A CALL FOR HELP.

There is a demand from the northwest for help to gather the harvest. The wheat crop is one of the largest ever grown, and in order to save it all more hands will be needed than can be had in that section.

It is to be apprehended, however, that the northwest will not be able to get the help it requires from the east. Last year there was a demand for farm hands in New England, and, although there were thousands of idle people in the large cities, very few could be induced to accept farm work, even at pay considerably above what that work usually commands.

It is absurdly claimed by a class of politicians that there are millions of idle men in the country and that this fact enforces the necessity for a radical change in economic conditions.

Not a diplomatic issue. Critics of the administration object to the policy regarding Canada on the ground that it is a confession of incapacity on the part of our diplomats.

anything more than mere bluster in the talk of the organs of the Canadian government, it is contemplating some policy of retaliation, in which course it will be likely to get all the encouragement which American newspapers unfriendly to the administration can give.

It looks very much, observes one of these papers, as though the diplomacy in which the president has most faith is diplomacy with a club. The president evidently believes in adopting firm measures for securing and maintaining the rights of the American people.

Major Bemis has, after mature reflection and thorough investigation, vetoed the ordinance for asphalt paving on Park avenue and other streets.

The council, with one dissenting vote, passed the ordinance over the mayor's veto. The only tangible ground upon which the council could justify its action is a desire to prevent any further delay of paving.

After the Nemaha county convention Tom Majors closed Church Howe to his breast. And Church wept. It is said there will be no need of the services of a rainmaker in Auburn for several weeks, even should the hot spell continue.

Although John C. Watson declined to run for congress he isn't out of politics by a long way. He heads the Otoe county delegations to both the state and congressional conventions.

The Silver Creek Times believes Hon. Lorenzo Crouse "to be an able, sincere, upright man. With him republicans could make an aggressive campaign, with nothing in his record, so far as we know, to excuse or cover up."
