Night. PROVISIONS WERE ABOUT UNCHANGED

In All Markets the First Result Was a Better Support and Higher Prices-Nebraska's Wheat Estimate Was Quite

Bearish.

CHICAGO, Ill., Aug. 1, -Wheat and corn are a trifle higher tonight than Saturday evening Good growing weather prevented buying enthuslasm, although the country took quite a lively nibble at corn. Provisions are about unchanged.

The thing appermost in the minis of the traders was the action of the senate in deferring consideration of the Hatch blit until De-cember. In all markets the first result was a better support and higher prices. Wheat showed about %c improvement. Then the great receipts at St. Louis and the prospects of an increase of 1,5,0,000 bu. in the visible supp y gave the price a set, back to the openlog figures. Later the visible supply did not Increase as expected and the total enlargement of stocks feil below 1,000,000 bu. This rescued the market from the natural depression resulting from the very bearish crop prospects. St. Louis disnatches reported 1,004-000 bu. or more wheat delivere's there.

There were no deliver, es here or in New York. The Kentucky and Neuraska wheat estimate was bearish, showing a great crop, while Prime was quoted as saying that the shortage in Ohio will be 70 per cent, Michigan 25 and Ind ana 2 to 25 per cent, while a majority of reports from the northwest bespoke a good yield for Minnesota and South Dakota. The poor crop talk was continued about the Red river valley, and the fear of frost damale later was expressed. The Austrian crop report is estimated at 16,000,000 bu. against 1,409,000 bu. last year. New York today reported the export takings of grain there and at outports as amounting to fifty-two boatloads of wheat and 40,000 bu. of mixed oats.

The opening here was about 14c better than Baturday, with prices sut sequently fluctuating within 14c range, the market closing with an improvement of 14c.

There was good buying of corn, chiefly to cover shirts put out on the recent high prices, but there was also som; investment buying and with intie for sile firmness was the rune. Cutler & Co. had a big line of buying orders; and their purchases imparted much strength to the market. The crop news was generally encouraging, though some of the buils were claiming that Prime was reporting more or less damage from the late high temperature. After opening at about the final quotations of Saturany, the market soid up with small reactions 5c, receded 4c, ruled steady and closed with a gain for the day of from 14c to 3c.

Onts fluctuated with corn and closed from 3c to 3c higher. Trade was quiet.

In provisions the heavy volume of trade lasted most of the session, while prices showed no important change. The heavy receipts of loogs started prices lower. Pork was off 74c and other projucts 5c from Saturday. The packing companies became good buyers and prices recovered, fol ment of stocks fell below 1,000,000 bu. This rescued the market from the natural depres-

Freights were stronger and a shade better at from 2c to 2\(\)c for wheat and 1\(\)c for corn to Buffaio. Estimated receipts for tomorrow are:

Wheat, 237 cars; corn, 64 / cars; oats, 349 cars hogs, 16,000 fiead. The leading futures ranged as follows: ARTICLES. | OPEN. | HIGH. | LOW. | CLOSE

Traders' Tatk. CHICAGO, Ill., Aug. 1.—Counselman & Day to Cockrell Bros, Commission company: The grain market opened firm and renerally advanced on buying led by commission houses. The house's postponement of action on the Hatch bill and less than 1.000.0 0 bu. inadvanced on buying led by commission houses. The house's postponement of action on the Hatch bill and less than 1,000,0 ob increase in the visible supply were the buil increases in a caused and small clearances made holders willing to take profits and caused an easier feeling latter. Corn opened strong and advanced &c on buying by the local buil crowd and &c more on shorts covering. Charters were made for 193,-000 bil. Sample lots were firm and in good demand and at the close shippers seemed to have buying orders and tried to close the market easy to fill them. Provisions opened lower on more liberal receipts of hogs than expected. Cudahy came to the support and bid prices up until the decline was recovered. Other traders seeing the market thus dominated dropped out and the cosing was very duil. Our opinion of the market thus dominated dropped out and the cosing was very duil. Our opinion of the market is that wheat and corn if bought on soft spots will make fair profits with small risks.

