THE OMAHA BEE. NEWS FROM COUNCIL BLUFFS

Congressman Thomas Bowman Refuses to Accept a Renomination.

YET HE THINKS THE NINTH IS ALL RIGHT

There Are Many Democrats, However, Who Have Little Faith in Their Party Carrying the District at the Approaching Election.

That Hon. Thomas Bowman will not be in the race as a candidate for re-election to congress seems to be a pretty well determined fact from the contents of a card which he issued yesterday for circulation over this

congressional district. The card reads as follows: "To the Democ racy of the Ninth District-Having been impertuned by many of my constituents to become a candidate for re-election I desire to state here and now that I do not intend to aspire to a re-election nor will I accept of a renomi nation. Situated as I am my private business demands my undivided attention and I can only continue in public office at a great personal sacrifice. This is the only reason that prompts me to decline a renomination. As regards the sucess of the party in this district the coming fall I have not the least doubt. The Ninth district has an amplitude of available men, any one of whom can be elected. The trend of public sentiment is toward derocratic principles. There is nothing ephemera pout the great tidal wave that swept across

"The revolution in sentiment is growing and the outlook for a sweeping victory, both as to the congressional and presidential tickets, was never brighter. In no place is the change mere firmly engrafted into public scuttment than in this district. A wise romination must of necessity be fol-lowed by success. It is with the ut-most confidence of party success in this district that I tender my declination to be a car didate. In conclusion I desire to return my sincere and humble thanks to the people o this district for the bonors they stowed upon me, and while I will not be a candidate, I will do all I can to accomplish the election of a democrat as my successor.

* THOMAS BOWMAN. The meaning of this card has become the subject of many inquiries, both by democrats and by republicans. The republicans are not and by republicans. The republicans are not disposed to take Mr. Bowman as meaning precisely what he says so far as his reason for withdrawing is concerned. So far there have been four men prominently mentioned by the republicans for that position, Judge Walter I. Smith, Judge H. E. Deemer of Red Oak, George F. Smith and Major H. G. Curtis of Atlantic. The fact that Mr. Bowman was the first democratic congressman to be elected from the Ninth istrict, and that he owed his election tially to local tially to local causes and circum-stances which might not have the same veight in the coming election as in the last is thought by many to have more to do with Mr. Bowman's decision than his lack of time. At all events, however, Mr. Bowman, who is considered the strongest man the ocrats could put up, is out of the race, and it remains to be seen who will be se ected as standard bearer for the democrats of the Ninth congressional district in the coming campaign.

A Splendid Endorsement.

Everybody in Council Bluffs knows George H. Meschendorf. He is one of our most enterprising business men and a very successful one at that. Mr. Meshendorf, like all human beings, is not without his faults and his greatest one was drinking. To a reporter yesterday he recited the facts which coroborate his statement given below, as follows:

COUNCIL BLUFFS, April 29, 1892.-1, he undersigned, am engaged in the meat market business in which I am quite extensively interested in Council Bluffs and Omaha and have been for the past twenty-six years. I finally contracted the liquor habit, so much so that nothing less than from five to thirty glasses a day would satisfy me. Feeling was injurious to myself, my family and my business I sought the aid of the Blanchard Gold Cure. After treating for the past twenty days am thoroughly satisfied that I am absolutely cured of the worst habit that man can acquire. The treatment left me robust and in the best of health and today liquor is distasteful to me. Therefore, I cheerfully recommend the Blanchard institue, 555 Broadway, Council Bluffs, to my many

friends of this city and Omaha. GEO. H. MESCHENDORF.

Death on a Hand Car. A terrible accident took place yesterday norning about 7 o'clock at Stanton, a small way station seventy miles east of Council Bluffs, on the Burlington road. An engine its way back in charge of a railroad erew of he Burlington. In rounding a sudden curve the engineer was appalled to see a hand car with six men on board coming directly toward him and hardly 100 feet away. The engine was going at the rate of thirty miles n hour or more and it was impossible for i to be stopped for the men on the hand car to get out of the way in time, to avert the impending danger. A collision took place, the hand car was hurled from the track and all out two of its occupants became the victims of the iron wheels. Two of the men were killed outright and the physicians who were summoned to attend the others pronounced

the recovery of two more impossible. Veterans, Attention.

