Columbus Shut Minneapolis Out Without a Hit-Chicago Won Two from St. Louis -State League and Amatuer Base Ball News.

Milwaukee, 4; Omiha, 1. Columbus, 7; Minneapolis, 0.

MILWAUKER, WIS., May 14. | Special Telegram to Tun Bus. |-The Browers defeated the Omaha team this afternoon in an exciting game of ball. The weather was misty and at times it was aimost impossible to distinguish the fielders, so dense was the fog. There were only about 600 people in attendance. After the first inning it was a pitchers' battle, in which honors were equally divided. By the way both pitchers were batted in the first inning it looked as if it was to be a slugging match, but after that base hits were as scarce on both sides as strawberries in winter Darby pitched an grounds. excellent game, and had his support been perfect the score would have been a tie, Vickery played in right field instead of Camp, the latter playing at second in Fitzgerald's place.

The playing of Collopy at third was brilliant. He had seven assists and one put out, his one error being an excusable one, "King" Kelly was also in his glory and made a couple of pretty running catches, one of them being against the deep left center fence. He also had his eye on the pall and lined out three singles out of four times to

For Milwaukee Ward carried off the honors, capturing everything that came in his territory. Umpire Corcoran was away off in some of his decisions and each side suffered about alike.

The runs were scored as follows: In the first inning McClarr went out on a fly to Vickery. Ward rapped out a double and went to third on Twitcheil's single. Howard Earle sent a hot one to Collopy, who threw to first, allowing Ward to score and Twitchell to reach third. Lake singled and Larry trotted home. Bill Kreig followed with another hit to center, sending. Earle to third, and he stored a moment later on a wild pitch. Lake was caught trying to pilfer third and Widner struck out.

In the third Lake got his base on balls, stole second and scored when Vickery dropped Kreig's fly.

Omahn's only run was secured in the first. Sheibeck knocked out a single, wen't to secend on Gilks' nit, stole third and scored on Kelly's single. Collopy and Rowe each followed with singles, but owing to poor judgment on the part of Kelly and Gilks, they were put out on the bases. Score:

Busy Meeting of the Directors at Hastings Yesterday.

Hastings, Neb., May 14.—[Special Telegram to Tan Han.]—The directors of the Nebraska State Base Ball league met in this city this afternoon. All of the teams were represented, either by manager or by proxy. As the president of the league, Mr. Hickey, was from the defunct Lincoln club that office was declared vacant and Harry Brewer of Hastings was chosen to fill the position. Vice President Cartwright tendered his resignation, but it was declined with thanks. The Lincoln franchise was given to Kear-ney and the representative of the Midway city was admitted to the league. It was rdered that Kenrney be allowed the first house of the players of the dend Lincoln lub, and that all other clybs wait until such hoice had been made before signing the

The contested game at Lincoln between incoln and Beatrice on May 6 was thrown out and it will not be counted in the averages. The work of making a schedule was then aken up, but as Secretary Coman says: "This league adapts schedules first and then makes them." The contested game between Grand Island and Hastings was discussed, ut definite action taken on it. There was no game to ay between Hastings and Grand Island on account of muddy

Close of the Successful Sportsmen's Tournament at Grand Island. GRAND ISLAND, Nob., May 14. - [Special Telegram to Tan Ban |- The sixteenth an nual tournament of the Nebraska State Sportsmen's association closed to lay. The scores were not as large today as on previous days, owing to the fact that some of the shooters had left for their homes this morning. The Plattsmoath silver cup was won by Omaha after one of the sharpest shoots that took place during the week. The shoot was at ten single targets to each man, four nen to compose the team from each club Grand Island and Omana tied twice before the decision shoot could be made. Omana finally won the cup.

Wilks to Go Against Elmmic. Jack Wilks, who is bacard by Omaha parties, was unable to force Tommy Tonsilitis Ryan of Chicago into a fight, but is now offered an opportunity to demonstrate just how he stands in the welterweight class by the Hennepin club of Minneapolis. He has been matched with Charlie Kimmic, of unsavory California record, for a ten-round go, for a purse of \$6.0, for the night of June 6. The Marquis of Queensberry rules are to govern of course, and the men are to weigh LE pounds on the eye of the contest. Wilks stands very well with his backers here, and will make this fight the effort of his life, as he has long asserted his confidence in his ability to battle with any of the top-notchers. If he wins he will stand the peer of acy in his class, and it is this reputation, more than th \$6.00, that he craves particularly at this time. A number of gentlemen from this city and

South Omaha will go up to witness the mili. Joe Visner Joins Omaha. The signing of Joe Visner by Manager Howe, which was announced in yesterday's paper, and the release of Fitzgeraid has met the warm approval of all the cranks. Work of the Bee Bureau 21 Claims. Washington, D. C., May '4 .- | Special

of Claims today procured a certificate of registration trade mark for Birney Catarrhat Powder company of Omaha, for catarrhat and that like of remedies. This remedy is for catarrh, hay fever, sore throat and sim-llar complaints, and the trade mark procured includes an artistic designed apparatus and method for using the same. The short time in which this trade mark was procured shows the exceptional facilities afforded by The Bee Bureau of Claims for procuring patents, trade marks, copyrights and simlar applications.

