GAY LIGHTS, GOOD LIVERS

Short History of the Premier Club of Omaha.

SOCI L MOVEMENTS IN ROSY JUNE

Mr. and Mrs. F. D. Cooper Celebrate Their silver Wedding-Reception at the High School-People Talked About.

"Man," says Addison, 'as said to be a sociable animal and as an instance of it we may observe that we take all occasions and pretenses of forming ourselves into those little nocturnal assemblies which are commonty known by the name of clubs. When a set of men find themselves agreeing in anything particular, though never so trivial, they

The modern club is erected upon this central thought, good fellowship, sociability and a commeeting mon

HENRY W. YATES.

The Omaha club, the oldest social organization in point of continuous existence that the city can boast, was formed by a few of the younger men of the metropolis in 1884, the preliminary meetings taking place in the directors' room of the Omaha Savings bank. Sixty men signed the charter of the club and then as now the membership represented the orains, the wealth, the business and prosional life of Omaha.

essional life of Omana.
Shortly after the formal organization of the club, whose first president was Robert W. Patrick, a prime mover in its formation, the club, took quarters in the top floor of the Arcade hotel, now the Casey, then under the management of Mr. Campbell, but there was no elevator, the service while it was the best that could be obtained was ordinary and the members were not particularly enthusi-astic over the success of the new candidate for social honors. After occupying rooms in the Arcade for a short time the club took apartments over the Omaha Savings bank where a billiard table was set up and several

liam Paxton was building what is now the Ware club occupied the of this building til the erection

block, at the cor-ner of Fifteenth and Farnam, the future home of the Omana club. For years the the United several years when the

club again was placed on wheels and occupied the apartments planned for its reception, which it will continue to occupy until the club's new house at Twentieth and Douglas completed. A year ago last May the Union club, which had previously been organized and occupied the rooms which the Omaha club vacated in the Ware block, joined forces with the older organization, giving the Omaha club a big boom in mem-The Omaha club is the premier club of the

city and its members include all the most prominent men of almost every nationality, of every religion and every trade or profession. In such a heterogeneous mass some of course must stand out clear from their fel-lows and are men known to the public from their wealth, from their oratory, from their business qualifications and every conceivable possibility that makes one man more famous No stranger of note comes to Omaha with good letters of introduction and falls to be "put up" by the club. It is the resort of the army people, big railroad magnates, heavy bank directors, rich corporation presidents, journalists, fat office holders, well-to-do business men—in a word it is a lub of great respectability and representa-

Mr. Henry W. Yates, its president, is thoroughly fitted by age and experience to direct its affairs. Born January 1, 1837, in Leonardtown. Md. his poyhood was spent in that ardtown, Md., his boynood was spent in that sleepy village and attending the public schools in Washington, which is only a short distance away. In 1855, filled with a desire to see the west and blaze for himself a pathway, Mr. Yates located in St. Louis, but only resided there a year when L Joseph became his dwelling place, and entered the wholesale grocery house of ve. McCord & Co. as bookkeeper. In 1861 when Nave, McCord & Co. established a branch in Omana, Mr. Yates came here as

their confidential agent. Later he left the firm and returned to St. Jee where he was married. In 1863 Omaha again became the abiding place of the future president of the Nebraska National bank, Mr. Yates assist-ing Kountze Brothers, who were then doing a private banking business at Twelfth and Farnam, in organizing the First National bank with which institution he was connected for nineteen years in the capacity of assistant cashier and cashier. In 1883 in connection with the late A. E. Touzalin, then vice president of the Chicago, Burlington and Quincy railway, the Nebraska Nacional bank was organized, Mr. Yates succeeding to the presidency, which position he has ever since held. Mr. Yates is a man of pro-nounced convictions, and, while somewhat taciturn to the outside public, among his associates he is esteemed as a model citizen

and a companionable gentleman; just such a man as one would expect to see at the head of the leading club in a large city.

