ORIGINATED AMONG THE PRISONERS

Some Think the Sick Men Are Simply Suffering from the Application of a Quantity of Croton Oil-Capital City Gossip.

Lincoln, Neb., Aug. 10 .- | Special to THE Brg. j-Opinion seems to be divided among the physicians of the city of Lincoln as to Whether the disease which has broken out at the county jail is really smallpox, and the medical gentlemen are engaged in the usual discussion of the matter. In the meantime the two men who are down with the disease are reported to be in no danger of immediate death, and both are suid to be doing nicely in their improvised quarters just outside the city limits.

One physician claims that the sick men are simply suffering from the application of a quantity of croton oil, backing up the claim by the assertion that the effect of such an application is similar in appearance to smallpox. Other physicians who have called and examined the cases are positive that they are certainly smallpox in an acute form. The people of Lincoln are showing no signs of uneasiness over the presence of the plague and no doubts are expressed that the authorities will be able to prevent the spread of the disease beyond the confines of

The friends of W. H. Irvine, who is incar-cerated in the jail awaiting his trial for the murder of C. E. Montgomery, are uneasy and would like to secure his removal to the state penitentiary, but the county officials will permit no one to be taken from the jall and so Mr. Irvine will have to take his chances with the other prisoners. He has been confined in an upper cell in the jall and has at all times been isolated from the common prisoners who have been exposed to the disease, and there is no likelihood that he Will be overtaken by the scourge.

Fire in a Lodge Room.

The fire department was again called to the Young block at 1517 O street at 6:10 o'clock this morning. Residents of the block discovered flames bursting from the windows of the fourth story and at once gave the marm. When the fire department arrived the flames had gained considerable headway and it was only by the most atrenuous ef-forts that the block was saved from destruc-tion. Had it burned it is possible that the all the adjoining buildings would have gone, too. As it was the roof of the building was plmost entirely destroyed and a large number of plate glass wincows broken by the heat. The fire originated in the banquet room of the Improved Order of Red Men and It is believed that it was started by a lighted stump of a cigar, as the hall was occupied by the Red Men until a late hour last night. A similar fire occurred in the same lodge room a week or so ago. The damage will amoun between \$600 and \$800.

Annual Police Picuic.

A force of special policemen are patroling the streets of Lincoln today while the regular force is enjoying its annual outing at Lincoln park. This afternoon the regular force in full dress uniform paraded the prin-cipal streets of the city headed by a military band. An exhibition drill was given for the benefit of a large concourse of people and the men gave evidence of unusual proficiency. Street cars were taken for the park, where large crowd of people had preceded them. Addresses were delivered by Captain Wuodward, W. L. Cunniff and J. H. Hardy and then an interesting pro-gram of athletic sports was presented. Still Plenty of Room.

The report having gained currency that The report having gained currency that there was no more room for the reception of students at the state university, Chancellor Canfield has issued the following circular letter to the public in regard to the matter: "I am informed by a letter from the northern part of the state that the report is being circulated that no more students can be accommodated at the university this year. This has doubtless originated in the fact that as far as possible we are refusing to accept students from the Lincoln schools in order that we may be sure to have room for these who come to us from parts of the state in which it is impossible to secure adequate preparation. Though there seems to be every indication—that the university will be crowded next fall, we shall be able to take care of all who come to us, and take care of them well. I would be glad to have the press of the state give as wide circula tion as possible to this statement in the in terests of those who otherwise might feel themselves shut out from attendance at the university this year."

Says Her Husband is Cruel.

Another sensational divorce suit has been filed with the district clerk of Lancaster county, the petitioner being Mrs. Amanda I. Epps, wife of Joseph Epps, proprietor of Lincoln saloon. Mrs. Epps alleges that she was married to the defendant in 1876 at Des Moines and that ever since her marringe her buspand has treated her with ex treme crucity and neglect. Her petition re-cites that her hasband has besten her with out provocation; that he has used profane and obscene language to her and repeatedly called her vile names; that in 1890 he left her and remained away for two years, and serted her, leaving her and her children in a destitute condition; that he is a man of vicious and vulgar habits and totally until to be entrusted with the care of children; that since their marriage be has taken from her separate estate the sum of \$3,000. She prays for complete separation, allmony and the custody of their children.

On Friday the voters of Lincoln will be called upon to accept or reject a proposition to issue bonds for the extension of the water works system, and for the refunding of the outstanding flatting indebtedness of the city of Lincoln. Three separate and distinct propositions are to be submitted, the water bond proposition providing for the issue of bonds to the amount of \$47,000, for the purpose of creeting a standpipe and the extension of water mains. The second proposition provides for the issue of \$50,000 in bonds for the paying of street intersections. The the paving of street intersections. Omaha and have gore into camp in the city park, where they have pitched three tents for their accommodation. After getting lo-cated last evening they proceeded to the resi-dence of Hon. L. D. Greenwood is alive with veterans from all over the country, and the streets and business houses are decorated with the national colors

The meeting is being held a half mile west of town in a grove which, for natural beauty and density of snade, might indeed, be called God's temple. Under the able management of J. B. Ferguson, president, and P. S. Galley, secretary, the occasion is proving to be very successful. A long line of tents marks the southern limit of the grounds, back of which flows Salt creek, and in the center a platform for speakers has been erected, with seats in front for the accommo-cation of hundreds. The camp is well supplied with the purest well water and all camp supplies necessary are provided as free as the water.

