## THE SPECULATIVE MARKETS

Eensation on 'Change Yesterday Was the Advance in Lard.

ARMOUR'S POLITION ALARMED SHORTS

Coming on Top of the Big Advance Al Around Thursday the Remarkable Action Resulted in Decidedly Strained Conditions.

CHICAGO, Ill., Aug. 5.-A jump of 35c in the price of jard was the sensation today on change. There were rumors that Armour was in a position to squeeze short sellers in the product and a very nervous feeling ruled. Pork and ribs participated in the advance. In the other pits realizin : sales by the buils caused a decline, and wheat, corn and oats each closed %c lower than last night.

The twist given the lard market was one to be remembered for some time. Coming on top of the big advance all around yesterday and against the influence of an easier corn market, the remark-able action resulted in decidedly strained conditions, lard having been for months the most immovable article on the list. Pork made an advance of 20c from the opening price. Ribs, after seiling back 5c, went up 12%c. While other products opened slightly easier, lard was up 156e for September and went up 5c more the first hour. Then Ryan and others bought some October stuff and started the shorts after the September lard. Commission houses also had stop orders These lifted the markets still more. Holders

These lifted the markets still more. Holders of lard were serene, and the top price, after climb up to \$7.75. Jumped to \$7.85 with scarcely a trade, and on up to \$7.25 at the highest point, 55c over the close Thursday, closing around \$7.825. It was said that the high exers sold the lard, and with light stocks still higher prices may be easily made.

Wheat was unsettled early, the strength in corn and outside support the local crowd who bought yesterday on the late acvance exhibited a disposition to close out. The southwest were also free seilers, and under these influences the market eased off. The volume of trading was moderate. The opening prices were at yesterday's closing figures, and the market gradually declined about 15c, closing weak.

were at yesterday's closing figures, and the market gradually declined about 4c, closing weak.

In the corn pit the bull clique, headed by Bryant, Congdon and Fowler, took corn as fast as offered. Baildwin and Farnum. Boyden & Co. Ash Adams and the scalping crowd sold very freely. The market weakened but did not break. Kansas City and St. Louis Scat crop scare dispatches. Offsetting these were certain railroad reports saying a serious damage and Wall street heid stocks of corn roads very firm at an advance.

The oats market was comparatively uninteresting, with options weakening soon after the opening of the session. The advance of 4c this week was regarded as sufficient for the present, inasmuch as the cash market did not sympathize as readily to the initiance of the crop reports as the futures did. There was realizing by part es who bou, ht freely on yesterday. The country so far sent in selling orders for May.

The offerings of vessel room were light. A fair demand existed, a firmer feeling prevailed and rates were advanced from 14c to 24c for wheat to Buffalo and 24c for corn. Estimated receipts for tomorrow are: Wheat, 550 cars; corn, 113 cars; oats, 210 cars; hozs, 10.000 head.

The leading futures ranged as follows:

hogs, 10.000 head. The leading futures ranged as follows:

New York Dry Goods Market.

New Y RK. Aug. 5.—Business in dry goods was without change. Traders' Talk. CHICAGO. III.. Aug. 5.—Counselman & Day to Cockrell Bros. Commission company: Wheat was steady within ½: range, clos ug at the bottom. Local operators were inclined to sell for a scalp and estimated receipts of 5.9 cars for tomorrow helped them to a profit

the Cockrell Bros. Commission company: Wheat was steady within My crante, clos ar at the bottom. Local operators were inclined to sell for a scrip and estimated receipts of 500 cars for tomorrow helped them to a profit. Corn was strong on public buying and stubbornly withstood professional raiding, tilli near the c.ose, when requeal selling started by increase of estimated receipts and some suspicions that the drouth scare had been oversione gave the bull crowd a chance to buy heavily and resume control of the market. We know positively that a rood many little ion, a soid out and that considerable short selling was indulged in, and shall be surprised if the short saies made at the close today do not show a loss tomorrow. News from the southwest in licates no sirns of a break in the drouth as yet. The September provision deal it's become corcentrated so that the leading holders can bid prices up without retting much from others. We advise our friends to let the manipulators do the work of putting the present stock of pork into consumption and to trade in new crop futures entirely hereafter.

Chicago, Ill., Aug. 5.—F. G. Lozan & Co. to Duncan, Hollinger & Co.: The wheat market opened quiet from 785c to 785c for September, On some realizing it soid off to 785c. On the decline there was some good buying and the market gradually went up to 785c. closing at 786785c. There is no change in the situation. The demand for hard No. 2 red is fair at about 78c: for other grades the demand is poor. The critical time, except frost, is past with the grow ng spring crop and values in the near future will be influenced a good deal by the securing of the crops in the northwest we still believe buying on decimes will make moderate profits. Cables are steady with favorable woather for the growing crop. Crop. crop crop is are all about the same tenor, estimates ranging from 90 on per cen of an average. While all this may turn out to be true it must be borne in mind 50c corn is a high price with other feed, abundant.

