

CLARK WILL LIVE IN OMAHA

The Union Pacific President will have his Headquarters in this City.

BENEFITS EXPECTED BY THE CHANGE

The Union Pacific will keep up with the Progress in the Fast Train Line—Memphis and New Bridge.

The news of S. H. Clark's election as president of the Union Pacific was hailed with joy at headquarters because it is understood to mean that the present sub-officials and employees will continue in their positions untroubled by an unfriendly management. The office flag was run up on the big building at Ninth and Farnam and several boxes of cigars were put on tap by jubilant officials.

WANT ALL TO COME

Memphis People Preparing to Celebrate the New Bridge. The people of Memphis are making great preparations for the coronation attendant upon the opening of the new railroad, wagon and foot bridge across the Mississippi river at that point May 11, 12 and 13.

"This bridge," said Mr. Pettet yesterday "has been under construction for four years. It is the work of the Kansas City, Fort Scott & Memphis railroad, and completed cost \$2,500,000. In a general way it is a great improvement over the old most famous for system, saving eight to twelve hours in transfer of freight and three to eight for passengers. Thus, for northwestern products, seeking export, New Orleans is within a day's ride, and for the south, it is said upon good authority that the Kansas City, Fort Scott & Memphis road is negotiating for a combination with the Georgia Pacific and the Central of Georgia for a direct run from Kansas City to New Orleans."

"The formal opening of the bridge takes place May 12 and will be marked by a splendid civic, military and nautical display. Three naval vessels of the White Squadron have been ordered to Memphis to participate in the ceremonies, the secretaries of navy and war will be present to witness the formal opening of the bridge; Senator Voorhees of Indiana will deliver the dedicatory address, and the ceremonies at the bridge will conclude by a hand shaking between the governor of Tennessee, surrounded by the governors of Arkansas, Louisiana, Mississippi, Missouri, and the governor of Arkansas surrounded by the governors of the west and northwest, with the governor of Arkansas pronouncing a benediction upon the union of the southeast and northwest."

"At night there will be a gorgeous illuminated procession of float illustrations of the history of Memphis from its discovery by the Spaniards in 1541 at the old Indian village of Utter, up to the present day. On May 13th the deep water convention of the Missouri and Mississippi valleys will hold sessions. The object of this convention is to induce commerce to take up the matter of opening the Mississippi river to St. Louis for ocean vessels. This scheme was heartily and unanimously endorsed by the Missouri river rivermen at the convention at Kansas City last December, and the Memphis meeting is simply to pass the matter forward."

"This export business is a matter of great importance to the northwest," said Mr. Pettet, "and the people of Memphis meet us half way in all matters of mutual interest—social and business. We believe, down south, that for prosperity of our section and yours demands, we must meet the other. In the improvement of transportation facilities to our sections we cultivate more or less directly our mutual interests. The northwest, and this is the sole object of my visit to Omaha—to invite your people to come down to this celebration, know us better and consult with us upon our mutual interests."

WILLING TO DEFEND

General Freight Agent Monroe Talks of the Topeka Injunction. "I have been depending on The Bee for information about the indictments found against Union Pacific officials at Topeka," said General Freight Agent Monroe this morning, "and I notice by today's paper, as I suspected would prove the case, that the action is a part of the fight of the interior jobbers of Kansas to get the Missouri river rate on California sugar. The Union Pacific is accused of charging more for a short haul than for a longer one, but it is not alleged that there has been a secret manipulation of rates in favor of one shipper as against another at the same point, and the complaint of the complainant has been an open one for two years, and a similar principle has governed all transcontinental lines. As a matter of fact the bulk of the California sugar carried during the past ninety days has been moved, not by the Union Pacific, but by the other roads. During a hearing before the Interstate Commerce commission two years ago this matter came up and Judge Cooley directed the railroads to make a tariff on California sugar. The railroads at that time willingly acquiesced in a tariff which was the result of the Kansas jobbers' fight. At Los Angeles a few days ago in the San Bernardino case Judge Brown passed on the same principle and sustained the position of the railroads. The Union Pacific therefore thinks it has a good case. No action has been taken by the accused officials nor will there until the papers arrive from Topeka. The only thing to be done at present is to give bail and await the action of the courts."

