Bears Oversold Themselves Yesterday in the Wheat Pit.

IT RESULTED IN AN ADVANCEMENT

Hot Winds in Kansas Fanned the Price of Corn Up so That it Closed at a Fair Improvement.

CHICAGO, Itl., July 13.-The bears oversoid themselves today in wheat. When they tried to get the cereal back it was not to be had, and a rapid advance of 11se from the lowest point ensued, the market closing within 14c of the ton and the over just night's figures.

Hot winds in Kansus fanned the price of corn up so that it closed at a net improvement of Mc. An attempt to unload by the bull clique in provisions cause pork to finish at a loss of Tigo compared with last evening.

Lard and ribs were only slightly aftered. There was a good demand for vessel room for Buffalo and Kingston and rates were firm. Shippers bid 2c for wheat and 1%c for corn to Buffa.o. Estimated receipts for tomorrow: Wheat. Hocars: corn. 30. cars: oats. 260 cars: ho. . 25,000 head.

Traders' Talk.

Traders' Talk.

Chicano, Ill., July 13.—Kennett, Hopkins & Co. to S. A. McWhorter: Renewed efforts to break prices were made by the bearish element, encouraged by weaker cables. The depression in other markets favored them for a time but the crowd oversoid themselves and when they tried to cover influenced by the sharp raily in corn, it was found that holders were unwilling sellers and it was necessary to advance prices over le to get back their wheat. Receiving houses say that offerings of wheat at country stations have almost ceased and they attribute this to the disappointment over the just. The situation seems to favor the long side for the present and we advise purchases on sharp breaks, but would take profits on railies for the market is narrow, and wide fluctuations are improbable. In corn and oats the bears, grown over-configent, hammered the market hard at the outset and undoubtedly succeeded in shaking out some weak holders, but they overdid it, and when our advices from Kansas and Nebraska were freely e reulated in the pits a sharp raction followed. We are advised that Nebraska, where the reports have heretofore been rather favorable, will not raise over 6) per cent of a corn crop, and oats will be alout a half crop. Corn is looking well in Kansas but rain is needed and hot winds are causing some apprehension. Onts will be below an average crop. The provision market eased off on realizing siles, but big holders took a hand and caused a sharp raily on which they inloaded rather freely. Prices railied in consequence.

Chicago, Ill., July B.—Counselnan & Day to Cockrell Bros. Commission Co. The market opened dull and for the first half of the session declined all around under selling by holders, but big holders took a hand and caused a sharp raily on which they inloaded rather freely. Prices railied in consequence.

Chicago, Ill., July B.—Counselnan & Day to Cockrell Bros. Commission Co. The market opened dull and for the first half of the session declined all around under selling by holders, buther of prices. The effort of the longs to built pro-visions in order to unload was not successful and hog products closed lower. We continue to caution our friends against the long side of

and hog products closed lower. We continue to caution our friends against the long side of provisions at present prices.

Chicago, Hi., July El—Logan & Co. to Duncan, Hollinger & Co.: The wheat market for the first two hours of the session was dull. Septem ber fluctuated from 75½ to 75½ e. On reports of rain throughout the winter wheat beit, there was some anxiety to buy. With light offerin, sthe market advanced to 75½ e. It closed at this price. We do not see anything in the near future to change our opinion on values. The foreign demand continues light and the growing spring wheat crop is all that could be desired. The Hquidation in corn at the opening was heavy. September soid at 45½ and closed at 45c bid. A late report from Prime caused some local buying. This with the short interest caused the advance, Hog product was very nervous. The domestic demand for meats is large and we think on all breaks are safe to buy. safe to buy.

STOCKS AND BONDS. No Disposition in Wall Street to Anticipate

Any Business. NEW YORK, July 13 .- There seems to be no disposition in Wall street to look for anything but a narrow and tame trade for some time to come, and a special movement in different groups of stocks has little effect on the general list. The late advances among the grangers were samples of the lack of power and the rise in the coalers shares and their ailled securities draws another. The movements influence the general temper of the list, but fail to encourage their advances or declines. The feature of the day's operations was the comparatively heavy buying of Reading securities and the strength in the other coal stocks on very light transactions. The defeat of the sliver bill removes one of the uncertainties from the market and to some extent by ghtens the outlook for the immediate future and though the stimulus may be short lived, it will certainly have an influence on short sales in the future. The market closed quiet but firm to strong at yesterday's prices. The trading reached 109,070 listed and 14.476 unlisted.