Mr. D. J. O'Donahoe, or Dan, as he is familiarly known among his fellows, is the secretary of the club, and a model secretary he is. Born in County Cork, Ireland in May, 1852, he came to America with his family shortly after his bicth, his parents locating in New York state. Five parents locating in New York state. Five years later they removed to Brockville, Can, where Mr. O'Donahoe learned the dry goods business as clerk and proprietor. In 1881 he came to Omaha and entered the dry goods outiness, which he followed for seven years, finally drifting into real estate, in which business he is now engaged. While typical of the real estate interest in the clup, he is a clubable fellow and enjoys life. dup, he is a clubable fellow and enjoys life just about as much as any of his associates. The club is fortunate in having as Its directors some of the solid men of the west C. F. Weller, Guy C. Barton, C. N. Dietz, C. J. Greene, C. S. Montgomery, W. V. Morse, Charles E. Coe, the treasurer of the club being Mr. Frank Murphy, who has touched the millionaire mark once or twice over. The following is a corrected list of the per-

sonnel of the club: Abbott, C. Adams, D. C. Alexander, F. E. Allen, Edgar H. Allen, R. M. Ames, George W. Annio, William E Ayres, Captain J. C. Bemis. Hen. Geo. P. Berite, R. S. Bedford, Jeff W. Senedict, D. P. Benedict, D. P.

Their Silver Anniversary. Twenty-five years ago yesterday Mr. and Mrs. F. D. Cooper were married in Dubuque, fa., by Rt. Rev. Bishop Hennessey and immediately after left for Omaha on their wedding journey, and which has continued to be their home over since. Twenty-five years married! A good many changes nave taken piace in that quarter of a century; children have come and are married, the hair has whitened considerably and the forms are not nearly so erect as twenty-five years ago, but the large number of guests who were present at the handsome residence of Mr. and Mrs. Cooper at Forty-second and Hamilton streets last evening were a unit in saving that never had they seen a more thoroughly happy and well mated couple. The house was exceptionally well decorated, roses, of course, predominating, with here and there roses of smilax to give it a tender touch of green. The lawn was brilliantly illuminated with Japanese lanterns and right in the center of the grounds a well of claret emonade attracted universal attention

lemonade attracted universal attention.

Mr. and Mrs. Cooper received in the east parlor and the bride wore the identical gown as on her wedding day twenty-five years ago, a Nile green silk with lace over dress, and a very pretty costume it was. Assisting directly in receiving were Mr. Augustus Cooper, a handsome son of the "Silverites," and their daughter, Mrs. Fred Delione, who wore a white brocaded silk made in the style of Josephine's gowns with cream silk sash. Adding these in entertaining the guests who Aiding these in entertaining the guests who crowded the house during the hours of the reception were: Mr. and Mrs. R. C. Cushing, Mr. and Mrs. H. B. Coryeli, Dr. and Mrs. Kinsler, Mr. and Mrs. Ben Gallagher, Mr. and Mrs. John Schenck, Mr. and Mrs. J. F. Coad, Mr. and Mrs. Frank Burkley, Mrs General O'Brien and Mrs. D. J. O'Neill of Council Bluffs. The presents, and there was a room full of them, almost, were displayed in the music room, which was bowered in flowers and potted plants. A trio of pretty girls served punch from a beautiful punch bowi twined with smilax and roses, located in the drawing room, Miss Pearl Hartman, Miss Kate Creighton and Miss Bessie O'Brien. The

Creighten and Miss Bessie O'Brien. The dining room, too, had undergone touches by the florist and looked particularly beautiful under the soft lights from candelabra and chandeliors. The table was exquisitely arranged and a wedding cake occupied the center while the bride of a quarter of a century ago cat as in days agone.

