DONIPHAN, Neb., June 12 .- [Special Telegram to THE BRE.]-A terrific hall storm, accompanied by a high wind, struck Donlphan and vicinity at 6 o'clock this evening, destroying all fruit and growing crops in its track and utterly demolishing every window in the town exposed to the fury of the storm. Hail fell as large as hen's eggs and banked up in some places to the depth of two feet.

BEATRICE'S STREET CAR WAR.

Rival Companies Conclude to Immediately Decide Their Alieged Claims.

BEATRICE, Neb., June 12. - Beatrice is just now enjoying a street railway war that is liable to develop into something in-teresting before ending. The trouble grows out of the cancellation of the contract whereby the Beatrice Rapid Transit and Power company sought to acquire the property and fran-chises of the old Beatrice street railway] The failure to make the necessary payments agreed upon June 1 causea the old com-pany to decide all agreements suspended and all contracts void.

Last year the Kapia Transit company se-cured a franchise over all the streets of the city that were ever liable to be utilized for street car purposes, and announced its de-termination to put in an electric line to run in conjunction with the present electric line in South Beatrice. With this in view, the negotiations for the purchase of the old street car line were begun and carried to a tearly successful term-ination, but which have since been declared void by the old company. The Rapid Tran-sit and Power company still hold their franchise over the streets of the city, but not occupied by them, and so immediately upon the adjournment of the city council last night about 12 o'clock, the Rapid Transit and Power company had a gang of workmen in readiness and proceeded to tear up the paving at the intersection of Sixth and Court streets and up North Sixth street alongside the old company's line with the intention of putting down the rival track. The ties and iron had been brought on the

ground and the work was being nusbed rapidly when representatives of the old company had the work stopped by the police authorities under the Sunday working ordi-

The present live of the Rapid Transit company extends southwards on Sixth street from Court, and it was its intention to pash from Court, and it was its intention to pash the line out North Sixth street, which street is now occupied by the main line of the old street car company In order to obstruct the work of the Rapid Transit company the old street car company mus stationed one of its cars across Sixth street at Court along its Court and Ninth street line. Thus the matter stands tonight. The Rapid Transit people will begin work on their North Sixth street extension tomor-row and will push it to completion without recard to the threats or obstructive policy regard to the threats or obstructive policy of their antagobists, the old company. Both companies claim the exclusive franchise over the street in question

MRS. POTTER PALMER.

She Arrives Home from Her Foreign Trip

in the Interest of the Fair. NEW YORK, June 12 .- Mrs. Potter Patmer, president of the board of lady managers of the World's fair, arrived in this city today on the steamship Etruria. She has been absent seven weeks, and visited England, Aus tria, France and Belgium in the interest of the fair.

Throughout these]countries; and others which she had not an opportunity to visit, she said the sentiment was very favorable in behalf of a woman's exhibit. The trouble with a great many of the European countries was that the parliaments, like some of our own state legislatures, did not properly spe-cify what portion of the appropriation made should be devoted to the woman's outlike

exhibit. An interesting bit of information obtained from Mrs. Palmer was the fact that there was some dissension in the women's commis-sion from England. The duchess of Abercorn and the countess of Aberdeen both claim to represent the Irish exhibit, which will be principally lace. Politics entered into the deliberations of the commission and both claim priority.

Several years ago, before a World's fair was talked about, Lady Aberdeen was in this country trying to further the sale of Irish this country trying to further the sale of Irish manufactures. The duchess of Abercorn's only claim to represent the Irish industries is that her husband is a tory landowner in that country. Mrs. Palmer, however, thinks that the rivalries between the two distin-guished ladies will be anicably arranged so that Ireland's (under English rule) goods will be properly represented at the fair. While our women proclaim to be foremost

While our women proclaim to be foremost in every movement, they were far behind, as regards practical work, to their sisters in England. She was rather ashamed of this, but had to admit it at what she saw. Among the countries heard from where ac tion has been taken with regard to the women's exhibit are Italy, where the queen is the patroness; Germany-Princess Frederick Christian; Belgium-the ueen; France-Mme. Carnot, and Austria-rincess Metternich. Work is being done in the countries which have not yet appointed committees to forward the project and have the governments recognize the importance of woman's exhibit at the fair. From such countries as Syria and India, where it is not expected that committees will be appointed by the government, the board of women managers of the fair are negotisting with American women resident there to send exhibits of everything unique in woman's work.

