NFBRASKA'S HARVEST

[CONTINUED FROM FIRST PAGE.]

Corn is looking well. The crop will be about an average one. There are \$2,000 acres of corn in the county. Potatoes will probably be under the average in yield.

Nonru Band—Prospects for good crops never were better. The heavy rain of Wednesday night has put all crops beyond danger.

Corn, wheat, oats and other small grain are in fine condition.

Douglas County. MILLARD-The rain insures an excellent corn crop and the outlook at present is much more favorable than last year. Oats are hardly an average crop, but the quality is very good. Spring wheat is about an aververy good. Spring wheat is about an average. Rye and barley are better, both in quantity and quality, than last year. The rain promises to make the sugar beet crop highly satisfactory, as the stand is good and has been well tended. The outlook for potatoes is not flattering; bugs and drouth have been disastrous to this crop. WATERLOO-Corn will go forty-five bushels

per acre, and oats thirty. No wheat, barley or flax grows here to amount to anything. Garden seed crop will average with any year. Fillmore County.

GRAFTON-Fall wheat harvested; part of it in the stack; finest crop ever raised in the county, both in quality and quantity; acreage is larger than for several years. A few loads marketed show a yield of thirty-seven bushels per acre. Others estimate their crop at forty bushels per acre. Oats will not average over half a crop; acreage less than in former years. rlax crop light, acreage below the average. The prospects for early planted corn are excellent; the heavy rain of Thursday hight and morning will give it vigor. Potato crop is unusually good. Rye, yield cood; acreage awall. Bayloy has a yield good; acreage small, Barley has a small acreage; yield not known. Tame hay, Immense. Pasturage excellent.

Onlowa - Winter wheat just harvested; largesterop ever grown in this county. Oats estimated at from one-half to three-fourths of a crop. Heavy rains have revived the corn, which seems nearly up to the average for this season of the year. A great many farmers are intending to thresh their wheat from the shock and place It on the market at once. Franklin County.

FRANKLIN-Corn is looking unusually well. Most fields are tasseling and the heavy rains insure a large yield. Oats, wheat and rye are mostly harvested and the yield has never been better. The acreage was unusually large this season. Potatoes are a fair crop, but not equal to last year. Crops of all kinds have been well tended and the present year will exceed in amount of farm produce raised here any year of the county's exist-

RIVERTON-Corn has never looked better than it does this year. Eve, winter wheat and cats are harvested and extra good. Soring wheat and flax are a little better than an average, and potatoes about an average

Frontier County. MOOREFIELD-Crops are ten days late, but

wheat, both spring and winter, is fully up to the average. Corn promises good. Not many oats raised, but the crop is fair.
STOCKVILLE—Corn is still a little late, but
is growing rapidly and will be equal to crop of last year. Winter wheat is a heavy yield, and there is a larger acreage than ever be-fore. Spring wheat will be a good average yield. Oats are not as good as last year. Not a large amount of barley and flux raised In this section, but what there is will be a good yield. There will be a good crop of po-tatoes, those on the market here so far are large and of good quality. Joseph B. Wil-ton, residing six miles south of Stockville, has threshed his red winter wheat and

records a yield of over forty bushels per Furnas County.

BEAVER CITY—Corn is in fine condition, perhaps ten days late. Increased acreage, 25 per cent. Oats will yield a good average crop; not extensively grown. Winter wheat in shock, and a No. I crop in every respect. Spring wheat, good average. Barley and flux, little grown, but in good condition. Potatoes promise a full crop; quality extra fine. Alfaifa is in fine condition; second crop ready to harvest. A very much increased acreage of winter wheat will be sown by the farmers the fall. sown by the farmers this fell

Oxronn-Farmers are engaged in harvesting and threshing a heavier crop of small grain than ever produced in the Republican vailey. The berry is plump and of the very best quality. Corn was never more promis-ing. Abundant rain and warm weather in sure the I rgest crop ever produced in the county. A heavy rain the 27th inst, remove any possibility of damage from dry weather. Potatoes will also yield heavy and a bountiful crop of everything is assured. The acreage of crops this year is unusually large.

Gage County.

Blue Spaines-Wheat harvest is finished and considerable threshing has been done. The yield is the best ever known, some pieces going as high as forty-five bushels pieces going as high as the thirty-five acre, the average not less than thirty-five bushels. Oats ripened somewhat prematurely by the excessive heat; the probable yield will not exceed thirty bushels. Corn will average thirty-five bushels. But little barley is grown and the crop is poor this soason. Flax is about half a crop; probably five or six bushels per acre. Early potatoes are fair size and moderate crop. Late potatoes do not promise well, although the rain may revive them enough to produce a partial crop. Fruits of nearly all kinds are a tailure this season.