Throughout the evening the Mandolin club piayed sweetly and appropriately, making an evening exceptional in its charm, but then the equities were perfect, the night perfect, as Jone nights are in this latitude. At the sherbet well outside Messrs. Tom Cushing, Harry Gallagner, Harry Burkley and Mr. McManon waited upon the guests, and it would be hard to say which was the more enticing, the punch bowl inside or the well outside. With hundreds of old time friends to join in the congratulations, a beautiful home erected by business sagacity and patient energy, with children to rise up and call them blessed, the silver anniversary of Mr. and Mrs. F. D. Cooper's marriage was charming in every particular. Among those who were invited to be present the following will serve to snow the large acquaintanceship of Mr. and Mrs. Cooper:

Reception of the High School Alumni. The final scene in the drama of the High school commencement was enacted Friday evening at the institution on the hill which turned out sixty-six young men and women Wednesday. It was the annual reception of the alumni of the school, an event full of interest to the older graduates and a well-spring of delight to the class of '92, for it brought the latter into direct contact and placed them on a level with the boys and girls of former classes, now men and women grown. It would be hard to imagine a more pic

REN

turesque scene than was presented to the looker on at the festivities of Friday night. Youth was in the ascendency and pretty girls in the smartest of graduation gowns knocked elbows with manly seniors who had climbed learning's hill with them and stood at the summit entitled to the diplomas which follow hard and conscientious work. The halls of the building were made brilliant by immense locomotive headlights which dispeiled the shadows from nooks and corners and compelled the more romantic inclined classmates to seek classrooms and deep class mates to seek class rooms and deep window seats to talk over the bygones and pledge anew their friend-ships, while the music from a large orchestra in the lower hall guided the waitzers through the dance. Pretty girls were largely in the majority and the men present were really the heroes of the hour and sought after with assiduous attention. There was dancing for those who loved that sort of amusement, while one of the class rooms above stairs was converted into a rooms above stairs was converted into a card room for the more sedate guests, who either did not dance or had tired of the waltz. And there were punch bowls, with dusky waiters to serve the wishes of the maids and men, while something more sub-

stantial in the way of refreshments came on There were twelve numbers on the dance program in addition to the following numbers prayed by Irvine's orchestra as a prelude to the greater feast which followed:

the greater feast which followed:

March-High School Alumni Irvine
Overture—Banditen Streich Suppe
Selection—Erminie Jacobowski
Gavotte—First Heart Throb Ellenberg
Polish Dances Scharwenka

McCague, Charles B. Stone, Emma Stebbins, Ethelwynne Kennedy, Mar-garet Cooke, Edward T. Grossman and Henry Clarke, was active in the work assigned to it, and members of the alumni who did not have a jolly time have no one but themselves to blame for a stupid evening. The faculty of the school was present to aid in the merrymaking, which did not terminate until after the midnight hour had been marked by the bell in

the tower of the building.
HISTORY OF THE ALUMNI ASSOCIATION. The High School Atumni association is a growing organization. It has just been in-creased by the addition of sixty-six new graduates, and the prospects for ever widenng membership has never been better. In fact, it is displaying a wonderful vitality for an infant of but three years. But the present association is not the first attempt made in that direction nor was it any too early in making its appearance on the scene.

Although the High school building was erected in the summer of 1871 yet the first class to graduate was that of 1876. The commencement was held in the large auditorium of the building and was quite an event of the times. In 1877 there was no graduating class, but the small body of eleven alumn was increased again in 1878, and since then has annually received a regular increment. The commencements were held, one after another, in the Academy of Music, Boyd's opera house,

the Grand opera house, until that of 1892 took place in the new Boyd. With but four exceptions each successive graduating class has been larger in point of numbers than that just preceding it. The following table shows their distribution both by classes and by sex:

graduates the girls are in a very large majority. Why this is so must probably be explained by a multiplicity of causes, for the natural coudi ion of western population matural condition of western population would almost warrant a reversal of the figures. That so large a body of educated young people, bound together by the strong ties of intimate association, could exert an influence for much good both upon one and another and upon their alms mater was soon discovered. To effect any components but was a discerned. To effect any common purpose as organization is the primary requisite and so in the first part of the last decade a movement for the formation of an alumni associa-tion was started. At its nead were Mr. Will McCague, '78, and Miss Stacia Crowley, '76, who became president and secretary respectively. Its activity, however, con-tinued but a short time when it seemed

rather to vegetate than to thrive.

