

CAMPBELL WILL NOT SERVE

He Will Resign the Chairmanship of the Republican National Committee.

REASONS ASSIGNED FOR HIS ACTION

Business Engagements Will Not Allow Him to Attend Meetings Which Have Been Named as His Probable Successors—Washington Notes.

WASHINGTON, D. C., July 5.—Hon. W. J. Campbell, chairman of the republican national committee, arrived here this afternoon and went to the senate house at 3:30, where he was in consultation until nearly 6 o'clock with the president, Secretary Elkins, Commissioner Carter, Secretary Ruess and ex-Senator Spooner of Wisconsin. At the conclusion of the conference Campbell gave out the following statement for publication, saying that he was going further to say with regard to the question at issue. This is the statement referred to:

"When I was elected chairman of the national committee it was with the distinct understanding that my business engagements, then pending, might render it impossible for me to act in that capacity. This contingency was fully understood by the committee and others directly interested. Since the adjournment of the committee, I have been unable to adjust my affairs so as to render it practicable for me to act as chairman; and I, therefore, as I reserved the right to do, announce that I will not so act. Under the authority vested in me by the national committee, I will probably announce the next day that committee will meet at an early date. At that meeting I will formally tender my resignation and my successor will be then elected. My successor will be chosen by the executive committee as authorized by a resolution adopted by the national committee."

The resolution alluded to was adopted to meet just such a contingency as has arisen. The names most prominently mentioned to-night in connection with the chairmanship are Commissioner T. H. Carter, J. H. Manley of Maine, Samuel Fessenden of New Hampshire and Mr. Hobart of New Jersey.

Chairman Campbell will probably appoint the executive committee tomorrow and those whose names are mentioned above are the names which it is believed, by sound opinion, will be elected. The names mentioned are: J. H. Manley, Maine; Garret Hobart, New Jersey; Samuel Fessenden, Connecticut; J. S. Clarkson, Iowa; W. O. Bradley, Kentucky; H. C. Payne, Wisconsin; S. C. Kerens, Missouri; E. Rosewater, Nebraska; and J. N. Hutton, Indiana.

STILL ON THE SPEAKER'S TABLE

Future Action on the Silver Bill—News and Notes.

WASHINGTON, D. C., July 5.—So far as the action of the house is concerned, the silver bill is in exactly the same position this afternoon as it was when the speaker laid it before the house this morning. It is still upon the speaker's table, subject to any variety of motions for its reference. But it is in the power of the friends of the measure at any time when there is a quorum present, to elect Mr. Tracy's motion to refer it to the committee on banking and currency and to move its reference to the committee on coinage, weights and measures.

It was said after adjournment today that the fight over the reference would not be renewed tomorrow, as the committee on the measure will allow it to be referred as its friends desire, without further obstruction. It is now admitted by the anti-silver men that the bill will not pass through the house committee, and it is the purpose to make a strong fight there. For the reason that the bill was not taken up by the committee there was no meeting before the house, and there will be nothing before the committee for its action. The silver men think that there will be a meeting before the house, and that it is extremely doubtful in view of the number of the absentees whether they could secure the presence of a voting quorum in the committee. It is expected that the change will be made on the maintenance of a large number of republicans.

Seven telegrams to absent members, urging their speedy return, were sent from the committee. With this question the committee on rules, or at least the democratic contingent, will probably do.

NEWS NOTES

Senator Manderson today introduced a bill to create a national highway commission to consist of two senators, two representatives, the secretary of war, agriculture, commerce, the postmaster general and the attorney general and an associate member from each state and territory. Hearings are to be held in Washington during the coming week.

At Chicago during the World's fair, and at other places and times as the majority may elect. The commission is to investigate the needs of the country in regard to highways and report to congress.

General Schofield this morning received a telegram from General Canby, commanding the Department of Texas, saying that he has no information of any reconstruction of the Garza movement, or of any uprising, anywhere. He says the recent troubles in that neighborhood were the acts of individuals and had no political significance.

UNION PACIFIC EXTENSION

The Portland-Puget Sound Line Will be Completed—Sound's Health.

PORTLAND, Ore., July 5.—President Clark of the Union Pacific railroad is here on his second day of absence from the office of the presidency. He said in an interview today that his company would complete the partly constructed line from Portland to Puget sound, and the Great Northern would probably join the construction of the line.

Speaking of the health of Jay Gould, who is in Idaho at present, Mr. Clark said: "Mr. Gould is improving substantially, though slowly, and he will be a perfectly sound man. Many exaggerated stories have been set afloat concerning his health, but they are never true so long as he is reported."