Gosper County.

Elwoon-Corn has been making a very rapid growth in the past month and bigs fair to be a larger crop than last year. wheat barvest has already begun, and while e vield per acre is not quite as large as last year, the increased acreage will give the county as many bushels. Oats and potatoes are a good crop and everything seems to in-dicate that Gosper county will sell more pro-duce than before. We have had copious rains in the last few days and have no more fears from the drouth,

Hamilton County.

AURORA-There is a small increase in the acreage of grain in this county over that of last year. The crop is divided about as follows: Corn, 110,000 acres; oats, 46,000 acres; wheat, 12,000 acres; flax. 5,000 acres; rye, barley, etc., 3,000 acres. The condition of the wheat crop is much above the average of previous years. Corn, while about ten days later than last year, is in splendid condition and promises an excellent yield. Oats is short and will not make an average yield, while other cross presents. while other crops probably will make an av-erage production. A good rain succeeded by cloudiness and lower temperature has dispelica all fears on the score of drouth, and it is now the general feeling that Hamilton county is assured of a splendid crop.

STOCKHAM-Winter wheat, a larger area than ever before harvested, will average twenty-five bushels per acre. The first field threshed in this neighborhood exceeded thirty bushels per acre. Spring wheat a fair crop. Oats is short, less then an average crop. Flax is less than the usual acreage and the crop is about the average. Corn is two weeks behind the normal. There is a good stand and the formal the factor of the crop of the good stand and the fields are free from weeds. The great rain of Wednesday night insures a good crop. Tame hay is a good erop, while the prairie grass is short.

Had County.

GRAND ISLAND-The rain was of almost inestimable value to Hall county. Corn is assuming a very healthy color and a large crop is a certainty. Sweet corn is in good condition and the canning factory will have a good run. Outs and wheat are a little short, the interest hear of the care. good run. Outs and wheat are a little short, the intense heat of the past ten days ripen-ing the grain too fast. Barley and rye yielded immensely. Plax is average and potatoes large and will yield a plentiful re-turn. Beets never were in a finer condition?

Harlan County.

ALMA-Corn is in excellent condition. fully as good as at this time last year, while the acreage is larger. An abundance of rain has fallen in the last twenty-four hours. Wheat, eye and barley are being harvested, while the yield will not exceed that of last while the yield will not exceed that of last year the quality is much better, there being very little weedy small grain in this county. Conservative estimates place the crop of small grain this year equal to that of last year. Oars is excellent. Early potatoes are a good crop; the late ones were slightly injured by dry weather. Late rains will bring them fully up to the average.

them fully up to the average.

Outrans—Wheat will average 18 bushels, onts 50 bushels and rye 30 bushels to the acre. Potatoes and corn since the rain will yield about the same as last year. Republican City-Harlan county is the bauner county for crops this year. Corn is immense. Just had a fice rain and every-

body is happy. Never in the history of this county has everything looked so prosperous as new.

ATKINSON -- Oats have about all been harvested and show a sight decrease in yield under last year while the acreage was about the same. Wheat is just being harvested and promises to make about a two-thirds crop as the berry did not fill out well as crop as the berry did not fill out well as there has not been any rain to speak of for over three weeks. Barley and flax are not grown here to any great extent yet but 'he few fields promise a full-crop. Rye is doing the best of all and many fields will turn out twenty-five or thirty bushels to the acre. Corn will be a late crop, but will mature well unless there comes an early frost. The acreage is larger than ever before. Potatoes promise to be the best ever known hero. Holt county leads them all in quantity and quality of wild hay, and the crop this year is equal to any in quality and the tonnage this year will far exceed any previous year.

Jefferson County. FARBURY—The 103,729 acres planted in corn in this county is an increase of 9,780 acres over the acreace of last year, and the present condition is up to the average of the last five years. Oats is in better condition than a month ago and fully 10 per cent bet-ter than last year. The wheat acreage is 35,480 acres. In 1891 it was 16,379. In condion it is 10 per cent above an average year. Wheat is all harvested and stacked in good condition. Fix is an average yield. Potatoes are about an average crop. Sugar beets are doing well and promise a satisfactory return.

STEELE CITY-Wheat is all barvested and mostly stacked. Some threshed tests sixty-four pounds to the bushel. Corn is doing nicely, tasseling out, and will make a big crop. Outs is being harvested; will not go over 75 per cent. Very little flax raised.

Johnson County.

TECUMERH-Since the heavy rains of this week the corn has been to improve rapidly and the crop will be fully up to the average.
Oats did poorly; it may run ten bushels to
the acre. Wheat did exceedingly well, running from twenty to forty bushels per acre. Little or no barley and flax is grown here

ELE CHEEK-Prospects for corn are now good since the rain. Outs fair; wheat excellent; barlov and flax good, what there is of it. Potatoes only fair. Apple crop is

Kearney County.