Government bonds have been dull and steady. State bonds have been entirely neglected. ments influence the general temper of the list,

The Post says: The engagement of \$550,00 more gold for Europe has little effect on the market and the most that can be said of it is that it might effect the flish floanciers to draw on all maturing credits here and leave no outstanding balances. The sliver disturbance is ministaxably at the bottom of this, the apprehensions of foreigners over our currency outlook being such as to explain readily enough their unwillingness to take risks.

House—The hog market was very uneven, but renerally averaged a good 5c higher than Tuesday. Prices were quoted strong in Chlcaro and as receipts were by no means excessive here shippers started in paying \$3.75

to \$1.85 for rood to choice butcher and heavy hogs. This was from 5c to 10c better than Tuesday. On the early market the shipping demand was not very extensive, at least not as active as usual of late and packers tried hard to bear the market. They bid prices hardly steady on mixed hogs and bought a few that way. This, however, did not last long. Fresh shipping or lers arrived and there was a lively trade from that on to the close, the late hogs selling largely at \$5.65 and \$5.70, or a nickel higher than Tuesday. The close was strong and at the high notch. FATAL RIDE OF A FIREMAN.

William Flood Thrown from a Wild Horse and Instantly Killed. Driver William Flood of No. 9 engine nouse was thrown from a horse at Eleventh and Jackson streets yesterday morning and

No. 9 engine house has a very spirited pair of horses which are kept standing on a stone pavement so that their shoes are soon worn smooth and slippery.

Vester lay Flood saddled the wildest one and started for the blacksmith shop. He was a good horseman and perfectly familiar with the horse, but when he reached Jackson street the animal's feet slipped, and he fell heavily to the pavement. Flood's foot was entangled in the stirrup, and in the fall his head was jerked under the horse's shoul-der. He was picked up dead with his neck broken, and taken to the engine house. The coroner was summoned, but an in-quest was not considered necessary, and the body was removed to the house of the deceased's parents at Sixth and Hickory. Flood was 26 years old, and had been in the department since September 1. He was a good fireman, and a favorite with the offi-

CAUSED A PANIC.

Two Motor Passengers Hart and Others Scared by a Broken Wire.

The trolly of an eastbound car on the Walnut Hill line left the trolly wire at Thirtysixth and Cuming streets shortly after 2 o'clock yesterday and struck a cross wire with sufficient force to snap the post to which

it was attached. The wire broke, and the loosened end fell across the car, every point of contact emitting brilliant flashes of flame. Several of the frightened passengers rushed from the car, and one of them, Mrs. Brown. living at Walnut Hill, fell from the platform to the paving and received several severe bruises. J. A. Lovgren, higher. Exporters wanted a liberal number and the demand for eastern account also being active, ho ders of su table shippin: grades were in a position to spring prices a little, the fact that fat cattle comprised a comparatively small part of the supply being to their advantage, Good to bestgrades of dryfed cattle are from 10c to lie higher than at the close of last week and are still pointing higher. Of the \$9,000 cattle received since Saturday at least 24,000 were Texans and not an inconsiderable part of the natives were too poor for shippers' use. Quotations ranged at from \$1,25 to \$3,25 for poor to choice cows and helfers, at from \$2.0 to \$3,55 for common to extra dressed beef and shipping steers and at from \$1.30 to \$7,75 for grass Texas cattle.

There was a steady tone to the hog market during the morning. The close was weak and mornality se lower. The domand displayed more activity than on Tuesday, but that fact was offset by the increase in the receipts, about 16,000 arriving as against 17,000 yesterday. Light hogs showed more stability than those averaging over 200 pounds, but there was little appearance of firmness anywhere as little appearance of firmness anywhere as little appearance of firmness anywhere as little appearance of \$3.0 closing quotations were from \$3.5 to \$3.55 for poor to choice light and from \$1.60 to \$3.55 for poor to choice light and from \$1.60 to \$4.50 for medium and heavy weights.

Sales of wheat were at substantially Tuesday's quotations, but the market was not as firm, the continued literal arriving as and Texas sheep were in large supply and had to go at lower prices than prevailed yesterday. The lamb market was moderately supplied and wassteady at from \$3.50 to \$1.70 for culls and \$4.50 to \$7.00 for poor to extra.

Receipts: Cattle, 16,000; hogs, 25,000; sheep, 9,000.

The Evening Journal reports: several severe bruises. J. A. Loveren living at Forty-first and Webster, received a severe shock, as the wire fell across his shoulder. A boy was thrown down and his clothes were torn in several places by the erratic fluid as he roiled over and over on the ground.
