A great deal of complaint has been caused by the actions of a crowd of young men who live in the vicinity of the Baptist Mission on Twenty-ninth street, near the motor barns. The building is used as a school house on week days. A day or two ago the janitor opened the door at 5 o'clock in the morning and found half a dozen persons of both sexes enjoying the freedom of the sanctuary with a more or less hely delight, having broken the door in. The ling is so far removed from the center of the city that the police are almost powerless to give any protection.

Police Think They Have Caught a Trio of Festive Burglars.

CIRCUMSTANTIAL EVIDENCE

Mike Engle, George Smith and Charles L Smith Arrested and Much of the Plunder Secured-How the Case Was Worked,

Ever since the burglary of Ed Sheriock's place on Broadway last Sunday night the police have been working on the case with a view to finding the guilty parties. Their efforts were rewarded night before last by the capture of a couple of men against whom circumstancial evidence is so strong that there appears to be but little doubt that they will be convicted and sent across the state.

Mike Engle, who has been employed for a short time past at the Metropolitan hotel, was the first one caught. He was seen walking down street with a valise in his hand, and as he had been spotted the day before he was followed by Officer Beswick and placed under arrest just after he had reached his room. The valise he carried with him was opened and inside it were found something over 800 cigars of the same brands sold by Sherlock, some of which are not sold by any other dealer in the city. When confronted with the crime Engle made a clean breast of the affair and said be knew when he was committing the burglary bat he would be caught.

George Smith, night clerk at the Pacific house, was the next arrest, and he was pulled out of his bed in the hotel shortly after he had got inside. A valise which wa found in his room was also taken charge of by Officers Beswick and Murphy, and when it was opened at the police station it too was found to contain over 1,000 cigars of the same brands as those in the possession of Engle. Smith insisted that the value was not his, but belonged to another man. A key that was found in his pocket, however, opened the value without difficulty, and this turew a sort of shadow over his claims of inno

Early vesterday morning Charles L Smith, a porter at the Grand hotel, was ar rested as he was coming to work, and locked up on suspicion of being implicated in the burglary. He stoutly protested that he was innocent, and about the only evidence that the police have against him is that he was on the streets late last night in the vicinity the place where the burgiary took place. His previous record is somewhat against him, as he completed a two years' term in the penitentiary for highway robbery about six weeks ago, since when he has been at the Grand. He effered to go with the police to the house and let them make a complete Search of the premises.

It was learned that the stolen goods had

been hidden in a woodpile in the rear of the Pacific house during the night of the robbery and were left there all of the next day. A couple of boxes were found lying on the ground near by, where they had been dropped by the thieves in their haste to get away from the place. Engle waived exam-ination before Judge McGee and was bound over to the grand jury on a charge of burg-lary, while the cases of the other two men were continued.

Not So Bad After All. E. V. Wood of McKee's Rocks, Allegheny ounty, Pa., in speaking to a traveling man of Chamberiain's medicines said: "I recom-ment them above all others. I have used them myself and know them to be reliable I always guarantee them to my customers and have never had a bottle returned." Mr. Wood had hardly finished speaking, when a little girl came in the store with an empty bottle. It was labeled, "Chamberlain's Pain The traveler was interested, as Balm." there was certainly a bottle coming back, but waited to hear what the little girl said. It was as follows: "Mamina wants another

COUNTERFEITERS SENTENCED.

Shovers of the Queer Receive Their Medi-

cine from Judge Woolson. Most of the day was passed in civil business yesterday in federal court, but along toward the close of the afternoon session Judge Woolson found time to deal out a supply of justice to a counterfeiter who had run up against one of Uncle Sam's detectives and had come out of the contest with his reputation caved in. Isaac Pr Fisher and M. Atkinson had been carrying on the manufacture and distribution of counterfeit dollars in Harrison county for a number of months before they were caught. It finally leaked out that they were making money by the wholesale, and Matt Steadman, the well wholesale, and Matt Steatman, the went known detective, succeeded in getting evidence against both of the men. They were arrested, and upon being charged with the crime both of them owned up and agreed to plead guilty. They were brought before Judge Woolson, where they went through the necessary formalities.

the necessary formalities.

Atkinson was accompanied by his wife in the court room, and while the judge was lecturing him on the evil results of trying to start a branch mint without due authority from congress Atkinson passed away the time by watching a large briny flood course down his nose to the floor of the court room. He attempted to win leniency from the court by saying that his wife and six children were dependent upon him for support, but his plea simply secured for him a sentence of \$1,000 fine and a term of one year in the peni-tentiary at Fort Madison.

About half a bushel of the money that had been made by the two men was dumped out on a table in the court room, and it was of so excellent a quality that a number of gentlemen put pieces of it in their pockets under the impression that it was genuine.

Leading Eastern and Western Lines Come to an Understanding.

