

FINISHED IN THIRD PLACE

Omaha Euroced in Shutting Out Columbus in the Last Game Played.

VICKERY'S SUPERB PITCHING DID IT

Rowe Made the Only Earned Run of the Game, Aided by Two Outcomes—Toledo Crowded Omaha Close—Other Games.

Omaha, 3; Columbus, 0. Toledo, 3; Kansas City, 1. Indianapolis, 12; Milwaukee, 7. Fort Wayne, 12; Minneapolis, 5.

COLUMBUS, O., June 30.—[Special Telegram to The Bee.]—The close of the first championship season in this city was marked by two prominent features. The first was the escorting of Captain Dave Rowe from the grounds in the custody of a pair of policemen at the order of Umpire Snyder. The second was the winning of the game by Omaha in the fourth inning without making a single base hit.

The trouble between Rowe and Snyder occurred in the seventh inning. O'Rourke was the first man at the bat and he made a single, Campau following with a drive over second base. Sheibek got the ball and claimed to have touched O'Rourke out, but Snyder would not allow the play. Then your Uncle Dave said something about Snyder being a cur and Snyder's response was a fine of \$5.

This incensed Rowe so that he repeated the remark, adding to it other epithets that would not look well in the religious department of THE BEE.

Snyder then ordered Rowe out of the game and asked the ground policeman to take him off the grounds, which was done. Bob Glick then covered first and Darby went to center field for the balance of the game.

They Contend—Touch Tommy.

Vickery and his pitching staff on today and the "Champs" could do nothing with him. He struck out ten men. It was the intention to pitch Handlob, but Rowe had to have today's game in order to hold third place, therefore he gave Vickery a chance to distinguish himself.

The work of the entire Omaha team was excellent, but it is Vickery who is the palm of excellence. Stephens pitched a great game, but the errors behind him lost the battle at a critical juncture.

In the fourth inning Omaha won in a peculiar way. Glick pitched on balls, and would have been out at second on Kelly's force hit, but Joe Walsh failed to hold McPherson's assist. Visonor sacrificed from McPherson's base, Brockenridge, when Glick scored on a wild pitch. Merritt got the ball and threw to O'Rourke to catch. Kelly hit Tim, but the ball got through him and Kelly came skating in.

Those two runs were the game, for Columbus could not get a run over the plate. The mighty Brockenridge, Abbey and McClellan had chances to tie the score, but the base hit that they longed for never came.

will meet the rejuvenated Toledo at Sportsman's park. The White Sox have put up fine ball during the present trip and will be given an ovation on their return. The Fort band, with carriages, will await them at the depot, and before departing to the grounds parade will be made of the principal thoroughfares. The Toledo will come in on the same train and take part in the parade.

These two teams have played a very even game this season, with Toledo's representatives having a little the best of it. Toledo will try hard in tomorrow's game to even up with Omaha just as hard to increase the gap between them. The positions in tomorrow's contest will be as follows:

APOSTLES OF REFORM

[CONTINUED FROM FIRST PAGE.]

former, official organ of the state alliance. He was chairman of the first people's party convention held in his state and is now secretary of the state executive committee. He is credited with being the organizer of the party in Alabama, and is known all over the state as an orator and journalist, though he looks extremely youthful.

Like your city and must say I am pleased with your reception," he said. "I have noticed THE BEE, read it on my way to Omaha, and was really gratified to see the fair and impartial manner in which it speaks of our party and the coming convention. Our delegation consists of forty-four members, twenty-five of which will be here. Another party will arrive tomorrow, among which will be a brother of Senator Morgan, as staunch a man as lives. The members present and stopping in the Globe are: F. Gore, J. R. Harvey, J. W. Hinnicutt, W. T. Haney, T. W. Powell, R. B. Haney, J. B. Walter, C. J. L. Cunningham and S. A. Fisher."

George F. Gaither and wife of Alabama are at the Millard. Mr. Gaither is chairman of the people's party state executive committee and a member of the national committee. Gresham is first choice of the Alabama delegation for its head, and the Alabama delegation will be the largest of any of the first choice for vice, but he has been nominated for congress and they would like to represent him there, they will favor Macine for second place.

"You may say for me," said Mr. Gaither, "that the nomination of Cleveland has busted the solid south which has only about 50,000 voters in my state who stand as I do on that point."

TAKING THEIR CHANCES. Delegates Coming in Swarms with Accommodations After Consideration. The members of the independent party are not accustomed to attending national conventions and evidently do not understand the wisdom of securing rooms in advance.

Up to noon yesterday less than a dozen delegations had engaged quarters, and if there is delay and confusion, the cash comes in. It will not be the fault of the local committee, which has had an agent at room 333 in the Board of Trade building ready to book all applicants for accommodations. Following are the delegations already assigned to quarters: Ohio, ninety-two delegates, at the Jennings; Georgia, fifty-two, Arcade; Colorado, twenty-seven, Windsor; Arkansas, twelve, Delmona; Missouri, twenty, thirty-five to fifty, Esmond; Massachusetts, twenty-two, Windsor; Wisconsin, ten, Esmond.