With the class of 1889, the first of solid numerical proportions, came a new impetus to the association. Under the lead of Mr. Frank Leisenring a reorganization was brought about under a new constitution and

new officers. Mr. Georg Strang became president and Mr. Frank Leisonring secre-tary. They were succeeded the following

tary. They were succeeded the following year by Mr. Curtis Turner and Mr. George S. McCague respectively, while the present officers are Mr. Charles S. Elgutter, president, Miss Stacia Crowley, secretary, and Howard Kennedy, jr., treasurer. The constitution provided that each class shall select a vice president from their own number, but the various classes have failed to carry out this portion of the proceedere.

The chief purpose of the association is to maintain and extend among the alumni of the High school the fraternal feelings that have been aroused and hourished while in that institution. This social part of the program is attained by an anual reception to each new graduating class, at which the latter are welcomed into the fold and the older members renew their school-day friendships. members renew their school-day friendships.

These receptions are reunions of the cultivated young people of the community and have an educating as well as a recreative

The second and perhaps most important aim of the Alumni association is to assist in bettering the High school in every possible way. The graduates are to lend their influence, individually and collectively, to the promotion of her weifare, to repay as far as lies in their power the debt they owe. Thus far little positive action has been taken in this direction, but it is proposed in the near future to establish prizes and scholarships for meritorious students. While the finances of the association will not as yet allow such an undertaking, the rapid growth in membership and the increasing resources of its members will, in a comparatively short time, enable the original idea to be put into objective reality.

Duryen and Eddy. The Denver Republican gives the following pleasant account of the marriage of Mr. Maurice Duryes and Miss Eddy, which occurred week before last. "Miss Jessie E. Eddy, daughter of the late Rev. Clarence Eddy, was married last evening at 7 o'clock to Mr. Maurice Duryea, at her mother's resi-dence, 1424 South Fifteenth street, by the groom's father, Dr. Duryea of Omaha, assisted by Dr. Freeman. The bride is a slender, graceful, beautiful blonde, and was exquisitively attired in a cream-white ben-galine, low neck, short sleeves, demi traine and white gloves. The real point lace handkerchiof that was snugly tucked under her
dainty bodice is an heirloom in the family, for
it is over 100 years old. She carried a large
bouquet of white bridal roses, tiedwith white ribbon. Miss Mary Duryea,
sister of the groom, was maid
of honor, Miss Fletcher and
Miss Annie Fletcher were bridesmaids.
The little flower girl was Miss Roberta
Wright, and a dainty little pietore she made,
with her pretty white frock trimmed with
daisies and tiny white kid slippers. Mr.
Fred Thompson was best man, and the
ushers were Mr. Fred Snyder of Chicago
and Mr. Ailen Parsons of Boston. It was a
pretty, quiet home wedding, and the soft
low melodious strains from the orchestra
added to the attractiveness of the evening. and white gloves. The real point lace handadded to the attractiveness of the evening. A reception followed the ceremony, and imnediately afterward the newly married couple left for Maniton Springs, where they will remain about one week before going east. They will not return to Denver until the 1st of September." Mr. and Mrs. Duryea are the guests of Dr. and Mrs.

Duryea, 2402 Cass street. Pienic at Pries Lake, The Gate City club entertained about thirty of their friends at Pries lake last week. At 9 a. m. a coach, and six left the residence of Mrs. Mary Murphy, corner of Fourteenth and Center, and a more jolly crowd never started out la sdarch of a day's pleasure. Arriving at the lake after two hours' drive delicious rafreshments were served, to which all present this ample justice. The remainder of the day was spent in ball playing, driving and boating, the party returning home at dusk, having spent a most

returning home at dusk, having spent a most enjoyable day.

