer arrived Troutman had shut himself in a room and refused to open the door. This didn't stop the peace preserver, however, and an entrance to the room was soon effected.

Troutman was placed under arrest and sent to the jail, where he was charged with shooting with intent to kill. It was stated by the neighbors that the drunken husband had cruelly abused and peaten his wife the night before besides at-

tempting to kill her. SUBLIMITY OF TRUST.

Faith and Its Power Expounded by Rev W. R. Mackay.

"The Power of Faith" was the subject of Rev. W. R. Mackay's discourse last night at All Saint's church. It was the third sermon of a series of eight that the Pittsburg clergy man is at present delivering.

He said the power of faith was the per sonal touch of it-like the touch of electricity. For His work on the human world God was thanked in this enlightened age He had worked long centuries upon generation after generation, and his work had now been almost infinite, for men could now un-derstand the simplicity of the gospel. Year after year God had trained the mind of men and had given them more brains, more thought, more sense, and now they could un-derstand Him because man had faith in Christ. It was a power given them that gave hem such faith.

The world now was one grand, magnificent universe. It was not so years ago. People had not the understanding. Faith was something different than to believe in doctrines and theories. In faith you were never con-fused. There were no doubts in it. You were confident in faith. If you had doubts in that thing or the other thing you had no

confidence in them.

Men that built the world had faith in it.

They had no doubts about it. They believed that they could build a world, and a world they did build, because they had faith. To the faith of the Puritans Mr. Mackay laid everything that was good, They believed in liberty and freedom when they left friends, homes and fortunes across the sea to come and discover America-for it was the Puritans, instead of Columbus, he said, who discovered this country when they landed in the Mayflower. They had faith in what they be-lieved was right and by having faith they

established this great republic.
Faith held the bisiness and commercial world together, he argued. If men had no faith in each other, no faith in honesty, no faith in what was right, no faith in the government, the world-business and otherwise would be crushed; the power would be gone. Christ did not appeal to anything that was visionary. He appealed to the man for just what the man was. This was a plain trust that people now understood, for Christ was the one great question that never died. The question was discussed in every day life and everywhere. The various Christian churches were letting down their bars, opening their doors and throwing aside their doctrines to preach Christ. They had stopped preaching and decrying some other denomination. People were more enlight ened and were understanding Christ by the Tonight Mr. Mackay's theme will be "The

Need of Conversion. IN THE RIGHT LINE.

Efforts of Republicans to Purify Primary Elections Heartly Endorsed. Speaking of the rules adopted by the republicans for the government of primary elections, Charles J. Green said: "I am in favor of hedging the caucuses and primary elections about with extra safeguards to prevent the packing of caucuses and the stealing of sary safeguards for our election pro ceedings, but we have not taken steps to lift the primaries out of the hands of the ward heelers and the pro fessional delegates. I know of wards in the city of Omaha where practically the same delegates have gone to the county and city conventions for the past five years or more Now that isn't right. That isn't a fair repre sentation of the people. These fellows sim-ply have their hands on the throttle and they manipulate the machine.

"I believe some law should be passed or some rules agreed upon that would orimary elections entirely beyond the reach of the whipper in. It will require so strictions that may not be very convenient but we will have to put up with some inconvenience in order to se-cure honest and fair primary elections. I have only glanced casually at the rules that have been adopted by the joint committees, and am not prepared to say whether I approve of all their provision or not. I am in favor of somothing that will accomplish the results demanded, and I think the time has come when we should try some kind of rules and see what can be done. We shall probably be obliged to experiment some before we get rules that will exactly fill the bill."

SHE IS A SHOPLIFTER

Arrest and Conviction of a Woman Who Has Been Working the Stores.

A neatly dressed middle-aged woman, who gave the name of Mrs. Roskoph and said that her home was at Dunlap, Ia., was arrested vesterday afternoon for shoplifting. She had with her a good-sized cheap black

satchel, which when searched produced about as much plunder as a magician usually takes out of a borrowed silk hat. There wa a \$15 black cloak, several bolts of cashmere and silk, gloves, handkerchiefs, shoes, bottles of per ume, a thimble and a big, two-pound roll of bologua sausage?

As each article was taken from the gripsack Mrs. Roskoph told where she had pur chased it and how much it cost. Stonehill was the complainant, as he had caught her in the act. The old woman had been a daily visitor at the store for about a week, and every day something was missed. When she watched her and was gon rewarded for his trouble by seeing the guileless looking fe-male swipe a bolt of coth.

A visit was made to ber room at 1403 South Thirteenth street by the detectives and a lot more stolen plunder found, aggregating in value probably \$60 or more. After her trunk had been searched the woman broke down and confessed. She was taken before Juoge Berks, where she pleaded guilty to shoplifting and was fined \$50 and costs.

He Desires to Have the Gubernatorial Contest Reopened.

WHAT BOYD'S ATTORNEYS ARE DOING

Believed to Have a Neat Little Surprise Store for the General in the Shape ot Supreme Court Record.