Minnen-Corn has received rain at the proper time and is in splendid condition, Small grain crop will be nearly as good as last year. Potatoes will be somewhat short in quantity, but quality will be first class. Wednesday night's ten-hour steady rain puts the ground in splendid condition and insures good fall pasture.

Keith County.

OGALALLA-Corn is just beginning to tasse and looks good color and strong; plenty of rain so far. Oats short but well headed out and will make a fair average crop. Barley is in the same fix. Wheat is above the average yield and of a superior quality, and a large acreage. Potatoes, a good crop. Knox County.

Niobrara—Crops are doing fairly well, though corn needs rain in a large part of the county. Local rains have helped portions. Oats is short. Wheat will be fairly good. Barley is good. Flax, large crops of which are sown in the east part of the county, need

Cheighton-Corn, fair crop; wheat, good, weil filled; oats, short; potatoes, fair crop; millet and flax, not very good. Scarcely any rain in the past month. Farmers are busy narvesting.

Lincoln County.

NORTH PLATTE-Harvesting of small grain has begun and the barley and rye are heavy and will yield twenty bushels per acre Spring wheat was injured by the dry weather in June and July, and the yield will be light, not to exceed fifteen bushels per acre. Potatoes and other root crops will be an average crop. Corn is late, but is making splendid progress, and recent rains make a beavy crop almost certain, as the growth is rank and in good condition to ear. We had a heavy randfall on the 27th inst., amounting to nearly three inches.

Logan County.

GANDY-Rye is fully up to the standard. Wheat is good, though not so heavy gen-erally as last year. Oats fair. Barley me-dium. Potatoes always a good, heavy crop. No threshing done yet. Wheat harvest just CENTRAL CITY-Corn is late on account of

the backward spring, but the crop will go at least 75 per cent of an average. Oats will fields are now tasseling and the fargers or make about 80 per cent of an average. Wheat acreage is small, but the yield is good, and the quality first class. Barley and rve are as good as we have ever had has yielded as high as fifty-two bushels to the acre. Flax was not sown very extensively, but will be about the average. Pota-

Madison County.

Manison-In the south half of this county small grain will be rather above an average crop. Harvesting is a week or ten days later than last year, as but very little grain is now cut. The late rains have practically insured the corn crop and at present the outlook is very favorable. Winter wheat is harvested and an excellent yield is reported. Very little flax was sown this year in this vicinity owing to the poor crop fast year. Potatoes are of very fair size but the yield will be less than usual, there being but few in each hill. NEWMAN GROVE—The crops on an average were never in a better condition. Wheat and oats are nearly ready for harvesting and barley is nearly all cut. Small grain yield equal to any crop ever raised in the county. Corn is a little late, but if frost holds off there will be an immonse yield. Hay has suffered some, but the late rains will insure a fair crop. Potatoes are late, but promise a medium yield. Small fruit is below the general average.

Merrick County. Charman-The crop prospect is fully equal to that of one year ago. Corn is uniform in color, but uneven in size; some planted as late as June 10 is doing splendidly. Fall rye is being threshed and hauled to market and the quality is far above that of preceding years and the yield beyond expectations. Several pieces of fall wheat were sown as an experiment and the result has been surprising as to both stand and quality, which is very good. Spring wheat is up to the average and like all crops the present year is late. Oats promise good results, the acreage amounting to that of former years. The har-vest has only commenced. There is a very small amount of barley sown and the same may be said of flay. Potators will fail for may be said of flax. Potatoes will fail far below the yield of last year, as the planting was small in acres and the hot, dry wind and weather of the preceding two weeks have done great damage. The late rain was badly

needed. Frairie hay will be up to the aver Nance County.

Fullerron-Corp., oats, wheat, flax, rye and potatoes were never better. Rye is being threshed, showing good yield. Oats and wheat are now being harvested in good condition and well filled. Corn has a good big growth and is of good color. The heavy rains the last week insure a big crop of corn.

Nemaha Count . PERU-A heavy rain fell Wednesday. Creps in the eastern part of Nemaha county are good. Corn is tasseling and beginning to slik, with good prospects for a large crop. Wheat is all in the shock, the neads appear well filled. Oats is being cut, will not be a large yield. Early potatoes are poor; late potatoes are doing excellently.

Nuckolis County.

NELSON-Wheat is good. Most of it is harvested and threshing has begun. Some ficids are yielding over thirty bushels to the acre. The quality is excellent and the acreage large. The oats is rather short; will probably be about half a crop. Corn is rather backward, but will be a fair crop. The heavy rainfall of Wednesday makes presents much better. prospects much better.

