DUN ON OMAHA LOCAL TRADE

No Limit to Jobbing Business Except the Houses' Shipping Capacity.

COMMISSIONMEN VERY HARD PUSHED

Retail Business Fairly Active Among the Larger Establishments-Real Estate Aftected Somewhat by Projected Enterprises-Money Still Easy.

W. H. Roberson, manager of the mercantile agency of R. G. Dun & Co., in his usual weekly review of trade says:

"The phenominal business of a majority of the wholesaie houses which has marked the past two months continues. Several of the principal dealers state that their trade is limited only by their facilities for meeting orders. Collections are not quite so good in some lines as this time last month, but this is probably due to the fact that farmers are busy in the harvest fields and are not paying interior merchants so promptly. Most of the wholesale men, however, report collections very easy. The notable exceptions to the reports of good trade are in the leaf tobacco, liquor and lumber lines. Houses handling these goods report only a fair demand.

"The commission men fina it difficult to supply the demand for green fruits, especially apples. California is about only resource for other fruits. Apples can scarcely be found anywhere, The California product being inferior, is not offered here, and the excessive cost of transportation would practically shut them out of this market, even if the fruit were satisfac-

"Preparations are being made for an exceptionally active trade in oysters this fall. Usually the market does not open until September, but already fresh oysters are advertised in some of the restaurants.

"In banking circles about the only change noted is a reduction of the balances of country bankers. Money continues easy and several of the banks would cheerfully loan considerable sums on demand at very low rates. The feeling is general, however, that September will see more activity in the money market.

"Retail trade is rather better than last week in most lines, but local dealers are by no means jubilant over present conditions or future prospects. The larger stores by forc-ing sales have maintained a good average for the summer and attracted a good deal of cus-tom from the smaller dealers. As an in-stance of this it is stated that one new retail

house made cash sales reaching \$3,000 on a single day within the week. "Real estate matters are looking up. One of the largest firms, owning property in all sections of the city, says there has been

more demand than for two months past.
"In this connection it may be remarked that some interest has been created in real estate circles by the reported negotiations of St. Louis parties for some \$200,000 worth of trackage property upon which to erect public clevators, and by the movement now tak-ing definite shape for the organization of a local company to construct a canal from the Platte river to the western limits of the city, from which to generate electric power to supply manufacturers, motor companies, etc., in Omaha. Neither of these projects has been sufficiently developed, however, to be considered certain.

'in manufacturing circles the week has been of manufacturing circles the week has been developed except the preliminary steps looking to the utilimate csablishment here of two tobacco factories. The Manufacturers and Confidence of the c sumers association is widening its influence somewhat by adding to its membership, but

is otherwise resting until later in the fall.
"The week has been quite active in South
Omaha, receipts being better than for the week preceding. It is noted that the largest single consignment of packing house products ever sent out from South Omaha was forwarded by the Cudahy Packing company one day the past week to Great Britain direct. Hogs have dropped fully 30 cent the present week, and prices on cattle have not been altogether satisfactory to sellers. The improvements at Swift's and Hammonds are rapidly progressing and preparations for a heavy fall and winter trade are being made by both stock yards and packing house peo

CHURCH NOTICES.

Paske, pastor. Very True.

The demand for Champerlain's Colle, Cholera and Diarrheea Remedy is steadily growing, from the fact that all who give it a trial are pleased with the results and recommend it to their neighbors. We feel sure that t remedy cannot be recommended too highly Wagley & Smead, druggists, Newton, Ia.

LOUIS LOST HIS PANTS.

this Trouble Arose Over a Dog and Ender in Police Court.

