NEWS FROM COUNCIL BLUFFS

Floyd Mather Narrowly Escapes Drowning in Lake Manawa.

FOR SEVEN MINUTES UNDER THE WATER

He is Saved by the Presence of Mind and Good Sense of Some Omaha Visitors—News and Local Gossip.

Floyd Mather, a 16-year-old boy who claims for S. T. McAttee, and lives on Tenth street, between Fifth and Sixth avenues, had a glimpse of the hereafter yesterday afternoon that was distinct enough to enable him to tell pretty nearly what it looks like from close quarters.

All the other boys were too busy reaching themselves to pay any attention to Mather. The whole affair was over by quite a number of people in the pavilion, but it was some time before any one could be found to go to the rescue.

methods of Hill and to demand representation. If, after so presenting the case, it is decided to withdraw in behalf of harmony in the convention and united effort in the campaign, the delegation can go home to its constituency and say that their mission has been fulfilled.

THE TARIFF PLANK. Issues on Which Democracy Will Go Before the People.

CHICAGO, Ill., June 19.—The platform has been almost lost sight of in the struggle between the Cleveland and the opposing forces. It has, however, received some consideration from gentlemen who may reasonably be looked upon as probable members of the committee on resolutions.

The tariff plank, naturally, will stand forth and be the principal issue on which it will be sought to run the campaign, but the force bill will come in for almost an equal share of attention and it will have as much virulence as can be put in it in denigrated English. Democrats say that the republicans have thrown down the gauntlet on this bill and they are only too glad to take it up and meet their opponents.

The tariff plank will not, as far as its general declarations on the tariff questions go, differ from the plank of 1888. It will demand that the people be relieved from the burdens of unjust taxation, and that the tariff be reduced to such an extent as an economical administration of the affairs of the government will permit.

With respect to the McKinley bill. A special plank will be devoted to the McKinley bill, which is denounced as a measure framed for the advantage of special classes and which raised the prices of articles of value to the consumer. It will also be denounced as fostering trusts and resulting in the formation of combinations of capital to the detriment of the people.

The democratic party will declare its continuing devotion to the freedom of action, and demand the repeal of the McKinley bill for the suppression of trusts. It is probable that there may be recommended legislation which will remove the duty on an article controlled by trusts as one of the measures on the operations of these concerns.

Monetary Questions. The silver plank will be general. Mr. Patterson of Colorado has the support of a number of congressmen in an attempt to have the convention declare in favor of free coinage, but the most that can be done is some declaration as was contained in the Indiana platform, which declared in favor of a supply of money of uniform value and sufficient abundance to meet the demands of trade, gold and silver, the proportion to be determined by the national monetary conference will be approved.

The "million dollar congress" will be denounced for its extravagance and for the passage of measures by which the necessary appropriations for the support of the government were largely increased.

The restoration of the democratic party to power will be asked of the people in order that the laws increasing the government expenditures may be repealed and relief given from heavy taxation.

Cleveland's Administration. Attention will be called to the large reduction made in the public debt under the "honest and economical" administration of President Cleveland and with this will be contrasted the "unpeopled" condition of the public treasury under the present administration.

The administration of President Harrison will come in for a measure of consideration, and the pension office is likely to be expostulated.

Among the miscellaneous matters that will have a place in the platform are likely to be the American registry, ship owned and controlled by Americans; the maintenance of a navy adequate to the protection of American interests and the honor of our citizens; the exclusion of Chinese laborers and the restriction of immigration, and of a better enforcement of immigration laws.

The Nicaragua canal has a number of strong supporters here and an endorsement of the project is likely, but perhaps with some provision not committing the United States to its construction.

As to the World's fair it will probably be given a less hearty endorsement than it received in the Memphis convention. One signature of the republican platform was a declaration in favor of the cession of arid lands to the states and the western representatives will ask the aid of the party in meeting this appeal to the suffrage of the settlers scattered over the Rocky mountain region.

A vigorous effort will also be made to secure the adoption of a resolution looking to the election of president and senators by a direct vote of the people.

CLEVELAND AND FREE TRADE. Henry George is in Chicago to Talk for the Apostle of Reform.

CHICAGO, Ill., June 19.—Two powerful accessions to the Cleveland ranks were made tonight by the arrival of Henry George, the single taxer, and Congressman Thomas L. Johnston of Cleveland, O. The two gentlemen were met at the Union depot by 100 members of the Chicago Single Tax club, headed by President W. W. Bailey, and driven to their hotel, where an informal reception was held.

"If Mr. Cleveland cannot carry New York," said Mr. George, "nobody can. Senator Hill cannot carry the state of Ohio. There is a tremendous independent element in New York which Mr. Cleveland can command, and which would have confidence in no other candidate. Tammany had no place over Mr. Cleveland's nomination, but the people will be watching that organization, and it will have to be on its good behavior. Certainly, Mr. Cleveland represents the tariff reform idea as does no other man. The nomination of Mr. Cleveland does not mean the loss of the tariff radical lines. I certainly look for Cleveland's nomination and triumphant election."

When you expect the democratic party to make a declaration in favor of free trade? "I hope such a declaration will be made in the platform and be adopted at this convention. At any rate Mr. Cleveland's nomination will practically mean that the democratic party is in favor of free trade."

Mr. Johnson, who is a delegate, said: "I believe Mr. Cleveland will be nominated. I shall vote for him as long as his name is before the convention. To turn Mr. Cleveland down would mean the loss of all that has been gained. I do not know exactly what the complexion of the Iowa delegation is, but my impression is that the majority of the delegates are for Mr. Cleveland."

Printers Object to Flower. CHICAGO, Ill., June 19.—A mass meeting of democratic union printers was held here today. The meeting was called with the object of opposing and voting disapproval of any recognition by the democratic national convention of Roswell P. Flower, governor of the state of New York, as a candidate for honor during the coming week. That to which local printers object is the so-called duplicity of Governor Flower in his position as a printer in the union printers of New York when he voted the state printing house bill, after a majority of both houses of the state legislature had supported the measure.

Resolutions setting forth the printers' objections to Mr. Flower were adopted and will be presented to the democratic national convention.

It is expected that there will be at least 1,000 signatures to the resolutions.

TEMPORARY CHAIRMAN. Difficultly Met with in Selecting a Suitable Man for the Place.

CHICAGO, Ill., June 19.—At 10 o'clock tomorrow morning the subcommittee on organization of the national committee will meet to "suggest" a name for temporary chairman of the convention to the national committee, which recommends an officer for that position to the convention.

Members of the Committee Divided. The members of the subcommittee are at present divided. Mr. Watson and Mr. Sheehan of New York being strongly in favor of Mr. Owens, while Senator Ransom and Mr. Prather of Missouri are for Mr. Stevenson.

Don M. Dickinson said this afternoon that the Cleveland men had made no suggestion as to temporary chairman. He says that all they wanted was a man not hostile to Cleveland. If Mr. Owens were hostile he ought not to be chosen, but Mr. Dickinson would not say whether or not the Cleveland men were opposed to Mr. Owens.
