LINCOLN, Neb., May 6 .- [Special Telegram to Tim BEE, |-Lincoln won today's game from Beatrice, but the umpire gave it to the latter club. It was this way: In the first half of the seventh inning the score stood 2 to 1 in favor of Lincoln. The ball was knocked over the fence and under the rules the captain of the Beatrice team demanded a new ball, which the manager of the Lincoln team declined to furnish, claiming that the bail he did offer had been accepted, and had been in play earlier in the game. The umpire thereupon gave the game to Beatrice, much to the disgust of the crowd in the grand stand, who fuiled to appreciate such nice discrimination when their own team was in the lead.

In other respects the game was a flue exhibitton of ball playing and equal to any ever played on the grounds. The score:

Earned runs: Beatrice, I. Hits: Lincoin, b: Beatrice, 5. Two-base bits: Fear. Taylor, Howe. Struck out: Ostone, 4; Howe, 3. Bat-teries: Castone and Fear: Howe and Jones. Umpire: Hart.

Mr. Lowry in the chair, for the purpose of considering the proposition of the Nebraska Central Railway company. All the ordinances and papers filed in connection with the proposition were read by

the clerk. Recommended the Passage of the Ordinance After the ordinance granting right of way

had been read President Davis moved that when the committee arise it recommend the passage of the ordinance. "We can't pass the ordinance," remarked

a member. "That's true," answered Chairman Lowry

This is an adjourned meeting, but we can have matters ready for final action next Tuesday night," President Davis' motion was put by Chairman Lowry and carried by a unanimou

vote. The next thing in order was the reading of the ordinance calling a special election for May 31, to vote upon the proposition of issuing \$250,000 of 414 per cent, 20 year bonds, to aid the Nebraska Central Railway company in the construction of its bridge over the river at the foot of Cass street. Mr. Edwards moved that Vice President

Dumont be invited to a seat within the rail. President Days wanted the city attorney and the engineer to be appointed as members to concur as to the expenditure of \$400,000 on the union depot.

Mr. Lowry stated that it was a mistake, that each member had not been furnished with a copy of the ordinance. Mr. Prince asked City Attorney Connell if he had consulted with County Attorney Ma-

honey in the preparation of the ordinance. Mr. Connell replied that he had all of the county attorney's papers before him when

the ordinance was drafted. "Is this ordinance as stringent as the agreement with the county !! asked Mr Prince of the committee on railroads. President Davis asked if the ordinance

was legal and binding. Mr. Connell replied that it was legal but not as stringent as it could have been made He thought the city's interests were pro

tected. Mr. Prince stated that the city's interests were protected. He did not think it would be well to have the ordinance in such a shape that it could not be accepted. Mr. Elsasser remarked that the bonds being

in payable in New York City would force all actions into the federal courts, should such actions ever be brought. He wanted the bonds psyable in Omaha/ Mr. Steel said that talk was all bosh. The

bonds would remain in 10maha until they were earned, and then it did not make any difference where they were payable. Mr. Edwards said it was a subject of great

importance and he could not see why there was so much haste in pushing the ordinance Mr. Elsasser was of the opinion that there were many things in the ordinance that he could not understand. He could see no clause providing for reaching the stock yards of South Omaha.

Mr. Chaffee explained that that condition was in the agreement with the county. South Omaha was out of the corporate limits of Omaha and the agreement with the city could not effect it. Vice President Dumont then read from the

ward councilman name the kind and number Inghts needed. The roll was called and the result was as Friends of the Kentucky Senator Pushing Him for a Presidential Nomination. First ward, six electric lights, thirty gas and sixty gasoline lamps. Second ward, six electric lights, thirty gas and sixty gasoline lamps, Third ward none Fourth ward, six electric and forty gas Fifth ward, three electric lights, twenty

gas and sixty gasoline lamps. Sixth ward, ten gas and 140 gasoline lamps. Soventh ward, ten electric lights, twenty-five gas and fifty gasoline lamps. Eighth ward, sixteen gas ismps. Ninth ward, twenty-five gas and seventyfive gasoline lamps. That was a total of thirty-one electric

intended to be used for expenditures not provided for by levy. Mr. Prince moved a roll call and that the

lights, 196 gas and 425 gaseline lamps. Mr. Chaffee said that on the first of the rear \$1,500 had been taken from the lighting and and transferred to the general fund He wanted to know if that could not be put back into the lighting fund. City Attorney Connell replied that the general fund was a fund that was at the dis-

posal of the council. Mr. Chaffee moved that \$15,000 be taken from the general fund and placed to the credit of the lighting fund; that the commit-

tee on gas and electric lights confer with the Thomson-Houston Electric Light company and learn what that company will charge for additional arc lights, and that each ward be allowed the number and kind of lights and lamps selected by the respective ward councilmen.

Mr. Lowry replied that it was a very small bored man who would kick on a few lamps. Mr. Conway said that if there was as much gas outside as there was in the council chamber the streets of Omaha would be as

light as day. The report of the committee was adopted and the apportionment stood. Then the council adopted the report of the committee of the whole and voted to pass the Nebraska Central ordinance at its nex

neeting. The Ketchum Furniture company was instructed not to send any more furniture until further notice.

It will be some days ere the public will know just how C. E. Squires got his \$5,000 warrent out of the comptroller's office, as the committee appointed to investigate the nat-ter will not be able to report next Tuesday night. Last Tuesday night Mr. Chaffee was appointed chairman of a committee to in-vestigate this matter. Last night Mr. Chaffee stated that he had to leave the city and wanted more time in which to report. The request was granted.

Mr. Elsasser introduced a resolution com-pelling all companies and corporations using electricity for power or lighting, to put their wires on red glass insulators. The ordinance was read twice and referred.

Will Vote for the Ordinauce Mr. Elsasser said that he would vote for the passage of the ordinance, as he believed the matter should be submitted to the people

of the city. Mr. Dumont said the trouble had been not what it cost to get goods in and out of Omaha, but how to get them. The plan that he had prepared, he suid, was adequate for many roads to reach Omaha. It was usual to have a railroad man on the committee, but the company waived that custom, he said, by leaving the whole matter in the hands of the three judges, who would be fair and impartial.

Mr. Edwards wanted to know why it was necessary to hold the election as soon as May 31

Mr. Dumont replied that the matter had hung fire for five weeks and his people felt anxious to get to work for the purpose of doing something. He felt that each day's delay was a day lost, as later in the season it might be more difficult to make contracts. Mr. Edwards was afraid that the Union
