National Encampment of the G. A. R. J. J. Steadman, department commander of the Grand Army of the Republic, has concluded an arrangement with all the trunk lines in lowa for handling the Grand Army business to the national encampment, which takes place at Washington, D. C., beginning September 17, 1892. Instead of selecting one road and one train and designating it "headquarters," or "department," Council Biuffs or Sioux City will put on a special Grand Army train, which will be in command of on of the staff officers of the department commander, and the staff officer in charge of the train will have the entire responsibility of that train. These trains will run through the state by daylight, arriving at Cuicago in the morn-ing. A full day will be spent in Chicago viewing the World's fair buildings, and in the evening one full train of sleepers, and as many more as may be needed, will leave for Washington. The train east of Chicago Washington. The train east of Chicago will be known as the 'department train,' and will be accompanied by a band of music and a company of gentleman singers. Negotiations are already pending with the management of the lowa State band of Des Moines and the Pelia, la, band, one of which will in all probability be the one chosen to make the trip.

The arrangement meets with the appropagations of the contraction of the contraction

The arragement meets with the approba-tion of the passenger agents of all the lines, and they promise to work their parts of the state with all their might, so that it is proba-ble that the attendance from Iowa will be much larger than at any previous encamp-ment.

NEWS FROM COUNCIL BLUFFS

Horrible Death of John Smith's Little Three-Year-Old Daughter.

SWALLOWED A GRAIN OF STRYCHNINE

City Prisoners in Future Will Be Divided According to Their Degree of Depray-Ity-Better Quarters for the Respectable Element.

A little 3-year-old daughter of John Smith the gardener east of the city, died a horrible death yesterday morning as the result of taking an overdose of patent medicine which had been carelessly left lying about within ber reach. Mr. Smith tought a box of "Miles' pills" on Monday. There was no mark on the box to show that the pills contained any poison, and the only warning it bore was the directions which prescribed one or two pills as the cose for adults. No es pecial precautions were therefore taken to scep the box out of the little one's

way. During the morning Mrs. Smith, who was working in the back part of the house, heard a groan behind her, and looking around saw her little daughter in the act of failing to the floor. She asked what was the matter, and the little girl replied that she could not stand up. A few minutes later she went into convulsions, and within thirty minutes after her

condition was first discovered she died.

Dr. Snyder of this city was called to attend the sufferer, but long before he could get there her trouble was over. An investigation showed that it was the box of "Milea" pills" that had done the mischief. The baby but managed to get hold of them and had eaten a large number of them. Each one contained a little strychnine, and although just how many she made away with cannot be told, Dr. Snyder thinks from certain indications that she must have eaten at least a grain of strychnine, one-twelfth of which would have been a fatai dose.

Every testimonial regarding Hood's Sarsaparilla is an honest, unpurchased statement of what this medicine has actualy

Trains leave Manawa daily at 8 and 10 a. m., 12 m., and 1, 2, 2:30, 3, 3:30, 4, 4:30, 5, 5:30, 6, 6:30, 7, 7:30, 8, 8:30, 9, 9:30, 10, 10:30, 11 and 11:55 p. m. The 11:55 train will make connection with the last electric motor car for Omaha.

Improvements About the Jail.

A number of greatly needed improvements are being made about the city jail in accordance with the decision of the council at a recent meeting. The entire upper floor of the building is to be remodeled, so as to furnish quarters for certain classes of prisoners. In the past the "booby hatch," as it has affectionately been termed by some of its friends of long standing, was a nauseating place, filled with drunks, vars, vermin and specimens of a good many other undesirable things. Into it were thrown all who hap pened to come along, respectable people against whom there was no charge excep that of suspicion, as well as criminals of the basest sort. With the completion of the im-provements now being made all this will be changed. People who are unfortunate enough to come into collision with the police force will not have any palace to live in, and the pail as it now is will be used by the The jail as it now is will be fixed up in such shape that it will not be all one's life is worth to sleep in jail over night, provided the victim is not a confirmed criminal.