Plug Henderson, who resides at 210 North Tenth street has a dog which brought him into police court vesterday morning. The com plainant was Louis Blot of Gallie origion, who occupies rooms across the hall in the same domicile. Louis took the stand and ex plained the difficulty like this:

"Bambye I came along by ma house an dat dog he have lel' podpies you know, but l not say anytings to heem, and he say noting to me too. Vale he bite ma laig on ma new pants. Ba gore I pay \$8 by dat pants and de blood he run all down. I tell de man he do de best by me I do de best by heem. I not Dis de first time I ben on de make trobles.

ourt in ma life." "Bymbye I get new pants and dat dog he bite ma new new two dollaire pants and de blood he all run down. I tole de ladee dat she pay me five dollaire I mez heem alright. but sacre bleu! she pay me notings. Den I un on de court."

The judge sentenced the dog to be shot, and Lours' jaw dropped.
"Vaie, by gare, I lak my eight dollaire pants," he exploded, but it was no go, and he went out scratching his head.

FIRED AT THE BURGLARS.

Samuel Burus Does a Little Pistol Work with Prowlers as Targets. Some hungry burglars made a raid on esidence on Eighteenth street between Douglas and Dodge Friday night and laid in a stock of provisions sufficient for an extensive oienie.

A family named Noyes had just moved into the house and everything was in disorder. Samuel Burns, who lives in the bouse aujoining, saw a lantern moving about the basement and heard the burgiars whispering about breaking the ock. He fired four or five shots from his revolver and they decamped.

The occupants were badly scared, but lost nothing beyond a supply of meats, cakes, canned goods and the like.

An Omaha Man Robbed, A. J. Washburne of Omaha has been in the city for a few days on business, says the Kansas City Star. Wednesday night he was enticed into a house while in an intoxicated condition and when he woke up Thursday night from his debauch he found

that he had been robbed of over \$100. He had been stopping at the Union Depot notel, and his condition was such that whe he started to find it he landed in anothe. hotel on Union avenue, and telling the clerk of his bad luck, put up his watch for a night's

Yesterday he went out to get some money notel and asked for his watch, as he insisted that he had stopped at the house Wednesday It required considerable persuasion on the part of the clerk to convince him otherwise. He searched around and soon located the lodging house and redeemed his

Result of the Day's Trading Was Higher Prices All Around.

WHEAT EXHIBITED MUCH STRENGTH

Corn Was Very Firm at the Opening, September Touching Fifty-three Cents in the First Rash to Fill Early Orders.

CHICAGO, Ill., Aug. i3.-The weakness which had been a conspicuous feature of the markets recently had disappeared at the opening tolay and as a result of the day's trading everything dealt in on the Board of Trade is hither than at the close yesterday. This fact is due in part to a natural reaction from the secent decilnes and in part to the news of the day. Trading, however, was generally light Wheat exhibited a conspicuous undertone o strongth, considering the volume of trading, which was small. This undertone was supported by the improvement manifested in the cables. Herál exports from both coasts, the builish purport of Beerbohm's estimate of the world's wheat crop and the receipts here, which were under the estimates, and reported heavy coid rains in certain sections of the northwest. The opening sales exhibited an improvement of 4c over yesterday's closing prices and the fluctuations during the whole of the session were confined to a 'se range, the market cosing at a gain of '5c. There were some sales at the opening at 774c for September, but at the same time there were buyers at 78c, and a good deal chanzed hans at the latter and very litt eat the former price at the time referred to. The price head for a matter of haif an hour at 78c or better and then too a dip to 774c, after which it remained for a long time at 775c, with very little offered for sale and just as little wanted, closing firm at 78c.

The corn market wis very firm at the opening, September touching 35c in the first rush to fill the early orders. There were some sales at the same time at 574c, but from 375c to 58c as more generally current at the opening. The latter price was at the closing quotation, but it was being offered at that. There was an interval of considerable weakness developed about a half hour from the start, during which there was a drop to 52'sc. The recovery was due to some uneasiness recarding the approach of cold freezing weather in some of the northern countles, where corn is grown. The latter, more than the possibility of frost in the corn country in August, was the probable explanation of the change in sentlanent, which caused the market to wind up at about its highest point. The stock of corn in Chicago is said to be chiefly owned by J. Bryant, and he is no bear on the article. He looks for 55c for the couple of milion bushes or so of September corn which he is said to have laid by.