On the occasion of the department en sumpment of the G. A. R., to be held at Ottumwa, commencing May 10, the C. B. & Q. will sell tickets at one fare for the round trip. For particulars call on O. M. Brown,

MET A NICE FELLOW. Experience of a Tacoma Banker Who Was

Robbed in London. [Copprighted 1892 by James Gordon Bennett.] LONDON, May 6.—[New York Herald Cable -Special to THE BEE. | - With the influx of Americans to Europe come the usual stories of confidence games, thievery swindles practiced on the unsuspecting chil dren of freedom. I have just seen a warrant that has been issued from the Bow street police court for the apprehension of one H Stanley Brown, an American who came over in the Servia three weeks ago. He name, with the exception of first initial was the same as that of the late President Garfield's son-in-law, and many passengers supposed him to be that gentleman. He became very popular on board, particularly so with T. V. Walter, a Tacoma

banker. A few days ago Brown stole from Walter's overcoat pocket a letter of credit for \$2,500, a number of railroad passes and other valuable papers. The thief, who had previously made himself known at Gaze's tourist office under the name of Walters, called there on Mon-day, presented the stolen latter of credit, showed Waiters' railroad passes as a guar-antee of his genuineness, procured a first class ticket to Ireland and received \$125 in cash. Gaze loses his money and Walters his letter of credit and passe). The police think the third will have considerably reduced the amount of the letter of credit before he gets through with it. BIUMENFELD.

Brief Foreign Notes.

[Copyrighted 1892 by James Gorden Bennett,] BRUSSELS, May 6.—[New York Herald Cable-Special to THE BEE. |-Twenty-one supposed dynamiters are now in custody at Liege, but others are still at large, as last night an explosion occurred nine miles from Liege at the Chateau Hambroux, the residence of M. Paques, a wealthy landed pro-prietor and burgomaster of Alle-Heined. The family escaped unburt. The mansion

was slightly damaged.

Berlin, May 6.—|New York Herald Cable

ALL READY FOR THE VOTERS

Nebraska Central Ordinance as Good as

Passed by the Council.

WHAT THE COUNCILMEN THINK OF IT If the Mayor Lends His Approval It Will Go to the People-Gasoline, Gas and

Electric Lights and Other Matters Discussed.

If the mayor lends his approval, the voters of Omaha will have an opportunity of casting their ballots for or against the proposi tion to issue bonds to the Nebraska Central Railway company in the sum of \$250,000 to ald in the construction of its road and bridges, for the council has agreed to pass the ordinance at its next meeting and call a special election to be held on May 31.

When the council convened last night there were eighteen memuers who were in attendance. The first thing that the council did was to go into committee of the whole, with Mr. Lowry in the chair, for the purpose of considering the proposition of the Nebraska Central Railway company.

All the ordinances and papers filed in connection with the proposition were read by the clerk.

Recommended the Passage of the Ordinance After the ordinance granting right of way had been read President Davis moved that when the committee arise it recommend the passage of the ordinance. "We can't pass the ordinance," remarked

a member. "That's true," answered Chairman Lowry This is an adjourned meeting, but we can have matters ready for final action next Tuesday night.

President Davis' motion was put by Chairman Lowry and carried by a unanimous

The next thing in order was the reading of the ordinance calling a special election for May 31, to vote upon the proposition of issu-ing \$250,000 of 4% per cent, 20 year bonds, to aid the Nebrasica Central Railway com

pany in the construction of its bridge over the river at the foot of Cass street, Mr. Edwards moved that Vice President Dumont be invited to a seat within the rail President Davis wanted the city attorney and the engineer to be appointed as members o concur as to the expenditure of \$400,000 on the union depot.

Mr. Lowry stated that it was a mistake, that each member had not been furnished with a copy of the ordinance. Mr. Prince asked City Attorney Connell if he had consulted with County Attorney Mahoney in the preparation of the ordinance.

Mr. Connell replied that he had all of the

the ordinance was drafted. "Is this ordinance as stringent as the agreement with the county!" asked Mr. Prince of the committee on railroads. President Davis usked if the ordinance

county attorney's papers before him when

was legal and binding.
Mr. Cennell replied that it was legal but not as stringent as it could have been made He thought the city's interests were pro-Mr. Prince stated that the city's interests were protected. He did not think it would be well to have the ordinance in such a shape

hat it could not be accepted. Mr. Elsasser remarked that the bonds being in payable in New York City would force all actions into the federal courts, should such actions ever be brought. He wanted the bonds payable in Omaha. Mr. Steel said that tal was all bosh. The

bonds would remain in Omaha until they were earned, and then it did not make any difference where they were payable. Mr. Edwards said it was a subject of great importance and he could not see why there was so much haste in pushing the ordinance. Mr. Elsasser was of the opinion that there were many things in the ordinance that he

could not understand. He could see no lause providing for reaching the stock yards of South Omaha. Mr. Chaffee explained that that condition with the count outh Omaha was out of the corporate limits

of Omaha and the agreement with the city could not effect it. Vice President Dumont then read from the agreement with the county, showing that provision was made for reaching South Omaha.

