#### TO AMEND THE CONSTITUTION

Governor Boyd Preparing His Proclamation on the Embject.

SOMETHING OF THE PROPOSED CHANGES

The failroad Commissioners, to Be Elected by the People, to Be Added to the Executive Department of the State Government.

LINCOLN, Neb., July 19,- [Special to THE Ber. ]-On tomorrow Governor Boyd will issue his proclamation in reference to the constitutional amendments to be voted upon at the coming reneral election. One of these amendments provides that three railroad commissioners, to be elected by the people, shall be added to the executive department of the state government. In the event of the adoption of the amendment three commissioners are to be elected in November, 1893. Immediately after their election they are to be classified by lot, so that one shall hold his office for one year, one two years and one three years. One commisstoner is to be elected each year. An additional provise authorizes the governor to appoint three commissioners to serve until their successors are elected and qualified, so

that if the amendment is adopted next No-vember, the law will go into effect at once. The other proposed amendment provides that all funds belonging to the state for educational purposes, the interest and income whereof only are to be used, shall be deemed trust funds held by the state, and the state stall supply all losses thereof that may it any manner accrue, so that the same snal remain forever inviolate and undiminished and shall not be invested or loaned except on United States or state securities, or registered county bonds, or registered school dis-trict bonds of this state; and such funds, with the interest and income thereof, are solemnly pleuged for the purposes for which they are granted and set apart, and shall not be transferred to any other fund for other

Lucky Newspaper Men.

The above proclamations will be published for ninety days in at least one paper in each county of the state. Governor Boyd has designated the papers and the fucky proprieters will receive the "copy" and instruc-tions from the secretary of state within few days, as they are to be malied toworrow. The democratic newspapers seem to have been remarkably fortunate, although thirty republican and sixteen alliance papers are included in the list. The following is a list of the papers in which one or both of the

processing will be published:
Hastings Democrat, Neigh Leader, Harrisburg Early Day, Brewster News, Albion Argus, Alliance Pioneer Grip, Spencer Bee, Butte City Banner, Long Pine Journal, Kearney Hub, Tekamah Heraid, David Chy Press, Platismouth Journal, Hartington Democrat, Wauneta Breeze, Valentine Blade, Sidney Poinard, Clay Center Gazotte-Democrat, Howell Journal, West Point Progress, Cullaway Headlight, Dakota City Progress, Callaway Headight, Danota City Argus, Jackson Criterion, Chadron Citizen, Crawford Alliance Boomerang, Lexington Herald, Chappell Register, Dixon Index, Fremont News, The Omana Ben, Omana World-Herald, South Omana Tribune, Benkleman Pioneer, Geneva Democrat, Bloomington Echo, Curtis Enterprise, Stock-villa Exper. Sad Result of an Accident.

Theodore C. Stevens who with a number of others, was injured in a runaway accident at Seventeenth and H streets on the afternon of June 21, died at his home at 821 f.
street last night. His death was caused by
paralysis, which resulted from the injuries
be received in the accident. Mr. Stevens
was 41 years old, unmarried, and has been a resident of the state capital for the past eight years. He has been identified with educa-tional work ever since coming to Nebruska. being the deputy under State Superintend ents of Public Instruction Jones and Lane hie held an emportant position in Superin-tendent Goudy's office until April I of the present year.

Died Before Reaching Home.

The remains of Merton S. Mesner, who lived at 2400 D street, were taken from the B & M train last night, he having died on his way home from the Black Hills. He has been an invalid for some time and had been in the Black Hills in search of health. At Deadwood his condition rapidly grew worse and he had but one wish, and that was to get home before he died. He left Deadwood Sunday night, but the journey proved too arduous an undertaking and death came to him shortly after the train left Germantown, a small station in Seward county. He has a brother and other relatives living in Lincoln. His remains will be buried tomorrow afternoon from his late residence.

Forger Snyder's Predicament. Henry Sayder, the young man under arrest at the police station for uttering a formed chees for \$14.45, is still in dorance, the county attorney being somewhat in doubt as to the charge which should be lodged against him. Sowder was a former employe of Bohanns and had some grouple with him. chains that the check was written by John Shea, Bohanau's night clerk, but Shea demes it. When Suyder presented the check to Goldwater it excited the latter's suspicion and while he detained Snyder a messenger carried the check to Bohanau. As soon as it was discovered to be a forgery Snyder was handed over to an officer.