Among those present were Misses Murphy, Coffee, Conery, Blum, Bronnan, Hannah Bronnan, Maggie Murphy, Trott, Devine, Nellie Brennan, Sullivan, Laura Devine, Emma Trott, Allen, Brennan, Devine, Fuhs, Malone, Driscol, McDonald, Kennelly, Wentz and Minnie Hutte of Oxford, Ia, Messrs. Upon returning to the wharf Mrs. Ober efficiated at the ceremony of christening the cance. It will now be known as the Emily, in honor of Mrs. Ober. Mr. and Mrs. Ober left on the 4:50 train for the Adirondacks,

where they will spend their honeymoon. Albany Evening Journal. In hogor of Miss Fowler of Hastines, Miss Burse of Kansas Chy and Miss Thomas of Detroit, who are visiting Miss Palmer, Captain and Mrs. H. E. Palmer, assisted by Miss Palmer and Mr. George Palmer, enter-tained at high five the following young peotained at high five the following young peo-ple on Monday evening last: Miss Belle Kimball, Miss Lionberger, Miss Mary Lion-berger, Miss Barker, Miss Cushing, Miss Bertha Clarkson, Mr. Thomas Cushing, Mr. Dallas Bache, Mr. Harry Holdrege, Mr. Milton Darling, Mr. Wilbur Christian, Mr. Clark Colt, Mr. Frank Weeks, Mr. Ed Weeks, Many of the young radios were just from school and enjoyed their home and freedom years much freedom very much.

The Paxton Hotel.

This well known and popular hostelry is still the leading hotel of the city, and deservedly so. Its location is the best that could be chosen, and its fine ex-terior appearance attracts the attention of all strangers. The rotunda for comort and elegance is not excelled by any thing of the kind east or west, and will always be the means of making the hotel headquarters on all large gatherings in the city.

The hotel is now under the manage

ment of Mr. Ralph Kitchen He is a practical hotel man and at present has about thirty mechanics of all kinds at work on the exterior and interior of the building. About twenty-five addititional baths will be put in the house and new plumbing and steam fitting is being put in as fast as possible, and painters and decorators are a work on the interior. It is expected that all these improvements will be completed within sixty days, when nev furniture will be put in the hotel. The house will not be closed during the progress of improve-ments, Mr. Kitchen informs the public that he proposes to make the prices rooms from \$2.50 to \$5.00 per day in order to accommodate all classes of

The house is now doing a good business, and the table is spoken of as being exceptionally good.

MATILDA CLOVER'S DEATH, ensation Developed at the Inquest Bring-

to Light a Blackmailing Scheme. London, June 25 .- The inquest into the death of Matilda Clover, which it is thought was caused by poisoning, was continued. The testimony of Laura Subbitina caused a sensation. She was engaged to marry Neill He induced her to write the blackmailing letters. All these letters were signed "W H. Murray." She asked him why he de manded such large sums in the case of Dr. Harper, £1,500, and why he made such ter-rible charges. His reply was: "Fil tell you some day.

Continuing Miss Sabbitina testified that after making arrangements for the wedding Neill went to America in April. He wrote letters signed "Murray," accusing certain persons of poisoning Alice Marsh and Emma Shrivel with strychnine and offering to sup press the evidence supporting the accusa ions in the event of the payment of a certain sum of money.
Neill's landlady deposed that at the time

of the Russell divorce case Neill had ssked her to take a letter to Lambeth road, where llover resided, saving he believed there was a girl who had been poisoned and he wanted to ascertain if she was dead, adding that he believed Lord Russell had poisoned her. ANTI-PARNELLITE APPEAL.