#### KNIGHTS OF LABOR.

Boycotts Placed Against Two Firms-Work of the Executive Board.

PITTSBURG, Pa., May 14 - The general executive board of the Knights of Labor is still in session here and will not finish the work on hand before the middle of net week, Boycotts have been placed upon the Pabst Brewing company of Milwaukee and the Whitely Reaper company of Springfield, O. The members of the Knights of Labor will be requested to use their influence in favor of the Anbeuser-Busch Browing company of St. Louis, and the executive committee of the farmers alliance will be asked to unite with the Knights of Labor in the boycott

against the Whitely concerns.

An enterprising man in Missouri wanted the board to allow him to organize an assembly of Chinese, it decided that the Chinese should be excluded and so notified him. In the whole organization of Knights of Labor there is not one Chinaman. There are a number of other foreigners, however.

The communication from the striking har-essmakers of Cincinnati has not been taken up as yet, and the board refuses to say anything about it until it is. There has been no communication received from the Rochester street car men.

The board is considering the advisability of appointing a number of general organizers to thoroughly canvass the United States and start new assemblies. Chicago and the World's Fair. World's Fair Souvenir, illustrated, being a complete and concise history of the principal

world's fairs from the Crystal Palace, London. 1851, to the World's Columbian Exposition in Chicago, 1893, With explanatory tables and maps. Published by The Anabogue Publishing company, Chicago, bound neatly in cloth, It arely falls to the lot of the reviewer to notice so exhaustive a work as the "World's Fair Souvenir," which has

been compiled with so much care by a former resident of Omaha, John D. Jones. For purposes of reference, of comparison and for general information the work is a magnificent reflex of the push and energy of a city that is the wonder of the world. In its compilation expense has not been thought of, and the richness of its

illustrations of the World's fair buildngs, cuts of the men and women who are directing to a successful issue what bids fair to be the greatest exposition of ancient or modern times, pictures of the colossal pusiness blocks that stand as monuments to the enterprise of their owners and builders, is typical of the "Chicago gait," as the rush and bustle of the great city by the inland sea has been described. The book has been arranged upon a

most comprehensive plan, the object of the publisher being to give a complex resume of what may be seen in Chicago in 1893, and at the same time give the information in a compact form, so hat the work may be a valuable adjunct to the library and reading room. Its useulness will not end with the close of the exposition, but on the contrary will grow in value with years, for it is the most perfect compendium yet issued of an event which cannot fail to have an influence for many decades to come upon all lines of art, literature and commerce. As Mr. Jones says in the introduction to the work: "As an educator this event will leave its impress upon acceeding generations and bear fruit in all realms of human thought, ingenuity and progress,"

In addition to its complete epitome of what has been done, is doing and will be done when the fair opens, it comes to the general public at a most opportune time. It brings before the American people the forces that are actively a work to make the exposition a success worthy of a nation that in a little over a century has, from nothing, builded the mightiest republic of earth. It not only gives full page art type illustrations and descriptions of the principal buildings of previous world's fairs and all the buildings of the present World's Colum bian Exposition, together with portraits and biographical sketches of its officers and chiefs of departments, but it tells "How to Reach the Fair," gives descriptions of Chicago's parks and boulevards, its places o amusement, the wholesale and jobbing interests, its railroad facilities, and in general is the most complete guide book to the city that stands at the edge of

Lake Michigan. Do you want one of these books? A few minutes' work will secure one for you. Send to THE OMAHA BEE one subscriber to THE WEEKLY BEE at \$1.25 and one will be sent to you by mail. The book sells for \$1.00, but THE BEE has secured a large number of copies, enabling he publishers to make this liberal offer It is the best thing in this line ever of ered and you are sure to be pleased. ### DROWNED IN FLOODED MINES

Sudden and Awful Fate Which Overtook Many Hungarian Miners.

FEARFUL RESULTS OF A CLOUD BURST

Iwenty-Two Victims in One Pit-Pitiful Scenes at the Mines-Coming Elections in England and What the Different Parties Are Doing.

PESTH, May 13,-An immense waterspout burst today in the neighborhood of the collieries situated in the city of Funfkirchen, the capital of the county of Paranya. The huge volume of water inundated the surrounding country and poured in a great stream into the mines, flooding them in a very short time and causing a terriple loss of life. This water poured into the mines so quickly that the unfortunate men who were engaged at work in the lower levels received no warning of their danger, and before they had a chance to escape they were struggling in the torrent which had almost instantaneously engulfed them. They struggled desperately to reach the shafts or main parts of the mines which seemed likely to afford a place of safety, but the water rose higher and in a short time every avenue of escape was shut off and the men perished miserably.