Lincoln in Brief. The populist county convention for Laneaster has been called to meet in this city on

city, was severely scalced by the overturnmr. and Mrs. Frank Allyn returned from Hawarden, Ia., this afternoon with the remains of their intant child, which died from drinking carbolic acid several days ago.

The work of paving South Seventeenth from K to H streets has commenced.

ALMOST A CENTENARIAN

Remarkable Experience of an Ex-Sinve Among the Indians,

Lyons, Neb., July 18.- | Special to THE Ber. |-"Nigger" Batteeze made his appearance on the streets here yesterday for the first time in several years. Batteeze is an old pagro who lives with the Omaha Indians. Some fifty years ago be came up the Missouri river on a boat and went on shore to hunt, and losing his way in the prairie, was unable to find his way back to the boat, so joined the In-dians and has wandered over the north-west ever since. He is now a very old man. As near as the most enlightened indians one ascertain his age he is near 100 years old. Hois by far the oldest man on the Omaha reservation. He lived several years among the Sioux Indians in South Dakota and took

part in the great Minnesota massacre He was present when the Indians at acked New Ulm. For the past twenty years or more be has made his home with the Omaha Indians, having married with that tribe. From what can be juarned from his history he no doubt was a slave in the southern states. He is now very feeble, hobbling slong on a cane. He has nearly forgotten all the English he ever knew and seldem speaks a word except in the Indian language.

Perkins County Crop Prospects. Elsie, Neb., July 19 .- Special to The Bug. |-The several good rains of the past ten days are bringing the wheat and corn crop out far beyond the expectations of everyone in eastern Perkins county. Farmers can now safely count on a yield of at least twenty bushels per acre of wheat, and the prospects for corn never were better. The screage of wheat will be fully twice that of last season. There has been no had here l'aking all this into consideration, the pects for Perkins county are certainly

IMPERIAL, Nob., July 19 .- | Special to Ter-Ber. |-Some days since a Perkins county correspondent to an Omaha paper gave it to the public that Chase county's crop was a failure. Chase county has just commenced harvesting as fine a crop of small grain as any one could wish to see. There will be nearly double the amount of wheat raised in this county this year compared with that of Winter wheat and rye is excelast yest. So with oats, and corn prospects

never were better.

Culmentson, Net., July 19.— Special to The Hea.—There fell here Sunday night four inches of rain, the best of the year. Late crops are now assured in the Republican valley and are as good as at this date last year, which was excellent.

Crete's Chantauqua Closed. CRETE, Nob., July 19 .- (Special to THE BEE 1-The Nebraska Chautauqua assembly at Crete closed its eleventh annual session Saturday with a better outlook for the future than it has bad for several years. Although the attendance was not as large as in some former years, it was composed of the very best people. They were not disappointed. It is conceded by all that it was the most enjoyable and instructive assembly ever held on the grounds. It was also a success financially. From reports now in it is certain that the receipts will exceed the expenses by more than \$500, with the probability that another \$100 will be added to the surplus. Rev. Willard Scott, D.D., of Chicago, to

whom the association is very largely in debted for its renewed success, has been reelected president. Prof. J. S. Brown, A. M., of Donne college, and J. L. Tidball, president of the First National bank of Crete, who have served several years as secretary and treasurer respectively, are also re-elected. Immediate steps will be taken by the management to pay up all floating indebtedness of the assembly and to prepare for the next year's program.

Superior's Proposed Reunion Superion, Neb., July 19. - [Special to Tre BEE. |- The headquarters of the interstate reunion of Nebraska and Kansas bave presented a very busy appearance for several days past. The officers and committees have posted advertising matter in over 500 towns in Nebraska and Kansas, and from all indications this will be the largest attended re union ever beld in the west. Over twenty orators of national reputation have accepted invitations to be present and address the reunion. The Transmissouri-frasenger association has granted a one-fare rate on the following railroads leading into Superior: Burlington, Missouri Pa-cific, Atchison, Topeka & Santa Fe. Chicago & Northwestern, Colorado & Nebraska, St. ouls & San Francisco, Union Pacific, St oseph & Grand Island and the Hock Island. The limit of this rate is placed at 200 miles, which will afford the opportunity for all those desiring to visit the most beautiful city in the Republican valley.

