The Commercial Pilgrims of America will give a social this evening in the Royal Ar-canum hall. Cards and dancing will be the amusements of the evening and refreshments will be served.

Invitations are out for the wedding of George A. Kellogg and Miss Amelia Flues, which will take place at the residence of the bride's mother, Mrs. Edward Flues, 1022 Fifth avenue, next Wednesday evening at 8

The funeral of the late Mrs. Electa Olmstead will occur Sunday afternoon at 2:30 o'clock from her residence, 309 East Pierce street, Rev. T. McK. Stewart officiating. The remains will be interred in Fairview cemetery.

The regular meeting of Etchetah council No. 3, degree of Pocahontas, will be held this evening in the wigwam of the Red Men, cor-ner of Broadway and Main street, at 7:30 o'clock, for work in the adoption degree. A full attendance is desired.

The work of moving the city offices was completed yesterday and the clerk and auditor are now settled in rooms 200 and 201 of the Sapp block, on the second floor, where they will remain until the new building is gotten in readiness. The office of the treas urer is in Kinnehan's shoe store at the cor per of Bryant and Broadway. During the first three months of the cur

rent year the real estate transfers have amounted to \$1,475,920.50, of which amount nearly \$900,000 came in the month of March. This is quite an increase over the amount for the corresponding time last year, and real estate dealers are considerably encouraged over the outlook.

L. A. Casper sold out his entire interest in his greenhouse on East Pierce street yesterday to J. F. Wilcox, who will carry on the business from now on, although Mr. Casper will be at the old stand for a few weeks in order to settle up his business affairs before setting out for his new home. He states that owing to the failure of the city council to pave East Pierce street he has come to the conclusion that the only way for him to get out of the mud is to move out. It is stated that several new implement

houses are to be located here in the near fu-ture. The names of the firms who are look-ig toward Council Bluffs are not mentioned ye1, as the arrangements are not completed, but the manager of one of the firms already doing business here stated yesterday that in side of a month at least three more houses would be located here. Vic Keller, who was appointed to a pos tion in the police ccurt several days ago, has resigned upon a request from the mayor. The reason, as stated by the mayor was that a committee of citizens had called at the office of the mayor and remonstrated against Keller's appointment on the ground that he had not been a resident of Council Bluffs for over eighteen months. Keller states that although he left the city eighteen months ago he has always considered it his residence, and he knows of no reason why he had not be allowed to retain his position. should not be allowed to retain his position. That They Had the Wrong. Man.

A bold burglary took place yesterday after noon at the residence of L. C. Empkie, 618 South Sixth street. Mrs. Empkie was alone in the house at the time, and the front door had been left unlocked. She heard a noise unstairs, but thought nothing of it at the time. Later she proceeded to investigate, and when she got in sight of the door of one of the rooms upstairs she saw a man in the act of ransacking a bureau drawer. The man saw her about the same time, and

him, however, and catching him by the coat followed him down stairs, crying for help.
At the same time another burglar appeared and joined the procession. When the trio got to the front door the man who was being steered by Mrs. Empkie succeeded in getting away and struck off down street. A nan who was standing near by caught the

He accordingly let go, and the burglar who had been blessed with the necessary nerve to play this trick, lost no time in making his to play this trick, lost no time in making his oscape. He has not been heard from since. In the meantime F. H. Evans and another gentleman, who had been attracted to the scene by Mrs. Empkie's cries, had intercepted the first burglar, and he was handed over to the police soon after. He gave his name at the police station as M. Rock, and appearances indicate that he is a crook of no small calibar. So far as known nothing was small calibar. small caliber. So far as known nothing was stolen from the house, but had it not been for Mrs. Empkie's pluck both men would probably have escaped. Wants \$5,000 Damages. Mrs. R. B. Cook, wife of Dr. A. J. Cook, has decided to get a portion of the wealth of C. R. R. Hannan, as receiver for the Kimball-Champ Investment company, was the plaintiff Champ Investment company, was the plaintiff in the case. A petition was placed on file in the superior court yesterday in which Mrs. Cook alleges that the attachment was sued out wrongfully and maincially, when Hannan knew mats he was not liable for the rept, and that it was done for the purpose of humiliating her and distressing her mentally and financially. Mrs. Cook alloges that the writ of attachment was issued by the clork of the court on a false statement of facts, and for the pain which she has been caused by the sueing out of the writ and the subsequent legal proceedings to which it gave rise she thinks \$5,000 would be a proper compensation. She accordingly demands a judgment for that sum. Mr. Hannan has retained attorneys who will fight the case. He regards the beginning of the suit as a mere piece of spite work for the purpose of making him trouble.