Chicago, Ili., Aug. i.—Kennett, Höpkins & Co. to S. A. McWhorter: Reports from the northwest suggest a full average crop of spring wheat in both Minnesota and South Dakota. Some accounts claim as large as last year, but the more conservative ones say North Dakota will have a boor crop even with the most favorable weather. It is estimated at one-haif to three-fourths of last year's crop. The July wheat squeeze is at St. Louis and the market was weak today in consequence of heavy deliveries on Aurust contracts. Exports were small and foreign engagements light, but a great deal of wheat is going east and it may be set afloat later for Europe. Bears in corn have had about everything to favor them—the finest weather, liceral receipts and comparatively light consumptive demand—but in spite of the bearish factions the market has shown much strength and looks like going higher. Oats sympathize some closed at 77% bld. The receipts, estimated at 75 cars for tomorrow, had rather 2 depressing effect and caused some seiling by the early buyers. Receipts at St. Louis and Toledo were heavy and we cannot learn of any fresh export business. Without this we cannot advance prices. The only argument in favor of an advance is the low price, and there is no doubt it is low, but that is no argument for an increased demand; in fact it is the reverse. The increase in the visible supply is less than generally expected but we look for a steady increase from this forward. The growing spring crop continues to improve, Corn has been strong. September opened at 48%, soid up to 49% and closed at from 48% to 49. The general reports of the growing crop are better, but special expert reports put the conditions low and point to a small outturn with favorable weather. Meantime receipts are light and the sentiment amongst our sound-thinking men is for higher prices. We feel on declines that it is safe to buy for moderate profits. The out market is life less and without fluctuation. Hog product was strong along the whole line. They, like corn, should be purchased on all breaks.

STOCKS AND BONDS.

Great Bulk of the Trading Was In the Leading Stares. New York. Aug. L.—The stock market today was moderately active, but the great bulk of the trading was in a few of the leading shares, the rest of the market bein; without feature. The fact is that the market now is feature. The fact is that the market now is carried over in raded mixed. Secondary at Secondary

the entire session. The decision however, was of little importance except as indicating the position of the combine in the courts, but the important decision is to be rendered by the chancellor of the state of New Jersey. None has as yet been rendered and they are looking forward to it as of vast importance to the coal combine. The movement changed the temper of the whole list for the better and the gary tosses were recalled in atmost all he early losses were regained in almost all

the early losses were regalined in aimost all cases.

The London market is dead, the only demand from that center being for choice investment bonds. The close was quiet and steady to firm and irregular, but slight changes from Saturday. The trading reached 22,350 listed and 3,690 unlisted.

Government bonds have been dull and steady. State bonds have been dull but firm.

The Postsays: The London Stock exchange kept holiday and several of our most active local operators for the rise followed its example. If there was such extensive outside buying as many people profess to have discovered last week such petty factors as the absence of London Arbitage and three or four local brokers could scarcely have affected this market.

OMAHA, Aug. 1.—CATLE—In today's receipts were found several loads of desirable handy beeves that soid readily to slaughterers at Solite advance over Saturday's basis. Henvy grades and grassy stuff showed no special change, aithough some of the better grades soid a shade stronger. The supply of cows and mixed stock was quite large and consisted iargely of range grassers. The demand was fair, trade brisk and an early clearance was made, about everything cuanging hands before noon. The inquiry for stock cattle was confined largely to local dealers; but few country orders to fill. Prices were in the main unchanged from those paid at the close of last week. Representative sales:

Chicago Live Stock Market.

Chicago, Ill., August I.—[Special Telegram to The Bue |—Had the supply been confined to the fresh receipts some improvement in prices of cattle might have followed, but with an additional supply of from 4,000 to 5,00 head of sale cattle there was little show for any devance. Good to choice native steers were in fair demand and were taken at steady rates but for anything grading below good the market was dull, weak and unevenly lower. Of today's arrivals about 8,00 were natives. They sold on a basis of from \$1.00 to \$2.75 for inferior to choice cows and buils, and from \$3.0 to \$5.70 for common to extra steers. Instances where better than \$4.50 was paid were extremely few, the prevailing prices being from \$3.75 to \$4.75 for steers and from \$1.65 to \$2.50 for cows and buils. There were about 4,000 Texas cattle. They averaged steady at from \$1.25 to \$3.25 for poor to prime grassers. The receipts of westerns were estimated at 2,000 head and the range of quotations was from \$1.75 to \$1.25

There was a sharp decline in the prices of hogs. The range was from \$1.5 to \$1.55

There was a sharp decline in the prices of hogs. The range was from \$1.50 to \$5.60 and any time after \$0 clock the best sorts could not be moved at over \$5.85, though earlier there were scattering sales at from \$5.50 to \$5.63 and any time after \$0 clock the last few days appears to have been taken advantage of by the farmers to get some of their surplus stock to the railway station. Receipts were nearly twice as large as for any day of last week. The increase was greater than any one had looked for and a tumble in prices was the result. Not all the hozs were sold and the close was weak at from \$5.00 to \$5.85 for poor to choice heavy and medium weights and at from \$5.00 to \$5.80 for light. The bulk of the hogs went over the scales at from \$5.50 to \$5.55 for common to choice. Calls were slow at from \$1.50 to \$5.00 and fancy lambs were quoted as high as \$7.00.

