SHOT GUN EXPERTS AT WORK Meeting of the Sportsmen at Grand island Attended by Many Crack Shots.

PARMELEE WINS THE MAYNE BADGE

Very Rapid Shooting Marks the Day-Only One Western Game Played-National League Contests-Other Sporting News.

GRAND ISLAND, Nob., May 10.-[Special Telegram to THE BEE,]-At 8:30 this morning, when the sixteenth annual tournament of the Neuraska State Sportsmen's association opened at the fair grounds, nearly 100 marksmen, from all parts of the country, were present. Some of them had aiready arrived on Sunday evening, anxious to take part in what augurs well to be the most successful shoot ever held in the state. The citizens have contributed freely to the purses, and the amount for that purpose exceeds the amount distributed at any previous shoot in the state.

When such men as Budd of Des Moines, Parmeiee of Omana, Heikes of Chicago, Grim of Cicar Lake, Ia., Merritt of Milwaukee, Bray of Syracuse, Wilson, Eber hard and Dawel of St. Joseph-and scores of others who well deserve special mentionwhen such men hasten to the scene of contest, a good, sharp shoot can be confidently looked for. Then, too, almost all the clubs which constitute the state association, the two of Omaha, Lincolo, Syracuse, Sutton. two of Omaha, Lincoln, Syracuse, Sutton, Columbus, Kearney, Staunton, Frement, Platismouth, Nebraska City, Hastings, Holdrege, Minden, Shelton, Arapahoe, Nor-folk, Broken Bow and York are represented by their best shots. This makes a remark-able gathering of shot gun ability, and no effort will be lost on the part of the local club the make this an examplary meeting. club to make this an exemplary meeting. Two pairs of the Cross Gun company's electric traps will be constantly in use.

Bray led in the general shooting today Over 6,000 targets were shot and 1,000 pigeons. The shoot for the \$250 diamond badge, known as the C. E. Mayne badge, was the principal event, and was won by Parmelee of Omaha, who won it last year Parmelee pulled forty-four out of fifty single targets for the badge. Experts report it the most rapid shooting ever done by the associ-ation. The secretary has not yet completed the summary of the score.

Eggers of the South Omaha German tug-of-war team and Captain Albert Sjoberg of the Omaha Swedish team, with a number of their respective followers, met at The Bre office vesterday morning, and after posting a forfeit of \$50 each entered into an agreement for a match pull for \$500 : side and the entire gate receipts, to take place at Exposition hall Sunday night, June 5.

Dr. Birney's Catarrh Powder cures Catarrh. CONNECTICUT DEMOCRATS.

Cleveland and Tariff Reform is Their Cam-

paign Cry. New Haven, Conc., May 10.-The democratic state convention met this morning. Judge Walsh was made temporary chairman. He made a speech urging that the delegates be uninstructed.

After the appointment of committees recess was taken, and on reconvening General E. Bardley of New Haven was made permanent chairman. The mention of the name of Cleveland in his address aroused unbounded enthusiasm. The delegates arose, cheered, threw up their hats and then three lusty cheers were given for him. This was fol-lowed by cheers for Hill, mingled with a few

hisses from the Cleveland men. The following delegates at large were so-lected: Alvin P. Hyde, Carlos French, James B. Shannon, E. C. Benedict. They were uninstructed.

The platform reaffirms allegiance to the principles upon which the democratic party is founded; demands a revision of tariff laws on the lines set forth in the national demo-cratic platforms of 1888, and the state platform of 1800; charges the prevailing stagna-tion in industrial circles to the McKinley bill, and calls upon the mechanics and farmers to intrust to the democratic party the revision of the present tariff laws. The currency plunk declares for a "stable currency of gold, silver and paper, founded upon coined money of the least obtainable fluctuations in value, and we regard the un-limited coinage of silver dohars, worth but 67 cents each, with the legal tender attribute attached, as a finan-cial heresy certain to result in proportionate reduction in wages, the unset

thing of contracts and widespread distress." The republican congress of 1859-90 is held responsible for numerous follies in currency legislation. The integrity and states manship of Grover

Cloveland is applauted. The administration of President Harrison is arraigned and his appointments to cabinet and judicial posi-tions especially censured. The attitude of the administration in the Bering sea and Chillian controversion is condemned and the republican administration and conduct of uf-fairs since 1889 severely criticized.