SUPERIOR -The recent rain has placed the corn beyond all chances of a failure. The estimated acreage in this county is 200,000, and the yield will be forty bushels per acre. Acreage of wheat 7,000, yield estimated at thirty bushels to the acre. One farmer threshed forty-seven bushels of wheat to the There are 20,000 acres of oats and the yield will be thirty pushels. Prospects of a potato crop are good.

HARDY-There will be an immense yield of core. Oats fell short. Thousands of bushels of wheat are being threshed, the yield per ere greatly exceeding that of last year Wheat tested sixty-four pounds per bushel. But little barley or llax was sown this year. Potato crop will fall a little below the aver

Otoe County. SYRACUSE-Wheat was never better than this year. Some farmers report over forty

bushels to the acre. Barley is a little under the average and cats are light. The late rain

makes certain the corn crop.

DUNHAR—Corn is about two-thirds of crop, oats fair, bariey very poor. Fail wheat is excellent, going forty to farty-two bushels to the acre, while spring wheat is not so good. An excellent ten-hour rain has fallen, which will insure a good corn and potato crop.

Pawnee County.

PAWNER CITY-Corn is backward, but with the fine rain falling that has fallen the prospect is good for an average crop. Oats will be three-fourths of a crop. Wheat will average twenty-five bushels to the acre. But little barley and flax have beed sown. Pota-toes fair. The heavy rain was general throughout the county.

Perkins County.

Madrid-Copious, soaking rains assure a most bountiful crop. Corn rever looked as well, seventy-five to ninety bushels per acre; oats, only fair, eighteen to twenty-five; spring wheat, eighteen to twenty-eight winr wheat, twenty-eight to forty-five; rve. thirty to fifty; barley, fifty-eight to seventy-five. Postoes and all root vegetables enormous. In the county there is an increase of 40 per cent in acreage.

Platte County. MONROE-This county was blessed with a bountiful rain which will revive our pros-pects for a corn crop. Corn has suffered severely with the dry hot weather and with the most favorable weather will not make to exceed 85 per cent of a crop. It is just commencing to tassel out and is fully two weeks late. Oats will make about 75 per cent of a crop. Fall wheat, rye, barley and potatoes are a full average crop and good quality.

HUMPHREY—All kinds of grain look fine in this vicinity. Wheat is nearly all cut and averages twenty to twenty-five bushels to the acre, barley eighteen to twenty, oats forty to forty-five. Corn is doing well and has all indications of a large crop. Potatoes

promise very poorly.

DUNCAN—Hot weather came to an end Wednesday at 2 o'clock D. m., when a heavy rain feli. We had three heavy rains before dark and at 11 o'clock it commenced raining from the northeast and rained until 9 o'clock Thursday morning. It is conceded by all that corn is now assured.

Ocones-Corn is a little backward, but since the fine showers prospects are fine for a good yield. Wheat is fine. Some pieces will yield thirty to forty bushels per acre. Oats are light; may avorage thirty bushels per acre. Barley is very poor and will not average with last year's crop. Potatoes are about a usual crop.

Pierce County.

PLAINVIEW-Crops in this county are below the average. Corn shows about an average crop, oats about one-half crop, wheat about an average, rye above the average. Should the dry weather continue corn will be below the average.

Phelps County.

HOLDREGE-Wheat and other small grain are about all harvested. Fall wheat is espec-ially fine. One farmer realized forty bushels to the acre, and a great deal is estimated at thirty-five busheis. Oats, rye, barley and flax will yield equally as good. Corn at present is looking five and with the late rain the yield will be unparalleled. Farmers are greatly encouraged. The sugar beet industry that has been introduced will no doubt pe a success. Quite a large acreage is now growing. Polk County.

STROMSBURG-The crops of this county will average nearly as well as last year, with possibly a few exceptions on small grain. A large acreage of corn was planted, and although about two weeks later over prevvious years the crop will yet be good. It is making a rapid growth, is generally in good condition and most fields are tasseling out. Condition and most fields are tasseling out.

Harvesting of outs is in progress and the
yield is reported good, although in some portions damage has been caused by rust. The
potato crop will average good throughout
the county. Considerable flax has been sown and looks well and prespects are that the crop will be as good as the average.

Red Willow County.

Indianola-The recent hot weather was terminated Wednesday afternoon by the first rain of the season, there being a precipitation of two and one-half inches. is all cut and promises a heavy yield. Wheat is about half cut and will fully equal the yield of last year; the quality is better, how-ever, and the acreage greater. Oats is a fair crop, but the acreage is small. Barley is not much grown but looks well. Flax good. The recent heavy rain insures an enormous potato yield. Corn, although ields are now tasseling and the farmers expect a rousing crop.