CONGRESSIONAL PROCEEDINGS

Debate on the Tariff Will Close Today at

2 O'clock. WASHINGTON, D. C., April 1 .- Attendance in the house today was very small, and Bailey of Texas, without antagonizing any particular measure, made a point that no quorum was present, and several bills that were called up had to be withdrawn in order to clear the track for regular business.

Norton of Missouri was the first member to secure the passage of a favorite measure. It was the bill to authorize the construction of a bridge across the Mississippi at St. Charles, Mo. Catchings of Mississippi, from the commit-

tee on rules, reported back a resolution for the appointment of a special committee to investigate the charges against the census bureau.

Wilcox of Minnesota thought the matter ought to be left to the standing committee on the Eleventh census, although he thought the special committee could do the subject better justice. Catchings demanded the previous ques-tion, whereupon Miller of Wisconsin assumed the role of a fillbusterer. He moved to ad-

Miller denounced the rules.
Wilcox offered an amendment that the investigation of the census bureau be placed in charge of the census committee. The amendment was adopted. Enloe moved the house go into committee of the whole.

McMillin, in response to a question, said it was the intention to ask the house to close the tariff debate tomorrow at 2 o'clock. Simpson, aided by other third party members, attempted to filibuster, but their struggle was brief and the house went into committee of the whole on the free wool bill.

Cox of Tennessee spoke in favor of the bill and McRae of Arkansas described the abuses

arising from a protective tariff.

Watson of Georgia expressed the sentiment of the third party on the tariff ques Dalzeil criticised the democratic party and answered the attacks made upon the McKin-

At the suggestion of McMillin it was ordered that general debate on the free wool bill close tomorrow.

In the Senate. WASHINGTON, D. C., April 1 .- After the transaction of the regular morning business the Indian appropriation bill was taken up. An amendment offered by Mr. Vilas to increase the appropriation for an Indian school led to a discussion in which Mr. Allison chairman of the committee on appropriations, criticised the Indian commissioner for writing long supplementary letters to senators favoring increased appropriations, instead of recommending them to the committee. The school at Lawrence, Kan., was a case in

point, the commissioner having written a letter to Mr. Perkins favoring an increase of from \$88,000 to \$125,000. It had been discovered by the committee an appropriations that \$15,000 of that amount (expriations that \$15,000 of that amount (expressed in the estimate as for "out-houses") was actually for the election of a residence for the superintendent and some teachers, and that \$5,000 was for an electric plant. "What do they want with an electric plant!" Mr. George asked, "cannot the Indians be educated except by the electricity!" To the first query Mr. Allison replied that he supposed Rerosene lamps were disagree-

he supposed kerosene lamps were disagree-able. He added that he did not like the methods of the Indian commissioner. Mr. Vilas said the nation had almost without exception treated the Indians unjustly. He thought they should be educated. Mr. Hansbrough offered an amendment for a commission to negot ate with the Turtle mountain band of Chippewa Indians in North Dakota for the cession of the right and interest which they claim on their lands.

Finally the bill was reported to the senate rom the committee of the whole. Mr. Dawes moved to strike out of the bill the provision for the assignment of army officers to duties as Indian agents. After a short executive session the senate adjourned until Monday.

THINKS THE BACON WAS GOOD.

How Pine Ridge Indians Failed to Receive Tainted Meat.

Washington, D. C., April 1.—[Special Telegram to The Bee.]—Indian Commissioner Morgan today sent to Senator Dolph a letter saying that the attack on the Indian office by Senator Manderson on the floor of the senate Wednesday, charging the office with attempting to force rotten bacon upon the Indians at Pine Ridge Agency, S. D., seems to have been based upon a misapprehension of the facts in the case. He says that a contract for furnishing th Indian service for the year end-ing June 30 1892, for 750,000 pound of bacon, short clear sides, pound of bacon, short clear sides, sound, sweet and merchantable, was awarded to the firm of J. O. Armour & Co. of Chicago: 120,000 pounds of this bacon were shipped to Rushville, Neb., by rall to be conveyed thence by Indian transportation to Pine Ridge to be distributed among the Indians.

