SARPY COUNTY.

Sarpy county, named in honor of Colonel Peter A. Sarpy, was organized by act of the territorial legislature, approved February 7, 1857.

The assessed valuation for 1890 reached a total of nearly \$2,000,000, while the assessed valuation for 1891 was \$2,208,134.

For 1890 the assessors returned 92,650 acres of improved land and 46,367 acres of unimproved land in the county.

Over sixty-five miles of railroad traverse the county.

The growth of the county in agriculture is shown by official reports since 1850 as follows:

Table with 2 columns: Year (1850-1890) and Acres Under Cultivation (40,044 to 92,650).

About 12 per cent of the county is valley and the greater portion is rolling prairie with high bluffs.

It has been said of Sarpy county that if its wealth were equally divided among the inhabitants it would have a larger amount per capita than would the inhabitants of any other county in the state.

Many of the most thrifty farmers are turning their attention to fruit raising, an increasing number of acres of orchard and vineyard have been planted.

The beet sugar question is being agitated and favorably discussed by the more progressive farmers.

A number of farmers and stock raisers in the county have been successful in raising the price of their produce.

John Hickey, living on one of the largest and best improved farms in Sarpy county, has been successful in raising the price of his produce.

They now rent their lands and are engaged in banking.

The greatest trouble we have," said Mr. Spearman, "is in keeping good tenants.

Whenever we get a good renter he makes money enough in a short time to buy either the farm he is on or some other place.

Our farms are well improved; good buildings, orchards, groves, etc.

THE KANSAS ALLIANCE WILL DO

Every Effort Will Be Made by the Party to Carry State Tickets, with Flattering Prospects in Many Parts of the Country.

OTTUMWA, Ia., April 1.—[Special to THE BEE.]—Ex-Senator Ingalls of Kansas, who has been elected through a combination of adverse circumstances, granted an interview concerning the political phases of the coming contest yesterday.

"Harrison and Cleveland. The first is inevitable and the second extremely probable.

The schism in New York is of course unimportant here, but he is so unmistakably the enthusiastic preference of nearly all out of every hundred of the voters of his party that the politicians cannot safely disregard the popular will.

"Nothing more degrading and at the same time more ridiculous has ever been witnessed in this country than the present spectacle of his southern tour for the avowed purpose of capturing the presidential nomination.

REAPING THE WHIRLWIND.

Having thrown down the gauntlet, the local Hill democrats find themselves rather in the position of the man who sawed off the limb between himself and the tree.

They started the fight, and if the remarks made by Cleveland men under their breath can be taken as a measure of their feelings the local Hill democrats will have to regret that they hadn't done it.

Yesterday morning talk was indulged in and many opinions were expressed, from the tabor of which it is gathered that the majority of democrats are not interested in the honorable Mr. Martin's efforts to win a place in the head of Nebraska democracy.

It is a matter of no concern to the party whether Governor Boyd or Mr. Martin is elected as its candidate.

TO BRING RAILROADS TO LIGHT.

Omaha's Commercial Association to Make War Against Restrictive Legislation.

April has arrived, the Iowa legislature has adjourned and the Omaha Commercial Association means to find out how much sincerity there is in the promises of the Iowa railroads.

Mr. Charles F. Weller of the Richardson Drug company, who is president of the Commercial association and at the head of its executive committee, is confident that the Iowa lines will now grant the desired relief.