Governor Bulkeley and the entire state administration is called to task and charged ith alging and abotting democrats have been unjustly deprived of offices to which they had been elected, and The Brs representative visited the Park school he found the basement rooms filled to in conclusion expresses "disapproval of the constitution of this state and its incoherent amendments as a system warting in adaptation to present conditions. Its election machinery has broken down, representation is unjust, its provisions are cun-ningly devised to bring minorities into power, and are filled with distrust of the electors as the legitimate, sovereign ruling power of the commonwealth. We therefore demand its revision as a whole by the con-stitutional convention to be called by the general assembly." Colorado Prohibitionists Cry for Silver, DENVER, Colo., May 10.-The state prohibition convention today selected the following delegates to the national convention at Cincinenti on June 29: John Hyop, Denver; R.O. Olds, Georgetown; L. J. Smith, Pu-eblo; I. J. Kentor, Pueblo; D. R. Hunter, Loveland; H. G. Singletarry, Denver; W. G. Sprague, Denver; George Richardson, Argo; B. F. Wadsworth, Arvada; D. W. Barkly, Pueblo. The platform, among other things, contains a silver plank.

Lincoln's School Houses Crowded With Homeless Women and Children. GREAT DAMAGE TO RAILROAD PROPERTY

Two Miles of Track Rendered Useless by the High Water-Further Danger Be-

lieved to Be Past-Worst in the City's History. LINCOLN, Neb., May 10. - Special to THE BEE.]-People who have lived in Lincoln for twenty-three years do not healtate to pro-

nounce the present flood the greatest within their recollection. The water maintained a steadyrise during the night, but this afternoor at 4 o'clock it was believed the limit had been reached and that unless another storm set in the flood will subside as rapidly as it came. A high wind prevailed during the night and has continued all day. The water has been chopped into waves by the wind and these waves have beat against the roadbods of the railroads, threatening the tracks with the

force of a 100-ton trip hammer, and as a result the railroad companies will require a

week to put their tracks in good order. Damage to the Railroads. It was not until this morning that the damage to the railroads was apparent. The entire flooded district is interlaced with the tracks of the Union Pacific, Rock Island, Missouri Pacific and Burlington companies, and all of them have suffered to a greater or lesser extent, the Rock Island sustaining the heaviest losses.

This foreneon The BEE representative traversed the entire distance from the Union Pacific depot on lower O street to the intersection of Salt creek with North Fourteenth street, a distance of over four miles. For the entire distance the railroad tracks are but a few inches above the water, and in many places they are entirely submerged, sometimes to a depth of a foot.

The Union Pacific track from O street northwest to the spur of the Burlington running to West Lincoln has been badly damaged, but not to such an extent that trains cannot pass. The Burlington spur running to the nacking houses of West Lincoln is submerged to a depth of from one to two feet. The Missourl Pacific transfer track connecting that road with the Rock Island

has been washed away entirely, while several hundred feet of its track between the Rock Island and Burlington has been hammered by the waves until it is so badly dam aged that it will have to be repaired before

it can be used. Two Miles of Track Ruined.

The most extensive damage, however, is to the Rock Island tracks. From the point where the Rock Island crosses the Missouri Pacific as far north as the state fair ground the track has been exposed for eighteen hours to the incessant pounding of the waves. From 1.000 to 1.500 feet of track have been washed away, while for a distance of two miles the roadbed is so badiy undermined that it will be in passable for trains until the

entire grade is reconstructed. The Fremont, Elkhorn & Missouri Valley has suffered the most in the vicinity of Kendall & Smith's mills, north of the city, where the big dike crected several years ago to pro tect its tracks has been washed away.

flood.

