by foreign holders continue and draw large amounts of gold from the country, indicating foreign distrust of American finances, At Boston trade is fairly active, especially

boots and shoes. At Hartford wool is freely bought by manufacturers.

At Philadelphia receipts of wool are large and prices firm. Trade in paints and glass is moderate, in liquors and chemicals active and in tobacco dull.

At Baltimore the fall trade opens favorably.

At Cincinnati trade is quiet, but whole sale drug sales exceed last year's. At Cleveland trade is good in groceries,

shoes, hardware and structural iron, and orders for iron are large and dry goods fairly active.

At Detroit crops look weil. Business at Chicago exceeds last year's, collections are fairly satisfactory, money tends to stiffen and fair crops and large business are expected. Business is good at Milwaukee, improving in all tines.

St. Paul reports encouraging crop prospects.

Minneapolis reports a material increase in Minneapoils reports a material increase in all lines of trade and very good business in lumber with stiffening prices. Duluth reports shipments of iron ore greater than last year, and large receipts of

coal. Business Excellent at Omaha

Business is excellent at Omaha and satisfactory at Kanass City. At St. Louis business is strong and re-ceipts of wheat heavy.

Business is good at Denver. At Louisville trade improves. At Little Rock business is quiet, but at Savarnah well sustained.

At New Orleans money is in improved de-

It is within the mark to say that the vol-ume of trace in July, as indicated by clearing house exchanges, is fully 15 per cent larger than last year and greater than in any previous year in spite of a decline of i per cent in prices since a year ago. Imports are enormous, exceeding last year's over 19 per cent the past month, which is proof of great activity in domestic manufactures and which greeted it last night are to consumption.

Pig iron is, on the whole, no weaker, though Bessemer has sold at Pittsburg for \$13.90 and southern sales at Chicago bave depressed gray forge to \$12, equal to \$3.15 at Birmingham. The demand for bar is more active and plate, sheet and structural mills are sure to give such a play, are crowded with orders. Sales of wool increased largely and for the

year at three chief points are 174,000,000 pounds against 142,000,000 last year to date. Sold for Weeks Ahead.

Cotton mills are fold ahead four to eight weeks and print cloths are strong at 31g cents. No change is seen in copper, but tin has been lifted by speculation and lead is dull at 4.1 conts. Speculation has made higher prices for brendstuffs, half a cent for wheat in spite of receipts at the west ex-cceding 1,000,000 bushels per day, with ex-ports of S00,000 bushels in three days. Corn has been advanced nearly 5 cents on small sales and outs 4 cents on western reports favoring shorter estimates. passage in which he says : "Why you should have such trouble come to you in your young, sweet life is more than I can comprehend. One thing is sure, should I ever meet the one who ruined your life he will pay the penalty."

In another place he supposes that she has "seen some one," and has found relief physically and mentally. In his last letter he asks: "How did you feel when you came to get up and what did your doctress say? Did she suspect any-

thing ?" Coroner Maul interviewed Mrs. Dubach, the physician and others, and read the let-ters, and announced that no inquest would be held.

"It would amount to nothing, anyhow," he exclaimed. "I had an inquest and a post mortem examination on the body of Ida Ebright, and that was all there was of it. The county attorney prosecuted no one, and it was a good deal clearer case than this

American stage is Hettie Bernard Chase. She has fine talent and though very young has already been remarkably successful. She will make her appearance shortly in an "upto date" play, entitled "Uncle's Darling," introducing many specialties, new scenery brilling situations, humorous climaxes, sing ing and dancing. There will also be intro-duced some noted animals, prominent among them being a team of reindeer that are broken to drive in harness; they are spien-did animals and surpass the true deer in size

tience, endurance and fatigue. It is said that they are able to run thirty miles in an hour. They weigh apout 700 pounds each and are valued up in the thousands. In addition to the reindeer some fine dogs will be intro-duced and altogether a most interesting en-tertainment may be expected.
