

MORRISON'S LITTLE BOOM

Illinois Democrats Said to be Working Against Cleveland.

HOW THE EX-PRESIDENT NOW STANDS

Washington Followers of the Party Insist That Grover Has the Only Organization Worth the Name—He Will Probably be Nominated.

WASHINGTON BUREAU OF THE BEER, 519 FOURTEENTH STREET, WASHINGTON, D. C., June 15.—The boom for Grover C. Morrison of Illinois for first place on the democratic ticket has developed remarkable strength within the last few days, and it is now really the most prominent of any of the so-called booms which have been noticed at the national capital, with the single exception of that for Mr. Cleveland.

FOUR LONG HOURS OF THE SILVER

Advocates of the White Metal in the Senate Earnestly Pleaded Its Cause.

WASHINGTON, D. C., June 15.—The senate spent four hours today in a debate on the silver bill, Mr. Morgan occupying about three-fourths of that time in an elaborate presentation of arguments in support of the measure. His speech was not so directly aimed, as some of his preceding speeches on the same subject were, at supposed candidates for the presidential nomination.

Colonel Morgan was himself at the capitol today, assiduously trying to spread this belief to his boom on a more substantial foundation. He had a long conference with the members of the senate, but not one of them would divulge what was the purport of their talk.

At Chicago, as at Minneapolis, organization is bound to tell, and many of the democrats who are active in the campaign insist that the ex-president is the only democrat who has an organization worthy of the name.

Success of an Iowa Statesman.

Congressman Frederick Edward White of the Sixth Iowa district, who has been today created something of a sensation in the house.

He held his audience, republican and democrat alike, for an hour and a half, and when he at length rose to bid adieu to the house crowded up to shake hands with him.

Returning from Minneapolis.

Ex-Speaker Reed is one of the latest pilgrims to return from Minneapolis. He was asked soon after he reached the capital to write a newspaper man.

He held his audience, republican and democrat alike, for an hour and a half, and when he at length rose to bid adieu to the house crowded up to shake hands with him.

ON MARATHON'S GORY FIELD

How Sturdy Greek and Valorous Persian Chased Each Other in Battle Array.

THEY ALL GOT LOST IN THE SHUFFLE

Red Hot Sham Battle Brought to a Sudden and Unlooked-for Close—Kirkbride Who Skirmished—Huge Crowd Out to See the Fun.

Biggest crowd ever on the grounds. That's what there was at Camp Brooke yesterday afternoon. A conservative estimate would be 20,000 people; in fact, that is the very lowest estimate, as the attendance variously figured at all the way up to 40,000.

The sham battle was the great attraction, and although it was, in many respects, the shammiest kind of a sham battle, it had many deeply interesting features, and the deficiencies were, to a great extent, excusable.

There was an abundance of noise and smoke, and what there was of the battle was in the main satisfactory. It was on what there was not that all kicks were based, but the association is hardly responsible for that, as there would have been more of the battle but for an unexpected circumstance.

It is no small matter to handle a crowd of 20,000 people, but it was very satisfactorily accomplished, and the disagreeable feature yesterday were no more numerous than must be invariably encountered on such an occasion.

Coming of the Crowd.

Up to noon the grounds were still comparatively deserted, but during the hour the general aspect rapidly changed. Arrangements had been made with the street railway company for a two-minute service on the Sherman avenue line between the center of the city and the camp, and for two hours even that was insufficient to accommodate the thousands who were bound for that common destination.

They were landed at the gates about as fast as they could purchase tickets and pass through the three entrances at the southeast corner of the grounds, but even that would not have done the business.

Thousands went over the top of the hill, and the streets were thousands more passed through the south gate in their carriages. There were still other thousands who got there somehow or other, and the grounds were packed about the grand stand to overflowing, swarmed over the race course, and filled the quarter stretch.

As it still came. The track was filled with them and the quarter stretch crowd continued to grow until it extended far beyond the limit of the quarter stretch, and entirely around the half mile track. It even encroached on the parade ground and the prospective battlefield, and then the work of the day was done.

Clearing the Battle Field.

Everybody had paid money and wanted to see all there was to see, and they objected to the line of companies that were to be drilled, and they wanted to see the work of the officers led to accomplish.

It was finally necessary in order to complete the drill to have the companies that were already forming the line of battle to assist in the operation, and ropes were then stretched to keep back the crowd who were being packed about the quarter stretch.

The Chicago Zouaves gave a pretty exhibition drill on the parade ground to interest the vast crowd, while the preliminaries for the sham battle were being completed.

The attack was to be opened by artillery, and the Persians were to advance for each other, when the Persian charge was to be made, breaking through the Greek center.

The Greek left flank was to be broken, and the Persians were to be defeated on the flanks by the Greeks, who were to make a complete inner wheel, closing up the broken part of their line, and fire into the rear of the Persians, who were to be routed.

Commander Richards took his captains over the field, explained the formations and movements in detail.

NOT YET CONFIRMED

Nothing Definite Concerning the Reported Flight of President Palacio.

KNOWN TO BE DESPERATELY SITUATED

Venezuela's Dictator Has Been Deserted by His Friends.

ARMS SEIZED BY MANY CITIZENS

Corathred Wrested from the Government Troops by a Mob.

THEY WERE PREPARED TO USE DYNAMITE

Rebel Forces Raid Railroad Camps and Take Charge of All Explosives—Ready to Make a Fight for Life.

Caracas (via Galveston, Tex.), June 15.—[By Mexican Cable to the New York Herald—Special to THE BEE.]—I have received your dispatch inquiring what truth there is in the rumor that Dictator Palacio of Venezuela is a fugitive.

There are rumors here to that effect, but they have not yet been confirmed. It is common talk among persons arriving here from Venezuela that Palacio has been drinking heavily, that his forces have been defeated in several successive encounters, and that all his influential friends have deserted him.

The general belief is that if the dictator has not already fled, he will soon be compelled to do so.

Caracas (via Galveston, Tex.), June 15.—[By Mexican Cable to the New York Herald—Special to THE BEE.]—I have not yet heard from Caracas any positive confirmation of the rumored flight of Palacio to date. I have sent three separate dispatches of inquiry into the truth of the rumor. Not one of my messages has yet been answered.

I can only explain this on the ground that they were suppressed by the government censor, or else that the telegraphic or cable service is completely paralyzed. I have taken steps to find out the true situation of affairs in the capital and expect to get definite information within a day or two.

I shall probably write of the results. It is possible that the recent departure of ex-Minister of Finance Mattos from La Guayra for Paris may have given rise to the report about Palacio.

Puerto Cabello, Venezuela (via Galveston, Tex.), June 15.—[By Mexican Cable to the New York Herald—Special to THE BEE.]—It is reported here today that a serious insurrection has taken place at Corathred, a few leagues from La Guayra. The citizens seized all the arms stored in the plaza.

Cherón has also rebelled. The legalists have possession of the entire coast as far east as Espiritu Santo, within a few miles of this town. The men-of-war sent by Palacio against Rio Chico failed to land his troops. The rebels there prepared to defend themselves with dynamite which the railway workers, carried into the revolutionary camp, Word has reached here that the English camp mining at Yumaco presented the dictator with 2,000 uniforms for his soldiers, which was thanked officially through the war office for its timely gift and manifestation of friendship.

The news has created a big sensation and is understood as further proof of a deal with British authorities.
