No Verdict Reported Yesterday as Wa-Anticipated-Fist's Motion Overculed. Hastings, Neb., July 7 .- | Special Tele gram to THE BRE |-It was expected that the jury in the Paul embezziement case would have agreed upon a verdict by this morning, but it seemed that seventeen hours of deliberation had not brought about a conclusion.

While waiting, the motion for a bill o particulars made by Emanuel Fist's atterneys was taken up and argued. The defense, in support of the motion, urged that the information charging Fist that with having embezzled and aided in embezzleig \$50,000 was not specific enough to allow Mr. Fist to Intelligently prepare a defense. The state retorted that a motion for a bill of particulars in a criminal case was not recognized by The argument was continued all morning

and in the afternoon. The motion was over ruled by the presiding judge.

At 3 o'clock the Paul jury was still out and an adjournment was taken by the court. At 11 o'clock the jury had not arrived at a vergict and seemingly was as far as ever from concluding its labors. A disagreement or a compromise verdict us to the amount of the embezzlement is predicted, and although many rumors are alloat as to the status of the jury, all are but conjectures.

Eleventh Annual Session of the Institution Formally Opened.

INTERESTING WORK FOR THE OCCASION

Everything Arranged About the Grounds for the Comfort of the Visitors-Progress at the Fremont and Beatrice Meetings.

CRETE, Neb., July 7 .- [Special to THE BEE.]-The eleventh annual session of the Nebraska Chautauqua assembly, to be held at Crete July 6 to 16, began its exercises last evening under favorable auspices. For some time past Superintendent Drake and his assistants on the local committee have been busily at work putting the beautiful grounds overlooking the Blue into proper condition for the summer meeting. Their arrangement is now completed, so that everything

presents a most attractive appearance. The buildings have been renovated. Various families owning cottages upon the grounds have furnished them for the season and moved into summer quarters, while avenues of freshly erected tents afford space for those who wish to camp out and who have no more ubstantial roofs to cover them.

Yet the tents provided are such as to exclude many of the usual inconveniences of field life. Many of them are furnished with floors, equipped with beds of the most ap-proved fashion, as well as being supplied with such comforts as tables, rocking chairs and hammocks. Then, too, the camp dwellers are spared the efforts, often demanded, of cooking for themselves, inasmuch as the public dining hall is ready to meet the wants of hungry mortals.

The town of Crete has only begun to preent a specially animated appearance by reason of the wagons and carry-alls wending their way toward the assembly grounds. The roads leading in that direction have been put into good condition and the people of Crete have subscribed to keep them well sprinkled during the entire meeting. Decorations in the City.

It has been decided notito postpone the Nijni-Novgorod fair. Officials have been sent there and to Moscow to consult the members of the exchange committee about the disinfection of goods and other exhibits.

The Standard's St. Petersburg correspondent says the sanitary commission has voted 16,000 roubles to establish a disinfecting room in each of the four principal hospitals of the city and also 750 beds for cholera patients. The chief of police demanded a vote of 100,000 roubles from the municipal authorities for sanitary work. The money was refused by the city and the work now falls on the sanitary board.
The Times' Vienna correspondent says.

The Tageblatt publishes the following: "Haif the population of Astrakhan resisted the taking of sanitary measures. Crowds filled the streets, making a monstrous demon-stration against official interference, assert-ing that the epidemic had disappeared on previous occasions without the taking of special measures. They regarded the plague as a visitation of Providence. More than half the people in the streets were Russians, many of whom paid severe penalties rather than execute the sanitary measures required. The port of Astrakhan is crowded with ships which are refused admission to the Volga."