The meat was inspected before shipment in Chicago by an expert chosen by the secretary of the interior and it was pronounced to be fully up to the contract requirements. Captain Penny, acting Indian agent at Pine Ridge, refused to receive the meat on the ground that it was old, musty, rancid and unfit for food. Commissioner Morgan notified the contractors and requested them to replace the bacon with a better quality.

The legal representative of the firm, in

connection with Senator Culiom, called upon the commissioner and protested that they were being unjustly dealt with; that the bacon was all they claimed for it, and requested that final action should be deferred until the matter could be fully investigated. Accordingly Commissioner Morgan directed that what bacon was still remaining at Rushville should be inspected by the shipping clerk, J. E. West, who was appointed to his position on the recommendation of Senator Manderson and the other member of the Nebraska delegation, who asserted that he was thoroughly competent and trustworthy. He, with the aid of two butchers and experts, inspected the bacon and reand experts, inspected the bacon and re-ported it fully up to the requirements of the

contract.

Commissioner Morgan, in order to avoid any possibility of doubt, relieved from duty the man who had inspected the bacon in Chicago and appointed another man who was recommended to him as an expert and directed him to proceed to Pine Ridge, with instructions to make a critical and exhaustive examination of the result and report, the contract. tive examination of the meat and report the result of his findings.

He did so and said that he found all ex-

cent a little less than 7,000 pounds satisfac-tory. On this the commissioner directed the 7,000 pounds to be rejected and replaced by the contractors with acceptable meat and di-rected the agent to issue that which had been found satisfactory.

Calvin M. Favorite of the Armour Packing

carvin M. Pavorite of the Armour Packing company says that there can be no grounds for Senator Manderson's charges. He admits that the 100,000 pounds of bacon were sent to the Sioux reservation but he claims that the shipments were made last October, a year after the battle of Wounded Knee had been fought. He says that the bacon was accepted by Cox and afterwards rejected by the officers, not because all of it was unfit for use, but because about 4,000 pounds had become but because about 4,000 pounds had become tainted. The Armour company was notified of the condition of a part of the shipment and immediately made it good to the govern ment, after which the deal was closed.

INVESTING THEIR MONEY.

American Capitalists Largely Interested in

Mexican Lands.
Washington, D. C., April 1.—One of the largest investments of American capital made in Mexico in recent years has just been completed by W. W. de Saville of Philadelphia, who is in Washington on his way home from that country. Mr. de Saville, representing the Tamaulipas Emigration, Land and Stock company, organized under the laws of New Jersey, has purchased 1,000,000 acres of land lying in the state of Tamaulipas, along the gulf coast, immediately north of Tampico. The domain extends back to the Tamaulipas mountains, and includes fruit, coffee and sugar lands, grazing tracts and a large area of mahogany, obony and codar timber. Concessions have been secured from the Mexican government for the erection of packing houses and fish canneries along the coast, and an arrangement has been made for the importation of several thousand Japanese laborers, by whom the scable lands will be cultivated. Concession has also been granted for a new

steamship line to be run by the same com-pany from Tampico to Galveston, Savannah and Philadelphia.

Mr. de Saville states that Chicago as well as Philadelphia capital has been interested in the enterprise, and that it is proposed to bring all the arable lands of the purchased tract under cultivation and make it the veritable garden spot of Mexico. It extends for fifty miles along the gulf coast, and is one of the most fertile and important regions tribu-

The father spurned the offer and replied that he would keep the child and remain where

After considerable parieying the mother and her escort attempted to take the child by force, but were repelled by a fierce watch-dog which was set upon them by both the boy and his father. After the vain attempt to secure possession of the child, the mother returned to town and telegraphed for her brother-in-law, who lived in Huron. He arrived the pext day and both went to her husband's house, where they took the child away by force. The father's grief was over-whelming when he saw the child taken from him. The parting words of the little fellow

were:
"Papa, I'll be dead in the morning."

Medical aid has been sent to the father, but there is no hope of his recovery.