Major Jackson's marshal band furnished the music for opening day and tomorrow and Friday the Ashland bands will be heard. Ex-Governor Sheud of Ashland delivered the opening address yesterday, followed in the evening by a camphre lovefeast, at which local orators addressed the crowd. Today has been devoted to the Relief corps department, the principal event being a most eloquent and instructive address by Miss Gadd of Lincoln. The ladies were out in arge numbers and took special interest in

the program. Tomorrow will be the Grand Army of the Republic day and the leading speaker will be Rev. Mr. Cawkins of Ashland. Friday, closing day, will be devoted to the old set-tlers' reunion. Valley County Crops. NORTH LOUP, Neb., Aug. 10 .- Special to THE BEE |-Last year the principal crops in this county were corn, wheat and oats, corn taking the lead. They are a little more diversified this year and a larger acreage. The prospects of corn are not very flattering. The greater part of the oat and wheat crop has been harvested and is very good. Oats were rather short. Flax, millet and wild hay are very poor. Several pieces of flax will not pay for harvesting and the crop is losing favor with the majority of farmers. Winter wheat and rye are gaining in favor and good yields are reported. A large num-ber of farmers held their last year's corn crop and sold it upon the advance in prices. All seem confident of good markets this fail

REUNION AT GRAND ISLAND

Nebraska Veterans Preparing for Their Annual State Assembly.

ALL FORMER EFFORTS WILL BE EXCELLED

Features of the Week-Beautiful Location of the Grounds-District and County Encampments to Be Held-News for the Veterans.

Preparations for the fourteenth annual re union of the Grand Army of the Republic, department of Nebraska, to be held at Grand Island, August 29 to September 3, inclusive, are going rapidly forward with a system and an energy born of experience and an enthusiasm commensurate with the ever increasing interest in the grandest organization known to history.

It is now thirty-one years since the loyal heart of the north responded to a call to arms for the suppression of a repellion which threatened the life of the nation. A mere remnant of the grandest and bravest army in the history of the world, on whose banner is indetibly inscribed "Victory and Loyalty," and whose ranks are year by year growing thinner and more decimated by reason of death, will soon meet in national encampment at Washington, D. C., and portious of the organization will hold state and district reunions in every northern state from now until winter shots out camp life. There are many reasons for the unmistakably increasing sentiment of reverence and love for the veteran soldier civilian, whose sword has been transformed into a plowshare and whose warlike mien at the close of the rebellion was exchanged at a moment's notice for the amicaule smile of peace and good will toward his late brother adversary. The saddest thought of all is that this noble organization, in accordance with pature's immutable laws, must ever decrease in numbers until final extinction, perpetuated only by posterity and not by recruits. Per-haps this .s the principle reason why each succeeding annual reunion seems more sacred than its predecessor, not only to the voterans themselves, but to an loyal men and women of both north and south.

Grand Island Will Spare No Pains. It is under such circumstances that the re-union committee at Grand Island are prepar-ing for the fourteenth annual reunion of the Department of Nebraska and also that preparations for the National encampment at Grand Island has won a proud reputation as a reunion city and with her experience as a guide will surpass all former efforts for the entertainment of Nebraska soldiers and their

Camp Sheridan, for that is the name of the camp this year, will be located on the same beautiful spot occapied by Camp Sherman last year, and will be a model of neatness and convenience, comfort and display, with such perfect system as to arrangement, both of tents and rosters, as to enable any veteran to find his comrades without difficulty. It is scarcely necessary to state in the light of past experience that the camp equipage will be perfect. Wood, water and straw will be furnished in abundance and the usual details of camp life will be looked after by careful committees. Applications for quar-ters should be made to Harry Harrison, quartermaster, Grand Island.

It is the intention of the committee, acting upon the request of the department encampupon the request of the department encamp-ment, to make the coming meeting more distinctively a veteran's reunion than ever before, affording more ample opportunity for renewing old acquaintances and talking over old times, and the program has been arranged with that end in view. Many entirely new features have seen added, one of the most thrillingly interesting being that of the introduction of Prof. Headon and that of the introduction of Prof. Headon and his aeronautic combination, with whom con-tract has been made. The professor will ascend for a mile or more, and then drop from from his aerial ship to the ground. Another feature of a spectacular nature will be the marching and drill of a flambeau club with fireworks, organized specially for the Grand Island reunion.

Half-Fare Rates

The above is only a bint at the program which is being evolved by the practical mind and band of Seth P. Mobley, president of the reunion committee, and his secretary, G. H. Caldwell. Half fare rates have been cured on all railroads from all points in Nebraska and uniformed bands will be trans-

toric ground traversed by the Baltimore & Ohio.

When to the natural beauty of the land-

scape is added the historic associations that lovest almost every mile of the road from the Ohio river to the national capital the Baltimore & Ohio becomes a route of peculiar attractiveness to the veterans. Much of the region traversed by the Baltimore & Ohio was, during the war, fighting and debatable ground over which the contending hosts narched and fought and on which thousands of the surviving veterans bivouscked and did

sentry duty. In the meantime numerous county, state and district reunions will be held in various parts of the country. Nebraska is doing her share in that line, which will not be wondered at when it is stated that Nebraska has 272 posts with an aggregate membership of 8,400, with applications from Butte, Boyd county, and from Hull, Banner county, for charters. The financial condition of the de partment shows the posts to be in better con-dition than ever before. In fact, there will dition than ever before. In fact, there will not be a delinquent post by the time the date for the reunion rolls around. A district reunion is now in progress at Greenwood, with a large attendance and much enthusiasm. Noted speakers are there assisting in carrying out the program, and the old poys are enjoying camp life in eeach other's society.