The Burlington tracks have not been dam-aged to any appreciable extent. Its yards are flooded to a depth of about two feet but its repair shops, engine huises, round houses, etc., are secure from , any invasion of the

Suffered by the Flood.

As nearly as can be determined 400 families

have been driven from their homes by the flood. These people are housed at the Park school, First and K school, in the city hall and in the basement of the court house. Their accomodations have only the merit of protection from the wind. Last night when

of the lowest levees in the vicinity is forty SUFFERERS ix fent At Vicksburg the stage is 48.4 feet and the

tops of the levees 49 feet, or according to some reports a little higher, or 49.5 feet. The prospect from the water at present in sight is as follows: The average rainfall in

the past four days over a great part of the Missouri valley above Kansas City has been 1.0 inches. The river at Kansas City is at a stand of 18.4 feet. The average rainfall in the lower Missouri valley and the part of the Mississioni valley immediately above St. Louis has been so the inch for four days Louis has been S of an inch for four days. • The river at Keekuk rose six feet from May 4 to 7, when the stage was 15.6. Today

it has fallen to 15.0. At St. Louis the river has risen from 20.6 May 5 to 25.6 today. It will continue to rise and will probably reach 30 feet. The high stage will not last. The Wabash river has risen two feet in four days at Vincennes and is at 12.6 feet. s at 12.6 feat.

The Ohio at Cincinnati has risen 9 feet since the 6th and is at 26 feet. No further rise of more than 1 foot is anticipated from he stages as they stand at present. Ports above Cincinnati, at Parkersburg on he Ohio, Charleston on the Kanawa, and at ouisiana, on the Big Sandy, the water is

Louisiana, on the Dig conservation lower and failing. At Nashville, on the Cumberland, the river bas fallen 2 feet in four days and is at 11.7

The Tennessee at Chattanooga has fallen 1.5 feet in five days and is at 5.9. The average rainfall in the past twenty. four hours in the lower Ohio valley has been .4 of an inch and the immediate prospect is The stage of water at Cairo today is 35.6

feet. The fall has been sharp from 48.2 feet on April 28. The river at Cairo will begin to rise tomorrow and it is anticipated will reach a crest stage of about 43 feet by May 16. The rainfails in the past four days below Cairo have been considerable; at Memphis, 3.1 inches; Fort Smith, 1.8; Little Rock, 2.2. The river at Memphis has failen 8 of a foot in three days and is 33.6 feet. It will continue to fall.

At Helena, Ark., the rise of the river has seen rapid in the past few days. The stage today is 45.7.

It is anticipated that the rise will be con-tinued to about 47, when it will begin to fall. The Arkansas river at Fort Smith has risen 8 feet in the past twenty-four hours and it is at 24.4 feet. arrived in the city. At Little Rock the river is 17.5 feet and ris-

The stage will probably reach 25 by May 18.

The sunden fall of the stage at Cairo will justify the opinion that the rise at Vicksburg will not continue more than three or five days longer, at which rate of rise, 15 of a foot a day, will carry the stage to about 49 feet when a very considerable fall of about feet might be anticipated before the effects of the coming crest will be felt. The break in the levee at a point above may prevent any further rise at Vicksburg, or even cause a considerable fall.

GREAT FLOODS IN MISSOURL.

The "Big Muddy" Cutting Out a New Channel,

Sr. Joseph, Mo., May 10.-Railroad traffic is almost suspended on some of the lines running into this city on account of the flood. There has been no train in or out from the Santa Fe or Wabash since Saturday and no trains on the Tarkio Valley since Sunday morning. Other lines are badly troubled

and running late. No farm work is being done in this vicinity. The Missouri has cut through the revetuent above the city and is digging across the neck of the land at a fearful rate. The chances are now that it will cut through, destroy the Grand Island and Rock Island main lines to

the west and leave the St. Joseph high and dry a mile away from the channel. CHILLCOTHE, Mo., May 10.—The waters of the Grand, giver continue to rise. Another foot will cut off the city water supply.