Will Vote for the Ordinance. Mr. Elsasser said that he would vote for

he passage of the ordinance, as he believed the matter should be submitted to the people of the city. Mr. Dumont said the trouble had been not what it cost to get goods in and out of Omaha, but how to get them. The plan that he had prepared, he said, was adequate for many roads to reach Omaha. It was usual to have a ratiroad man on the committee, but the company waived that custom, he said, by leaving the whole matter in the hands of the three judges, who would be fair

and impartial. Mr. Edwards wanted to know why it was recessary to hold the election as soon as Mr. Dumont replied that the matter had nung fire for five weeks and his people fel

anxious to get to work for the purpose of doing something. He felt that each day's delay was a day lost, as later in the season it might be more difficult to make contracts.

Mr. Edwards was afraid that the Union Pacific would buy the franchise Mr. Chaffee said that if the Union Pacific did buy the franchise it would have to carry

out the provisions of the contract.
Mr. Edwards answered that with the \$750,000 the Union Pacific would build the ridge and the union depot.

Mr. Chaffee replied that if the Union Pa cific did this very thing it would have to stand by the terms of the contract, or no get the bonds.

Mr. Jacobson said that it was the duty o he council to submit the question. the voters did not think it was a good thing hey could defeat it at the polls.

Mr. Conway wanted to see the bridge built, "but," said he, "I am not in favor o

ouilding a foot of road into prohibition Mr. McLearie thought the line should be built into Nebraska instead of 100 miles into

Mr. Specht was of the opinion that if the eastern roads were brought into Omaha they would soon find a western outlet. that if the bonds were made payable in New York, Omaha world have to go there to fight, if any should ever occur. City Attorney Conneil replied that that was inmaterial, if any suit was ever brought it would have to bacommenced in Nebraska. Mr. Jacobson moved that in the matter of

Mr. Jacobson moved that in the matter of election expenses the Nebraska Central Rail-way company deposit \$5,000 in cash and a hond for \$5,000 to cover any additional ex-penses. The motion prevailed. Mr. Steel offered a resolution that when the president and the treasurer of the rail road company furnished proof that \$400,000 had been expended in the completion of a union depot, the expenditure should be certified to by the city engineer and ap-proved by the city attorney. This was

John D. Howel wrote a letter stating that the city should provide for a maximum bridge rate. He also said that the city should extend its authority over the lowa

lines. Vice President Dumont answered the letter. The answers were the same as those given to the members of the county board, Mr. Dumont said that the mayor and the members of the city council had authority to make complaints to the arbitrators.

They All Voted "Aye." Mr. Chaffee moved that when the commit tee arise it recommend the passage of the ordinance as amended, and then all of the members voted "aye."
Having finished and disposed of the rail-

Having mished and disposed of the ran-road question, the council went on a funt for some light. A few of the members wanted to go home, but the majority held them. They wanted to dispose of how, when and where the 500 gasaline lamps were to be distributed by the council. Mr. Munro wanted to know where the money was to come from to pay for the new lamps. He wanted to know if some cash to lamps. He wanted to know if some cash to pay for lighting could not be taken from the

general fund. City Attorney Connell said that in his opinion mensy could be taken from the gen-eral fund, although the charter probibited any such transfer as the general fund was

intended to be used for expenditures not provided for by lavy.

Mr. Prince moved a roll call and that the ward councilman name the kind and number of lights needed.

The roll was called and the result was as follows: First ward, six electric lights, thirty gas and sixty gasoline lamps.

Second ward, six electric lights, thirty gas and sixty gasoline lamps.

Third ward, none. Fourth ward, six electric and forty gas

Fifth ward, three electric lights, twenty

gas and sixty gasoline lamps. Sixth ward, ten gas and 140 gasoline lamps. Seventh ward, ten electric lights, twentyfive gas and fifty gasoline lamps,

Eighth ward, sixteen gas lamps. Ninth ward, twenty-five gas and seventy five gasoline lamps.

That was a total of thirty-one electric lights, 196 gas and 415 gasoline lamps.

Mr. Chaffee said that on the first of the year \$1,500 had been taken from the lighting nd and transferred to the general fund

He wanted to know if that could not be put back into the lighting fund. City Attorney Connell replied that the general fund was a fund that was at the dis posal of the council.

Mr. Chaffee moved that \$15,000 be taken

from the general fund and pieced to the credit of the lighting fund; that the committoo on gas and electric lights confer with the Thomson-Houston Electric Light company and learn what that company will charge for additional are lights, and that each ward be allowed the number and kind of lights and lamps selected by the respective ward

Kicked on the Apportionment. Mr. Steel kicked upon the apportionment.