Some Theories in Reference to the Subject-Other Important Offices to Be Filled-Colonel Carr's Prom-

ised Promotion Near. WASHINGTON BUREAU OF THE BEE,

513 FOURTEENTII STREET, WASHINGTON, D. C., June 12. A good fat batch of appointments by the president will be in order soon. The most important of the collection are, of course, the selections for the successors of ex-Secretary Blaine and the late Supreme Justice Bradley,

All the gossip as to these two appointments is mere guesswork. So the names already mentioned in connection with the secretaryship of state is added today that of Minister Robert Lincoln. The improbability that Dr. Depew would consent to take the place appears more and more evident to the Washington public upon further considera-tion, especially since it has been learned here that he himself toid somebody out west that there was nothing in the ramor.

There is no news about the new justice, except that the appointment is expected soon now, and the general opinion is that the president will follow custom and give the place to Pennsylvania or New Jersey. Worth Cultivating.

These states are worth cultivating by him now. The new judge advocate general of the navy will be Lieutenant (hereafter Captain) S. C. Lomley, whose appointment will be sent in to the senate tomorrow. There are four or five colonels working for the vacant brigadier generalship, not count-ing Colonel Coppinger, who is now out of it of course.

The prize is believed to lie between Col-onels Carr, Otis, Mirner and Shafter, and Colonel Carr, who is Secretary Elkins' choice, will probably get it. All these officers are high up on the list of colonels and have excellent records. The governorship of the soldiers home is also vacant and it may be filled by Colonel O'Shea of Indiana. For Comptroller Lacoy's successor Deputy Comp-troller Nixon, also of Indiana, is suggested. P. S. H.

CONGRESSIONAL FORECASTS.

What the National Delegation Will do During the Present Week. WASHINGTON, D. C., June 12.—The busi-ness of the senate during the coming week will be governed to a great extent upon the extent to which the republican senators who have flocked in such large numbers to Minneapolis; will have returned to Washington and have again taken their seats in the chamber. In any case, however, some progress may be made on general appropriation bills -two of which (the legislative and the agricultural) were received from the house last Thursday and referred to the committee on appropriations (where the postific appro-priation bill is also pending), and several conference reports will probably be pre-sented to the senate and agreed to during the week. The silver bill will not be taken up for action until after things political shall have got back into their normal condition (subsequent to the democratic convention).

There may be action expected upon it and the currency question during almost any day's session.

Mr. Morgan is ready to take the floor on the silver question whenever he sees an opportunity extracting the views of the senators; and Mr. Peffer has given notice of his intention to address the senate tomorrow on his peculiar bill, "To increase the curand provide for its circulation. reduce the rates of interest and to establ a bureau of loans." - And finally, Mr. Call proposes next Wednesday to pay his respects to certain railroad companies which show, as ne thinks, too much interest in the question of who shall be elected to the senate. In the House, In the house there is indication of a busy week, with tariff again the leading issue. At this time it is impossible to state the order in which the tariff bills will be taken up, but the probabilities are that the in plate bill will be the first on the program if Mr. Shively returns to Washington from Indiana in season, as is expected. The silver-lead ore bill and the bill to limit the values of clothing and personal effects that may be brought into the country by tourists are also to receive speedy consideration. As there has already been a free expression of opinion on the general subject of tariff revision, it is believed that the debate on the first of the measures called up will be broad enough to cover the others. A strong disposition is apparent to hasten the hour of adjournment. All of the regular annual appropriation bills have been passed originally by the house ex-cept the fortification bill and the general deficiency bill. The last others cept the fortification bill and the general deficiency bill. The last named was reported to the house early in week and both will receive speedy treatment. Some time is also to be given to the consideration of conference reports and it is expected that the District of Columbia, the river and harbor, the millitary academy, and possibly, the army appropriation bills will be shut back for approval during the week. This is an extensive program, but the house man agers are extremely desirous to advance the eppropriation bills as much as possible before the exodus of the democratic members toward Chicago begins at the latter end of the week and they will use every effort to