Rock County. Basserr--Wheat will not make more than

one-half or a two-thirds crop. Oats and rye are very fair; prospects for a big corn crop are good; potatoes and vegetables of all kinds are looking finely. The hay crop is one of the largest the county has ever had. Saline County.

WILBER-The wheat crop of Saline county

will average thirty to thirty-five bushels to the acre the county over, and is the finest in quality ever raised here. Outs will be a light crop, but of good quality, and will probably average thirty bushels. Very little bariey and flax raised here. Corn is very uneven; some good, other pieces very poor indeed. With favorable conditions from this on will probably be two-thirds of a crop the county over. Potatoes are not promising. Tame hay is the best crop we ever had. FRIEND-Generally corn has not suffered by the dry and hot weather, but has made a very rapid growth and is now beginning to set ears. The acreage of this grade of corn will be very much below that of last year Oats has suffered from dry weather and the yield will be low and the quality not very good. Winter wheat is all harvested and in this county is the banner crop. Two fields in this locality show a yield of forty bushels per acre, and a tested weight of sixty-three pounds to the bushel. There is very little flax or barley sown. Potatoes have suffered from the hot and dry weather, and the crot will be light. The drouth was broken Thursday morning by one of the grangest rains experienced for years. No wind has accom-panied it, and up to the time of writing three

ing quite hard. Chere-Saline county had a thorough soaking down Wednesday afternoon and all iast night. Crops are good. Corn has been making immense growth for the last two weeks. The hot winds of the last few days have done some damage, but not enough on the whole to make any shortage of crop, which will be a good average. Winter wheat is being threshed all over the country, and turning out from thirty-one to fifty-two bushels per acre. E. F. Stephens had 100 acres in winter wheat, south of this city and east. One field, bottom land, averaged fifty-two soaking down Wednesday afternoon and all One field, bottom land, averaged fifty-two bushels per acre by weight, and the upland forty-nine bushels. He sold the entire crop at 52 cents per bushel taken from the threshing machine. Oats are being cut now and are a fair crop. Bartey is a poor crop this year. Not as much flax has been sown as usual, and the crop is only fair. Potatoes are only a few in the hill, and the rain of today is too late to help the crop out. Tame hay is good. Prairie hay short and light

inches of water has fallen and it is still rain-

on the ground. Sarpy County. GRETNA—Corn acreage is up to the average and looks well. John Weetn threshed his winter wheat which yielded an average of thirty-five bushels per acre. Spring wheat acreage is larger than usual and is being narvested; straw is short, but heads are large and well filled. Oats is an average crop, but barley will not yield more than half a crop. There is a larger acreage of potatoes than usual and the early varieties are excellent in quality. Fruit of all kinds is almost a total failure except grapes. Tame and wild hav is all right, but millet is very short. Rain has been falling for the past twelve hours

(Thursday) continuously.
PAPILLION-Since the rains of Wednesday PAPILLION—Since the rains of Wednesday and Thursday the corn crop in this county is all right and will make a full crop. Wheat is turning out well. Oats is short in the straw but good heads. Late potatoes will show up well. The sugar beets planted in this county are all looking finely, and will encourage the planting of a large acreage

Saunders County. Monse Blurr-Cora while not quite as far advanced as usual at this time of the year is looking good, the heavy rain having come is good time to insure a fair crop. Wheat, rye and oats are all about an average crop. Potatoes are cut short by dry weather. Fruit of all kinds will be a poor crop. Small grain is being harvested now.

VALPARAISO-Winter wheat is about all harvested in this vicinity and is a splendid crop; but one field has been threshed yet and that turned out twenty-eight bushels per stood the drouth and with favorable weather will make a good yield, the listed corn generally being the poorest. No barley in this vicinity. Early sown flax is locking well but the late flax is poor. Early potatoes are very scarce and late case did not make more than half a stand, so will be a poor crop at best, This report is of the xiginity of Valparaiso, comprising parts of Saunders, Butter, Soward and Lancastor counties. The acceage compared with that of last season is about as follows: Wheat, 125; mats, 100; corn, 110; flax, 90; potatoes, 80. Prairie hay will be light. Nearly two inches of rain have fallen up to this time since 5.0'clock n. m. Thursday, which will help the late oats and make a big difference in the corn.

Seward County.

Sewano-The winter wheat crop of Seward county was harvested and saved in fine and county was harvested and saved in fine shape. There was the largest acreage ever harvested in the county, and the quality the best. A few pieces have been threshed, and the yield runs from twenty to forty-five bushels per acre. The general average will be at least thirty bushels per acre. Spring wheat is now being harvested, but the acre-age is small and the quality not near so good as winter wheat. Rive is a fine error with as wenter wheat. Rye is a fine crop, with an increased acreage over last year. The late rains have improved the condition to such an extent that we will have an average erop. Very little barley or flax is raised in this county. The potato crop promises well. Corn is doing well, and the crop will be an average one, with a decreased acreage, our farmers sowing more winter wheat and rye and planting less corn than in former years. The hay crop is excellent, and most of it in

stack in good shape.