LOUISIANA, Mb., May 10.-The river here is only five inches below the record of 1888. when the levee broke, causing a loss of over \$1,000,000 to faquers on the Illinois side. Stock on this side is in a perilous situation, in some places being drowned before the eyes of the beiness owners. One man has lost 250 hogs and fifty faithe.

Filling In With Baled Hay.

SIOUX CITY, Ia., May 10,-[Special Telegram to The Bee, |-It has been raining for almost forty hours light. All streams are swoilen and railroads delayed. The Little ux river valley is flooded up to almost the point of last year's inundation. In one place the Chicago, Milwankee & St. Paul put in twenty car loads of baled hay yesterday to preserve the track. For forty miles south the Sioux City & Pacific runs through a lake. It is almost as bad for the lilinois Central between here and Fort Dodge. Crops are in a bad way. Des Moines River Very High.

DES MOINES, In., May 10 .- Special Tele-

gram to THE BEE. |-The Des Moines river

here has risen steadily for the past two days

and is now higher than for three years. Drift wood is coming down from the north in

large quantities, showing considerable dam-age in that direction. If the rains continue the high water mark of 1881 bids fair to be

reached. In this event the Heath oatmeal mill, creamery, potteries and thousands of dollars worth of property will be endangered.

The Levee All Right.

NEW ORLEANS, La., May 10,-So far there

is no confirmation of the break in the Mor-

gausea levee which was reported late last

night. Nothing in regard to it has been re

ceived at the state engineer's office. Private advices to the Texas & Pacific road say

there is no truth in the report and the story is not credited. This levee is the strongest

property. A break there would entail a loss of \$5,000,000. on the river and protects the most valuable

greatest loss being \$1,200.

Fire Chief Smith's report for the year ending May 1, 1892, is a lengthy and interesting

and about three miles of fire alarm wire and three and one-half miles of pressure wire to THE GENERAL CONFERENCE pump house at Omaha.

The chief also recommends that the fire box at Twenty-fourth and N streets be removed to Twenty-fourth street at I or J streets.

The city has in use seventy-nine fire hy drants, the yearly rental of which is \$4,500 per year, and with the eleven new hydrants ordered the rental will be raised to \$5,250. The chief estimates the expense of maintain-ing the fire department for the next year at \$12,845.

The amount invested in fire apparatus be longing to the city is as follows :

Two hose carts and one truck wagon \$1,385 Four horses Four horses Two sets of double barness and hangers.. Eighteen hundred feet rubber hose furniture, bedding, etc. Fleetrical fire alarm Fire bouse No. 2 1.800 1.75

19.92 Total amount invested 80,011

The chief recommends the nurchase of a took and ladder truck, and calls attention to the necessity of fire escapes on three-story buildings.

Cattle for England.

Lew Spelts, the well known David City cattle man, left for Boston yesterday with

one of four trains of cattle which were londed respectively at David City, Staplehurst, Ulysses and South Omaha and which will be shipped from Boston for Liverpool. The shipment consists of 1,105 head of export cattle and will be accompanied by force of forty-two men under the charge of John H. Wallwork, one of the best known men at the South Omaha yards and one of the oldest shippers across the water in this part of the country. The cattle will reach

their destination about June 1.

Wants the Suit Postponed.

In accordance with the resolution adopted A grand stereopticon entertainment will be given tonight in Exposition ball, giving yiews of foreign countries, and particularly by the city council, Mayor Miller called upon the attorney for the California Petroleum foreign cities and scenes intimately con and Asphait company and requested that no nected with the mission field. The proceeds will go to the Deaconess home and hospital action be taken by the company in their suit against the city now pending in the federal court until the warm weather had set in and the payement stood the test of the summer of Omaha. sun. The attorney stated he would delay the matter until Manager Barton of the C. W. Hyatt, editor of the Fremont Flail, California company, now in San Francisco, was in the city vesterday.

AMUSEMENTS.

Theodore Thomas and his Chicago orchesra gave the first of three concerts at the Boyd last night. The company did not get to town till nearly 9 o'clock, owing to a washout on the Kapsas City, St. Joe & Counal Bluffs which necessitated a tour via Sedaila, and it lacked only ten minutes of 10 when Mr. Thomas lifted his baton from the stand. The program, however, was played throughout, all but a few of the seatholders neroically sitting It out till the end, which to

Baby Anson Brought Good Luck.