"There is no doubt that Clarkson, Platt and Quay believed that they could nominate Blaine. The Minneapolis convection was run on popular principles. We have never had more able politicians than those three men in the management of the machinery, and they are in-valuable in the after convention can-vass. But the possession of great power leads party leaders to discount the strength leads party leaders to discount the strength of party movements. Clarkson and the other leaders who stood with him could not feel leaders who stood with him could not feel the power of the great business interests of the couptry. This is not seen ordinarily in caucuses or conventions. Harrison had scarcely any organization to speak of, and he had none of these great political leaders. But telegrams favoring him-not manufac-tured telegrams, but the honest expressions of business mem-came nouring in to Minneof business men-came pouring in to Minneapolis and they were very effective. We know parfectly well that if not snow We knew perfectly well that if not enough delegates appeared to constitute a majority of the convention the fact would be recognized by the weak-kneed man to be a release and that our cause was lost. In the first place he was not a candidate. I made up my mind, nowever, some time ago to secure his nomination if it lay within my knows my feelings toward Blaine. If he had not written that letter to Clarkson he would have had my support. More than that, if he had at an early date announced his candidacy Harrison would not have been a candidate That letter was a message from a great leader to his followers, I was never my disposition to sulk in my tent In the first place it spells the disposition and then, too, tents are hot. The more I con-templated the situation the more I was convinced that there was no other candidate with one-half Harrison's strength before the people. Take the whole situation now, and with Cleveland as the opposing candidate, Harrison is possibly stronger than Blaino would have been. He is certainly stronger with the country than he was in the last campaign. He has proved himself really a big man. He was never jealous of his secretaries. He never endeavored to take away one lota of credit that was due Blaine. The alarm was given at the churches about a quarter to 12, interfering with the closing exercises of the Children's day service. A high wind pre-vailed. Nothing could be done to stop the flames, and four empty stock cars and one loaded one of lumber consigned to Dey & Co., were entirely consumed before they could be removed. No other property was damaged. The ticket cabinet and some office fixtures were saved. The fire caught in the roof from the cinder of a passing engine. The damage is estimated at \$5,000.

Official Statement of the Town's Losses in its Recent Disaster and its Needs, TITUSVILLE, Pa., June 12. - The following

is given out officially to the public: "The prompt and generous assistance given

to our afflicted citizens in their recent calamity by the people in all parts of the country is most gratefully appreciated by the suf-ferers and all residents of Titusville. It is due to the public that we make a statement of our condition as exactly and accurately as

is possible six days after the calamity. "We have our relief committees thoroughly organized, and the distribution of food, ciothing, bedding and other supplies is pro-gressing with system. Perfect order pre-vails. Large forces of laborers are emvalls. Large forces of factors and the ployed in removing wrecks from the streets and in clearing up the ruins of houses. Fifty-nine bodies have been buried, Sev-eral persons are still missing. We do eral persons are still missing. We do not need clothing, food or other supplies. Our need will be for money to relieve those who have lost by fire and flood and to repair the enormous destruction of property. The district devastated by fire and flood extends through the entire length of the city for about one mile and a half. Its breadth is from one-eighth to one-fourth of a

poor and the laboring people. Within the bounds named were more than 150 dweltings as well as many manufactories and oil shops, fineries where labor was employed. The loss of personal property in the homes of the people was almost total, while very many lost not only their houses and contents, but the ground on which they stood. The streets are many of them destroyed, and the loss in this particular and in bridges is very large. Everything possible is being done to alleviate distress and our people are recovering hope and spirit. "E. O. EMERSON, Mayor.

"Roogn Sugaman, "Chairman Relief Committee.

The work of restoration of the city was continued today with little abatement.

It had been expected that excursion trains would be run from Buffalo and elsewhere for visitors to this place. On request of Mayor Emerson, however, the railroad companles refused to provide extra trains or issue excursion tickets. Notwithstanding this crowds of people flocked into town, which was overrun with sightseers.

WILLING TO DROWN.

Sensation at the Park Caused by a Plunge Into the Lake.

A sharp outcry, followed by an impetuous splash of the still water in the murky take at Hanscom park, caused quite a commotio among the Sunday afternoon visitors at the park about 4 o'clock yesterday.

"He's trying to drown himself," somebody exclaimed.

Three or four policemen, together with the park officer, hurried to the scene, An officer plugged into the lake as he saw a head bob up. The form was grasped, brought to shore, laid upon the grass, and

Andrew Larson was saved from a suicide's death.