WILL BE HELD AS USUAL. Chleago's Annual Fat Stock Show Will Be

Provided For. CHICAGO, Ill., April 1.-[Special Telegram to THE BEE. |-The demolition of the exposition building will not prevent the holding of the annual fat stock show in this city. John P. Reynolds, the secretary of the State Board of Agriculture, says the show will open as usual in November next. But its location will be far from the lake front. The Union Stockyards company has long needed a large structure for the display and sale of stock and will have such a building erected in time for the eghibition. It is to be located in the old Dexter

park and will be 125x115 feet. Lengthwise through the building will be a track thirty feet in width and about 500 feet in length with turnouts at each end.
The state board will meet Wednesday or Thursday next when premium lists will probably be provided and complete details of the show arranged. The show will continue for ten days, but the new building will be at the disposition of the board from November

JOINED HANDS WITH DEMOCRACY.

Farmers Make a New Political Alliance in

Minnesota, St. Paul, Minn., April 1.-|Special Telegram to THE BEEL -The much talked of fusion between the democrats and alliance of Minnesota, it would appear, is on the verge—of consummation. WYMORE, Neb., April 1.—[Special Telegram to The Bee.]—The Wymore Railway Employes club was organized here last night under the supervision of Henry Knodell of under the supervision of Henry Knodell of Omaha. The club starts out under the most favorable auspices with 100 members. The order is composed of the B. & M. employes. The officers elected for the ensuing year are as follows: John Pennington, president; Ed Ryan, vice president; C. N. Johnston, secretary, and Frank Skellinger, treasurer. After the election of officers Vice President Ryan made an interesting address, showing the importance of railroad men taking an interest in this work. Before the meeting adjourned a vote of thanks was tendered Mr. Knodell.

DUN'S REVIEW OF THE WEEK

Manufactured Products Finding a Ready Sale and Domestic Trade Good.

MANUFACTURERS ARE ALL DOING WELL

Reports from the Business Centers of the Country Show a Marked Improvement-Failures for the Last Quarter

-Clearing House Statement. NEW YORK, April 1 .- R. G. Dun & Co.'s

Weekly Review of Trade will say: The busiess outlook is distinctly improving. There has come a distinct increase in the marketing of manufactured products and greater activity in many lines of domestic trade. This is in part due to more favorable weather in most sections and the improved conditions of country roads and to the prospects of an

early spring.

The manufacturers are doing well. Probably the cotton manufacturers have not turned out as great a quantity of goods at any other time as it has this year thus far, with less accumulation of its products in the hands of manufacturers or wholesale dealers. The distribution has been remarkably large and the result of trade generally satisfactory, as prices for material has been declining while goods, though on the whole are as cheap as at any other time, are fairly maintained in prices. The woolen manufacture also shows distinct improvement in some branches though not in carpets, nor in the lower grades or mixed goods for men's wear. The better all wool goods, worsted and dress goods are more largely produced than in the past years, and no undesirable accumulation is seen. The boot and shoe business is also increasing and ac-

tive, shipments now exceeding last year's and orders being large. Reports from the Cities.

Reports from cities are generally encouraging.
At Cleveland trade is good in dry goods, crockery ware, hardware, machinery and manufactured iron and other trade fair, exceeding last year's.

At Cincinnati the clothing: rade; is better than a year ago, the harness strike continues and southern merchants are asking exten-sions because cotton is low.

At Chicago a large increase is seen in At Chicago a large increase is seen in merchandise sales, and collections in dry goods equal last year's, while in clothing and shees they are not quite satisfactory, though no special complaint is made. Receipts of grain and flour show great increase, but of other products some decrease.

At Milwaukee business is improving with money casy.

money easy.
At St. Paul the prospects of an early spring stimulates trade.
At Minneapolis all jobbing trade is excel-

At Mindeapons all jouoning trade is excel-lent and the lumber business is very good. At Omaha trade is active in all lines. Increased distribution in all branches is seen at St. Louis, with improvements in country roads and clearings for the week show a gain of 30 per cent.

At Kansas City trade is improving with better weather, receipts of grain are heavy and of cattle and hogs good.

At Denver trade is fair. At Louisville trade is generally improving, with a phenomenal increase in sales of At Memphis trade is dull. At Nashville steady and at Little Rock slow, with money

easy.