CHICAGO, Ill., May 10.-Today's game was played in a drizzling rain. The Colts won by superior batting, the fielding on both sides being poor, owing to the wet, supperv ball. Anson's batting was the feature. Attend-ance, 6,000. Score:

Chiengo ... Brookiyn. Hits: Chicago, 12; Broöklyn 9, Errors: Chicago, 6; Brooklyn, 5, Enrued runs: Chi-cago, 4; Brooklyn, 2, Batteries: Luby and Schriver; Foutz and Dailey.

Lost by the Only Herman.

CLEVELAND, O., May 10. --Costly errors by Long and Lowe in the early part of the game and hard hitting by Cleveland gave the home team a victory. Rain stopped the game at the end of the eighth inning. Attendance, 1,600. Score:

Senators Died Easy.

LOUISVILLE, KY., May 10.-The Colonels shut the Senators out today without any trouble. It was a pitchers' battle, in which Stratton had the best of the argument, Owing to the threatening condition of the weather the attendance was only 800. Score: Giants Forfeit One.

Pirrsnung, Pa., May 10. - The umpire of the Pittsburg-New York game today gave the game to the home team, 9 to 0, New Yorks leaving the grounds, claiming the grounds unfit to play on from the effect of the recent rains. Manager Powers claims that under rule 26, section 1, play must be called at the advertised time. It was ten manutes after 4 o'clock when he took his minutes after 4 o'clock when he took men off the field. The grounds were not in a very good condition.

Rained Out.

CINCINNATI, O., May 10. -No game, Baiti-more-Cincinnati; wet grounds.

For Cleveland and Free Silver.

KANSAS CITY, Mo., May 10.-Hon. John C. Tarsney was renominated by acclamation today by the democrats of the Fifth congressional district at Higginsville, Mo. The resolutions adopted by the convention declare for the free and unlimited coinage of silver and for a graduated income tax to take the place of the present tariff. The resolutions also declared in favor of the nomination of Grover Cleveland for president.

Wyoming Women Failed to Vote.

NEWGASTLE, Wyo., May 10.-[Special Telegram to THE BEE|-There was but one ticket in the field at the city election today and the vote was correspondingly light. F W. Mondell was elected mayor for the third w. Monori was elected in Mayor for the third time. W. H. Benns and B. F. Mills were elected councilmen. No women voted. CHITENNE, Wyo., May 10.-[Special Tele-gram to THE BEE.]-The democratic munici-pal ticket was elected in Landor by forty-three majority.

Cleveland is Silent.

NEW YORK, May 10 .- A reporter of the World today sent a copy of Henry Watterson's statement that Grover Cleveland was preparing a letter of withdrawal to Cleve-land. The statement was returned with the The statement was returned with the following, in Cleveland's handwriting : have nothing to say upon the subject."

APPROVED BY THE MAYOR.

Official Assent Given to the Nebraska Cen. tral Railway Ordinances. The city council held one of its old time meetings last night and stayed until midnight before letting go of the business that was up for consideration.

Mayor Bemis filed a communication, in which he stated that he had approved the ordinance granting the Nebraska Central Hailway company the right-of-way over and along certain streets in the city. In another message he stated that he had ap-proved the ordinance providing for the calling of a special election to be held May 31, to allow the voters to cast their ballots upon the proposition of issuing bonds in the sum of \$250,000 to and the Ne-braska Central railway in the construction

bonds in the sum of \$20,000 to and the Ne-braska Central railway in the construction of a steel bridge across the Missouri river at the foot of Cass street, in this city. The bond of the Nebraska Central, in the sum of \$5,000, in which it agreed to pay the expense of holding the special election, was presented and approved.