The National Federation of America Asks for Election Funds for Ireland. NEW YORK, June 25. - The National Federation of America has sent this appeal: To the Friends of Home Rule in Ireland:

The dissolution of the British Parliament is announced and the general election is to be held immediately. The struggle of Ireland for life or death is at hand. Now is the time to help her if you wish her to live—that is, to be free. We speak for the majority of the Irish national party, presided over by Justin McCarthy, and your subscription will be de-voted to its support. Help to any faction opposed to that majority is help to dis-union, dishonor and disaster. Funds are needed to carry eighty-five seats in Parliaent and the legitimate legal expenses will

SHERIDAN.

The Coming City of Northern Wyoming. Sheridan Euterprise: Perhaps the community at large is not aware of the real estate transfers that have taken place during the past few months in our happy and beautifully situated Sheridan. Captain H. E. Palmer of Omaha has alone purchased over \$50,000 worth of property finely located adjacent to the town, on which he is making extensive improvements, such as changing the channels of Big and Little Goose creeks and cutting and clearing his property of brush. These improvements have greatly benefited the city and given it a dressed-up appearance, as it were. Captain R. O. Phil lips of Lincoln, Neb., also has made many large purchases, the last one being that of about 180 acres of land from L. H. Brooks at \$100 per acre. This land hes southeasterly from the town and will, no doubt, be cut up into valuable residence property.

Captain H. E. Palmer has now completed platting the Collins eighty, which lies just east of and adjoining the town. This had is a very level piece and will make, due to its nearness to the town, to its owner a handsome return for the enterprise he has shown. Mr. John B. Kendrick has now on the market lots in his addition just south of town. His property is on the hill, and no doubt in the near future, with the growth of the town, we will see

many fine residences erected there.

The confidence exhibited by these gentle men and by other eastern men in the town of Sheridan ought to convert the doubting Thomases here at home and cause them to pull in harmony for any project that will aid an already thriving and prosperous town and assist her to become, as she is destined, the largest city in Wyoming.

Sheridan is situated in the center of the best agricultural county of the state and has over 267,000 acres of irrigated lands sur rounding her.

A Genuine Republican Cap. One of the best republican campaign caps ever manufactured is the McKinley cap, invented by Captain C. M. Copp of Hill City, S. D. It is a neat cap of, blue with a band and visor of American

ously the word Protection, the key note and war cry of the campaign. In itself the cap is an unanswerable argument, silent but solid for protection, the rock to which republican hopes are anchored. Captain Copp has presented his design in the east and republican campaigners are wild over it. Many clubs have adopted it, and it promises to be a part of the regulation republican uniform in the coming contest.

ADVISED TO TAKE IN THE RIVER

What the Reporter Anticipates When fle is Requested to Drift Down the Street and "Watch the Water Go By."

When an Omaha reporter, filled with the despondency of a newsless day, so far forgets the ethics of the guild as to wonder in audible torms where he is likely to get an item, the city editor, if some other reporter is not present to save him the trouble, will caustically advise him to 'go down to the river and waten the water go by," If there is a more proficless place for an Omaha reporter to visit, the profession has a melancholy discovery yet to make. This bit of advice is considered a fine piece of sarcasm, and a reporter with a becoming respect for the dignity of his calling will never lay himself open to a second humiliation of this sort.

But if the yellow, swirling, repuisive waters of the Missouri are the despair of the reporter, there are men who actually make a business of watching the river. Some of them are hired by Uncle Sam and others are on the payroll of bridge companies. It is their duty to measure the stage of the water at least once a day and report the height above low water mark.

Interesting Features of the Work.

That may appear to be a mechanical sort of a duty with results rather calculated to bore than to interest, and yet one may make

a curious study of those selfsame reports. The Union Pacific has a man stationed at its bridge who measures the stage of the water in feet and inches. Uncle Sam's man at Sioux City makes his record in feet and tenths of a foot. At Bismarck the government observer takes the low water mirk at St. Louis as his basis and gives the height of the river in feet and hundredtus above that point. Here are three different systems with the measurements varying in nicety from a tenth to a hundredth of an incl Then there is the hour of observation, which is 6 a. m. at Omaha and Sioux City, and 6 p.

m. at Bismarck.
At Union Pacific headquarters, they keep the record from these three points. From these it appears that when the Missouri is sixteen feet above low water at Omaha it neaus danger for the embankments of that railroad at this point and perhaps for its bridge. Yesterday the Big Muddy made its highest record for the year, reaching thirteen feet and eight inches. Friday morning it had dropped just one inch. The reader must not jump at the conclusion that the water will rapidly subside.