Looking for a Good Teacher. AURORA, Neb., July 10 .- [Special to THE BEE. |-- Prof. J. M. Hussey has resigned his position as superintendent of the Aurora city chools to take a position in the Fremont formal school, in which institution he has purchased a one-nulf interest. The Board of Education have not yet decided on his suc-cessor and are looking for a good educator.

Suffered a Sunstroke. CENTRAL CITY, Neb., July 19.—[Special Telegram to The Ban.]—Logne Hillingson, a young man working for a farmer named Bush ten miles southeast of this city, was unstruck while harvesting rye vesterday afternoon and will probably not recover. The thermometer registered 104 in the shade this afternoon here.

Rumors of a Water Spout GRANT., Neb., July 19.- Special Telegram to THE BEE -A water spout is reported from the southeastern part of the county. Madrid, a station ten miles east, was flooded. Today was the hostest known here for many years. The mercury reached 109 in the shade at 2 o'clock.

Miraculously Escaped Death. ELEBOUR, Neb., July 19 - Special Telegram to THE BEE. - Patrick Killion, a farm hand in the employ of James Gilmore, was dragged a considerable distance today by a runaway team. Besides numerous scratches and bruises he sustained a fracture of the left forearm. rlis escape from death was

Jefferson County Teachers, PARKEURY, Neb., July 19. - Special to THE BEE. ]-The twelfth annual institute of Jefferson county teachers convened here yesterday with an enrollment of 18h. The instructors are Profs. C. P. Cary of Fairbury, Corbett of York and Miss Ida Tew.

Thrown from His Horse. YORK, Neb., July 19 .- | Special to THE BEE |-Swan Johnson, a Swede in the employ of C. J. Nobes, was severely cut about the hands and face this morning by being thrown into a barbed wire fence by a horse he was driving.

Clarks' Inknown Bead. CLARKS, Neb., July 19.- Special Telegram o THE BEE. |- The inquest over the body of he unknown man found on the Union Pacific track near Thummel yesterday, developed nothing

First Ward Republican Club, A meeting of the executive committee of the First Ward Republican club and all active members of the club will be held at Porest hall, corner Sixth and Pacific streets. m Wednesday evening, July 20, at 8 p. m., to hear reports of the committees, to discuss and arrange a plan of action during the campaign and to transact such business as may ome properly before the executive commit-

#### DISCUSSING THE SITUATION

Chairman Carter Outlings the Flan of the Campaign.

CONFIDENT OF REPUBLICAN SUCCESS

Efforts of the Democrats and Alliance Forces to Puse in Some Sections Not Regarded as of Alarming Importance.

WASHINGTON BUREAU OF THE BEE. 513 FOURTEENTS STREET, WASHINGTON, D. C., July 19

Chairman Carter of the national republican executive committee arrived in Washington this morning and spent most of the afternoon at the capitol, where he held a conference with a number of republican senators, Among those senators who conversed earnestly with Mr. Carter and congratulated him upon his acceptance of the chairmanship were Messrs. Sawyer, Washburn, Sherman, Aldrich, Allison, Cuttom, Pettigrew, Paddock, Manderson, Sanders, Carey and McMil-All of them had many suggestions to offer him as to the details of the management

of the campaign. While at the capitol Mr. Carter took luncheon with ex-Speaker Reed, for whom he entertains great admiration. It is under-stood that Mr. Carter's consultation with Mr. Reed is another step toward harmonizing elements within the party and bringing them into line in loyal support of the president.

Chairman Carter's Views.

This evening Chairman Carter said to Tue Bre correspondent: "So much has been said of the meeting of the republican executive committee in New York that I can tell you bothing to add to the already published re-ports. I have not seen the presi-cent yet, but I shall be at the white house by appointment in the morning to tender my resignation as land commissioner and then I presume we will als over all that I learned during the meeting of the executive committee and probably reach some conclusion as to the members of especial attention to the campaign on the cinc slope, in the great northwest and Illi-nois and other middle western states. "There may be also a subcommittee as

signed to look after the independent move-ment and the efforts of the democrats to fuse in Nepraska, Kansas, the Dakotas and some other states in that section. It is scarcely necessary for me to say that I feel not only hopeful but confident of republican victory next November."