Citicago, Ill., April 6,-It has just leaked out here that a combination has been formed, or is being formed, between the Vanderbilt and Pennsylvania lines in the east, and the Chicago, Buritagton & Quincy, the Chicago, Milwaukee & St. Paul, the Chicago & Northwestern and the Atchison, Topeka & Santa Fe in the west, by which these companies agree to discontinue the payment of commissions to each other's agents. The considera tion is a division of interchange passenger business in accordance with an agreement entered into a few weeks ago and which means the exclusion, so far as possible, of all other lines from participation in this busi ness. Two secret meetings have been held one in Pittsburg and it is believed the other in New York. The roads that are to be prac-tically boycotted by this agreement are the Rock Island, the Chicago, St. Paul & Kansas City and the Chicago & Alton in the west and the Grand Trunk, the Erie, the Baiti more & Ohio and convecting lines in the east It is plain to be seen that this is another at-tempt on the part of the Pennsylvania and Vanderbilt systems to do away with passen ger commissions to ticket agents, and they have secured the assistance of four of the strongest roads west of Chicago. If by this deal they can force the other lines to surrender, a peaceful solution of the commission question may be expected, but nobody seems to anticipate such an outcome, at least not until there has been a fight. It has been hundled carefully and not until today could reliable information be obtained, the discov ery of which is certainly going to be a row and a terrific rate war, or the abandonmen of the scheme.

What will become of the Western Traffic what will become of the Western Frame association is the absorbing question. Now that the attempt to hold a meeting has been abandoned and a call issued for a special meeting in New York May 1, it is expressed even more freely now than before that the as-sociation has made its last gape. To Jay Gould is attributed the failure of securing a quorum

Important Subject to Be Settled. CHICAGO, Ill., April 6 .- Some of the eastero roads are already heartily sick of the atswitching charges and divisions with western reads. The Chicago & Grand Trunk are now forced to stand by and see the western roads absorb a large proportion of the business that might otherwise have fallen to them. The refusal of the Grand Trunk to re-establish switching charges in the city limits and its arrangement with the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul whereby it allows those lines divisions of through rates instead of paying them switching charges on freight shipped to and from points on their lines in the city limits, has had a very noticeable effect. A meeting of the Chicago committee of the Central Traffic association will be held to morrow, and it is understood that several of

the lines will advocate a reconsideration of the recent resolution by which all except the Grand Trunk controlled their division arangements with the western roads. Chairman Blanchard today issued his call for the regular April meeting of the Central Traffic association to be held next Tuesday A long list of freight subjects is to be con sidered at the meeting and includes the tol lowing: Arbitration of lake and rail deffer-entials; divisions with western roads via all junctions between Chicago and St. Louis; rates on Texas traffic; rate on green hides from St. Paul to Minneapolis to Boston, by

way of Chicago; application of Chicago rates to Kankakee on west bound traffic.

Southern Pacific Election. SAN FRANCISCO, Cal., April 6.-The annua meeting of the Southern Pacific stockholders was held today. President Huntington presented his annual report, in which he said: "The business of last year has been in the main satisfactory. The surplus of earnings over fixed and operating and current expenses has been small owing to many causes, among which may be mentioned the extreme cost of fuel and many other articles largely used in operating the long lines of the com pany which eastern roads are able to get at much lower prices. The surplus had been used in improving the property. President Huntington also submitted figures showing the extent of operations, but these are not made public. The following board of directors was elected: C. P. Huntington, Leland Stanford, Charles F. Crocker, Thomas Estilman Thomas H. Hunbard, N. Estilman, Thomas H. Hubbard, A. N. Towne, J. C. Stubbs, E. H. Miller, S. T. Gage, H. E. Huntington and George Crocker. The last two named are new directors, succeeding W. B. Huntington and L. V. Brown.

The Memphis charged that the Missouri Pacific issued free transportation to shippers to influence their business. The discussion proceeded at great length and was somewhat heated. Finally Assistant General Freight Agent Lincoln of the Missouri Pacific promised to look into the matter and stop the practice if he found it prevails on his lines.

NOT SOLVED YET.

Riddle Pertaining to Street Sweeping Still Unanswered.

Mayor Bemis stated yesterday morning that he had not made up his mind as to

whether or not he would approve the con current resolution adopted by the council ordering the streets cleaned under the 10 per

cent clause of C. E. Squires' contract.

Chairman Birkhauser of the Board of
Public Works said that if the resolution was
approved and the work was ordered done it
simply meant that the streets would be
cleaned over this season and no more.

The levy of half a mill for street sweening.

The levy of haif a mili for street sweeping and repairing pavements amounted to \$28, 395,84. Of this amount \$2,187,92 had been expended prior to March 31. Then there was deducted the sum of \$13,201 for repairs made on asphalt pavements during the year 1801, which left but \$5,400 in the fund.
During the month of March eight miles of streets were cleaned under the provisions of the 10 per cent clause at a cost of \$1,100. Eatimating the cost of cleaning the seventy miles of payed streets at \$80 per mile, the amount would be \$5,690, which would exhaust the fund,

Mr. Birkhauser stated that he had no desire to oppress Contractor Squires but simply wanted him to live up to the terms of his contract. When he took the contract he knew the terms, as he wrote a letter asking if he would be required to clean the streets at \$15 per mile. He was inform would and his bid was with that understand-By the terms of the contract the city was

under obligations to pay Squires \$15,000 for sweeping 1,000 miles of paved streets during the season, and if there was not money in the treasury to pay the bill, he felt sure that Squires would refuse to sweep, but would hold the city for the amount. Another bad feature about cleaning under the 10 per cent clause was this: Fanning & Slavin, the old contractors, had a similar claim for \$12,000, and if Squires was paid they could maintain an action against the

Great Keys

Such as St. Peter carried in pictures, and the rest of us carried in discomfort, went suddenly out of use on the introduction of the famous "YALE" locks. Then some happy people jumped to the conclusion that any small key meant a "YALE" lock. Not so. It's easy to make a worthless lock with a little key, and it takes less metal. Your protection lies in one word. See that "YALE" is stamped on every Key. If that is there, security is there also. Sold wherever locks sell.