Oats fluctuated within narrow limits and closed with a gain of '4°.

Provisions opened active and strong, with an advance of 5c in pork, 2'5c to 125 ported by the improvement manifested in the cables, liberal exports from both coasts, the bullish purport of Beerbohm's es-

Tunpervine—Firm, fair demand; 2814@29c.

Wool Market. London, Aug. 13.—The business in wool during the past week has been restricted. The condition of industry discourages parchasers. The imports during the week were: From New Zealand, 7,221 bases; New South Wates, 2,157 bases; West Australia, 3,539 bales; Queensland, 3,326 bales; Chira, 1,223 bales; Gemens, 608 bales; Russia, 610 bales; from various other places. 120 bales.

Coffee Market.

New York. Aug. 13.—Options opened steady and unchanged to 5 points down, and closed firm at 10 to 15 points up. Sales, 14,550 bars, including August, \$13.05; September, \$12.05@13.00; November, \$13.00; December, \$12.03@13.05; March, \$13.05; May, \$13.05@13.10; spot Rio, quiet and firm, No. 7, \$14.00.

Cotton Market.

New Orlean?, La., Aug. 13.—Duil; midding. 615-16c; low middling. 67-16c; good ordinary, 545-14c; net and gross receipts, 51 bales; exports to Great Britain. 810 bales; to France. 48 bales; to the continent. 103 bales; constwise, 477 bales; sales, 103 bales; stock, 68,135 bales.

Liverpool Markets.

Liverpool, Aug. 13.—Whear—Firm; de-mand poor; holders offer moderately. Conx—Quiet; demand poor; new mixed western 5s 25d per cental. Ponx—70s per bbl. for prime mess western. Land—38s 9d per cwt. for prime western.

Chicago, Ill., Aug. 48.—Counselman & Day to Cockrell Bros. Commission company: Wheat opened firmer in response to English cables and lighter receipts than estimated, but eased off after some early outside buying and covering by shorts on better weather and slightly decrea ed receipts. The late feeling was firmer on higher continental cables and belief that Pardridge's short line, estimated now at 6,003,000 to 8,000,000, has grown to unsafe proportions, in case of damage to spring wheat crop. We advise purchases on all weak spots. Cornopened steady, eased off on professional selling, but rallied at the close on scattered buying mostly by shorts. Shippers are for the present arrayed a alins: the market and may succeed in forcing prices somewhat lower, but we do not believe in short side of market. Oats were firm and from what we can gather from the crop outlook we do not expect very low prices until the new crop is ready to supply the consumptive demand. May oats seen nearly high enough already. Provisions opened en a burge engineered by Cusahy on ribs, but after short scalpers covered, the market be ame dill and drooping. We consider January per a fully \$1.00 too high, ribs higher than they can be maintained and lard far from cheap although relatively the lowest product of hozs.

Chicago, Ill., Angast il.—Kennett, Hopkins & Co. to S. A. McWhorter: Wheat—Those who had expected that the sugging by Partridge yesterday would be followed by a break to-Traders' Talk. had expected that the sauging by Partridge yesterday would be followed by a break today discovered the market is not under con trol of any man or cilque. Wheat may g somewhat lower, but it is by far the cheapes trol of any man or cidue. Wheat may go somewhat lower, but it is by far the cheapest speculative product traded in on change. a Corn and onts—Prime crop report is decidedly builish on corn and onts, and the market was temporarily influenced by it. The friends of corn say it has had reaction, enough and will now do to buy again. There is another class of speculators that think prices are still higher than conditions warrant. For two months past the buils have had the bast of it and run the market to suit themselves. Whether changing conditions may now ubset their calculations is to be determined by a sharp conflict between the buil and bear factions. Outs will follow corn to a certain extent. Provisions—The action of the market today shows that the buil leaders are satisfied with the reaction and are axian disposed to accumulate prices. Stocks are comparatively light and the market is evidently still under their control, although hog receipts are increasing somewhat.