At New Orleans business is only fair, cotton being duli, but sugar strong and At Savannah business is slacker.

Speculation Not Active During the Week. Speculation Not Active During the Week.

Speculation during the week has not been very active. Wheat has declined 2%c, corn one-half of a cent; oil a fraction, and pork 25c per barrel. The decline in wheat is mainly due to the shrinkage in foreign demand, western receipts continuing large. As the new crop draws nearer, and the prospect is that it will be very large, prices naturally tend downward. Although cotton receipts has been smaller than a year ago the pressure of stocks here and abroad have caused a of stocks here and abroad have caused of stocks here and abroad have caused a further decline of a sixteenth. Coffee is also three-fourths of a cent lower, and the general tendency of prices is toward a lower level. But in the iron trade the bottom seems to have been reached. More business is seen at Philadelphia and many furnaces have ceased production so that fewer forced sales are reported, though a new and large furnace in Alabama begins work. No improvement is seen in par iron but some in plates and in structural iron the demand is better than a year ago. Copper is unsettled and irregular, tin slightly

and lead dull. The market for coal is dis-tinctly firmer.

When the St. Louis convention formulated its platform it had for its twelfth A WOMAN'S STORY formulated its platform it had for its twelfth section the preposition that all union army pensioners should be paid the difference between groenbaceds and gold which existed up until 1873. This did not suit the southern consumption. At first copies of the platform were circulated with the twelfth section stricken out. The fact of its existence was so closely pressed, however, that it is now admitted, with the explanation that there was a private understanding that provision should be made to pay for the slaves manumitted. This would be an offset, In the literature distributed among the third party people in Georgia this feature is commented on, and the farmers are given to

dentally dropped a penny in a street car. It fell into a lot of straw-which

had been spat upon, trampled under foot, and nearly robbed of its former semblance to that clean, fluffy, inviting

bed in which boys delight to roll and

tumble. The owner of that penny at first kicked the noisome mess about with his foot. He did not find the

penny, and endeavored to look indiffer-

ent, but his face wore a pained, uncom

fortable sort of expression. He could'nt endure the suspense any longer, and

forthwith he began to claw about in

the dirty straw with his hands. He picked it up in small lots and shock

it, in the vain hope that the missing

penny would drop out. He spent at least

twenty minutes of the half hour's ride from Dudley street to Milk street and then gave it up in despair. Our curios-

ity was aroused. Is that man penurious? No, for he soon spent 25 cents for two cigars and 30 cents for two drinks of

whisky for himself and a chance ac-quaintance. He bought a paper and gave the boy a nickel, declining to take

the 3 cents change. He wasn't penuri-

ous; he wanted to know where that cent

went to, and it vexed his soul because the clusive coin could not be found.

A Joke on McCook.

A St. Louisan recalls a joke that was

perpetrated on General A. McD. Mc-

Cook when he was commanding at Fort

Leavenworth. At a banquet of the

Loyal Legion General McCook, in re-

sponse to a toast, gave the assembled

company a temperance lecture that

chilled even the glasses on the table.

The next toast was responded to by

Governor A. J. Smith, who said: "You

Catarrh Associated With General Weakness -Pain, Distress and Exhaustion Give

Way to Strength and Comfort.

[Many women today suffer pain and are weak and nervous without knowing the cause Their work greatly fatigues them and they cannot eat well. At night they rest poorly and in the morning feel wholly unfit for the duties of the day. In short, they are miserable from general impairment of health, beside enduring various pains and distress hard to fully describe. Many such cases are the re-sult of catarrha fleeting the whole system, and find quick and certain relief from treat-

Such a case is that of Mrs. Nanna Nesser, of 1515 Leavenworth street, whose husband is with the Merchants Express Company. Mrs. Nesser in an interview says:

"For a very long time I had been very weak and miserable. I was unable to do my work and a little extra exertion made me feel faint and caused vomiting and

MRS. NANNIK NESSER, what it was at any time to be free from pain. My appetite was poor. I did not relish food, and when I ate a meal it distressed me by causing gas and bloating and a heavy feeling on my stomach. Often I had very severe headache, which was a great affliction indeed. I had a cough and a tekling of the throat: also my nose was very sore and badly ulcerated. These symptoms were
