The Al G. Field minstrel company drow and delighted one of the largest audiences that has been in Dohany's this season. Every feature was new, and this, coupled with the fact that Mr. John Merkel, a popular Bluffs boy, was one of the leading artists, accounts for the crowd and the delight. The perform ance all the war through was one of the best that has been given on the minstrel stage in this city this season.

reported that the members of the First Baptist church, or those who have remained members since the recent split, have about decided to extend n call to Rev. T. F Thickstun, the old pastor who was respon-sible for the organization of the society and the building of the present church edifice on the corner of First avenue and Sixth street. It is believed that be can be induced to accept the work and rehabilitate the church.

Mayor Lawrence has determined that the saloons shall not be permitted to remain open on Sunday if there is power enough invested in the executive department of the city government to provent it. The police have received instructions to arrest every person found in an open saloon on Sunday and every person connected with or responsible for its management. This order will be probably carried out and will result in hermetically sealing every place in the city where it has been possible heretofore to get a drink between church services.

Extensive Improvements to Be Made This Summer at Lake Manawa.

ARRANGING FOR THE SUMMER'S RUSH

What is Proposed to Be Done for the Accommodation and Entertainment of Visitors There This Summer-Items from Across the River.

Colonel Reed and others interested in Lake Mauawa and various phases of the popular summer resort have decided that the immediate necessities of the place call for the expenditure of large sums of money and give it out cold that at least \$100,000 will be oxpended there during the year, including the extension and improvement of the motor line. Just what the nature of the improvements will be has not been announced, but the work will be of such a character as to make the place more than ever a permanent pleasure resort. Colonel Reed, S. P. Mac-Connell and others heavily interested have been traveling around a good deal of late and have seen enough of other pleasure resorts and watering places to convince them that Manawa has some advantages that are peculiar to it and abundantly sufficient to justify the expenditure of the large sum mentioned. They are thoroughly convinced that it will become one of the greatest resorts

in the west. Among the Improvements upon which work has already been commenced is the rebuilding of the motor line. New standard oak tion and steel rails are being put in place of the old material. All the old cars have been repaired and rebuilt and the facilities increased by the addition of six new and first class coaches. The line will be extended across the eastern end of the lase and will terminate at Manhattan beach. The track will be laid upon an embankment that will afford a permanent bank for that end of the lake and make a decided improvement, and trains will run through solid to the beach. This will remove a serious objection that many people urged, the trip across the lake in the boats. There will be no curtailment however, of the boating facilities. On the ontrary some new fast naptha steamers wil be put in service.

Nearly all of the improvements contem plated will be completed by the time the sca-son opens in May, and the first visit of the public to the popular resort will afford some genuine surprises.

Exonerated the Railroad Company. The news was received by wire in this city ast evening that the jury in the case of Mrs. Worth against the Chicago, Milwaukee & St. Paul Railread company, which was tried before Judge Shiras in the federal court at Cedar rapids, had returned a vergict in favor of the company. The case was the first of a large number of similar suits that grew out of the accident at Coon Rapids on the 16th of last June, when a passenger train was wrecked by a gang of revengeful Italians and a large number of the passengers in-jured. The suit was for personal damage, the plaintiff alleging carelessness and neglect on the part of the company, and as there are perhaps \$250,000 worth of the same suits in which Council Bluffs and Omaha people are interested the news will be considered of considerable importance. The suit was regarded by the attorneys for both sides as a test case, and the very best efforts of both sides were called out. The company showed by unquestioned evidence that the wreck was caused by an obstruction placed between the guard rails on the bridge approach, and that it was placed there for the purpose o wrecking the train; that the company! employed for the purpose bad passsed over the line forty prinutes before the train proached and found the track clear, and that the accident was due in no sense to any fault or neglect of the company or its employes. This view was sustained all around and a verdict for the company was promptly re

Altogether there are are about \$250,000 of these cases pending, which will probably never come to trial, as the plaintiffs will know that there is no possibility of a verdict in their favor.