Chicago, Ill., Aug. 14.—F. G. Lozan & Co. to Duncan, Hollinger & Co.: The wheat market has been dull from the onening till the close. While the opening price was 78½ 18½c, it did sell at 77½c. The closing price is receipts of new winter is good, the elevator proprietors being the buyers. The situation is unchan ed, and until the crop of spring is secured we do not look for much change in values. Foreign advices are very duil. The business in corn was very light. September opened at 52%c, so dus low as 5.%c and closed at 53c. Crop reports do not improve. On any good break it will do to buy specially for next month. In oats the business was light.

opened at 52%c, so d as low as 5.%c and closed at 53c. Crop reports do not improve. On any good break it will do to buy especially for next month. In oats the business was light, they closed steady, about 3c for September. Hoz products did a little better, we expected it would. September, pork closed at \$12.25; ribs, \$7.95. The feeting is weak. The receipts for next week are es imated at 9,000. This is heavier than looked for.

New York Money Market. YORK, Aug. 13.-MONEY ON CALL-Easy,

with all loans at 2 per cent. closing, offered at 2 per cent. Paims Memcantille Paper.—354@55 per cent. STEALING EXCHANGE-Quiet and steady at \$4.864 for sixty-day birls and \$4.855 for de-mand. mand.

STOCKS AND BONDS.

Bears Raided Northern Pacific and De pressed That Stock. New York, Aug. 13.—The stock marke was of the usual holiday character, little disposition to trade being apparent, and the little that was transacted being of the purely

sittle that was transacted being of the purely professional variety. No commission business of importance was done, and with all the large operators, even of local fame, away from the street the operations were necessarily of the hind to mouth order and the fluctuations of a corresponding width. The traders attacked the grangers in the absence of any demand while there was considerable liquidation in Northern Pacific preferred though the pressure was not in all long stocks. Northwestern was the one exception to the weakness in the general list, but its advance was only a fraction. With the withdrawal of the early pressure to sell, the usual intense duliness overspread the market,

which closed only a shade better than the lowest figures.

Bonds were equally lifeless, not sharing in the weakness, although Reading firsts retired 1 per cent to 77%. The sales of bonds reached only \$4:2.001 and stocks 60,87) listed and 4,540 unlisted.

Government bonds dull, stealy. State benils dull, steady.

Government bonds dull, steady. State bonds dull, steady.

The Post says: The feature today was the determined raid made by the bears on Northern Pacific, preferred. They succeeded in depressing the stock in a limited market. The shipment of \$1.00,000 in gold to Europe had no appreciable effect on the market, but the bears used the argument that still further shipments may be anticipated as a factor in their efforts to lower prices.

The following are the closing quotations for the leading stocks on the New York Stock exchange today:

LIVE STOCK MARKETS. me of the Influences That Affect the Cat

tle Trade Set Forth. OMAHA. Aug. 13 - Receipts the past week have been considerable of an improvement over last week and the same week last ve.r. They foot up 10.3-6 cattle, 29.569 hogs and 2.239 sheep, against 7.750 cattle, 19.388 hogs and 2.243 sheep the week previous, and 10.237 cattle, 15.734 hogs and 4.385 sheep the second week of August last year.

Au just has year, and i.ses sneep the second week of Au just last year.

Cattle values the past week have fluctuated but little and windin a comparatively narrow range. There has been no very marked improvement in the situation east and in consequence the market has had to depend almost entirely on local buying for support. This local buying has been good as far as it went, but it di not go far enough. Today fateattle either natives or westerns, never went, but it dl not go far enough. Today fateattle, either natives or westerns, never had to go berging for a purchaser, while on the other hand it has been hard work all week to move the heavy, thick fat cattle at anything like a satisfactory price. The greater portion of the offerings has been rather common, and this fact has had a tendency to depress values. In general, however, changes have been infrequent and inconsequent as far as beef steers were concerned.

