WHEAT DEVELOPED MUCH STRENGTH

This Was the Result of Cable Reports That the India Cereal Crop Was Enormously Short-Stocks and Bonds.

Cutcago, Itl., June 28.—There was more activity and decidedly more strength in all of the pits during most of the session of the Board of Trade today, but near the close there was a general weakening all along the line and final figures show only moderate gains. Perhaps the most encouraging factor of the day was the growing belief that the dreaued Hatch anti-option bill cannot pass the senate this session. There was also other strong features and especially erop reports which are beginning to come in less favora-

bly than heretofore.

There was a report from New York that Liverpool had just capted that the Indian wheat crop was 64,000,000 bu, less than last year. This was regarded as incredible, but New York telegraphed that it had had the cable repeated and the report was confirmed. eable repeated and the report was confirmed.

Last year India exported only about 55,000,000
but of wheat and if the crop is now 64,00,000
but less than last year, it would seem that the exports this year must be very measur. Yet since April 1, the beginning of the new crop year, she has exported over 15,000,000 but, or fully as much as for the same time a year are. Moreover, the lilinois crop report was untavorable.

untavorable.

Afterall of these bulletins had had their effect, it was noted that the later cables were low instead of higher, as would have been the with an enormous decrease in India. low instead of higher, as would have been the case with an enormous decrease in India. Then there was an increase in the English visible supply of 1.300.00 bu. Longs were inclined to take their profits on the rise and a reaction resulted. July opened at 78%c, advanced to 10%c, weakened to 18%c, reacted to Inke, azainst 78%c at the close yesterday. Corn was strong and higher. The Hilnois state report was unfavorable and other crop advices also discouraging, and there was active covering. The market weakened later with wheat. July opened at 50%c, advanced to 51%c, sold off to 50%c and closed at 50%c, an advance of %c.

Cats sympathized with the other cereals and closed with %c advance.

Provisions were in sympathy with grain.

closed with Mc advance.

Provisions were in sympathy with grain, but weakened later and closed with only a light advance.

Chicago, Ill., June 28.—Counselman & Day to Cockrell Bross: Corn attracted the most interest on 'change today and for two hours the buying orders poured in from all directions, especially from the west. Then in connection with the Illinois state crop estimate of only 69 per cent compared with Inst year created a rush of shorts to cover and on the resulting builge the leading longs sold heavily. During the list half hour an ease r feeling prevalled and just after the close September con sold at 49c. Wheat responded tardily to the builge in corn, principally on shorts covering, but lost nearly all the advance on late favorable crops and weather news and weak closing cables. Oats were firm in sympathy withcorn but were in good demand for sample lots. There is a growing long interest in the inteflutures, based on the belief of a short crop this year. Provisions were rushed up several times by built speculators and an effort was made on each bulge to unload as much long stuff as possible, especially ribs. Some success was attained but the buying was mostly for country longs and on small orders. What short interest exists is mostly among packers and they tail succeed in breaking the market before long.

Chicago, Ill., June 28.—F. G. Logan & Co., to Duncan, Hollinger & Co.: Wheat opened at 78½ c or July, sold at 78½ c, as high as 7½ c, and closed at 79½ c. There was no special feature to the market, the trading being scattered over the pit. The tone was firm, caused by reports of a larze shortage in the linding reports of a larze shortage in the linding reports of the control of the captry buyers, assisted by Pardridge selling September, broke the price to 79c. September sold about ½c under. Cable advices are duil and lower. Crop reports from the winter wheat betare about as good as can be. The reports from the spring wheat crop are poor. The buying by the country commission houses has been heavy and began to sl

STOCKS AND BONDS.

Animation in the Vauderbilts Was the Feature of the Day. Ngw York. June 28.—The event of the day in the stock circles was the announcement of the refusal of Drexel, Morgan & Co. to undertake the reorganization of the Richmond & West Point system, and to this event was due the sport of animation and weakness caused by a seiling movement. There was also some animation in the Vanderbilts, especially Lake Shore and Himois Central, over the increase of the dividend on Lake Shore. Otherwise the market represented the same uninteresting appearance that it has for the last few days and the animation in the stocks referred to

The announcement of the refusal checked a very promising advance in Richmond & West Point securities, but while the stock declined and the preferred materially so, the clined and the preferred materially so, the
effect was more largely seen in the bonds. The
drive at the grangers resulted in knocking
large fractions off of Burlington.
Reports from the crops being favorable, the
movement was quickly checked. Considering
the prevailing duliness there were some very
favorable movements, and these lavariably in
the upward direction among the specialties.
The market finally closed very dull but firm,
close to the opening figures in most cases,
while a few stocks retained the early ad-

vances. Sugar and Hocking Val ev are up 1 per cent. The trading reached 119,803 listed and 191,206 unlisted.