The jail as it now is will be used by the

regular prisoners, while the upper floor will be made in a sleeping rooms principally for women prisoners and for those of the men who seem to deserve a better place to sleep in than a hog pen. One night not long ago there were about thirty prisoners confined in the jail, while there were bunks for less than a dozen. This gives an idea of the cramped condition the jail has been in, and the change is one which will undoubtedly be

ulv appreciated by the occupants.

Trouble with the Coweatcher. Jimmie Montgomery, an old man who tives in the south western part of the city, had his regular annual experience with the poundmaster night before last. He claims that one of the cowcatchers employed by the city came to his place at 11 o'clock night before last and enticed his cow from home long enough to throw a rope around her horns, after which he took her to the pound. He iid not discover that the abduction had taken place until yesterday morning. He states that if he had known of it while it was going on he would have given the man with the rope something to remember his experience by. Montgomery went to him after he had made off with the cow and offered him 50 cents, the fee prescribed by the ordinance, to release her. The poundmaster re-fused to let her go for that amount, but in sisted on getting \$1.50. Montgomery then went to the office of Justice Cones, where he made complaint, and the affair will be investigated. Numerous complaints have been made since the poundmaster went into office by those who claim to have been "worked" for an excessive fee. The question of how much be is really entitled to will probably be decided once for all before Montgomery gets through with the case,

Disease never successfully attacks a sys-tem with pure blood. De Witt's Sarsaparilla makes pure, new blood and enriches the old.

Ogden house furnishes board and room at popular prices; from \$25.00 or \$35.00 per month, according to room.

Taken to Atlantic. Sheriff Jones of Cass county arrived from Atlantic yesterday to get William Ca opbell, who is supposed to have stolen a watch in Atlantic during the firemen's tournament. He took him back with him on the afternoon train. The two mea who were with Camp pell at the time of his arrest were allowed to go free on an agreement made between Jones and Officer Bowling of Manawa. Bowling claims that the two men were mixed up in the pickpocket expedition at Manawa last Sunday and as soon as they are set free on the charge of vagrancy now

they will be taken to Manawa for a trial Reiter, thetallor, 310 Broadway, has all the latest styles and newest goods. Satisfaction guaranteed.

pending against them in the police court

Challenge for Avoca. Since the firemen's tournament at Atlan. tic there has been considerable discussion over the result of the steamer contest in which Council Bluffs defeated Avoca by a small margin. The Avoca men claimed that they were ruled out of the contest by the partiality of the judges and stated that they feit confident of being able to defeat Council Biuffs at a fair test. They are to be given the

chance they so much desire, as a challenge was issued yesterday by the members of the Bluffs team and will be sent in due form to the Avoca team. The challenge provides that each team shall choose a judge and the two judges a third. The Bluffs boys will put up \$150 to \$100 and have the contest in this city, or Avoca will put up \$150 to \$100 and have the contest there, the rules of the Iowa Firemen's aspeciation to govern the contest. The members of the home team are very anxious for the contest to take place and as those of the Avoca team seem to feel the same way there is but little doubt feel the same way there is but little doubt that another contest will be arranged for the near future to decide the championship.

Mrs. L. R. Patton, Rocaford, Ill., writes: "From personal experience I can recommend DeWitt's Sarsaparilla, a cure for impure blood and general deniity."

Stacy-Atwood.

A quiet wedding took place last evening at the residence of Mr. and Mrs. J. S. Robertson, 522 Washington avenue. The parties were Harry E. Stacy and Miss Berta At-wood, both of whom are well known in social circles in the city. Only their im-mediate relatives were present. The cere-mony was performed by Rev. G. W. Crofts of the Congrezational church. Mr. and Mrs. Stacy will atoma begin, housekeeping at 523 Stacy will at once begin housekeeping at 522 Washington avenue, where they will be at home to friends after July 1.