A surprisingly small percentage of the re-A surprisingly small percentage of the re-celpts has been cows and mixed stock and in consequence medium and good stuff has shown some improvement. Canners are still

consequence medium and good stuff has shown some improvement. Canners are still selling at very low prices.

There is nothing encouraging in the feeder situation. With old corn selling at a very good figure and fat cattle selling around se, the country steadfastly refuses to take advantage of the present low prices and the result this week has been a still further decline of from lot to 15c on all grades.

The receipts were about up to the average for a Saturday and the general character of the offerings about as they have been for sometime past. About haif the supply consisted of westerns, heluding haif a dozen loads of Kansas City Texans consigned direct to Cudahy. So far this season Cudahy has bought over 5,000 head of southern cattle on the Kansas City market. With equitable railroad rates these cattle and thousands of others would come to this market direct, resulting in a big saving to both producer and sinughterer. There were some very good confedentic among the offerings, and the demand for them was quite active. Trading was tolerably brisk and prices ruled somewhat stronger than Friday. Very good to choice 1.00 to 1,300-ib beeves went at from #4.20 to 14.70. Fair stuff soid around \$3.90 and \$4.00. Scarcely any of the westerns were good enough for beef, and prices, while quotably firm, were rather low.

enough for beef, and prices, while quotably firm, were rather low.

There was a fair amount of trading in butchers' and canners' stock, and prices were strong on all decept offerings. Poor to prime cows and helfers sold at from \$1.00 to \$2.00; buils and stags steady at from \$1.00 to \$2.00; calves guil on the basis of \$2.50 to \$4.50 for common to choice yeals.

Nothing new was developed in the stocker and feeder line. Trade was dull and prices quotably 10c to 15c lower than a week ago. Sales were at from \$2.20 to \$2.70. Representative sales:

builish feeling consequent upon the light supplies of the week previous. Hogs sold for \$1,00 Tuesday, the highest point reached in six years, but from that time on to the close of the week the decline was steady and rapid owing to the mere used receipts and decreased shipping demand. Prices dropped 30c in three days and at the close of the week the feeling was very weak. Dealers are afraid of a lig increase in receipts following this break in prices. This will make matters worse, in case supplies fall off sharply a partial recovery will surely follow.

There were 30 cars on sale, about the same number as on the preceding Satarday. The shipping demand showed no improvement, eastern reports were bearish and with an ample supply in sight the prospect from a seller's standpoint was not very cheerful. Prices, however, showed little change worthy of note. Fair to good medium and heavy hogs sold at 8.45 to \$5.50 and common, light and mixed stuff at \$5.35 to \$5.45. The top was not so high as Friday, nor was the bottom sale so low. About everything had changed hands by noon, the bulk at \$3.40 to \$3.57, the same as on Friday. The general average of prices paid was \$4.55, against \$5.45 Friday and \$5.75% last Saturday. Representative sales.

SIL	eve-	Four	doubl	e decks of very	Cale	ernes

SHEEP—Four double decks of very fair grass westerns were received. Good muttons are wanted by all local houses, and prices are quotably strong. Chicago Live Stock Market. Chicago Live Stock Market.
Chicago, Ill., Aug. 13.—[Special Telegram to The Ber.]—There were fresh receipts of about 1.50) cattle and that constituted the day's supply, little or nothing having been left over from Friday. There was a fair inquiry and Friday's advance was freely paid, sales making on a basis of from \$1.25 to \$1.25 for poor to extra cows, helfers and brills: \$1.65 to \$3.57 for stockers and feeders; \$1.15 to \$1.45 for dressed beef and shipping steers; \$1.4 to \$3.85 for Texas cattle, and from \$1.50 to \$1.25 for westerns.

erns.
Sales of nogs could not be made to any bet-Saies of hogs could not be made to any bet-ter advantage than at the lowest time on Fri-day. In fact many salesmen quoted the mar-ket lower for all goods. The highest reached was \$5.85, that in one or two instances only. Most of the trailing was done at prices below \$5.77 or at from \$4.40 to \$5.65. Closing quota-tions were from \$5.00 to \$5.75 for poor to really enoice grades.

tions were from \$5.00 to \$5.75 for poor to really enoise grades.