UTICA—The prespect for an abundant crop is exceedingly promising. The dry, hot we ther did some little damage to corn, but a neavy rain on Thursday brightened it up in fine style and it will produce an average yield. The wheat crop is very large. Oats has been shortened some by the dry weather, but the head is well filled and will yield a very good crop. Potatoes are looking fine and well, and will doubtless yield a fair

LITCHFIELD-Corn promises an abundant yield. Oats is very uneven, but an average crop. There is not so great an acreage of wheat as last year and the crop not evenly distributed, but will yield better than an average crop. Barley and flax very little sown; flax reports from those that have any are exceptionally good. Early potatoes are scarce, but late ones promise well.

Stanton County. STANTON — A copious rain visited this county and vicinity Thursday night, which, while not badly needed, will produce a material increase in small grain and corn. Harvesting has just fairly commenced in this county and farmers are reporting prosecuted to a small ratio ratio. pects for small grain yield to be very flatter-

Thuyer County.

CHESTER-Wheat in this vicinity, which embraces the south central part of Thayer county, Nebraska, and the north central part of Republic county, Kansas, is all cut and a considerable part of it stacked. Some of it being threshed out of the shock vields from twenty to thirty bushels to the acre and the quality is very fine. Oats is very poor, short straw and rusted, and will not make half a crop. No barley raised to amount to anything. There has been very little flax sown this year, and that is not looking very well. Potatoes are not doing very well, too much dry weather, but as it has rained today the late ones may do better. Corn, where it was well cultivated during the dry weather, is doing well, although at least two weeks is doing well, although at least two weeks behind, and will require a late fall to fully mature. There is very little tasseled out yet and where it has tasseled the extreme heat of the past two weeks has damaged it some. The crop is very uneven, both in size and stand, and under the mest favorable circumstances cannot possibly make more than two-thirds of a full crop. Eve is a full than two-thirds of a full crop. Rye is a full

rop, but not very much raised. Невком—The recent heavy rains make crops safe for the present. Corn very good. Oats, three-fourths crop. Wheat never better quality, will syerage thirty bushels to the acre. Barley poor. Flax very poor, very little sown. Rye very good. Potatoes medlum.

Thomas County.

THEDFORD—Corn looks well and promises a good yield. Oats good, but a small acreage. Wheat good, but nardly average with last year. Barley good, but a small acreage. Potatoes doing well; new potatoes on the market. I large yield. Rye is excellent and promises a Valley County.

Onn-Corn is from seven to ten days late. but the stand is good and will make an un-usually large crop. Wheat is uneven in stand but will yield a more than average crop. It is rather thin on the ground but the heads are large and heavy. Oats is short in the stand and will make a light

usual but has time to make a good crop and the late rains will help it.

crop. Rye and barley are more than average crops. Potatoes fair, not as forward as

Wayne County. WAYNE-The cross of this county are very wayne—The crops of this county are very good, taken as a whole, and especially the large wheat crop, which is very fine and of an excellent quality. While there are some fields of corn that are not in very good confields of corn that are not in very good condition the crop will be an average one. The rye crop was very good. Oats and flax will be about a three-fourths yield and potatoes the same. Farmers are feeling jubilant over prospects owing to the fine rains of Wednesday night.

Webster County. RED CLOUD—A big rain visited this portion of the state Thursday evening and continued all night. Crops of all kinds are assured. A nicer rain we have not had this year, and it

came just when it was needed. BLUE HILL-A rainfall of one and three-eighths to one and one-half inches assures a good corn crop. The acreage is large, the increase being about 10 per cent. About 40 per cent of the wheat area is fall wheat. Very little threshed, but enough to show that fall wheat will go twenty-five to forty bushels per acre. Little change in the oat area, and the crop will be a fair one. Rye is good but the average is small. Barley, good berry, small average and about half a crop. Potatoes are rather late, but looking well and doing well. Flax fair, but the average is very small. Early spring wheat will go ten to twenty bushels; late, five to twelve.

York County. YORK-Wheat is splendid. Fall wheat is YORK—Wheat is splendid. Fall wheat is averaging thirty-five bushels per acre. Oats is short and thin and will probably make about three-fourths of a crop. No flax on account of lateness of spring. Barley good. Corn prospects are not so good as last year, but will make a fair crop if favored with a late fall. Rye is good. Potatoes are extra good. It is raining here and has been since last Wednesday night at about 8 okclose. It last Wednesday night at about 8 o'clock is now 12 m. This will be a great help to the corn.

