The whisky for which the dollar was supposed to pay had already been paid out of sight of the saloonkeeper. Lynch was taken to the police station and put up the right brand of coin he was judged on the charges of drunkenness and passing counterfeit money. He informed Officer Clark, who arrested him, that he had done the same thing before.

The Olive circle, the new dancing club which was recently organized, expects to celebrate its opening with a dance tomorrow evening at party at Hughes' hall. Elaborate preparations are being made for the event and there will doubtless be a large attendance. Refreshments will be served. It is the intention of the club, as soon as the warm weather begins, to give parties every two weeks at Manawa.

A large number of drawings were arranged in the lower hallway of the Washington avenue school building last evening by Prof. Sawyer in order that the members of the board might see what progress the pupils in the drawing classes were making in that particular. Most of the drawings were of the work of boys and girls about a dozen years of age, but their excellence was a surprise to the members of the board and the others who examined them. They reflect great credit not only on the pupils but on Miss Blood, the teacher of drawing, as well.

NEWS FROM COUNCIL BLUFFS.

Ex-Treasurer Groneweg Demands An Investigation from the School Board.

WANTS A FULL SHOWING TO BE MADE.

Willing to Abide by His Record in His Search for Vindication-Committee Appointed to Go Over the Books and Accounts.

All the members of the school board were at the meeting last evening, and a large number of visitors were present, many of whom have interest in the outcome of the election of a new janitor.

Member Wells stated that William Groneweg was present and had something to say to the board. He therefore moved that the rules be suspended and that Mr. Groneweg be allowed to state his errand at once.

The motion was carried unanimously and Mr. Groneweg began. He reminded the members of the board of the fact that on March 11 an anonymous paper had been printed and circulated throughout the city, in which the statement was made that he had been an embezzler of school funds during his term of office as treasurer. The circumstances under which this accusation had been made caused it to become a matter of public importance as well as a matter of the gravest importance to himself.

He therefore asked the board to make an investigation of the charge in order that his reputation for honesty might be vindicated in the eyes of the public. The district could not recover any money that might be found missing, if he chose to rely on his legal rights, for the claim would be out of date by the time it was made.

Wells moved that a committee be appointed according to Mr. Groneweg's request, and that the committee be authorized to secure the services of an expert accountant to go over the treasurer's books. This resolution was carried, and Wells, Snyder and Pender were named as such committee.

Power was also given to it to examine the books of the secretary, and the secretary was directed to bring the books to date and present his bill for what extra work might be found necessary.

A proposition was read from a number of residents of the southwest part of the city asking that two more rooms be added to the Twentieth avenue school house the coming summer. It was referred to the committee on buildings and grounds.

A petition for the addition of four new rooms to the Avenue B school house was granted and the architect was instructed to draw plans.

A petition was brought before the board asking the city to purchase the lot at the corner of Madison street and Kappell avenue, belonging to Charles D. Palmer, for \$1,000, the dimensions of the lot being 11x230 feet. On motion of Mayor the president and chairman of the committee were instructed to buy the lot, provided it could be gotten for \$1,000.

On motion of Wells the salary of the general janitor for the rest of the year was fixed at \$60 per month.

Superintendent Sawyer presented his monthly report as follows: Enrollment, boys, 1,792; girls, 1,894; total, 3,686. He recommended that the flag recently secured be displayed on the grounds of the school on the day on which they were first put up, on the first and last days of school and on the third day of the month.

On the first and last days of school and on the third day of the month, the flag should be hoisted at half mast on the death of a pupil. This recommendation was adopted, with the proviso that the flag in the high school be kept up during the pleasant days of the entire year.

The passage of this motion caused something of a disturbance. Owing to an oversight two motions were allowed to go up before the board at the same time, and that fact was called attention to by Wells. The first motion was for the purchase of the lot at the corner of Madison street and Kappell avenue, belonging to Charles D. Palmer, for \$1,000, the dimensions of the lot being 11x230 feet.

ry. The question whether he had the right or not to demand an indemnifying bond was the subject of an argument before Judge Deemer, Attorney Shea, who appeared for Estes, claiming that the right and County Attorney Groneweg, who did not, as the issuance of the first writ had been direct from the court without an attachment bond. Judge Deemer held that the indemnifying bond could be given and directed the sheriff to hold the property against all comers.

Carried Off the Furniture. Some time between the falling of darkness Sunday evening and dawn Monday morning, most of the furniture in the Bellinger hospital was carried off. It was removed. It was found on investigation that Dr. McLaughlin of the institute and E. J. Bell, who represents a bank at Tilton, Neb., had moved the missing furniture to Omaha to avoid its being attached by Dr. M. J. Bellinger, who held a chattel mortgage on the building in which the hospital was carried on.

