NEWS FROM COUNCIL BLUFFS

Attorney General Stone Stops Long Enough to Denounce a Political Slander.

DOES NOT AID IN CHEATING THE COUNTY

He Explains His Action in Connection with the Elevator Tax Suit and Shows He Was Justified in the Course He Fursued.

A democratic paper has been making a v garous attack upon Attorney General John Y. Stone during the past few days for the stand be has taken in the Union elevator contest, which was settled a few days ago by the payment in full of the personal property taxes due upon the elevator by Stone's clients, the Rock Island, the Milwaukee and the Burlington roads.

The reason for the attack is purely a political one and hes in the fact that a campaign has just berun in which Mr. Stone is a candidate for re-election to the office of attorney general. The democratic sheet referred to accuses him with using his office to assist the elevator company in dedging its taxes and attempts to make political capital out of the charges, thus doing Mr. Stone as injustice as flagrant as it is uncalled for.

Mr. Stone was seen vesterday and asked for his statement of the case.

"All through the trial of the case," be replied, "my only object was to get possession p the elevator for my clients. We offered to give a bond in any amount that might be named by Judge McGee to secure the payment of all the taxes that might be que. and r me into court with our bondsmen, ready to furnish the necessary security. Judge Mc-Gee was ready to fix the bond, but the county treasurer refused to settin on this basis. It was not until we got an order for a writ of injunction from Judge Deemer to restrain Reed from occupying the elevator premises that he came to terms. I had not the slight-est desire to assist in any tax-dodging, and any candid man who investigates the will admit that the circumstances bear me but in the statement."

AT THE LAST MOMENT.

Disappointments to Which the Chautauqua Managers are Subjected.

There's no reseate path for Chautauqua managers. Although they do not advertise as an accident insurance company, nor protess to be responsible for packages and persons which are not left at their office, there Is a certain portion of the patronizing public which holds the Chautauqua management responsible for all such mishaps as the breaking of General Alger's leg and the sickness of Congressman Breckingage's wife. Justs it seemed quite probable that the remaining days of the assembly would slide smoothly along the channel so wisely pro-gramed for them, two telegrams came yeserday which gave every body the headache.

Thus the best laid plans of man, if not of mice, were knocked in the head. The man-agers at once set the wires working and have been keeping them hot trying to make arrangements which will fully satisfy the public for any disappointment it may feel in not hearing these distinguished gentlemen. It is believed that their efforts will be successful more while outsile. ful, and while details cannot be announced this morning, the assurance is given that Friday, which will be republican day, and inturday, which will be deocratic day, wi be crowded with political attractions of such merit as to tickle the pride of each great party, as well as interest and please all.

ONLY A QUESTION OF TIME.

Dissolution of the Western Traffic Associa-

tion Now Almost Certain. Chicago, Ill., July 13 .- No one seems to fount that the dissolution of the Western Traffic association is only a question of a short time. Various opinions have been reached in regard to the Burlington's refusal to take part in the meeting of the advisory board this week. The whole dispute arose from the different construction piaced by different members upon this section of the agreement: "That a vote of at least four-fifths of the members of the association shall be required to make its actions binding

At the first meeting of the advisory board after this agreement went into effect there was a discussion over this clause and Presi-dent Miller was called upon for an explana-tion of it. Mr. Miller ruled that after the commissioners had decided any question it required a four-liftus vote of the members to se, the decision aside. Both the Burlington and the Atchison protested against this rui-ing, declaring that if it were sllowed to stand it would give the commissioners greater power in the management of the af-lairs than the presidents themselves. They heid that the proper construction to be placed upon the agreement was that a fourfths vote of the members was required o sustain the commissioners after an appeal had been taken from their decision by the

Finally in the hope of combelling the presidents to take some action or the subject they gave hotice that they would attend the July meeting only on condition that the matter be taken up and adjusted.
"We have no desire to withdraw from the association," said a lightneston official today. "We only ask that all the provisions of the agreement be observed." Of what use is the

agreement if the commissioners are pernitted to do as they diffe!"

The first case heard by the Interstate Com merce commission today was a complaint against five railroads, charged with giving the Illinois Steel company grossly indiscrin inating rates. The moads in question are Calumet & Blue Island, the Kenosha & Mil wangee, Joliet & Blue Island, Unleago & Southern and Bayview & Chicago. It was claimed that all these roads were owned and controlled by the Illinois Steel company. President Brisson, representing all the roads said the business of the roads was switching and terminal facilities. He said switching and terminal facilities. He said his companies got no share of the through rates and was paid only for switching, and they were paid by the Hilnois Steel company President Brinson declined to answer Commissioner Veasy's ques-tion as to whether the Hilnois Steel company had an interest in the roads. The testimony of J. S. Keefe, secretary, and W. Robert Steeling, vice president of the W. Robert Sterling, vice president of the steel company, was equally unsatisfactory. Western roads have taken stems to prevent the accumulation of the Chicago market of return portions of return tickets issued on

account of the Christian Endeavor conven-

tion and the National Education association. By a manimous vote of the members of the

passenger association these tickets must be

presented on their return within two mays from the date stamped on the back at the of-

fice in the eastern trunk lines territory. This will make it impossible for Chicago brokers to handle the coupons.

PIRATES POUNDED NICK HANDIBOE

Six Hits and Seven Rons After Two Men Were Out in the Last Inning-Closing Games of the National's

First Series.

Young Hoffer, late of Grand Island, pitched for Toledo yesterday afternoon and proved entirely too much for Uncle Dave's bired hands.

He pitched a steady, heady game, bolding the White Sox down to six measly hits and four runs.

Handiboe was in the box for Omaha, and up to the ninth inning did magnificent work, but in this linning, after two men were out, they got onto him and nammered out six hits and seven runs.

Knights Templar Object Kansas Cirr, Mo., July 13 .- The Transmissouri Passenger association, at its meeting today, voted to authorize the sale of Knights Templar excursion tickets to Denver, beginning July 25 Instead of August 8 as had been previously ordered. The only opposition to extension of the sale of these tickets was offered by the Knights them-selves, who claimed that tourists will have taken possession of all the hotels before the conclave opens and before the Knights arrive, thus seriously inconveniencing them.

Warships Sink in a Storm

Buenos Ayres, July 13 .- The Argentine torpeds cruiser Rosalis has foundered in a storm off the coast of Uruguay. The officers were saved. The crew, numbering seventy, are missing. The Argentine ironclad Almirabte Brown and the cruiser Viinticinico which were enroute to Spain, are missing, and it is believed that they foundered in the same storm.
