

LINCOLN'S YOUTHFUL THIEF

Walter Smith Has a Passion for Stealing Horses.

HOW HE CARRIES ON HIS SMOOTH WORK

Boldly Enters Stables and Takes Charge of Property as if it Was an Every-day Occurrence—Capital City Gossip.

LINCOLN, Neb., July 27.—[Special to THE BEE.]—This city probably possesses the most youthful, as well as one of the most persistent, horse thieves in the state. The escapades of Walter Smith have already been noted in these columns. He seems to have a passion for thievery, his tastes and inclinations run to horses.

James Clark, who is known to the police authorities of several cities as Charles Baxter, escaped from the city jail at 2 o'clock this morning in a very clever manner. He had just completed a thirty-day sentence for petty larceny and was to have been taken to St. Louis to answer to a more serious charge today.

Patrick Killen is the name of an aged farmer living near Waverly. Yesterday he brought a load of hogs to Lincoln and with the proceeds started out to enjoy a night in a strange city.

E. T. Hughes, the young man arrested yesterday on complaint of Mrs. Grace Pennington and held over to the district court, was released by Judge Borgelt today on the discovery of the fact that the alleged offense was committed in Adams county.

Engineer Usher's Narrow Escape. F. M. Usher, a B. & M. engineer, had his right hand so badly crushed under the wheels of his own engine that the use of the fingers had to be amputated.

Unmolested by Her Mother's Tears. The police made the regular monthly raid upon the disreputable Pacific railroad company's saloon.

"WORK OR FIGHT." Toughs Give a Soldier a Chance to Show His Mettle.

McQuillan, the tough who assaulted Delectious Hudson and Hayes at the Coliseum some time ago, was released from the jail two days ago and at once commenced looking for trouble.

"I don't have to," replied the toughs, and both attacked him. The soldier has a heavy brass belt and a knife which he used across the body, cutting through his clothing to the skin, when he looked for police assistance.

STILL HOLDING ON.

Union Pacific Telegraphers Waiting for Action on Their Wage Schedule.

The grievance committee of the telegraphers of the Union Pacific system had another conference with Assistant General Manager Dickenson yesterday afternoon.

"Why," said a member of the committee, "there are operators on the Union Pacific getting only \$30 a month, and down in Kansas the \$35 men are thick. While it is true that some of us are getting better wages than corresponding men on eastern roads it must be remembered that the conditions under which we work are different.

Some of us are stationed out among the sage brush, with no building but the station house in sight. We have to drink alkali water, and the country is of such a monotonous sameness that we have to consult an almanac to learn what season of the year it is.

"The Denver & Rio Grande is a fair road for a comparison. Up to the recent change the minimum wages at that system were \$30, but there were only a few operators working at that, so that \$35 a month was the smallest rate for any considerable number.

That road has granted its operators a schedule that makes the minimum \$35 and the maximum \$10, while dispatchers get as high as \$140.

By comparison we find that Union Pacific operators are receiving an average of \$17.50 per month less than the Rio Grande men. Consequently we don't think our request for a small raise unreasonable.

"No," there is no disposition to strike, although a large percentage of the Union Pacific operators is now enrolled in the telegraphers' union and its membership is growing rapidly.

There are divisions at Omaha, Kansas City, Leavenworth, Denver, Trinidad, Fort Worth, Green River, Ogden, Spokane, Falls and Portland, so that the system is pretty well covered.

The Omaha division has about 250 members in good standing and took in forty at its last meeting. It is reported that Chief Clerk Sheldon at Union Pacific headquarters made the remark that his men joined while he was out of town, implying that he had restrained them up to that time.

Of course that is cheap talk. Mr. Dickenson has assured us that he did not object to employees joining labor organizations and has been very courteous to us so far.

This is the first time the Union Pacific operators have asked anything. The proposed schedule involves many points that will raise questions new to both sides, and we expect it will take some time to discuss these and reach an agreement.

Symptoms.—Dull pain in the back and region of the kidneys, weakness, shooting pains along the spine, fever, preceded by rigor, costiveness, languor, etc.

compound of simple herbs, roots and barks, which asserts its power at once. No instance of a failure to cure kidney troubles has ever been recorded.