The councilment of the respective wards presented and approved. The councilment of the respective wards were instructed to prepare lists of the regis-trars of their wards and report their names to the council at the next meeting, after which a resolution was adopted by which the election booths were ordered brought from their winter quarters to be set ward

from their winter quarters, to be set up at the points designated in the election notice. Many other municipal matters were at-

tended to.

overflowing, mostly with women and children. At that time they had nothing to eat and but little to drink. Most of them huddled together like sheep in the furnace room. During the night cooking stoves were put up and this morning the unfortunate people were supplied with plenty of bread and butter and hot coffee. At the First and K school the people did not fare so well. Fully 300 people were gathered in the building which is completely surrounded by water It has been difficult to get food and supplies to these people, but the authorities have tione everything possible to make them comfortable

Tonight it is believed that all danger of further suffering is past. The people now distributed around the city in temporary shelter will not be able to return to their homes for several days yet and their real suffering will not commence until then. Most of them will find their furniture, carpets, gardens, etc., completely ruined and a large number of them will doubtless need assistance.

TRAFFIC MUCH DISTURBED.

All Lines Entering Beatrice Troubled by Dangerous Washouts, BEATRICE, Neb., May 10 .-- |Special Telegram to THE BEE. |-A dining car on the Rock Island flew the track at the Burlington transfer south of this city last evening and was nearly toppled over. Owing to the bad washouts on the Union Pacific track between here and Lincoln, which are jointly used by the Rock Island and Union Pacific trains, all trains have been abandoned on that portion of the line and the Rock Island trains are transferred from Lincoln via the Burlington track. The derailed during car, the Del-monte, was left here and was not gotten back on to the track until late this afternoon, Jourstows, Neb., May 10.-[Special to Tug Brg.]-Real winter only began here with April. Since then it has been snow, sleet, rain, mist and wind, with only a fine day now and then to relieve the monotony

Small grain scattered in March remains, in some instances, still upon the ground. Much plowed under is rotten. Very little plowing for corn has been done and farmers are gloomy over the future. So much precipitation has not been known in this region be-fore. All streams are torrents hurrying to the Niobrara. Today there is about four inches of flush to be disposed of. The soil will hold no more moisture and floods are inevitable. Grass is very backward. Horses and cattle are suffering and great loss will follow unless fine, warm weather comes at

once. With a change for the better more corn will be plauted than was at first in-tended, and with the moisture stored up in the soil will make a grand crop, but now all is uncertain. The waters of the Blue reached the highest stage last night since 1883 and the basement of the Dempster mill was flooded but no

damage of any consequence resulted. Indian creek has fallen about two feet and no fur-thor trouble is apprehended. An aggregate value of \$10,000 worth of live stock, crops, bridges, fences, etc., have been lost in this vicinity by reason of the high water since the lat inst.

vicinity by reason of the high water since the 1st inst. DUNBAR, Neb., May 10.—[Special to aTHE BEE.]—The B. & M. passenger due here at 10 a. m. yesterday was delayed here some two hours by a washout one and one-haff miles west. The section men by hard work succeeded in blocking up the track so that trains could cross. There have been thirty-six hours of constant rais and farmers are six hours of constant rain and farmers are much discouraged.

CONDITIONS OF THE RIVERS.

Report from the Weather Bureau Showing the Stage of Water at Various Points. WASHINGTON, D. C., May 10.-The state of water throughout a great stretch along the lower course of the Mississippi river is near the top of the levees. The water is still rising and an overflow is imminent. At Arkansas City today the stage is 48.7

feet, and to the top of levees is 8.7 for seven miles above, and below, to the Logisiana state line, the levees were good for 48.5 on April 91 and have probably been raised some At Greenville the stage is 43.8, and the top is a good man to keep locked up. It is claimed that he is a fakir, confidence and short change man and makes a specialty of working the short change racket on granger travolers.

this morning at 0 a. in. from the residence of his son, T. J. Foley, 2318 bourdas street. Sol-emn high mass at St. Peter's church. Twentyseventh and Leavenworth, by Fathers Con-way and McDevitt. Interment at Holy Sepulchre cemetery. Belleville, Ontario, Canada, papers piease copy.