Another Record Breaking Fast Train. Assistant General Manager Dickerson has decided that the Union Pacific should remain in the race on fast time between Omaha and Denver, and he gave orders to break all records. As a result, the fast mail will carry passengers between those two cities, and this western road will show a speed that ought to make the boatmen's eastern lines shudder for a while. The train will leave Omaha at 4:15 p. m., Fremont, 7:30; Columbia, 8:30; Grand Island, 10:30; Kearney, 11:00; North Platte, 12:35 a. m.; Julesburg, 2:30, and arrive at Denver at 7:30 a. m. It will carry a chair car as a

AFTER TWENTY-FIVE YEARS

Something of Nebraska's Progress During Her Period of Statehood.

FEATURES OF THE COMING CELEBRATION

Lincoln Citizens Have the Hearty Co-Operation of Those from Every Portion of the State—How the Occasion is Regarded.

LINCOLN, Neb., April 28.—(Special to The Bee.)—The general committee having in charge the arrangements for the big celebration of the twenty-fifth anniversary of Nebraska's admission into the union are working night and day to make the event an unqualified success. The general scope of the program has been decided upon and the details are nearly perfected. The principal feature of the celebration, and the one which will attract the greatest attention, will be the industrial parade on the afternoon of the 26th. In this parade it is proposed to illustrate the historical and industrial progress of Nebraska during the quarter century of her existence as a state by means of floats and allegorical tableaux. While a great many of these floats will be designed in Lincoln, the greater number will be contributed by the cities and towns of the state. Over forty towns have agreed to send floats to Lincoln and others are reporting favorably to the project every day. The Lincoln committee will pay all transportation charges for the floats and the prospect for the appearance of several hundred of these floats in the afternoon parade are excellent.

While Lincoln desires to make this celebration a state affair, she has raised all the funds necessary to make it a complete success, and no other city or town in Nebraska will be asked to contribute a dollar.

Gold Treatment Disagreed with Him.

S. J. Odell, a well known citizen of Lincoln, is dangerously ill at his apartments in the Webster block. He has been taking the gold treatment for the liquor habit at one of the local establishments since Monday evening. He remained at the institute until Wednesday morning, when he returned home. During Wednesday he visited the institute several times for treatment and was given a bottle of whisky to take home with him, as is the general practice with all patients. He took one drink of the liquor and became alarmingly ill almost immediately. During last night he passed from one convulsion to another and needed the constant attention of his friends. His friends report his condition as somewhat improved this evening.

Omaha Case in Supreme Court.

The case of Annie McLaughlin against the city of Omaha was argued in the supreme court today. The plaintiff alleges that on June 19, 1883, she purchased lot 1, block 51, in Omaha, and has been in possession of the same ever since. She has never received any notice of the grade established by the city engineer prior to her purchase. On March 30, 1889, the city established a new grade, and as a result her home has been rendered practically inaccessible from the street. She sued the city for damages in the amount of \$5,000, but the lower court decided to see it in that way. She brings the case to the supreme court on error.

Mr. Bryan Will Oppose It.

Brad Cook, secretary of the Lincoln Union Veterans club, has received the following letter from Congressman Bryan in response to the resolution recently adopted protesting against the proposed appropriation of \$100,000 to defray the expenses of the Grand Army of the Republic national encampment at Washington, D. C.:

My Dear Sir: The resolutions passed by your club have been received and presented to the committee. I have no objection to your side, and that will be able to defeat the proposition. I have telegraphed Mr. Bushnell, who spoke to me in Lincoln in regard to the matter, to send on the delegation not to speak at the encampment, and I am sure you may rest assured that no effort will be spared to prevent that occurrence. Very truly yours, W. J. BRYAN.