What the Record Indicates,

The report from Bismarck shows that the river is still high at that point, and by studyng the record one finds that the water passing the North Dakota city today will reach Omaha from seven to nine days later. When a rise is reported at Slouz City it takes from twelve to twenty-four hours to make it noceable at this point.

It is a diverting occupation to study the ecord and notice how regularly the rule vorks. The low water dark at Bismarck is 618 feet above that of St. Louis. On May 2 the river rose to 1619 95, and seven days ater it went up about a foot at Omaha. It continued high for six days at Bismarck and four at Omana. On June 1 the river at Bisnarck rose from 1620.90 to 1624.25. The first ffect at Omaha was noticed June 8, when he record was eleven feet, over a foot higher than on the previous day, and it gradually went up to twelve feet and five inches on June 12. On June 13 Bismarck reported the river up to 1626.85 feet, and that high water made itself manifest at Omaha on June 19, the record jumping from ten feat

eleven inches to twelve feet two inches.

The river has gradually gone up at Bismarck, the gauge marking 1629.15 feet Thursday, and high water may be expected to continue at this point for a week yet. The daily rise up north has been by small fractions of a foot, from which it is argued that the snows of the mountains are melting gradually. The further deduction from this is that the danger of disastrous floods is lessening every day. Another curious thing is the fact that the

river is considerably higher at Sloux City than at Omaha. For example, on June 18 it was ten feet eleven inches at this point and ourteen and one-tenth feet at Sioux City The high water reached Omaha the next morning, raising the gauge to twelve feet two inches. At Sioux City the night water mark was reached on Wednesday, when it was fifteen and one-tenth feet. At Omaha it came on Thursday with a record of thirteen feet and eight inches.

De Witt's Sarsaparilla is reliable.

Mrs. Dr. Van True. the celebrated Psychologist. Physiognomist. Phranologist. Astrologist. Mindreader and Forecaster, Soothasyer and Peacet asker to all mankind, has airlyed here from an extended tour of the Pacific Const. where, with thousands of her patrons, she still holds communion. She is a forecaster of the bighest order, tells past, present and future with absolute truth. Through her wonderful development of mesmeric gaze deep down into your soul, similar its false folly, collect the fragments of your tooken heart and comon them with a ballo se asociating as to instill new life, new hope, new vigor, starting you once more on life 4 journo's necompanying you it to that journey's end, avoiding the sucress and plifals that looset its way asterished to end of the tourney's end, avoiding the sucress and plifals that looset its way asterished to the fragments of divinity but make an accompany of the cover by likely ondowed. There is an indeed, also something about her that hadden the will be remarkable attending about her that hadden the million of all you can be about the still you can feel the million of all you can feel the remains to work, and which you can feel the millions of all you can feel the millions of all you can feel the protein and all you can feel the protein and the you what lies hidden there speaking to you in a parabolic language so plain and distinct that you will be amazed at the truth of her narrative. She laids you fail propose, unlocks your very bo pin and tells you what lies hidden there speaking to you in a parabolic language so plain and distinct that you will be amazed at the truth of her narrative. She lays no claim to a supernatural power, nor does she practice the stitles so common to others in her profession, but morely employs the power nature has bestowed upon her. In anaphy your desting, pointing out the right cause in the secret of a successful carrai.

Without til kerry, pretense on sham, but in the brond open light of sober sense and you in the care in drepard of your as se SCIENTIFIC LIFE-READER.

Mrs Dr Van True, the celebrated Psychologist, havelognomist, Piranologist, Astrologist, Mind cade and Forceaster, Soothaayer and Peace-