Success of an Omaha Boy.

President Harrison sent to the senate to day the nomination of Sergeant H. B. Mor-ford, Twenty-first infantry, to be a second lieutenant of infantry. Lieutenant Morford is well known in Omaba, where his father was for years general superintendent of the Chicago, St. Paul, Minneapolis & Omana line. Young Morford, while a clera in the Nebraska National bank and a general so-ciety favorite, enlisted for a commission and was assigned to the Twenty-first infantry at Fort Sidney. He became sergeant of Cap-tain Ebstein's company and was coached by the captain for his army examination, which he passed at Omana, after serving three years in the ranks. Owing to alleged favortism of the second army board at Fortress Moproe Morford was found deficient in constitutional law last fall and refused a commission.

He applied for a furlough and came to Washington last March to ask for a re-examination. Secretary Elains, after a careful hearing and examination of the case, reported that manifest injustice had been done Morford and presented his name in person to President Harrison for appointment without further inquiry into his qualifications for a commission

The result of Secretary Eikins' inquiry into the Morford case is said to have convinced him that the second board is not warranted by law, and that many of the regulations for examination now existing are for the sole purpose of preventing, so far as possible, promotions from the ranks. There is likely in consequence to be a radical revision of the rules in line of an elimination of some of the most stringent requirements. Secretary Elkins is said to hold that the hope of securing a commission should be held out to all recruits intellectually, physically and mor-ally qualified to command troops, whether they are civil engineers and high grade mathematicians or not.

To Protect Railroad Men Hon. L. S. Coffin, ex-railroad commissioner of lows, who is now in Washington waiting for the adoption by the senate of the house bill compelling ratiroad companies to adopt a uniform car coupling for the protection life in the operation of freight trains, says: "This bill must pass into law before adjourn-ment of this session. The railroad employes will hold the party delaying it responsible. The house has passed it, now let the senate act. Will the public welcome the statement made from indisputable authority that not less that six strong, broad-shouldered men, right in the very prime of life, have to give up life and sixty-live more meet with painful accidents and lifelong crippling every day in the year in the railroad service of this nation; that not less than seventy fam-lies in this land must have the services of either the surgeon or undertaker every day that the public may have the faciliti railroad travel and transportation! this indeed a tracedy or tragedies that should but shame our boasted Christian civ-lization? Think of the awful fact for a moment, 25,000 of these strong, brave, faithful servants, serving the public more faithfully than any other class of wage workers. must either give up ufe, umb or to be other-wise mained every year in this now indis-

pensable work. 'At the very least 50 per cent of this slaughter of these men is clearly preventable. It remains for this congress to decide whether a beginning of the end of this waste of life and limb shall be started."

Every one of the leading republicans in the senate are very enthusiastic for this bill, as it will do away with the use of the old brake and employ the air brake on all interstate cars, and if there is time the bill will pass the senate within a few days. Miscellaneous.

The bill introduced into the house yesterday by Mr. Bryan to divide the state of Ne brasks into two judicial districts is the bill which Senator Manderson has had before the senate for two years. It makes the Platte river the dividing line and the districts to be known as the North and South district. In executive session the senate has con-firmed the nomination of Thomas E. A. Watson as postmaster at Hartington. Neb., and William F. McFarland at Stanton. These offices were made presidential on July 1, and hence the nominations by the president. Prior to July 1 they were appointed by the postmaster general and did not need action at the hands of the senate.

Harry Taylor of Des Moines is at the St.

From the senate committee on pensions today Senator Paudock reported favorably his oil to pension Marths J. Griffith of Ne brasku. A duplicate of the bill has passed the house.