Government bonds have been duil and The Post says: The grounds assigned by Messrs Drexes Morgan & Co., in their refusal to undertake the Richmond Terminal organization, fully confirms the suspicion that controlling interests in certain roads which make up the system are adverse to any outside recorganization. The present situation points to the alsruption of the Richmond Terminal

LIVE STOCK MARKET.

Cattle Active and Higher-Sharp Advance in Hog Values.

OMAHA, June 28.—Receipts for the two days this week foot up 3.542 cattle. 13,308 hogs and 107 sheep against 3.801 cattle. 13,308 hogs and 334 sheep the same two days last week.

There was an active trade in cattle at generally stronger prices. On account of the more encouraging outlook in the east shippers and exporters were quite active buyers, while the inquiry from dressed beef houses was rether more urgent than on Monday. Good to choice cornfed cattle sold readily at prices generally 5c to 10c higher. This was especially true of handy fat steers. Coarse heavy and uninished stuff was no better. Anything good and fat sold readily and it did not take over four hours to exhaust the supply. Fair to very good beeves weighing from 1.200 to 1.500 its sold from \$1.81 to \$4.30; fair to good, 1.000 to 1.500 ibs steers from \$5.53. It was about as lively and satisfactory a market as we have had in many a day.

There was not much life to the trade in butchers' stock and canners. Cudahy re-Cattle Active and Higher-Sharp Advance

ce vel fifteen longs of Texas cattle from Kansas City and in consequence the demand from that source was in a me sure satisfied. Prices ruled about stends; poor to rood cows and helfers seiling at from \$1.00 to \$1.25; bulls, oxen and stags were dull and weak at from \$1.00 to \$4.125; calves were steady at the recent decline, seiling at from \$2.00 to \$4.25.

The offerings of stock and feeding cattle were decladly more liberal than usual, in fact more liberal than there was any call for. Country buyers were shy and local speculators decidedly averse to paying steady prices for unmerchantable property. Saies were scarre and largely at \$2.00 and \$3.00. Declars generally saies: 4.00; good to choice 40 to 90-ib lam's, \$4.00@ 8.50. Representative sales:

Hogs-Considering the strength of the market receipts hardly came up to expectations. The supply was about 1.000 head short of last Tuesday's run, the quality but fair. There was a builtsh feeling throughout. Shippers started in paying at from \$3.10 to \$3.20 for good to choice butcher and heavy hogs. Local houses were also free buyers largely at from \$5.00 to \$5.05 for fair to good light and mixed loads. A few choice light loads brought \$5.10 and a few inferior loads sold as low as \$4.95. The general market was active and nearly 1 e higher all around, the close being firm at the advance. Everything sold early, the bulk vt from \$5.05 to \$5.10 Monday. The general average of prices paid was \$5.07% against \$4.984 Monday and \$4.90% inst Tuesday. Representative sales:

The upturn is accounted for by the small receipts, less than 5.00 head arriving today and the total since Saturday reaching only about 18.00. There was a good strong demand both for shipping and local account, and the pens were cleared before noon on a basis of from \$3.00 to \$4.85 for common to extra steers. \$1.25 to \$3.00 for poor to extra cows and helfers, and from \$1.40 to \$4.00 for Texas cattle. There were not nearly enough good cattle to supply the demand, and of common grades a few more could also have been handled to advantage. more could also have been handled to advantage. The market closed strong at the advance.

There was an excited hog market today. The supply fell so far short of the demand that sellers found no obstacle in the way of a further advance and they at one proceeded to push prices up from 10s to 15s. They were carried to from \$3.20 to \$5,50 for common to choice heavy and to from \$3.10 to \$3.45 for light. The bulk of the stuff was taken as fast as yarded and from \$2.20 to \$5.50 were the prevailing prices. The market closed fairly steady at the above range, nothing remaining in salesmen's hands.

The sheep market like that for cattle and bogs was very firm and from the same cause, viz. light receipts. Only about 4,000 arrived and they were swallowed up at stiff prices, sales making on a basis of from \$3.00 to \$5.25 for inferior to extra qualities. Lambs were firm at from \$4.50 to \$7.09. There was inquiry for feeders at from \$4.50 to \$4.00. Most of the trading in sheep was at from \$4.00 to \$5.75, and from \$6.00 to \$6.75 were the popular prices for lambs.