From the Police Court.

Alfred Johnston was arraigned this morning on the charge of stealing a horse Thursday night. He urged in his defense that he was drunk and drove the horse away without knowing what he was doing. The charge was dismissed, but he was held for drunkenness.

Sued the Burlington for Damages.

Mrs. Elizabeth Hyatt has sued the Burlington Railroad company for \$10,000 for injuries which she claims to have received by that company. She alleges that in April, March she bought a ticket from Lincoln to Tamora, in Nevada county. When she arrived so kindly she was on the train started up before she could alight in her fear of being carried by the jumpy, and in so doing sprained her ankle and received other injuries which have permanently disabled her. She alleges negligence on the part of the company.

Lineal in Brief.

Officer Bortram today quarantined cases of diphtheria at 1437 Poplar and 1621 G streets. Mrs. Hancy filed a complaint with Judge Lansing this afternoon charging her 10-year-old daughter Rose with diphtheria. "Eye is a pretty girl with a penchant for waywardness, and as her mother alleges, frequently threatens to enter upon a life of sin."

The Students of the State University whose political sympathies are with the people's independent party have organized a club with H. H. Graham, H. Holden and W. Pearson as president, secretary and treasurer respectively.

A three mile bicycle race between Lily Williams of Omaha, Miss Laporte and "Beauty" Baldwin commences in this city this evening. The Sois of Nebraska club was organized last evening. Its membership is made up of young men who acknowledge Nebraska as their native state.

Rev. Wm. Hollinshead.

Pastor of the Presbyterian church of Sparta, N. J., voluntarily writes strongly in favor of the S. S. Fair. He says: "Nothing I know of will cleanse the blood, stimulate the liver or clean the stomach like this remedy. I know of scores and scores who have been helped or cured by it."

METHODIST GENERAL CONFERENCE

At Omaha, May, 1892. For the accommodation of those desiring to visit at points east of, in the vicinity of or at Omaha, during May, the Union Pacific will sell tickets at one fare for the round trip. Tickets on sale April 25 to 30 inclusive, limited to June 1, 1892.

For tickets or additional information apply to your nearest agent Union Pacific system.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Another Record Breaking Fast Train.

Assistant General Manager Dickerson has decided that the Union Pacific should remain in the race on fast time between Omaha and Denver, and he gave orders to break all records. As a result, the fast mail will carry passengers between those two cities, and this western road will show a speed that ought to make the boatmen's eastern lines shudder for a while.

SIMPLY because we put thirty or forty handsome new spring shades in men's suits in our window this morning, that don't make spring window shades of 'em does it

For six years—constantly—continually—every day—in and day out—Sunday's excepted—through the columns of The Bee—we've endeavored to impress upon you two facts; that we carry the very best class of ready made clothing manufactured in the whole United States—and that we are in a position to—and do—give you more value for the price than you can get of any other house—east or west. We have tried to impress you with these facts—not only in newspapers but in our transactions with you. We have sold you good goods. Not in all our immense stock of men's clothing do we carry one single solitary satin or shoddy suit—not one. Not many clothing houses—big or little—can truthfully make that statement. Every garment that we offer for sale is honest—has honest goods in it—is honestly made—is honestly trimmed—will wear honestly—and is marked with an honest price. Today we make a notable offering at special sale of

A Thousand Suits of Clothes.

Like the man who started out in the morning wearing a linen duster trimmed with fur collar and cuffs so as to hit any kind of weather—we've compressed in this offering such a range of prices, materials and styles as to hit any sort of a man with any sort of a suit. There are sacks and cutaways—cheviots, worsteds, cassimeres, serges—all wool and silk and wool—plaid, plaids, stripes and checks—dark medium and light colors, in all sorts of shades (except "departed shades")—coats lined and half lined. The prices at which these suits will be offered and sold are

\$5.25----\$11----\$14.50 ----\$17.00----

If the weather don't suit you-- we can.