When the Omaha Medical institute was closed up the furniture was moved to the Clifton Hill school building, where it was stored. It was carried off by Dr. McLaughlin, E. J. Bell, the latter furnishing the financial backing for the enterprise. The institution has been running for about ten months in this way, and no rent has been paid. A short time ago a disagreement of some kind arose among the members of the company, Bell and McLaughlin claiming the property in spite of the fact that Bellinger held a mortgage on the outfit.

Yesterday McLaughlin and Bell prepared to take away the office safe, which was the only thing left in regard to which there was controversy. In the meantime, however, Bellinger had learned of what was going on, and dispatched a constable to the hospital. He arrived just in time to find the safe loaded with a wagon ready to be taken to Omaha. It was unloaded and taken back into the hospital, and is now in the hands of Bellinger.

It is being made to settle the difficulty, but the parties to the controversy have as yet been unable to come to an agreement as to terms. It is likely to lead to a criminal prosecution of McLaughlin and Bell to take the mortgage property out of the state without permission of the owner.

For Women Only. This invitation is for women only. Men have no interest in April millinery, and are not invited. Women who read THE BEE (and they all do) and who want stylish and becoming spring hats should call on the milliner, Mrs. E. J. Hagdale's millinery parlor, 337 Broadway, Council Bluffs.

Are you going to paint? And did you know that you can save money and get better points at Davis' than any other place in the city? That's a fact.

Home Talent in Music. The Easter concert given by the Sunday school in the First church, which was a complete departure from the usual set program of such occasions. The concert not only had the merit of novelty, but it was rendered in a manner which would have warranted its presentation in the opera house.

Miss Ida Wallace and Miss Winnie Croft had the arrangements in charge, and to them is due much of the success of the concert. steps to give a bond to secure a release of the property. The matter was referred to the committee on buildings and grounds.

Mr. Klauter, chairman of the special committee on ventilation, heating, etc., which visited other cities to gain pointers and information, submitted the report of what was seen and what was thought of it. The report was placed on file and will be taken up and considered at a special meeting.

The finance committee, to whom was referred the complaint of a resident of the Home Fire insurance company, reported that there are but three companies now carrying more insurance on the school buildings of this city than the Home Fire, and that these companies are represented by three agencies; that but sixty-five of the 143 agencies in the city are carrying any of the school insurance, and that an equitable distribution would result in taking away 815.00 of the amount now carried by the Home Fire. The report called for a hearing, but no one appeared, as against a much larger amount paid by many of the outside companies against the complaint was made. The report was adopted.

The committee on buildings and property and the special committee appointed to examine the school buildings, are continuing their work. The report was adopted by a unanimous vote, and it was properly constructed in a good and workmanlike manner. The report was adopted by a unanimous vote, and it was properly constructed in a good and workmanlike manner.

Mr. Poppleton stated that the report was signed by the superintendent, that there was a bill of \$400 or \$500 against the contractor for delinquencies.

Mr. Martin stated that the bill he referred to, and Contractor Mongold's bill for extras amounting to \$206 was read. The board's claim against him amounting to \$206 was also read. The committee recommended that it be deducted.

This was satisfactory to the contractor, and the report was adopted and the bill, less the deductions, was referred to the committee on claims.

WAS IT CONSUMPTION?

This Was the Question that Puzzled the Minds of Many Medical Men.

The important thing in cases where catarrhal trouble causes loss of flesh and strength and the patient has consumptive tendencies is to detect that patient at an early stage of the disease which will restore the defective nutrition.

The reason that so many people die of consumption, which kills about nine out of ten of all who die of disease, is that the warning signs which are given are either not sufficiently informed on this subject, or do not give heed to the information they have, and allow the disease to advance until it is too late. Two-thirds of the deaths from lung trouble might be avoided if the catarrhal conditions which lead to it were treated and cured.

"For five or six years I had a constant and distressing cough. It worried me day and night. Between my shoulders and all through my chest there was always a burning and I raised enormous quantities of thick, yellow matter, and it is yet a wonder to me how I stood it."

"I treat the following Diseases: Catarrh of the Head, Throat, and Lungs; Diarrhoea of the Liver, Gall Bladder, Stomach, Heart Disease, Liver, Complaint, Kidney Complaint, Nervous Debility, Mental Depression, Loss of Manhood, Seminal Weakness, Diabetes, Bright's Disease, Vitiated Blood, Rheumatism, Paralysis, White Swelling, Scrofula, Fever Sore, Cancers, Tumors and Fistula in ano removed without the knife or drawing a drop of blood. Woman with her delicate organs restored to health. Dropsy cured without tapping. Special Attention given to private and Venereal Diseases of all kinds. \$50 to \$500 certificates for Venereal Disease I cannot cure without mercury. Tape Worms removed in two or three hours, or no pain. Hemorrhoids or Piles cured."