was the following astounding original essay on sun spots:

The present sun spot period is the largest since 185), when the principal spot was 149 miles across. Another sun spot era occurred in 1871, and another in 1882, but sometimes they are only seven or eight years spart. Sun spots are caused by the wholesale rush of cold matter into the sun, cooling it off and causing cood weather on the earth. But the weather may fluctuate suddenly and violently, for as soon as the cold natter—the snow slide—that has rushed luto the sun has had time to become conserted into steam and caloric electricity there is a tremendous outburst of heat from old Sol, which is liable to more than make up for the recent coldness, therefore, if they shall soon be nearly exterminated by excessive heat, but the weather may change suddenly and again become cooler, for new sun spots sametimes appear in the holes left by the old ones.

Davenport-Weller, Yesterday was an ideal wedding day, made particularly so by the lowering skies and dripping weather which characterized the day preceding it. It seemed as if the day had been exclusively designed for Miss Ollie Weiler and Mr. Olin Davenport, for at 5 o'clock, at the home of the former's parents, yesterday these two young people were united in marriage, Bishop John P. After the County Seat.

CEDAR RAPIDS, Neb., April 14.- [Special to THE BEE. ]-A mass meeting was held in the city hall last evening in pursuance to a call by the citizens of this place to take measures in regard to building a court house and have the county seat located here instead of at Albion, where it has been located since the organization of Boone county. It is the purpose of the people of Cedar Rapids and the adjoining towns to raise \$50,000. The meeting was called to order and they arranged for a mass meeting of the people of the county to be held Saturday, April 23. At that time the whole matter will be discussed and measures taken to ascertain the sentiments of the people. Great enthusiasm was manifest. Twenty thousand dollars is a.ready guaranteed. There has been no court house built yet, and Cedar Rapids has decided to show its appreciation of the county seat by offering \$50,000 as an inducement to secure its location at this place.

Prospects for Opening the Base Ball Season in Omaha Brighten.

PREPARATIONS FOR THE FIRST GAME

Great Plans Being Laid to Give the Teams a Good Send-Off-How the Favorites at Memphis Flunked -Other Sports,

Jupiter Pluvius, probably in answer to the prayers of Omaha's legion of base ball cranks, was gracious enough to release his grip on the string of the celestial shower bath early vesterday worning, and vesterday gave Old Sol a show for his white alley. And maybe he didn't appreciate and improve it. All day, through fragmentary suds of white clouds, he poured his health-inspiring and all-drying luster and the drifts of the beautiful that embanked the sidewalks and highways gradually but surely disappeared, the ephemeral torrents in the gutters dwindled away to silve threads, and the mud in our beautifully paved streets became dessicated and crusted to the solidity of asphaltum, and last night the fans were all happy and content that the opening of the base ball season would come under favorable suspices on schedule time,

Saturday afternoon.

And it looks more and more as if their fondest hopes were to be realized, as the winds have veered to the south, the temperature is partaking of the languor of real spring, and all indications point to an interval of pleasant weather,

In consequence the management has re-doubled its work of preparation, and by tonight everything will be in readiness for a big send-off Saturday. The St. Pauls will reach here this morning, and in the afternoon indulge in a little needed practice at Sports man's park. Tomorrow afternoon at o'clock the parade will start from in front of Bandle's headquarters, Fifteenth and Farnam streets, and traverse a modified route The procession will first move south to Harney, thence east to Ninth, north to Farnam, west to The Bee building, countermarching to Sixteenth, thence north to Douglas, east to Thirteenth, north to Dodge, west to Sixteenth, where the members of the band will take the cable for the grounds. Once here a delightful open air concert, for which a special program has been arranged, will be given, occapying the time from 2:30 to 3:30. At the latter hour Billy Serad will roll to the pitcher one of Reache's new balls and the season of 1892 will be duly inaugurated.