"The American Idea." The growth of the American idea cannot be better illustrated than in the wonderful change of sentiment regarding foreign mineral waters that has taken place in the past

fifteen years.
At the beginning of the past decade no one thought of using anything but a foreign water. Now all is changed. The mineral water resources of America have come to be understood and it is well known that in spring waters, as in everything else, America leads the world. Our Londonderry Lithia is far shead of the waters of Carlsbad as a medicinal water, while sparkling Londonderry has largely superseded apolli-naris as a table water. Poland is also famous and has as guests at its elegant santtarium many foreigners who have formerly visited Furopean springs. Michigan also has valuable waters, and the Pacific slope can boast of thermal waters equal to any in the world.

But the best evidence of the growth of the American idea in mineral waters may be found in the numerous imitations of the leading waters. Formerly this imitating was exclusively of foreign waters. Today the market is flooded with manufactured lithia waters in imitation of our two well known lithia springs. As none but leading goods are imitated this is proof positive of the American idea. We also regard this as a healthy sign. American water for Americans should be the watchword. Let "Her Majesty" drink all the foreign water; we can get along without it. If she gets gouty will send her a case of "Londonderry, which, for this trouble, is well nigh specific

FARMER AND THE WEATHER.

Nebraska Crops Are Growing and Promise a Great Harvest.

CRETE, Neb., June 14 .- [Special to Tim BEE.]-Weather crop buffetin No. 10 of the Nebraska weather service, issued from the central office, Boswell observatory, at Doane college, for the week ending June 14, says: college, for the week ending June 14, says:

The week has been warm and sunshing, with only scattered showers and has been the most favorable week of the season for the growth of all vegetation and for farming operations generally. The temperature has been above the normal in all parts of the state, generally from one and a half to three degrees above, but in the southeastern part of the state about seven degrees. The sunshine has also been decidedly above the average.

The rainfall generally has been very light, and in many parts of the state there was none or only a trace. The dry, warm weather has hastened the growth of all crops, and especially corn has made rapid progress; smail or only a trace. The dry, warm weather has bastened the growth of all crops, and especially corn has made rapid progress; smail grain has been sightly injured in a few cases by the warm, dry winds and lack of showers; the ground has become somewhat crusted and showers in all parts of the state would be very beneficial to soften the surface of the ground.

Data from Washington. WASHINGTON, D. C., June 14.-The follow ing is the weather crop bulletin issued by the

weather bureau: The past week has been slightly cooler than usual in the states bordering on the At lantic southward of the Potomac river and along the immediate west gulf coast, and decidedly cooler than the average in the Rocky Mountain district and Pacific coast. Over the great portion of the principal agricultural districts, the week has been warmer than usual. Generally over the southern states the temperature for the week has not differed materially from normal. The seasonal temperature continues deficient over nearly the whole of the United

States. The rain for the past week has been les than usual over much of the greater part of the United States. A marked deficiency is shown in the lower Onio, lower Missouri and central Mississippi valleys, where very little rain has fallen.

There is an excess of rain in the upper Mississippi valley, upper Ohio valley and in portions of the middle and south Atlantic states. Unusually heavy rains also occurred states. Unusually heavy rains also occurred over portions of central Montana and there was in general a slight excess over Wyoming and Utah and thence westward to the Pa-From the middle of the Atlantic coast

westward to the Missouri valley the excess has been very decided, and especially in the central valleys where from 25 to 75 per cent more than the average amount of rain has

Iowa Crop Prospects. DES MOINES, Ia., June 14.—The state weather crop bulletin says: It has been a very favorable week for farming. The average temperature was 30 above the normal, with more than the usual amount of sun with more than the usual amount of sun-shine. The rainfall was generally enough to keep the soil in good condition for vegeta-tion. Corn planting is nearly completed. Cultivation is in progress. The stand is about the average. Not more than the usual amount of replanting is necessary. The acreage is materially decreased, but with seasonable weather a fair crop may be pro-

duced. Small grain, pasturage and meadows are doing well. Wheat in Store in the Northwest. MINNEAPOLIS, Minn., June 14 .- The Northwestern Miller reports the stock of wheat in private elevators in Minneapolis at 716,000 bushels, an increase of 15,000 bushels. total stock at Minneapolis and Duruth is 12,572,184 bushels, an increase for the week of 82,000. A year ago the stock was 10,130,-000 bushels.

The market record gives the stock