Open Tennis Tournament. The Young Men's Christian association will note an open tournament in doubles Thursday, July 21, at 6 p. m., on their grounds on Harney and Twenty-third streets. The drawing will take piace on the grounds and an entry fee of 50 cents will be charged each contestant to cover cost of tenuis balls, This tournament is open to all tennis players in the city and vicinity, and it is the plan of

in tennis circles in the city. The grounds will be open to spectators free of charge and it is to be hoped that all lovers of the sport will be present and en-courage the players by manifesting an interest in the game.

#### WEST ENDERS ACTIVE.

Commissioners and Councilmen Asked to Look After Needed Public Improvements. The West End Improvement club held another well attended meeting Monday night, with the president, Dr. Schwenk, in the chair. Several important questions were considered and discussed at length by those present. It was suggested that as the Board of Health appeared to have fallen into "innocuous desustude" the mayor and city council might save to the taxpayers the salaries of two or three of the inspectors, who have forgotten that cleanliness and the cart-ing away of refuse and garbage is essential

the good health of the community. The condition of Leavenworth street from Forueth street west was discussed at some iength, when it was moved and seconded that a committee of three be appointed to call on the ward councilmen and with them repair to the office of the Board of Public Works and there see if something can not be done to reclaim that street from its present dangerous condition. The following named gentlemen Carried. were appointed as such committee, the retary of the club, Ed Walsh, Judge J. Eller, and William Stark.

A committee consisting of Messrs. J. Rus-sell, Dr. Schwark and Mr. Drumm was also appointed to wait on the county commissioners, and induce them if possible to select Leavenworth street as one of the streets leading into the country upon which a por-tion of the funds voted by the people shall be expended, it being conceded by all that it is the most generally traveled road in the country. They were also instructed to call the attention of the commissioners to a very dangerous washout on Leavenworth near Fiftyfirst street, and request them to have it

The same committee was also instructed draft a petition to the county commissioners covering the paving of that portion of Leavenworth lying within the county and outside of the city limits, and to produce the signatures of every resident of the locality to the same. The Metropolitan Gas and Street Lighting ompany and the unfinished sidewalk on

Forty-eighth street received some attention from the meeting.
A representative from the Sheely Improvement club was also present with words of advice and encouragement. The city council was requested to declare Leaven-worth, from Forty-first street to the city

imits, a paving district. The meeting adjourned until Monday evening, July 25.

MR. HAYKEN'S PROMISE. He Says the City Shall be Furnished Accord-

ing to Contract. The manifesto that went out from the city council one week ago, ordering the Ketcham Furniture company's furniture from the new city hall and into the street, has resulted in a man arriving direct from the factory.

M. Haygen, the general western agent of the Ketcham company, who spent several weeks in the city last summer, arrived yesterday and at once declared that he was ready to cay and at once declared that he was ready to right any wrongs that his company might have committed. Mr. Hayken stated that he proposed to satisfy the people that his company would live up to the terms of the contract. It was possible that some of the furniture was not in accordance with plans bid upon, but in such cases if there was anything wrong with the furniture it would be replaced by other articles that would follow the specifications to the letter. He did not desire to have any trouble, as his pid was made in good faith. After going through the fire of last fall's investigation Mr Hayken said that he would give Omaha good furniture, exactly like that called for by the agreement, even if it broke the house.

Deadwood's Politicians.

Sol Starr, who has been the mayor of Deadwood for nine consecutive years, came in at the head of the Lawrence county delegation to the South Dakota state convention at Madison. They were in a spe-cial car and stopped off for a few hours at the Mercer. Forter Warner of the Deadwood Times was in the party. Dr. NicGilly-cuddy and Judge Corson, who had come in in advance, accompanied the Deadwood crowd when they left at 7:10 o'clock over the Chicago, St. Paul, Minneapolis & Omaba.

GUARDING AGAINST DISEASE

How Your Home May Be Freed From Sources of Sickness.

THE DEMAND FOR DISINFECTANTS

ome of the Substances that Will Keep Dis. ease Away-Directions for Their Use-Danger in Imperfect Plumbing-Health in Bot Weather.

While a midsummer sun is beating straight down on the glaring pavements and brick and stone of a large city, and the mercury is industriously climbing toward the top of the thermometer, the pack streets and alleys, and in many cases the imperfect sanitary conditions of the large buildings are prolific sources of disease. The germs of maiaria and fevers develop most rapidly when humanity is wilting with the heat, and the retaxed physical conditions induced by the intense heat make the human system more disposed to absorb tuese impurities than during the cooler seasons.