The market for t

STOCKS AND BONDS,

Industrial Lines Were Almost Entirely Neglected Yesterday. NEW YORK, Aug. 5.—The stock market still further quieted down today and the indus trials, with the exception of General Electric. were almost entirely neglected, and except in the first hour railroad shares were not traded in to any extent, only in spots. The market seemed to be waiting to see the extent of the good movement, and, as usual, the forenoon's operations became the principal feature of trading again. London has orders in the mar-ket on both sides. Of the interests which have been conspicuous in their efforts to depress prices all were quiescent, and the steady de-

mand for both investors and the shorts gave

the market its strength during the early dealings.

As this demand slacked away, however, only the strength showed spurts here and there and the list maintained its firmness, while there was but a slow and steady diminution in the amount of business. With the withdrawal of the industrial stocks from the prominence in the dealings, the leading railroad shares are given more attention, and while the grangers and Atchinson still falled to show any material movement. Outline was further advanced with spe lai movements in Manhattan and Eric giving character to the later transactions. Among the specialties only Minneapoils and St. Louis displayed any particular strength, the Mexican Central became active and strong at one time. Among the unlisted shares, the Duiuth, South Shore & Atlantic shares were lifted in the cariy dealings, but falled to hold all the advance and quieted down with the general list later in the day. The market closed duil but firm. Transactions reached 19,182 listed and 18,263 unlisted shares. the market its strength during the early deal-

Government bonds have been unit negsteady. State bonds have been cutirely neglected.

The Post says: There is a steady investment demand which has now extended from
the particularly high price in the securities
which have already been pretty thoroughly
absorbed to the cheaper issues. The chief
activity of the last fortnight has been in
bonds selling below par, but at the same time
high enough to show belief in their intrinsic
worth. There are many such securities on the migh enough to show bellef in their intrinsic worth. There are many such securities on the market, and their comparatively low grice is due not so much to any really had element in their position as to the fact that they were not well known to investors. Recent buying in these quarters has been very heavy and reflects undoubtedly a feeling of increased confidence.

St. Louis, Mo. Aug. 5.—There was little trad-ing on the mining exchange today. The fol-lowing quotations were made:

KANSAS CITY, Mo., Aug. 5.—Clearings, \$1.709,-Paris, Aug. 5.-Three per cent rentes 90f 20c for the account. NEW YORK, Aug. 5.—Clearings, \$86,302,-68; balances, \$6, 11.824. HAVANA. Aug. 5.—Spanish gold. \$2.53. Exchange quiet, but firm. Sugar quiet.

BALTIMORE. Md., Aug. 5.—Clearings, \$2,221,-568; balances, \$252,774. Rate, 6 per cent. Philiadelphia, Pa., Aug. 5.—Clearings, \$9,-904,476; balances, \$1,816,390. Money, 2 per cent. Memphis, Tenn., Aug. 5.—New York exchange, 75c; clearings, \$284,255; balances, \$107,-577.

New ORLEANS. La. Aug. 5.—Clearings, \$1,113,185. New York exchange commercial, \$1.50; bank, \$1.70.

CINCINNATI. O., Aug. 5.—Money, \$25 per cent. New York exchange, 2524.c discount. Clearings, \$2,290,330. learings, \$2,200,350, Diearings, \$2,230,330,
Boston, Mass., Aug. 5.—Clearings, \$14,874,—105; balances, \$1,496,287. Money, 3½624 per cent.
Exchange on New York, 12½625c discount. ST. LOUIS, Mo. Aug. 5.—Clearings, \$3.633,-245; balances, \$297,107. Money firm at 627 per cent. Exchange on New York 23/250c discount. New York, Aug. 5.—[Special Telegram to The Bee.]—Exchange was quoted as follows: Chicago, 20c discount; Boston, 12/4/266c discount; St. Louis, 23/250c discount. Chicago, Ill., Aug. 5.—Cicarings, \$15,-700,073. New York exchange steady at 25c discount. Sterling exchange heavy; sixty-day bits, \$1.874; demand, \$1.885. Money abundant at 4 per cent on call.

What Bradstreet's Says. New York. Aug. 5.—Bradstreet's, in its re-view of the stock market, says: The devel-opments of the present week in the share market have not been of a character to change opments of the present week in the snare market have not been of a character to change its tendencies. Manipulation and professional activity have been almost entirely of a bull-ish shad. Such movements, however, appear to be confined more closely to industrial stocks an i other specialities which lend themselves readily to the efforts of professional operators, than is the case with the speculative feature of the railway share list. It becomes more plain, however, that though such proceedings innair to a certain degree of activity the market as a whole and attract a limited and almost entirely professional buying as var.ous stocks are taken successively in hand and advanced, the active condition and interest of the public either here or abroad has not been aroused and sthi does not furnish a bas s for a genuine buil market. Commission houses, it is true, are in receipt of buying orders in various specialities, but the development of such business cannot by any means be said to have attained large proportions.