LINCOLN, Neb., March 22. - | Special to Tan BEE.]-The Thayer-Boyd contest is once more before the state supreme court and unless the court denies the motion to reopen the case it will be heard from at intervals for many months yet. It is not believed that a deceision will be reached until late next fall. General Thaver himself says that he does not expect a decision hardly within a year. He reiterates his former statement that he only desires to see if the enabling act admitted thousands of men to citizenship without their knowledge, wishes or consent. That question settled he will rest content. In conversation yesterday he stated that he felt that he was in a better position to settle this question than any other man in the state, for the reason that he could hardly expect at his age further political preferment at the hands of his party and that therefore his actions could not be criticised upon that ground.

Proceedings in Supreme Court. The following is a copy of the motion filed with the clerk of the supreme court by the attorneys representing General Thaver. Now comes the state of Nebraska upon the relation of John M. Thayer and moves the

relation of John M. Thayer and moves the court, to-wit:

First—That the judgment of this court entered herein March le, 1892, on the mandate of the supreme court of the United States that the defendant go heree without delay and recover his costs and execution be awarded upon, he recalled, vacated and set aside.

Second—That the said relator be given leave to file a rep y to the answer of the defendant herein; and Third-That therefore this cause be set for

The motion is signed by J. H. Blair, Charles A. Goss and M. B. Reese as attorneys. Their names were also signed to the following notice which was served upon Governor Boyd To JAMES E. Bovo, defendant: You are hereby notified that on Tuesday, the 29th day of March, 1892, at the opening of court in the forenoon of that day or as soon thereafter as counsel can be heard, the state of Nebraska upon relation of John M. Thayer will move the court to set aside the judgment entered in said cause on the 18th of March, 1892, and for leave to file a reply; and that the cause be set down for trial. A copy of said motion is herewith handed you.

May Disturb Thayer's Plans, There are whisperings that Governor Boyd's attorneys have prepared a neat little surprise for the legal gentlemen who are appearing for General Thayer in this matter. It is stated that the former have evidence in their possession which does not appear upon the face of the printed copy of the opinion handed down by the supreme court of the United States, but which does appear upon the records of that court at Washington. This evidence is in the nature of the re-This evidence is in the nature of the re-corded vote of the several judges composing that august tribunal upon the several branches of the decision. It will be remem-bered that Justice Field dissented from the opinion of his associates upon the question of jurisdiction. The facts are that after Jus-tice Field had given his vote of dissent to the whole proceedings his name does not ap-pear in connection with any of the emisions. pear in connection with any of the opinions. Consequently but seven judges sat upon the case and upon the question of the citizenship of Governor Boyd the vote stood four to three. This is, of course, an affirmative de-cision and knocks out the four to four theory upon which the friends of General Thayer have depended almost entirely for their reasons for insisting that the case be repened. If evidence of this nature is preented to the state supreme court next Tuesday the judges may conclude that General Thayer has no valid reasons for continuing the case and deny his motion for leave to file

a reply.

Piano Case Settled Today. The piano case mentioned in these columns restorday was settled by a verdict from the jury this morning awarding the defendant the sum of \$66.25. The jurymen were of the opinion that the defendant Kaar had paid Young & Elder that amount of money over and above what the instrument was really worth. The case will go to the supreme court, and in the meantime the question what is to be done with the piano which was brought into the court room and introduced in evidence! Properly it is a part of the evidence and should be filed with the clerk of the supreme court with the bil! of exceptions. Clerk Campbell of the suprem ourt is worried not a little over the prospect of having to store that piano away in the vaults of the state house for the next year

Fell Into Bad Company. George Henderson came to Lincoln from Crete yesterday and last evening hunted the elephant on its native heath. His explora-tions led him and a boon companion into the questionable resort managed by E. F. Weir Here he purchased beer for the frail inmates and imbibed somewhat freely himself. When he came to his senses he found that he had been robbed of \$25. He made complaint and the entire Weir outlit was hauled to the police station in the wagon. I held pending an investigation. Paving Contracts in Litigation

The case of John Wright against John A Buckstaff occupied the attention of Judge Tibbetts and a jury today. Wright had a contract with the defendant to lay the curbing on alleys and streets of the city and in his petition alleged that there was still due him the sum of \$1,260 Further be alleges that Buckstaff stopped him after he had done part of the work. His petition brings out some very interesting in formation as to the profits that are made from paying contracts in the city of Lincoln information that the people of Lincoln wil remember when they authorize more paving contracts. For instance, it is stated that he received 10 cents per 100t for curbing that only cost him 4 cents. He received \$1 for head pieces that cost him but (3) cents. Mr. Wright was working under a sub-contract, too. In his auswer Mr. Buckstaff says that after he had made the contract the city au-thorities changed their minds in regard to the quality of the work, and therefore he stopped Mr. Wright from completing his contract.

Lady Badly Afflicted Three Years. Tries Many Doctors Here and In England Without Benefit. Cured by Cutieura.

My wife baving suffered from scrofula sores on her back for three years, and at times she could not lie down at night, and she tried all the doctors I could get, and also went to England to try and be cured there, all of them failed, and told her they could do nothing for her; and having tried all kinds of remedies I at last tried one box of your CUTICURA REMEDIES, and to day she is as well as she ever was in her life, and her back is as clear as any person living, and I for one can recomment CUTICURA RESERVED as the only one I could find to effect a cure.