While from a hygienic standpoint Omaha ranks as high as most large cities and far better than some, it is impossible to wholly prevent the generation of disease any perfection of sewerage drainage. The health authorities can abate a notorious nuisance but unknown to them conditions may exist in the bomes of private are equally menacing to the health of its in mates and the neighborhood around. The most perfect system of sewerage is inadequate to prevent the development of disease unless it is supplemented by some attention to bygienic laws on the part of individuals. Disinfectants a Duty.

It is the duty of every citizen to see that the property under his control is kept free from filth and impurities which, although scarcely noticeable, may endanger the liver f its occupants.
The use of disinfectants is warmly com-

menned and advised by all reputable clans and it is the general opinion that if this advice was more generally observed fully half of the disease incident to the summer season would be done away with. There are a number of disinfectants which require but little inconvenience in their use and may be obtained at any drug store at a reasonable cost,

For much importance cannot be attached to this feature of sanitary regulations," said a leading physician yesterday. "The larger a city becomes the more essential becomes the use of substances which destroy the im-purities which will be generated in spite of the most perfect sunitary system. By disinfection is meant the destruction of the speci-fic causes of disease, and more especially of infectious diseases. Cleanliness is the first and best disinfectant, and when this is combined with the frequent and thorough use of some disinfecting substance much of the liability to disease is abated. Danger in the Home.

"One of the most common sources of impurities is to be found in the plumbing sys-tem now in use in fashionable residences. The practice of having stationary wash basins and bathrooms in connection with steeping rooms I consider highly detrimental to nearth. The mpes become coated on the inside with soap and exuments from the skin which generate unbenithful odors, and the floors are underlaid with pipes every one which is a possible source of contagion The modern house is honeycombed with these points, and even the refrigerator is connected with the sewer. It is almost impossible to keep these pipes free from un-healthful substances, and once there they will surely escape. Every time water is discharged into one of these pipes it forces the foul air to bubble out and impregnate the

surrounding atmosphere. "Every receptacle into which water or garbage of any description is thrown should e thoroughly disinfected at least two or three times a week. The substance to be

used depends inrgely on the article to be dis-

Disinfectants Recommended. "The most common disinfectants are carbolic soid and chioride of lime, and the latter is no doubt the most economical and effective for domestic purposes. The carbolic acid merely disguises a bad smoll by its own odor, but in cases of animal matter it is very use ful as it destroys animal matter. Chiorida of lime is very inexpensive and will answer most purposes. Chiorine, bromine and per mingariste of potassium are probably more energetic. Bichloride of mercury, sulphate of iron, chloride of zinc, sulphuric acid and sunlight and air are other useful disinfectants. Platt's chioride is a special proparation which can be obtained at any drug store. The use of burning sulphur was once com mon but has been discarded for simpler and

"A liberal sprinking of the substance is the best way to use a disinfectant. Care should be taken that every part of the article is covered, and the sprinkling should be repeated as often as seems necestary. The outlay of \$2 or \$1 in this way will prove a good investment, and for less than that amount an ordinary residence may free from impurities through the hot see

Mrs. L. R. Patton, Rockford, In., writes 'Prop personal experience I can recommend DeWitt's Sarsaparilla, a cure for impure blood and general debility.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the

Bee Bureau of Claims

The object of this bureau is to give every person holding a legitimate claim against the government the advantage of a residence in Washington, whether he live in Texas or Alaska. It does more than that. Nine-tenths of the population of Washington would be helpless if asked how to go to work to secure their rights through the departnents. THE BEE Bureau of Claims gives the advantage, not only of personal residence, but of thorough familincity with all the machinery of the

#### government. It offers Absolute Security.

You do not know whether the average Washington claim agent will cheat you or not, although on general principles you would naturally suppose that be would. But you know that the San Francisco Examiner, the St. Paul Plot neer press and the Omaha BEE cannot afford to cheat you. They guarantee this Bureau, and their reputation is staked upon the honesty and ability of

its management. The bureau employes attorneys who