The sheep market was quiet and firm at from \$1.50 to \$5.75. Lambs were quoted at from \$1.00 to \$5.51 according to quality. Sheep are rather stronger, while lambs are materially lower than early in the week.

Receipts: Cattle, 1.500; hogs, 8,000; sheep, 1,000.

1,000.

Three Men Charged with Swindling Their Employes Returned to Omaha. Officer At Keysor came in from Kearney last evening with T. T. Armstrong, accused of obtaining goods under false pretenses from the M. E. Smith Dry Goods company. He was arrested some time ago on the same charge and is now under \$1,100 bonds to appear before the district court.

It is reported that the joobers are going to make a test case of the affair. No one seems to know much about the mater except that Armstrong obtained goods from the Smith firm, representing his assets and liabilities at a certain figure. Among his assets he neglected to mention a debt of considerable amount which he owed to his

DIFFERENT SHADE OF GREEN. The Buffalo Bigamist Was Not Known in Omahu as Claimed.

A telegram from Buffalo, N. Y., announces

the arrest of a telegraph operator there named John Green, who is said to be a polygamist, having wives in Jamestown, N. Y., Otcawa, Canada, and Omaha, Neb. Oldtime telegraphers in Omaha say that they do not know the man, unless the item refers to one J. K. Green, who wiggled the keys in Omaba for a few weeks last November. There used to be a John Green here who was an operator, but he was a different

shade of green from that which the Buffalo polygamist represents.
"Johnnie Green," the oldtime telegrapher who held down a chair here for the We Union for nearly eight years, was a gentieman and had only one wife so far as any one ever discovered. His wife died about a year ago and was buried in Chicago.

TROUBLE WITH NEIGHBORS.

Mrs. Svestka Ended Her Life with a Dose of Mrs. Svestka, who lived at 1937 South Nineteenth street, died Friday nigh; from the effects of a dose of poison taken last Sunday

with suicidal intent. She was about 50 years old and the mother of a family of grown up children. The cause for the set is said to be despondency brought on by some trouble with neighbors, which culminated in a law suit. Hous-Early in the week there was a very

you have taken up a piece of

Public Land.

If you have made an invention on which you desire to secure a

Patent,

You should communicate with the

Bee Bureau of Claims

The object of this bureau is to give every person holding a legitimate claim against the government the advantage o a residence in Washington, whether he live in Texas or Alaska. It does more than that. Nine-tenths of the population of Washington would be helpless if asked how to go to work to secure their rights through the departments. THE BEE Bureau of Claims gives the advantage, not only of personal residence, but of thorough familiarity with all the machinery of the government. It offers

Absolute Security.

You do not know whether the average Washington claim agent will cheat you or not, although on general principles you would naturally suppose that he would. But you know that the San Francisco Examiner, the St. Paul Pio: neer press and the Omaha BEE cannos afford to cheat you. They guarantee this Bureau, and their reputation is staked upon the honesty and ability of

Expert Specialists

The bureau employes attorneys who

its management.

for each of its departments. Its Indian depredation cases are carefully worked up, with all the evidence required by law, and argued before the court of claims in such a manner as to bring out most favorably all the essen tial points.

Its land cases are handled in strict accordance with the rules of the General Land Office, so that no delays or complications ensue in the orderly settlement of the claims. Its patent cases are so managed as t

insure the utmost possible benefit to the nventor, by giving him the broadest protection his ideas will justify. Its pension cases are disposed of with

the least possible delay and expense to the veterans. Don't refrain from consulting the bureau because you are afraid of the cost. Its costs nothing to get information. Ask as many questions as you please, and they will be answered promptly

cheerfully and accurately, without
