City	MAY NOT BE DECIDED FOR MONTHS
So fi	Question of the Representation of the Fifth Ward in the City Council Involved – Something of the Merits of the Case.
t the ms to- n will Potta- head-	All day yesterday was occupied by Judge McGee in hearing the arguments of the at- torneys in the Fifth ward contest, W. H. Ware making the opening and closing speech f thip paintiff, a.if C. M. Harl for the de- fendant. Mr. Ware's opening speech consisted mainly of a rather confasing mathematical demonstration of the proposition that the
g at 7 asso- bicy-	ballots could not, by any stroke of legerda- main have been changed from what they were when the judges and clerks completed their canvass to what they were when opened in
Iowa, l con- ndred	court. He called the attention of the court to the fact that 224 straight republican tick- ets were claimed by the defense to have been voted. In the box there were now only 222 straight republican tickets, but there were
gainst istrict in a	twelve tickets, which were straight republi- can excepting for the vote for alderman, which was a blank. He claimed that this showed the the ludges had gotten their 224

showed the the judges had gotten their 224 votes by counting the twelve blanks for Smith. He also called attention to the fact that the court took these twelve ballots with his own hand from among the tickets that had been marked "straight republican" by the judges.

At the conclusion of Ware's speech Attorney Hari for the defense moved the court to strike the ballots from the list of evidence entirely, and in support of the motion alleged that the evidence showed them to have been tampered with and changed so that they were not the identical ballots which had been cast on election day; that there had been no reasonable precaution taken to pre-serve them from change; that there hid been no evidence brought forward to impeach the canvass of the votes made by the

ouncil, In his speech Mr. Harl accounted for the fact that two more votes had been found in the bailot box than appeared on the poll-book by the liability of the clerks to error, especially when surrounded by the rush and confusion of an election poll. Seven hundred and one votes were the most that the plaintiffs claimed had been cast for any one candi date, but here were 705 ballots in the box, and he considered that a significant circumstance. The man who had tampered with the ballot bex, he said, had understood his business and had done his work as he had simply in order that the figures which Ware had brought for-

ward might be used just as they were being At the close the case was submitted and taken under advisement by the court. It is not likely that a decision will be rendered for some time yet, and when it is decided by Judge McGee an appeal will undoubtedly be taken to the supreme court by the losing side, so that it may be many months before it is definitely decided whether Peter Smith or S. Lobhart is entitled to represent the people of the Fifth ward in the city council. In the meantime, or until some order of the court is made to the contrary, Smith will go

right on acting as alderman, so that the deadlock in the council may last for a long time. Reiter, thetailor, 310 Broadway, has all the latest styles and newest goods.

CHICAGO AND THE WORLD'S FAIR.

At the conference opening the following officers were elected. Chairman, Rev. F. It carely falls to the lot of the reviewer to notice so exhaustive a work as the World's Fair Souvenir," which has M. Spincer, Sterling, Kan., secretary, Rov. W. S. Owens, Spokane, Wash; assistant secretary, W. A. Spalding, Spokane, Wash. been compiled with so much care by a former resident of Omaha, John D. There are 479 organized congregations that have been or are now being aided from the home mission funds, of which 362 are regarded as self-supporting. The appropriations for 1892, including grants, were \$63,783. The total Jones. For purposes of reference, of comparison and for general information the work is a magnificent reflex of the receipts for the past year are \$01,371, and the total expenditures, \$03,905.83, push and energy of a city that is the wonder of the world.

In its compilation expense has not been thought of, and the richness of its illustrations of the World's fair build-

ings, cuts of the men and women who are directing to a successful issue what bids fair to be the greatest exposition of ancient or modern times, pictures of the colossal pusiness blocks that stand as monuments to the enterprise of their owners and builders, is typical of the "Chicago gait," as the rush and bustle of the great city by the inland sea has been described.