It is known that twenty-two men are dead in one pit alone and that many have lost

their lives at other points. Owing to the great excitement which prevalls in the place it is impossible to obtain an exact list of the dead, but it will doubtless reach startling proportions.

As the news of the catastrophe spread throughout the city immense crowds hastened to the scene and the entrance to each shaft was soon surrounded by a surging and wildly excited mass of men, women and childreg. The lamentations of these who had relatives or friends in the inundated mines were heartrending and many pitiful scenes were witnessed.

The work of rescue is being steadily carried on and every effort is being made to pump the water out of the flooded levels.

Coming Elections — Gladstone Becoming Cautious-Notes and Gossip. Copyrighted 1892 by New York Associated Press. LONDON, May 13 .- Mr. Batfour will mee the conservative election agents on May 31, when a definite indication will be given of the date of the general election. In the meantime the election agents swarm in the lobbies of the House of Commons pestering the ministers, whips and members to expedite the dissolution.

A memorial to the government, brought up by tory election agents, urging that Parliament dissoive in the middle of June fell flat. Only half a dozen members of the house signed it. The whips hinted that the appeal was superfluous and might embarrass the government, which was already favorable to a mid summer election.

The cabinet decision, when it is announced, will find the parties all around fully prepared and everything in readiness. The crown office will dispaten the election writs within twenty-four hours after the intimation of dissolution is given.

Gladstone Will Be Cautious. The officers in charge of private bills before the House of Commons have been in-structed to wind up their business as far as possible by June 24. Reasoning from this fact, the liberals forecast events thus: The writs will be issued June 28. Two weeks later the burg elections will be completed and within three weeks the county elections. According to the statutes the new parliament must be made within thirty-five days of the dissolution of the preceeding one, so the first week in August, if the general expectation is fulfilled, will see Mr. Glad-stone reinstated in power. The Irish party week take it for granted that a special session to be held in November will proceed with the home rule question. Proposity Mr. Glad-stone will not be in such a hurry. He has privately expressed the opinion that the home rule movement in 1886 suffered from

will not make a similar mistake. He will take time to sound every section of his sup-porters in framing the new measure. If a liberal government is constituted in the autumn, no policy of home rule ought to be fully developed before the session of 1893. Labor Party Men Active. In the electoral field a startling phenom enon is the act vity of the independent labor party. The Schnadnorst clique relied upon the absence of funds to weaken the independents and to force to the process of selection by the liberal executive by which the insubord mates would be elevated. Their calculations failed to take into account the earnestness of the supporters of the labor party. No less than 165 candidates are already in the field backed by subscriptions from the trades unions, local societies and tory donations. In a daily increasing number of districts the

haste in its preparation and declared that he

vorkingmen oppose the liberals. Mr. Gladstone's negative opposition to the payment of members of the house and the eight-hour movement, and his indifference to other articles of the Newcastle agreemen favored by workingmen, basalienated a con siderable mass of the electors.

Doubt is expressed in many quarters re garding the earnestness of the Ulster move ment. Mr. Saunderson's speech at the S Stephen's club dinner openly proclaimed th intention of the Ulsterites to resort to armed force in their resistance to a Dublin Parlia-ment, Uister would, be said, make short work of the Irish House of Commons. He led the largest united section of Irishmen who would be able, if they were tested, to wreck the Dublin Parliament. His remarks were received with enthusiastic cheers. While the lord chancellor censures the language as dangerous, the cry of rebellion is heard in silence.

Bimetallic Conference.

The opposition leaders have decided to leave it to the Irish members to move the re jectment of the Irish local government bill. Mr. McCarthy, who is suffering severely from sciatic, will delegate Mr. Sexton to take the initiative on the reports made today and sound Mr. Goseben as to the basis of the bi-metallic conference. Mr. Goseben says the solution of the problem might be defeated if information were given out now. This lan-guage, with the tenor of his expressions to the chamber of commerce deputation is dropped as indicating Mr. Goschen's belief that the conference will not prove the futility the monometallists predict. While the leading London papers are against the conference, the provincial journals acclaim it.

Financial papers are discussing the ratio between silver and gold in the event of an internal agreement being reached. Letters from Experts H. R. Grenfell and Samuel Montayue concur in expressing the opinion that the fixing of an exact ratio is not the essence of the question and that any ratio approximately accurate could not be main tained under an international agreement. The report of the British delegates to the commercial treaty conference at Madrid has been presented to the Board of Trade committee by the treaty committee. The delegates regard as hopeless the probability of

an agreement. Spain will not give a favored nation concessions permitting the importa-tion of British minerals in exchange for reductions in twine. As a result Great Britain in July will be shut out from Spain and he