TRIED TO KILL HIS WIFE

HUNTS, S. D., July 5.—N. R. Thompson was brought here today from Arlington, Kingsbury county, and placed in jail, charged with attempting to kill his wife and Mrs. Blighen, with whom she boarded. His wife had left him several months ago because a divorce. Yesterday he went to the house and endeavored to induce her to return. He drew a butcher knife and struck her in the abdomen, inflicting serious wounds. He then turned on Mrs. Blighen and cut her so severely that her intestines protruded. He attempted to take his own life but was overpowered by her. He now says the deed was committed while he was under the influence of opium, taken with suicidal intent.

OTHERS' CONDUCT

CONK, July 5.—Mr. William O'Brien, who was struck on the head with a stone yesterday as he was returning from a political meeting, passed an uneasy night. The physicians who are in attendance expressed the opinion that the stone had done little damage to the brain, but that it had done considerable damage to the skull.

WASHINGTON, D. C., July 5.—Representative Callahan of Texas, who expresses the opinion that the senate made a fatal mistake in the passage of the free coinage bill in that it failed to preserve in the repeal of the act of

GLADSTONE ON TOP SO FAR

Liberal Gains Recorded in the English Parliamentary Elections Yesterday.

BUT THE BIG BATTLE IS YET TO COME.

The Grand Old Man Claims His Party Will Have a Majority of Seventy in the House—Comments of London Papers.

LONDON, July 5.—The Daily News (liberal), commenting on the elections, says: "The question now is not whether we shall win, but how many seats." The Chronicle says: "We note a beacon light in the election. The eight-hour question has claimed its first victim in Henry Broadhurst, who owes his defeat, not to the vote of his constituents, but to the vote of the Liberal Unionists, who almost succumbed to the same fate. Mr. Tollet having reduced his majority to the vanishing point. One of the striking features is a marked swing of a decisive swing of the pendulum in Scotland and Glasgow through gains, formerly Mr. Gladstone's weakest spot. In conversation recently Mr. Gladstone said he was of the opinion that the liberals would get a majority of seventy, inclusive of the House of Commons."

The Standard says: "The liberal gains do not justify any complacency on the part of the candid nominees. If they do not do better during the week they will be in the minority. Nowhere has there been as humiliating reversal. The survival of the decent liberals in unimpaired strength, however, is a matter of the next Parliament, while there is a practical certainty that the average will be greater. The defeat yesterday of Sir Thomas Sutherland, liberal unionist, at Greenock, by John Bruce, liberal, is the deathblow to the unionist cause in Scotland, and indicates that the number of English unionists will be reduced. The radical triumph at Westham is a promise to the roll of London victories for the radicals."

The Times says: "Yesterday's polls were fought on a hot and bright day, and to be an unusually hard one. A cause of the disparity of the gains of the two parties yesterday is found in the fact that a large proportion of the voters were in small boroughs, where local personal popularity tends to overbear the larger motives of public policy. The sweeping of the country by Mr. Gladstone has not manifested itself. The main issues hang upon the exertions of the unionists in the next few days. Every lingering question between the wings of the liberal majority will be decided in the next Parliament."

The Star says: "If the average of yesterday's gains is maintained it will give the liberals a majority of seventy in the House of Commons. While there is a practical certainty that the average will be greater. The defeat yesterday of Sir Thomas Sutherland, liberal unionist, at Greenock, by John Bruce, liberal, is the deathblow to the unionist cause in Scotland, and indicates that the number of English unionists will be reduced. The radical triumph at Westham is a promise to the roll of London victories for the radicals."

CHAMBERLAIN CRITICIZES GLADSTONE

LONDON, July 5.—Mr. Joseph Chamberlain, in a speech at Walsall, said Mr. Gladstone never proposed measures for the benefit of the working people until he required their votes. He had suggested home rule for Ireland in the form of a bill, but had not empowered to make such a bill, and unless Ireland is allowed to do the same, this solution of the problem of Ireland is a final, and Mr. Gladstone will be in a dilemma.

The streets are being sprinkled with petroleum as a disinfectant. Affairs are badly managed. The cholera has spread to the establishment of a working day of the town. Steamers have been withdrawn from the Baku route on account of the epidemic.

Under the leadership of General Crespo, the rebels succeeded in capturing the outposts, however, were only foiled. They laid a trap which the government troops rushed blindly.

As soon as the enemy had, on the night of the 2nd inst., engaged sufficiently to fall into the snare, Crespo's soldiers closed in upon them from all sides. There was a terrible slaughter of government soldiers. A strong force of government troops at St. Guayana has given renewed encouragement to all followers of Crespo. It looks very dark for the revolution, and the provisional government, Crespo seems certain of carrying all before him.