SIGNED THE BOND.

Hugh Murphy Recomes Responsible for the Repaying of Leavenworth Street.

The members of the Board of Public Works feel that a great load has been taken from their shoulders.

Yesterday afternoon Hugh Murphy appeared before that body with his contract and bond for repaying Leaven-worth from Sixteenth street to Park avenue with vitrified brick at \$1.43 per

square yard.

The sureties on the bond are George E. Barker and W. S. Rector. The contract was at once taken to the city engineer and the comptroller, who certified that the city had funds on hand to pay for repaying the inter The bond that goes with Murphy's stone

contract was also presented and on this the sureties are J. N. Cornish and George E.

Two Contracts to Be Awarded at Tonight's

Council Meeting.

The council committee on public buildings and property will have two reports to submit tonight. One of these reports will be on the contract for the fresco work in the council chamber and the other will be on the contract for art glass in the rotunds. While the members of this committee are not talkative gentlemen, they have said enough to indicate that E. S. Fassett & Sons are the parties who will paint the pictures in the council chamber. One gentleman who said that he was on the inside with the committee remarked that when it came to a question of art the designs and sketches furnished by the other bidders were not in it to any visible extent. Fassett's bid was only \$350 higher than the others and what he proposed to give the city for \$3,000 was really worth

Workmen have commenced concreting the rotunda of the city hail, and the contractor in charge states that the tile floor will be laid before the end of the present week.

The marble men are pushing their contract, and, with the exception of putting in some pulsators which have not arrived have

some plasters which have not arrived, have everything completed up to the fifth floor.

W. A. Austin, engineer at the city nall, reported for duty, but as the elevators were not ready to run his services were not needed. Work, however, upon the cages is being pushed by the Crane company, and the man in charge states that they can be in openman in charge states that they can be in operation today. Not later than Wednesday the boilers will be tested and if that test is satisfactory the free will be kept up, while walking up and down the stairs will be a thing of the past,

FOR AND ABOUT WOMEN.

Silver grape selssors are a necessary table appointment. Branches of luscious looking cherries are served upon a platter of wine-red glass with sliver network.

Accordion pleating is still used on the bodices of thin summer gowns and in tea gowns and for the blouse sieeves of Figaro jackets. The old-fashioned combs of our grand-nothers are again in vogue, and tower in tortoiseshell carvings of gold filigree in stately height above the short curls and puffs of the chignon modern.

Some of the New York hotels provide chaperons for female guests unacquainted with the city. A shopping tour, under the guidance of one of them soon familiarizes a stranger with the city. It is intimated that the French governmen

is seriously considering the importation of babies. There is a deficit, it appears, in the national baby budget of 38,446 infants. Mrs. Harrison has a passion for orchids and has them in profusion in the rooms of the executive mansion. The white house conservatory contains over 150 varieties of the orchid-about 5,000 of the plants in

Some of the new dust cloaks are dainty enough for tea gowns or evening cloaks. One worn recently at the races was of fawn China silk, trimmed with double ruches of ribbon round the hem, and had a crepe of guipure tied with long ribbon loops. They are lined throughout with thin China silk.

A beautiful decoration is so designed that the center of the table is filled with a crystal lake dotted with water lilies, and which floats a silver gondola laden with tris blooms. About the sides of the miniature lake feathery-tufted water-rushes bend.

A jaunty small hat is often more suitable to the wearer's small figure than a more elaborate affair. Quick as a flash the other day, when all the rest were selecting sailors, a pretty brown-syed girl with fine, small features took to herself a crinkled brim flat of fine head or the flash of the control of the series of the flue braid edged with fancy straw, a mite of a hat which just covered the crown of her head.

According to an acknowledged authority on dress, if a girl is accompanied in public by a dog she should dress in harmony with the dog or change dogs with each dress. Brown and gold brown tones are in sympathy with an Irish setter. Vestal white matches the grim visaged white buil terrier. The vulgarity of a yellow dog is mated by proper artificial shadings of hair.

"I suppose if you were to lose your money that you would go into chickey our money something of that sort, ch!" "No," said the wealthy young woman, "I should not. I would be sure to make a failure of it. I am too strong. You know those women in the newspaper stories who make such wonderful success never weigh more than ninety pounds."