California has wired for rooms for thirty and Minnesota for ten, but they have not been assigned.

John Seitz, late independent candidate for governor of Ohio, is at the Millard. A party of sixty Kansas from Washington county will find resting places in Kuntze Place. M. L. Wheat and Charles McKelvie, delegates from Iowa, have engaged rooms at the Arcade. That house will also shelter two delegates from Wyoming, twenty-three special Western Union operators and editor of the alliance department of the Kellogg Newspaper union.

E. S. Peffer, son of Senator Peffer, has arrived. He has been connected with the Cincinnati Herald and at the St. Louis conference represented the Kellogg Newspaper union.

G. E. Hathaway of Washington, Kan., is here and will represent the Atchison Champion. A telegram from Atlanta announces that the Georgia delegation left that point Wednesday morning. It is expected to arrive today.

Alexander J. Jones of New York, representing the Associated Press, arrived yesterday morning and is at the Millard. Delegates from New York, who are expected to arrive today, will be at the Millard. Chairman Post of the Georgia state committee says he was misquoted in the statement that his delegation would support Peffer for the presidential candidate. "This movement in the south is essentially an alliance movement, and the Georgia delegation will be a party known to be in accord with the platform on the subterranean plank. Unless he is cannot carry a southern state."

"South Carolina will probably not be represented," said Delegate Irwin of Georgia, "but the delegates will carry that state by a 40-60 majority."

EIGHT THOUSAND SEATS. The Convention Hall Ready for the Big Meeting—Arrangements for Tickets. Last of the 8,000 seats ordered for the independent convention was placed in position at the Coliseum this afternoon, and it is found that there is room for nearly 10,000 more. The committee has once notified, and arrangements are being made by which the additional chairs may be secured and placed in the convention hall. This will give admission to that many more than has been supposed could be accommodated.

The committee on decoration sent out decorations yesterday and nearly all the decorations of the great platform and the walls of the hall is being hidden beneath festoons of flags and bunting. The pillars are also being swathed in draperies of the national colors, and voluminous festoons of flags and bunting a most hide from view the great arched structure that support the roof.

The appearance of the convention hall as a surprise to even those who first contemplated fixing it up for that purpose. In could not be seen in the distance, and many of those who were at Minneapolis or Chicago, or both, say that it is better arranged by far than any other convention hall of those cities, and that the appearance is most attractive. Standing in any part of the great structure and looking out over the city, the view will be less than that of any other convention hall, and with all this, it is better arranged by far than any other convention hall of those cities, and that the appearance is most attractive.

Hot Springs and Deadwood Are Indulging in an Interesting Series. HOT SPRINGS, S. D., June 30.—[Special Telegram to THE BEE.]—Yesterday afternoon a fine game of baseball was played here between the Deadwood team and the Hot Springs Browns, resulting in a score of 7 to 0 in favor of Deadwood. Another game was played between the same teams, resulting in a score of 7 to 0 in favor of Hot Springs. It was an exciting game. Another game will probably be played here Sunday. Both are excellent teams and the final game will be hotly contested.

Norman Is Desperate. Norman L. Baker, the veteran pitcher, has sent in an application for a position on the Western league's umpire staff, and the probabilities are good for his success. He has been here here under the name on several occasions, and always gave the best of satisfaction. If appointed the Omaha cranks will have an opportunity tomorrow of seeing just what he does know about adjudicating the fine points of the great game.

Girls Won One. HASTINGS, Neb., June 30.—[Special Telegram to THE BEE.]—The Denver aggregation of female baseball players and an amateur nine of Hastings played an interesting game before a large crowd today. The game was witnessed by a large number of ladies, and the delight of all was unbounded when the score resulted, three for the males and four for the females.

think he was elected and then counted out. For the first time in the history of the state the people's party has a man in the state who is a week getting in, and when they finally arrived it was found that the vote which he carried was for the Democratic candidate. Of course, if Mr. Willits is brought before the convention he will have the hearty support of his state.

There will be no platform except that adopted at St. Louis. There may be resolutions, but that platform formulates the three great fundamental principles on which this convention is called. It is not likely anything will be added.

LIGHTNING WILL STRIKE. Telegraph Companies Make Arrangements to Handle the Convention Reports. Among the men who are busiest in preparing for the coming convention and to win the occasion means a vast amount of work and responsibility are the managers of the local offices of the telegraph companies. On no one occasion are the resources of the great telegraph companies so severely taxed as when a national convention is in progress.

The proceedings of the convention are not of the nature of a public meeting, and the participants in the debates and witnesses of the struggle for party supremacy between rival factions. The whole country anxiously watches the public interest in the proceedings of the convention. In every city the bulletins boards are besieged by excited great fundamental in the crossings, and the main population centers at the little telegraph office to hear the first news of the proceedings.

The telegraph companies devote the task of satisfying the curiosity that is as broad as the nation and nothing less than the most minute and elaborate reports will be given to the public. The telegraph companies are in session the telegraph is strained to its utmost capacity. An army of skilled and diligent men are to be seen at every night and day flashing the ball important news to every corner of the globe. It tells the story of states battling for their favorites, of business interests and their interests, of the defenses. The cheers that reverberated through the convention hall in a moment of exultation are re-echoed in lightning flashes from Maine to California, from the Atlantic to the Pacific.