The London market has merely followed

tions.

The London market has merely followed New York quotations on the apward grade. Interest in that quarter is still at a low ebb and there has been no tangible signs of a disposition to inaugurate any responsive buillan movement in Americans on the other side of the ocean. The strength of exchange and the tangible danger of further extensive exports of gold hung over the market during the whole week and exercised a restrictive influence. The crop news from the west was favor-

able though I shaded by reports of damage and danger in various quariers, coursell with intimations that the railroads were indulging more or less in rate demoralization. The failure of congress to adjourn might also be ranked among the unsettling influences, although the measures which excited alarm in speculative circles seem to have been laid at rest. Notwithstanding these influences it was noticeable that the undertone of speculation was firm and the absence of bearish manipulation or attempts to work down prices had considerable to do with the steadiness of the reneral list, which was accompanied by a more or less artificial movement of the various specialities.

London Financial Review. | Copprighted 1832 by James Gordon Benney, |
| London, Aug. A.—[New York Herald Cable—
| Special to The Beet]—Business in the stock exchange today has been of a holiday character, which rather disheartened the speculators who have been expecting a speedler return of activity. Consols have given way 1-16 to \(^1\) per cent. Indian rupee paper is \(^1\) per ceat easier. Foreign government securities closed dull for International discription. Notwithstanding the firmness in continental houses, home railways closed somewhat irregular. There has not been sufficent business doing to affect prices much. London, Northwestern, Lancashire and Yorkshire showing a decline of \(^1\) per cent. Caledoran \(^1\) per cent, while Southwestern deferred, Great Western, Great Eastern, Metropolitan and District mark a rise of \(^1\) to \(^1\) per cent. American railways, after having been dull all day, become firm within the last hour, good buying orders having come from New York, which have checked the would-be sellers on this side. The declined noticed in the course of the day has been mostly recovered, while Erie marks an advance, and several others are up \(^1\) per cent, final quotations being the best. Money has been very little wanted. Short loans have been freely offered at \(^1\) per cent. In the discount market few bills have been off-red, Those of two and three mooths were quoted at \(^3\) per cent. Copyrighted 1893 by James Gordon Benney, 1

LIVE STOCK MARKETS.

Cattle Show Much Improvement-Hogs Active and Higher.

OMARA, Aug. 5.—The receipts of cattle were about 1,000 head all told and consisted largely of western grassers; only a very few cornfed cattle at the yards. The tone of the trade was better and prices generally 5c to 10c higher on suitable grades; about everything offered seiling to the local tr de.

Cow stuff was in pretty good demand again today and prices strengthened 5c to 10c on the better class of stock. The supply w s made up largely of western grass cows of pretty fair condition and a few odds and ends of native grassers. Trad ng was reasonably brisk and at the close of business all the cows and heliers were out of first hands. Active and Higher. and at the close of business all the cows and helfers were out of first hands.

There were practically no stock cattle received and outside of what few are in regular dealers' hands there was nothing on sale. There are few country orders at present, consequently the market is very dull. Representative sales:

Chicago Live Stock Market.

Chicago Lile, Aug. 5.—[Special Telegram to The Bre].—The cattle market made a further advance today. It was from lie to lie higher than yesterialy and as active as the limited supply would permit. Quotations range from \$1.25 to \$1.30 for skinny cows to from \$3.30 to \$5.50 for extra steers. Sales were principally at from \$1.75 to \$1.50 for cows, helfers and bulls, \$3.85 to \$4.75 for steers, \$1.50 to \$1.50 for Texan and at from \$2.50 to \$4.30 for westerns.

There was a brisk movement in hors and prices continued to point upward. They were so higher than yesterday, the 15.00 on sale being gobbied up at from \$5.50 to \$4.30 for common to extra qualities. There was more change in the common than in the choleer grades, buyers hesitating to pay over \$6.00 for anything. However, there were a number of trades at from \$1.00 to \$6.074 and one or two at \$1.10. Some poor in xed and grassers were closed out at from \$3.90 to \$5.50 and culls were quoted at from \$3.90 to \$5.00. Only a small part of the supply went below \$5.70, the popular prices being from \$5.75 to \$6.00.

Good to choice grades of sheep have continued scarce. Those descriptions were taken at strong prices, or on a basis of from \$4.50 to \$6.00. No first class goods were offered. While there was an inadequate supply of fat sheep, there was constantly a surplus of poor and at from \$2.90 to \$4.50 for culls and rams. The recent advance in ismus was well supported until Tuesday, since when there has been a decline of from \$2.50 to \$4.50 for culls and rams. The recent advance in ismus was well supported until Tuesday, since when there has been a decline of from \$2.50 to \$6.00 for culls and rams. The recent advance in ismus was well supported until Tuesday, since when there has been a decline of from \$2.50 to \$6.00 for culls.