In a General Way, EDGAR, Neb., July 29.—The condition of all kinds of crops in Clay and Nuckells coun-

ties is excellent. Corn is a little later tha usual, but is putting forth a rank and rapid growth, and with anything like favorable weather for the balance of the season the weather for the balance of the season the yield will be very heavy. Oats is a little short, but the quality is good. The acreage of winter wheat is fully 50 per cent greater than ever before. Some threshing of this grain has been done and the yield reported is from twenty to forty-five bushels per acre, the quality being excellent. Potatoes will be a fair crop. Very little flax or barley was sown here.

was sown here.
Silven Cheek, Neb., July 29.—[Special to Fue Bee.]—In portions of Merrick, Nance, Platte and Polk counties, adjacent to Silver Crees, corn is in me condition and the late rain has removed the danger of drouth and virtually assured a magnificent crop. Oats has been materially injured by the continued

accessful of excellent quality. Early oats is good but the later oats will be lighter on account of the hot dry weather. Corn which has been rightly planted and cultivated has fourths of a crop. Spring wheat is good and has received little or no injury from the dry weather, while winter wheat is splendid, some farmers who have already threshed realizing as nigh as thirty bushels per acre. There is much wild bay land in this locality and grass was never better. Yesterday a hallstorm, probably extending over only a few square miles, struck this, the southeast corner of Nance country in the struck in the southeast corner of Nance country in the struck in the southeast corner of Nance country in the struck in t corner of Nance county, materially injuring

corner of Nance county, materially injuring though not destroying the corn cron.

Howella, Neo., July 29.—[Special to Tins Bis.]—Crops in the southwest part of Cumming, southeast part of Stanton and north part of Colfax counties: Corn good butthree weeks late; oats half crop; barley good; wheat good, heavy crop; flax, fair; potatoes, a good many planted, will be good what there is, but crop will be very small.

there is, but crop will be very small.

Waco, Neb., July 29.—[Special to The Ber.]—The fields of winter wheat adjacent to this town are something to be proud of. The average yield per acre is about thirty-five bushels, and of a very fine quality, but in some cases the yield greatly exceeds this in some cases the yield greatly exceeds this as in the following: William Hohnbaum has threshed and sold forty-four bushels per acre; S. B. Stevens forty-six bushels from land which he bought within the last year at less than \$30 per acre, and A. E. Brubaker from a yield of twenty-two and a helf acres has marketed 1,085 bushels or about forty-eight bushels per acre. One of the three elevators operated here has contracted as high as 10,000 bushels of wheat in a day.

The time rain of vasterday has assured an The fine rain of yesterday has assured an excellent crop of corn and farmers and merchants alike rejoice over the present outlook.

Mrs. Winslow's Soothing Syrup for children teething produces natural quiet sleep.

> MILITARY MATTERS. Camp Elkins.

Trumpeter Colin, troop K, joined his troop recently. Privates Koutz and Price, also two recruits,

ave joined troop G, Sixth cavalry. Privates Leahy and Wallace, troop K, also Private Artnur Keele, Sixth cavalry, deserted a few days ago.

Private Sullivan, troop B, and Privates Burns, Kittle and Hemstreet joined their respective stations July 19. Lieutenant B. H. Cheever, who returned to Fort Niobrara from leave of absence re-cently, is expected out here soon.

Private Shiman, troop A, Sixth cavalry, was discharged per expiration of term of service July 17. Shiman had been a good soldier and a saving man, so when he boft he carried something near \$600 in his pockets. Second Lieutenants Short and Philips Sixth cavairy, with a detachment of five en-listed men, left this camp on July 9, returned July 15, bringing with them a wagonload of

Lieutenant F. G. Hodson, regimental adjutant of the Sixth cavalry, has been ap-pointed aide-de-camp to General Carr. The lieutenant will follow the general to Washington as soon as he can settle up his affairs at Camp Elkins, Wyo.

Fort Robinson.

From the looks of the surrounding country we expect to have the finest hay ever fed at this post. First Lieutenant John H. Gardner, Ninth

cavalry, left to join his troop in the field near Suggs, Wyo. Contractor Jewett has turned over, completed, the new quartermaster and commissary store house.

Tomorrow seven men, just released from

the guardhouse, go to join their troops at Camp Bettens, Wyo. The first of the commissary stores, from the old building to the new warehouse, commenced moving today.

The south ward of the hospital is being re-shingled and the roof the whole building is receiving a fresh coat of mineral paint. The Sixth cavalry, encamped near old Fort Fetterman, Wyo., get all their quarter-master's supplies from this post.