"Why did you jump into the lake?" in-quired the officer. "Don't you know that swimming in the water here is in violation of the law?

"Oh, I cared nothing about that," replied the disappointed man. "I wanted to drown myself, but you policemen will never let a man carry out good intentions." Polico Sergeants Graves and Kiser sent the

man to the police station. He looked as he came in like a drowned rat. He was wet enough to be one. The cause of his contemplated self destruction is despondency on ac-count of being out of employment.

"The sun was too hot for me and I could get no work," said he to a BEE reporter. 'and that's the reason I wanted to drown myself." Larson is a deformed young Dane of 26 years of age. He is a cigarmaker and came

o Omaha from Hastings about a month ago. He has been living with a man named Erick Peterson at 1726 South Vinton street. He is undoubtedly insane and will be held until his case can be looked into.

Where is Captain Osgood?

Captain Henry B. Osgood, aged about 50 years, and an employe of the government corral, has been reported at police head quarters as missing. He left his family and home at Thirtieth and Cassius streets Satur day morning as usual for the corral, but he failed to return at 6 o'clock in the evening. His family waited for his arrival home until His family waited for his arrival home until after midnight, where its members became uneasy about the old gentleman's wherea-bouts. They made a diligent seach but could not find him. At 3 o'clock yesterday morning a description of him was given to the police, who are now looking for him. It is said that be is a man of no bad habits, and has never remained away from home on

Harrison' Elements of Strength.

"Harrison had three elements of great strength. Ho was strong with the business men. Nine-tenths of the business men of this country favored the renomination of Harrison and I believe that the laboring men bor strong Among who are dependent upon labor felt the same way. He was stron the solidity of the old soldiers. these there was not a dissenting voice There are 450,000 voting soldiers and this element was distrustful of every other candidate before the convention.

MORE FRENCH OPINION.

Press and Individual Comments on the Republican Ticket.

PARIS, June 12 .- The Paris papers devote some space to consideration of the results of the national convention at Minneapolis.

The Siecle takes the ground that the renomination of Mr. Harrison is the continua-tion of what it dignifies as an aggressive policy and expresses the hope that Mr. Cleveland will succeed him, La Patrie is of the opinion that Mr. Reid's

nomination is owing to his successful ac-complishment of his diplomatic functions as United States minister to France.

The Journal des Debats considers that it has good, sound reasons for believing that Mr. Cleveland will, if nominated at Chicago, succeed in winning the presidential race. M. Tirrard, formerly minister of finance,

in an interview today said : "Mr. Reid car ried with him back to America the warmest regards of everybody who knew him here. If

ison in Check. CRICAGO, Ill., June 11 .- it has been prac

tically decided that the proposed reduction in second-class passenger rates to \$14.70 from the Missouri river to California points will not go into effect June 15. Not that the Atchison people have given up their intention of making the reduction, but that they are disposed to give their competitors another opportunity to sign an agreement abolishing the payment of commissions in excess of the authorized amount on such traffic. It is well

known that every effort is being made by other transcontinental roads to induce the Atchison to reconsider its resolution and keep the rate up to its present basis.

The argument made is that such a reduc tion as that proposed would have a serious and widespread effect, inasmuch as it would inevitably involve first-class and local rates in a large territory. As no notice of reduc-tion has as yet been filed with the Interstate Commerce commission, there seems to be no doubt that the Atchison management has consented to delay action somewhat to allow the other ronds to make up their minds as to what they want to do. It is hoped that some way will prevent the reduction, if the other roads do not conclude to accept the Atchison's proposition they will prob-ably agree on a proposition to submit to the Atchison, which will be satisfactory to the road. The commissioners of the Western Traffic association have been in session for several days, and this has been one of the questions under consideration. Their idea is that the best way out of the difficulty would be the establishment of a joint committee in New York to control the immigrant business for the roads west of the Missouri river, and by an equitable division of the traffic remove the inducement to pay excessive commissions.

A decision was promutgated today by the ommissioners of the Western Tradic association on an application that has been made in regard to reduced rates agreed to by the Transmissouri association for the national nining congress to be held at Helena, Mont. July 12. The question submitted was as to whether western roads were at liberty to use he one-fare rates for the round trip as a s-H ing and hasing rate for this occasion. The commissioners decided that they were and issued the necessary authority.