The book has been arranged upon n most comprehensive plan, the object of the publisher being to give a complex resume of what may be seen in Chicago in 1893, and at the same time give the information in a compact form, so that the work may be a valuable adjunct to the library and reading room. Its usefulness will not end with the close of

the exposition, but on the contrary will grow in value with years, for it is the most perfect compendium yet issued of an event which cannot fail to have an influence for many decades to come upon all lines of art, literature and commerce. As Mr. Jones says in the introduction to the work: "As an educator this event will leave its impress upon succeeding generations and bear fruit in all realms of human thought, ingenuity

and progress.' In addition to its complete epitome of what has been done, is doing and will be done when the fair opens, it comes to the general public at a most opportune time. It brings before the American people the forces that are actively at work to make the exposition a success

worthy of a nation that in a little over a century has, from nothing, builded the mightiest republic of earth. It not only gives full page art type illustrations and descriptions of the principal buildings of previous world's fairs and all the buildings of the present World's Colum bian Exposition, together with portraits and biographical sketches of its officers and chiefs of departments, but it tells "How to Reach the Fair," gives descriptions of Chicago's parks and boulevards, its places of amusement, the wholesale and jobbing interests, its railroad facilities, and in

general is the most complete guide book to the city that stands at the edge of Lake Michigan. Do you want one of these books? A minutes' work will secure one for Send to THE OMAHA BEE one subiber to THE WEEKLY BEE at \$1.25 one will be sent to you by mail. The

PLAIN, PRACTICAL COMMON SENSE.

See if This Has Not Been Your Experience, and if It Has, Profit by the Lesson It

> Conveys--A Little Frank and Straightforward Talk,

The following are a few words to senble thinking people:

They are addressed to those who have en troubled more or less for years with catarrhal affections of the head, throat or chest. They are words of sound counsel and disinterested advice, quite apart from any question of the space they occupy as an advertisement.

In 99 cases out of 100 catarrh is irrectly or indirectly the result of colds, which are more than liable to cause the riginal trouble to be converted into usumption.

The season of the year most favorable for the successful treatment of catarrh is in the season when the patient is less hable to take cold. That season is the early spring and summer. Nature then iends her aid to the work of the patient, withholds the influences which cause and increase the disease and affords a fair opportunity for complete recovery.

This is simple, sound, sincere and straightforward advice.

The time for you to take treatment for any catarrhal difficulty is now. Now that the spring is here, with its unshine upon you, and the disease does not cause you serious trouble, you imrediately neglect yourself utterly and whit for another winter to come with its same old round of colds, sore throats, aggravated catarrh, wearisome and disouraging treatment and unsatisfactory osults

In view of these facts, would it not be prudent and wise for you to act in the matter NOW?

Cenezuela's Revolutionary Forces Make Another Important Capture.

Converighted 1892 by James Gordon Reprist 1 BARCELONA, Venezuela (via Gaiveston, Tex.), May 20 .- [By Mexican Caule to the New York Herald -Special to Tus BER. !-The town of Lassaplas, on the Orinoco river, just above the city of Bolivar, has fallen into the hands of the Crespists. A sharp fight has taken place near Bolivar. The revolu tionists, who were strongly intrenched near

that city, were attacked by the government troops. They were mot by a heavy and well sustained fire, under which they broke and retired in some confusion.

Captured by Guerillas.

BOGOTA, Colombia, (via Galveston, Tex.), day 20.- By Mexican Cable to the New York Herald-Special to THE BER]-Official information has been received here that a band of Venezuelan guerillas has captured the town of San Antonio del Tachisa in Venezuein, just on the Colombia frontier. he Venezuelan consul in Cucuta, the near est Colombian town and the Colombian con-sul in San Autonio united in appealing to Prefect Bucaramanga of Cueuta to allow Colombian troops to go to San Antonio to protect the people and drive away the in-truders. He was fold that the guerillas

were highwaymen of no political party, who committed all sorts of outrages on the people that the town authorities were poweriess to prevent the vilest and most lawless actions

and that anarchy prevailed. The perfect replied that any inter-ference on his part would be a violation of the neutality and he could not risk embroiling his country with Venezuela by in-terfering. The inhabitants of the town and he surrounding country are fleeing to Colum

bian towns for refuge, acandoning their possessions to the marauders, the men glad to escape with their lives and the women with their honor. The invaders are purely banditti and have no connection with either of the warring parties in Venezuela.