For the past ten days the sound of the mowing machine was heard on our two parades, resulting in a surface smooth enough for a laws tennis court. A match game of baseball is on the tabis between companies C and D, Eighth In-fantry, which promises to be interesting. We wish you would send "Sandy" to write

it up for us. It is understood that Mr. Gungle, formerly band leader of the Twenty-fourth infantry, is to be enlisted as leader of the Ninth cav-alry band, vice Waters, discharged on his own application.

B. S. Paddock, post trader at this place and also in the field with the Ninth cavalry, was at home for a couple of days last week and left for "the front" Monday morning so as to be on hand when the paymaster distributed a few thousand amongst the troops. Mrs. Dr. Tempany, the wife of Veterinary Surgeon Tempany, Ninth cavalry, was the recipient of an elegant carving set at the hands of a committee of the Social club, Mrs. Tempany had built all the cake for the boys, and we understand there was a neat presentation speech by the chairman of the com-mittee, Sergeant Macsenzie, and a reply by

the good lady. The Social club picnic eclipsed anything of the kind ever attempted here. The company worked three weeks clearing out underbrush on an island of White river. The ground was as level as a billiard table, and for the dancing portion was covered by three tar-paulins stretched as tight as the canvas would bear. A music stand was built and a lingstaff erected, on which was our starry emblem forty feet above the highest tree A table fifty feet long, with an L of thirty feet occupied one side and away down in one corner close to the river was an ice cave in which reposed several kegs of Schlitz's best. The supply of entables, ice cream, iced tea and lemonade was inexhaustible. The Bre correspondent was taken in hand by the committee and forced to sample all the good things, such as lemonade, ice cream, etc., principally etcetera, which, by

the way, was nice and cold.

At 1 p. m. hacks were sent around to the houses of the married folks to convey them to the grounds, and at 3 p. m. they were on hand to carry them home again. Captain Corliss, the "Pater" of Company C, Eighth foot, was on hand nearly all day and enjoyed it as much as if the boys were his own children. He was very proud of them and

their conduct deserved his praise. Fort Meade.

Coionel Carlton's family arrived Wednes Troop C left Friday on a ten days practice

Private Schickner, K troop, has been apcointed corporal. Lieutenant F. C. Marshall has left on a nonth's leave of absence. Chaplain Vattmann left for Hot Springs Tuesday on a two days leave. Lieutenant J. A. Gaston leaves August 1 on a two months leave of absence. Private Lewis, E troop, has been discharged for fraudulent en istment. Sergeant McLemore leaves the Twentyeighth. He is going to Texas to re-enlist.

Privates Gallagher, D troop, and Schwab, I troop, have been discharged on the three Private Peter J. Brodessor, E troop, has en appointed corporal, vice Prochnow, discharged.

Captain E. A. Godwin arrived Wednesday

Lieutenant Colonel E. V. Sumner has an extension of two months' leave of absence.

rom Montana, where he has been examining horses for the Eighth cavalry. Captain Gilmore and Lieutenant Cobell took A troop to the Beile Fonche Saturday and Sunday on a fishing excursion Private Roberts, I troop, confined in the guard house for sleeping on post, has been sentenced to six months and to pay a fine of

J. H. SCHENCK & SON, Philadelphia SYPHILIS A Written Guarantee to Cure Every Case or Money Refunded.

treated seven years ago have never seen a sympto since. By describing case fully we can treat you by since. By describing case fully we can treat you by mail, and we give the same strong guarantes to cure or refund all money. Those who prefer to come here for treatment can do so and we will pay railroad fare both ways and both bills while bere, if we fail to care We challenge the world for a case that our Magie Remedy will not cure. Write for particulars and get the wide one. In our seven years practice with the Magie Remedy it has been most difficult to evercome the prejudices against socalled specifics. But under our strong guarantee thousands are trying it and be our strong guarantee thousands are trying it and be ingcured. We guarantee to cure or refund every financial backing of \$5.0.0011 is perfectly safe to all who will try the treatment, Heretofore you have putting up and paying out your money for different treatments, and although you are not yet cured n one has paid back your money. We will positively cure you, Old, chronic, deep sented cases cured in 30 to 30 days. Investigate our financial standing, our reputation as business men. Write us for names and addresses of those we have cured who have given permission to refer to them. It costs you only nost age to do this. If your symptoms are sore throat, mucous patches in mouth, the mattism in bones and soints, hair falling out, eruptions on any part of the body, feeling of general depression, pains in head or bones. You have no time to waste. Those who are constantly taking mercury and potash, should dis-continue it. Constant use of these drugs will surely bring sores and eating ulsers in the end. Dou't fail to write. All correspondence sent scaled in plain so-volope. We invite the most rigil investigation and rill do all in our powerto aid you in it. Address,
