SHERMAN AND THE PLOTTERS. The disaffected politicians who are plotting to defeat the re-nomination of President Harrison have been making free with the name of Senator Sherman.

The Cincinnati Commercial Gazette has perhaps more authority than any other newspaper in the country to speak for Senator Sherman. That journal says, with reference to his position, that "it is due to him to say that he is not a candidate for the office, has not been a candidate for it since 1888, and that he is the friend and supporter of President Harrison."

It is highly probable that this was inspired by Senator Sherman, and on that assumption, while it acquits him of any connection or sympathy with the movement of the malcontents, it still leaves him in the position of giving encouragement to the movement.

It is very easy to understand why a man who owns a silver mine should want free labor, but why anyone should want the Lord only knows.

It is quite seldom that the newspapers do not contain intelligence of some horrible railroad collision. The only recent one which would seem to be legislation requiring every road to lay a double track.

It is very easy to understand why a man who owns a silver mine should want free labor, but why anyone should want the Lord only knows.

favoring the industries of the nation creates confidence and thereby encourages and stimulates enterprise.

Section 53 of the charter for metropolitan cities reads as follows: "The mayor and council shall have power to regulate and provide for the lighting of streets, laying down of gas pipes and erection of lamp posts, electric towers or other apparatus and to regulate the sale and use of gas and electric lights, and fix and determine the price of gas, the charge of electric light and the rent of gas meters within the city, and regulate the inspection thereof, and to regulate telephone service and the use of telephones within the city and to fix and determine the charges for telephones and telephone service connections; and to prohibit or regulate the erection of telegraph, telephone or electric wire poles or other poles or other purpose desired or used in the public grounds, streets or alleys, and the placing of wires thereon, and to require the removal and placing under ground of any or all telegraph, telegraph or electric wires."

These are certainly ample powers to protect the public from extortion and defective service by the companies enjoying franchises for the supply of light and the use of the telephone.

It is to be hoped the council will at the earliest possible day enact an electric wire ordinance with provisions that will enable the city electrician to enforce the removal of useless and dangerous overhead wires on a set of poles uniform in height and located so as not to obstruct travel and traffic.

One of the most extensive lockouts that has ever been attempted in this country is now in progress in the granite quarries of New England.

It is to be hoped the council will at the earliest possible day enact an electric wire ordinance with provisions that will enable the city electrician to enforce the removal of useless and dangerous overhead wires on a set of poles uniform in height and located so as not to obstruct travel and traffic.

lapse of the north wing of the county hospital and making estimates as to the cost of rebuilding the north wing would be in order.

Thanks to the present thirty congressmen at West Point may have to buy their own soap, but the government will see that they have plenty of river and harbor water to wash in froth of charge.

Omaha has decided to use no more wooden pavements on its business streets. It is held that the progress of the age has gone past them. But it is by no means settled what pavement of the future will be. Durability and cheapness are the chief requirements.

Chicago Post: The Childs-Trescott home for the blind is now under the eye of Lake Michigan, and the aged typos who go there are sure of a high tide time.

Chicago Tribune: The sword swallower-great Scott. This won't do. There are three of them in the city.

Chicago News: The Methodist general conference at Omaha is very interesting. It has marked Methodism from its birth to the verge of passing into desuetude.

Chicago Sun: On Tuesday resolutions were introduced into the Methodist general conference at Omaha to the effect that the union of the northern and southern branches of the Methodist church.

Chicago Times: Candidates seeking official votes in the city of Omaha will find many excellent politicians among the delegates. It will require real ability and straightforward methods to win the respect of the citizenry.

Why Prices Have Declined. Important Investigation to Be Undertaken by the Senate. IT WILL INTEREST AGRICULTURISTS. Power Given the Committee to Thoroughly Examine All Questions Bearing on the Subject—Scope of the Work to Be Considered.

The senate committee on agriculture is about to enter upon one of the most important and comprehensive investigations ever suggested by congress. It is making less than an inquiry into the causes of declining prices for certain agricultural products, the influence of crop reports on speculation and in general the consideration of agriculture, and whether such conditions can be changed favorably by legislative enactment.

It is in less than five weeks President Harrison will have the opportunity of seeing his brigadier in the place of General Stanley, who will retire. It is remarkable how many of the general officers have fallen to the lot of President Harrison.