The Second ward had more than its share of lamps.

Mr. Lowry replied that it was a very small ored man who would kick on a few lamps.

Mr. Conway said that if there was as much gas outside as there was in the council chamber the streets of Omaha would be as

light as day.

The report of the committee was adopted and the apportionment stood. Then the council adopted the report of the mmittee of the whole and voted to pass the Nebraska Central ordinance at its next

The Ketchum Furniture company was instructed not to send any more furniture until further notice. It will be some days ere the public will know just how C. E. Squires got his \$8,000 warrent out of the comptroller's office, as the

committee appointed to investigate the matter will not be able to report next Tuesday Last Tuesday night Mr. Chaffee was appointed chairman of a committee to investigate this matter. Last night Mr. Chaffee stated that he had to leave the city and wanted more time in which to report. uest was granted.

Mr. Elsasser introduced a resolution com pelling all companies and corporations using electricity for power or lighting, to put their wires on red glass insulators.

The ordinance was read twice and referred.

Calabosa Taken and Palacio's Finest Troops

Routed with Great Loss. (Comminhed 1892 by James Gordon Bennett.) BARCELONA, Venezuela (via Galveston, Tex.), May 6 .- [By Mexican Cable to the New York Herald-Special to Tun Bun.]-The secret of Crespo's hesitancy is out. He has been awaiting arms. From Lavela has come a message to the chieftains that Coro was assame with revolution and the Falcon ites were armed. This indicates that the vessel of which I cabled Saturday as having landed her cargo on the coast somewhere in the vicinity of Puerto Zamora, carried the material needed by the rebels in Coro. Coro is the northeastern district of Falcon and was formerly the state of Coro. The departure of Aranjo from Carabobo into Los Andes is now clear. He has probably crossed over into Coro to help organize the rebellion there. General Colina's departure from Caracas was for the purpose of acceptng the leadership of the Coro revolutionists The men from Pacaya and Cabure are mounted on mustangs and armed with machetes and lances. They prefer to fight with these weapons as they "never miss fire."

Deceived the People. The state of things is horrible," say Aranjo in a message to Crespo, "When the trouble first showed itself Palacio's agents came to Vela and stated that in a week or two the rebellion in Zamora and Caratobe would be crushed. Merchants proceeded with their business and now they find that they have sustained severe losses, Now comes the rising in Coro, and everywhere are heard imprecations against the dictator. Be assured that Coro is in arms. Colina

will take command." Tue killing of Quenedo at Las Teques has so aroused Palacio that a strong force of feueralists has been stationed there. The goveraists has been stationed there. The government troops are numerous there. They are waiting for further reinforcements which have been promised from Caracas. After the arrival of the column from the latter city they will march to the aid of Los Victoria, providing that the insurgent general does not throw his line between the wo cities. Guerre is massing his forces north of Vic

oria and west of Tueques to prevent any assistance reaching the former place. Insurgents Generally Victorious. I have just received important information which, strange enough, comes by way of Caracas instead of the insurgent camp near

san Sebastian. The news received is to the effect that Calaboso has fallen.
The mystery surrounding Casanasis solved at last and there is no is solved at last and there is no doubt that the commander-in-chief of the government's army is a prisoner in the hands of the insurgents. He has held himself well at Calaboso, but as I predicted nearly two weeks ago, the end had to come as it did. Calaboso and its comments are the comments and the comments are the calabose and the comments are the calabose. as it did. Calaboso and its commandant were not taken without a show of resistance, but constant desertions and the want of supplies had so weakened the government troops that to hold out against the resolute forces which opposed them was no longer possible. Rumors of this disaster to the flower of Palacio's army have been coming in for several days, but they were discredited. Meager details mention a fight in which the nationalists were driven into the city with the insurgents fol

lowing and taking possession.
It will take several hours before I can get positive information and will take all day riding to send it to where it can be placed upon a wire.
Look out for the fall of Valencia very soon

Calaboso is several days removed from the depot of information.

DEATH OF A GREAT MUSICIAN.

M. Guerand, a Native of New Orleans, in Paris Yesterday. [Capprighted 1892 by James Gordon Bennett.]
Paris May 6.—|New York Herald Cable-Special to THE BEE |- Nothing positive is yet known in regard to the ministerial crisis

in Italy. The French musical world has just suffered a great loss in the death of M. Guerand, who passed away this afternoon. He was born in New Ocleans in 1837, his father being a French professor in that city.