The general public realizes the enormous amount of work required to accomplish this result. But the telegraph companies are not to be deterred. They are determined to lose their prestige and an executive ability acquired through years of experience, aided by the best and most improved scientific appliances.

It is generally believed that this enormous business must be a source of great revenue, but that is far from being the fact. For so great an amount of work the telegraph companies are not to be deterred. They are determined to lose their prestige and an executive ability acquired through years of experience, aided by the best and most improved scientific appliances.

The preparations of both companies are nearly complete. The Western Union will have six wires running direct to the convention hall. These will be used for bulletins, and messages. The other company will have six wires running direct to the convention hall. These will be used for bulletins, and messages.

THE FOURTH

And Christmas, up to ten or a dozen years ago, were recognized among business men, as sort of dividing lines between the dull and busy seasons. "After the Fourth" seemed to be the time for the merchant of that period to get "two kinds of bait" and go "fishin." Times have changed. Progressive merchants (that's us), have discovered the fact that men will buy goods in July as well as in any other month, if the inducements held out are strong enough. Our recent great special sales--sales that have crowded our store from basement to roof--sales that have not only been "town talk" in every corner of our city--but which have been heard of in every city and town and hamlet in the whole west--have left our stock of suits in a somewhat demoralized condition. Here we have left half a dozen suits at eighteen dollars--forty at twenty dollars--twenty at twelve-fifty--maybe a dozen lots of from ten to twenty-five each at fifteen dollars--several lots at thirteen-fifty--a few lots at seventeen dollars and so on--making in all an aggregate of several hundred

FINE SUITS.

These suits are in sacks and frocks, they are in all wool--and silk and wool--cassimeres--and worsteds; some are bound--some are not bound; some are dark--some are medium--some are light; there are plain colors, plaids, stripes--checks; in fact, there is a better line of suits to select from than most houses can show you at from twelve-fifty to twenty dollars. We have sorted all these odd suits into two grand and distinct lots, placed them on separate tables and from now until after the fourth, you can choose as you like from the two lots at

\$9.00 and \$12.00.

The inducements are strong--nicht?

5,000 tickets, which it proposes shall be distributed among the members of the party. They will be divided among the states on a basis of the attendance in Omaha, which will give the adjoining states the larger allotment. The tickets will be given to the chairman of each delegation, and he is expected to apportion them among his delegates. The tickets for speakers are not yet printed. There is no city in the United States, except New York, which has a more adequate and effective telegraph system than Omaha. There are 160 regular sending wires leading out of Omaha, and by the addition of George F. Gaither's wires can be made more than sufficient for the purpose.

The preparations of both companies are nearly complete. The Western Union will have six wires running direct to the convention hall. These will be used for bulletins, and messages. BOLD DAYLIGHT BURGLARS.

Fifteen Hundred Dollars' Worth of Plunder Secured. The residence of E. Franklin Alexander, at 2529 Pierce street, was the scene of a bold daylight robbery yesterday. Shortly after noon, and during the temporary absence of the family, burglars forced an entrance and went through the house from collar to garret.

About \$1,500 worth of property was stolen. The thieves boldly entered the front door and proceeded to systematically search every room in the house. Bureau drawers were emptied on the floor and their contents hastily pawed over in the search for valuables.

Two diamond rings, a valuable breastpin, a couple of gold watches and considerable silverware were packed up and safely carried away. So far there is no clue to the thieves.

MEETS AT LINCOLN.

Republican State Convention Called to Assemble Early in August. The republican state convention will be held at Lincoln August 4, and Chairman Mercer of the state central committee will sound the preliminary note of the gavel at 10 o'clock.

That was the decision arrived at last evening by the state central committee, which met at republican headquarters to consider the matter. The committee was unusually well represented.

A number of aspiring candidates were on hand, looking carefully after their prospects. Among them were J. W. Witham of Pawnee City and Joseph T. Hartley of Atkinson, both of whom aspire to the custodianship of the state's cash for the next two years. State Treasurer Hill was there, bestowing his aid and advice on the aspirants.

Then there were Eugene Moore of Norfolk, P. O. Hedlund of Holdrege and J. A. Cline of Omaha, each and every one of them looking for assistance in carrying the nomination for Auditor Beaton's job, and Auditor Benton was quietly whispering how a high order of merit would suit him to have the honor of the gubernatorial office.

The rest of the counties in the district also seconded and Mr. Dooliver was renominated by a unanimous standing vote. A committee was appointed to prepare a platform for the party, and Mr. Dooliver declared that he would bring in amid wild enthusiasm. He made a very happy speech to the convention, thanking congress and the people for their generous support, and he thanked the delegates for their support.

It made him sad to see that Iowa democrats who went to Chicago with ear loads of enthusiasm and no experience had returned with ear loads of experience and no enthusiasm. Mr. Dooliver declared that he would bring in amid wild enthusiasm. He made a very happy speech to the convention, thanking congress and the people for their generous support, and he thanked the delegates for their support.
