

NEBRASKA CENTRAL'S PLANS

Court Asked to Appoint Appraisers to Condemn Right of Way.

PROPOSITION TO THE COMMISSIONERS

What Other Roads Think of the Project—Fast Trains to Be Put on by the Burlington—Other Railroad Matters.

The officials of the Nebraska Central railway company were busy yesterday in pushing matters looking toward the construction of their lines in this city and county.

At an early hour yesterday morning the vice president of the company, J. H. Dumont, appeared in the county court and filed the plans of the road as it is proposed to run in the city.

The other line after leaving the intersection of Tenth and Cass streets bears north until Izard street is reached, after which it runs northwesterly through the bluff west of Twenty-fourth street and into the valley through which the Belt Line railway runs.

LAD BEFORE THE COURT.

Vice President Dumont Puts His Proposition to the Commissioners.

At an adjourned meeting of the Board of County Commissioners, to be held next Tuesday afternoon, the members of that body will decide the question of whether or not they will submit a proposition to the voters of Douglas county to allow them to vote upon the issuance of \$500,000 of twenty year bonds to aid the Nebraska Central railway company in the construction of a double track steel bridge over the Missouri river at the foot of Cass street in this city.

Yesterday afternoon a delegation consisting of J. H. Dumont, vice president of the Nebraska Central railway company, J. C. Green, J. A. McShane and a number of others appeared before the commissioners.

What It Will Do for Omaha.

In speaking of the benefits that Omaha would derive from the construction of the bridge, Mr. Dumont stated that the eastern roads were anxious to get into Omaha, but that the great barrier to their coming was the interior of the state.

Willing to Pay Its Share.

Mr. Dumont said that the scheme for securing the funds to build the bridge and a road to Iowa was feasible and that Douglas county was not assuming any great risk.

Coldest Dumont Explains.

Vice President Dumont of the railroad company was asked to address the meeting and in doing so he said that it might seem strange that his company was before the county court.

Notes and Personal.

Adam Snyder, ex-county treasurer, was in the city yesterday.

It is expected that the paving of Twenty-sixth street will be begun some time next week.

A number of ladies have registered in order to vote for members of the Board of Education next Tuesday.

Z. Cuddington has been given the contract to furnish 350 car loads of stone for the new buildings of the Catholic boarding company.

The meeting of the democratic city central committee which was to have been held Tuesday night will occur tonight at Judge Lewis' office.

The horse market was very quiet yesterday, only about fifty head being sold.

The receipts of horses were not as large as usual yesterday in the Christian church Sunday.

Rev. Marion Botes, who was so severely burned at Manning, Ia., has nearly recovered and will return to this city in time to occupy his pulpit in the Christian church Sunday.

Charles Duggan died at his residence, Twenty-fourth and Q streets, yesterday morning of pneumonia. He leaves a wife and two children. The funeral arrangements are not yet decided on.

The approach to the east end of the Q street viaduct has been undermined by the recent rains and the embankment has caved away so badly that the approach is impassable for teams. It is estimated that it will require several hundred dollars to repair the damage.

DOCTOR'S FEES AND FREE ADVERTISING.

According to newspaper reports, a celebrated American surgeon received \$5,000 for removing a little wen from a wealthy lady's scalp. The papers fail to state the exact amount of free advertising the doctor managed to obtain.

Here's a reason together: The largest company over the world ever; it has grown, step by step, through many years to greatness.

This firm says the newspapers fool money (expensive work, this advertising!) to tell the people that they have faith in what they sell, so much faith that if they can't benefit or cure they won't want your money.

Dr. Pierce's Golden Medical Discovery is sold on this liberal plan. If it doesn't benefit or cure, it costs nothing. It cures Skins, Scabs, and Scrofulous affections, as Eczema, Tetter, Salt-rheum, Fever-sores, White Swellings, Hip-joint disease and kindred ailments.

It's the cheapest blood-purifier sold, through druggists, no matter how many hundred doses are offered for its price (\$1.00 a bottle), since you pay only for the good you get.

Can you ask more?

VAUGHAN'S LATEST SCHEME

Council Bluffs' Ex-Mayor Wants to Name a Colored Presidential Ticket.

DOUGLASS FOR THE STANDARD BEARER

The Plan Creates Some Stir Among a Few Credulous People--Talk With a Leading Afro-American on the Subject.

NEW YORK, March 30.—The announcement recently that ex-Mayor Vaughan of Omaha, who caused to be introduced in congress a bill for the pensioning of ex-slaves, had in contemplation a movement to place a colored presidential ticket in the field next fall with Mr. Douglass at its head, has created considerable talk among the colored people in this city.

As far as Mr. Vaughan's proposition is concerned, that Mr. Douglass should be nominated for president, or that his name should be suggested in connection with the presidency by a white man, I believe, southern white men, have a platform in which the fundamental plank should be the voting of pensions to ex-slaves, it is remarkable to say the least. It contains novelty, not to say humor, of the broadest character. I have received a letter today from a white friend, whose name is known throughout the country, in which this paragraph occurs: "I suggest and urge the election of as many Afro-American delegates to the national convention as shall proportionately represent the colored population of all the states north and south, and that when these delegates are chosen, they shall, as soon after as possible, agree to vote in unity."

"Suppose all the Afro-American delegates, without threats or bluster, quietly and with dignity vote a unit for Frederick Douglass and John M. Langston, of Virginia. Such action would negate the idea that the delegates were there simply to sell out to the southern white men, and would show that they were charged with doing at the convention in Chicago four years ago. You can never demand recognition until you demonstrate your power to nominate and elect your friends and defeat your enemies. Suppose that such a ticket was placed in the field, to what extent would it detract votes from the ticket of the abolitionists in New England and the west than he would receive elsewhere?"

"The nomination of Douglass or any other man simply because he belongs to this or that race is not to be believed in. I do not believe in the color line. I do not believe in the color line. I do not believe in the color line."