Though he was never very successful as an operatic composer M. Guerand was considered one of the greatest authorities on the greatest authorities on the greatest authorities of the greatest authorities authorities of the greatest authorities authorities authorities authorities authorities authorities au music in France. He had completed severa operas, and he has left not a few unfinished At the time of his death he was engaged at work on "Kassia," a posthumous opera by Delibes. As a musician he was noted for his exquisite taste, and in the artistic world of Paris he was highly esteemed.

MEDICAL SPOILS SYSTEM

Meaning the Old-Pashloned Combination Between Doctor and Druggist - What Drs. Copeland & Shepard Have Accomplished in Doing Away

The article contained in these columns last week regarding the conditions existing between some doctors and druggists, concerning which THE BEE made some pointed and pertinent editorial comment, has awakened more o less interest in the matter. In this connection the following plain, straightforward statements may not be out of

Why do Drs. Copeland and Shepard have their own laboratory and dispense their own drugs?

There are several reasons: [1] Because no two droggists in the ity would be enpable of filling the prescriptions from their offices on any day

of their practice. [2] Because Drs. Copeland and Shopard would not trust the filling of their prescriptions to any outsider. Every bottle of medicine that goes from their offices or laboratory is compounded and prepared under their direct and personal supervision, which accounts in a great measure for their success.

These two statements alone would anwer the question; but there is another answer that goes deeper into the matter than either of these, and involves some thing that is very important to the pa tient-his pocketbook. Next to a healthy condition of the body, mind and spirit, it is right to regard as of paramount importance the matter of money Drs. Copeland & Snepard compound

by so doing they save their patients every month an absolutely incalculable amount of money. Now, by buying their drugs direct rom the manufacturers, Drs. Copeland & Shepard are able to furnish p escriptions to their patients at absolutely wholesale rates. This makes it pessible for them to place their treatment within the reach of all. This makes the rate

medicines a possibility. We are prepared to say that, in the majority of cases, the system involves an arrangement between the doctor and the druggist -- a sort of division of spoils -by which the doctor receives a commission --- a kind of rake-off, as it were, for every prescription he sends to the druggist, thus being paid practically twice for his services, once directly by the patient, and the second time indi rectly by the druggist, the patient, however, being the financial victim in both

operations. Let us answer the question then in conclusion in detail. Drs. Copeland and Shepard dispense their own drugs; first, because their practice is so large that their patients could be supplied with proper medicine in no other way; second, because by this plan they are able to give better prescriptions. satisfactory medicines and purer drugs; third, because by personal supervision they can prevent the blunders and mis takes which occur so often in the old fashioned prescription system; fourth, because they are able in this way to save patients, legitimately practically, a very large sum of money.

AN OFFICER'S STORY.

Catarrh and Quinsy—After Fifteen Years He Got Relief-The Gratifying Results of Skilful Treatment Well

Exemplified. [Men who are exposed to all kinds of weather, day and night, are peculiarly limble to catarrh and chest troubles. The changes from heat to cold, and from moist to dry weather. from heat to cold, and from moist to dry weather, induce irritation of the nose and throat that leads to permanent disease of these parts. Catarrhal symptoms first affect the mose and then extend to the throat and bromehal tubes. The tonsils often enlarge and remain so; they are tender and spongy, and nearly fill the throat, affecting the volce and inducing an annoying cough. On taking cold they swell and inflame, fill the throat and are intensely painful. Headache, throatache and duliness of hearing are frequently grouped in these cases. Neuralgias, bronchitis and poor appetite are to be looked for.]

Officer S. S. Drummy is a popular and efficient member of the Omaha palice force, resid-ing at 1707 S. 12th street. In a recent interview the officer says:

"My trouble dates back fully fifteen years I suffered from catarrh. My nose was stopped up and gave me great annoyance. Hawkin: and spitting to clear my throat was always necessary. I also ha dsevere pains in the sid of my head and face, which at times were al most unbearable. I had a tired feeling every morning and did not feel at all like stirring about or going on duty. I had no appetite for breakfast and the sight of food almost gagged me. The most distressing thing was that every winter 1 had frequent attacks of quinsy, or tonsillitis. My tonsils would swell and get in flamed, paining me terribly and nearly preventing breathing or swallowing. These attacks gave me great distress and interfered badly with my duties as a police officer. For Officen years I had this affliction until receiving treatment from Drs. Copeland & Shepard

OFFICER S. S. DRUMMY last winter and I am glad to state that the winter has passed without any return of this dreadful condition that for fifteen years had not failed to visit me. The treatment I received from Drs. Copeland & Shepard was ben eficial in every way and produced the most gratifying results. I hearthy command then as successful physicians in chronic diseases.
