Chairman Field of the Committee on Insurance Makes an Interesting Report-Teachers' Saturies-Bills Allowed and Other Matters Attended To.

The school board held its regular monthly meeting last evening, with Members Stacy, Field, Bridenstien, and Shubert, present. Stacy was appointed chairman in the absence of the president.

A communication from J. J. Watt asking the board to sell him some of the lumber taken out of thell ich school building was relerred to the committee on buildings and

Chairman Bridenstein of the committee on Chairman Bridenstein of the committee on buildings reported that he had gotten an estimate from John Gilbert on the probable cost of covering the pipes in the Twentieth avenue building, and that it would cost \$117. The matter was laid on the table.

A bid was opened from William Gilbert, offering to put suitable radiators in the new room of the Hall school third floor for \$171.

room of the Hill school, third floor, for \$170. Laid over. communication was read from Miss

Blood, the teacher of drawing, stating that she had received an offer from two other cities, at a salary of \$99 and \$100 respectively. but that she preferred to stay in Council Binds if she could get a salary of \$55. The matter was deferred until later in the even-

Chairman Field of the committee on insurance stated that his integrity in placing the insurance on the school buildings had been called in question in such a manner as to make some notoriety. He therefore feit it incumbent upon him to make a statement to the board showing the companies in which he had placed the insurance, with the amount given to each. He wanted each member of the board to look the list over, and if any company should be found that could come under the head of "wild cat" to report the same to him. He then went on to say that "young Mr. Stacy" who through ne fault of his own, had had the misfortune to be the son of a member of the board, had detected an error in the rating of the Twentieth avenue building that was costing the board a small amount, and had reported it to him, so that the board had been saved the amount. He was very sorry that the chairman of the finance committee, who had administered such a "roast ing" to him at a previous meeting, was not present in order that he might see how the

young man had been vindicated.

BETWEEN SEASONS.

But the Boston Store Has Many Surprises and Bargains for the People. It is between seasons, when in the ordinary course of business it is supposed that nothing can be offered to the trade that will be sufficiently attractive to draw people into dry goods stores. But the Boston Store, Council Buffs, has surprises and bargains for all. course the greatest bargains will be found in the lighter grades of summer goods, but there are many fine opportunities to obtain for little money mater ials that will be useful for several months The Boston Store has had the greatest trade this season that it has ever had, and from now on this will mean still narrower margins of profit. During this week the ladies will be given some of the prizes of the season You will benefit yourselves and will benefit the store people by helping to clear out the lighter fabrics so suitable for the hot weather yet to come, and make room for the largest stock of autumn and winter goods that have

ever reached this part of the state. West-Enders Are Kicking. The council was to have held a meeting last evening, but owing to the fact that the democratic members were all absent for various reasons there was no quorum. Alderman Jennings was in Denver, Alderman Graves had gone to Omaha to see the parade and Alderman Geise was nobody knew just where. The council accordingly adjourned

without meeting. If there had been a meeting it is highly probable that there would have been music n the air. As it was there was quite a humming noticeable, for the residents of Eighteenth street were on hand, loaned for Eighteenth street were on hand, loaned for bear, aldermen, John W. Returns the Money. Several days ago a lady giving her name as M. Agues Archer was in the city circulating a subscription list for money which was to be used in paying off a mortgage on the farm of one of her neighbors at Oakland. Her actions were rather strange, and Officer

she bore signs of insanity, and put her on board a train bound for Oas-land. Yestsruay morning he received a letter from the woman stating that she had been thinking the matter over and bad come to the conclusion that she might offend the man she was trying to assist, instead of putexert a good influence over him, which was her only motive in trying to raise the money. She had kept no record of the names of the persons who had antiscribed and so she coclosed a postoffice order for \$3.15, the amount she had raised, and asked Keinn to put it in the city treasury or where he thought it would do the most good. Instead of putting it into the city treasury the officer took it to the Christian home and presented it to the manager for the orphans,

May Have a Chemical Engine. A couple of weeks more will probably see Council Bluffs in possession of a "Champion" chemical fire engine, unless something unexpected happens. The plan of trading the lescue engine for a chemical engine has been suggested and talked of for a long time past, but no satisfactory bargain presented itself, so the scheme never advanced beyond the

talking period.

Now the city has a change to dispose of This is considered a good offer and it is likely to be accepted, as a number of the aidermen are surengly in favor of it. Most towns that are large enough to bave fires of any consequence are providing themselves with water works so that the changes of allies the works, so that the chances of selling the old engine are constantly becoming less. The advocates of the trade claim for the chemical engine that the streem it throws is so much smaller and at the same time so much more offective that it can be thrown into a dry goods store and extinguish a blaze without damaging the contents to any great extent. It will take about ten gays to have the chemcal engine delivered after the order is given.

Will Hold Him Longer.

N. Smith, who is alleged to be insane, was before the commissioners of lesanity yesterday for an examination, but the results of the examination were not altogether satisfactory. All day and all night Sunday be filled the county jail yard with his howls and cries, and a more positive case of insanity could hardly have been conceived of. Yesterday he had cooled down entirely, and was as rational as anyone. Dr. Thomas is of the opinion that the man is just recovering from a big spree, and that in a few days he may be all right. He will be kept in jail for a day or two longer in order that it may be f whether this is the true state of affairs.

Increased Cattle Receipts - An Splendid Showing Being Made. The receipts of cattle at the Union Stock have began to show a perceptible increase. The range cattle from the western prairies are rapidly ripening for market, and by September 1 the movement will be large and show a large gain over the receipts of last year. Manager Babcock, who recently paid a visit to the western ranges, is enthustastic over the encouraging outlook 'and anicipates many large runs during the coming fall. The receipts during the present year show an increase of 102,163 cattle over the same period of last year, while Kansas City's increase has not reached the mark. Before the year closes South Oma-ha's increase will exceed that of Kansas City at least 100,000 head. During the past five weeks that city has been receiving a very liberal supply of Pexas and territory cattle and South Onaha's receipts have been cut down because the western grass-fed cattle were not ripened for market. But the westerns are getting into splendid shape and

from now on large snipments may be ex pected. South Omaha's increase in the number of nogs received continues to swell each day. The number of hogs received since January 1 is 1,100,720 head, and shows an increase over the same period last year of 140,779 head, or nearly 83,000 head more than Kan-

BOLTING DEMOCRATS.

Governor Buchanan of Tennessee Will Not Support the State Ticket. NASHVILLE, Tenn., Aug. 15 .- John P. Bu chapan, governor of the state, has boited the nominee of the democratic party for governor and today in a tengthy address announced that he is an independent candidate for governer, and asks the votes of all citizens regardless of past party affilliations. He bases his candidacy upon the allegations that he has been called upon by a majority of the rank and tile of the party to ran; that he and his friends have been treated padly by the democratic conventions, county and state; that he represents true Jeffersonian democracy, and that the demo-cratic convention which refused to nominate

him renounced the true principles of democracy as enunciated in former platforms.

He announces his platform touching state and national matters as follows: Free coin-age of gold and silver at present ratios; an increase of the circulating medium by the general government sufficient to meet all the necessities of trade, business and commerce; abolition of national banks; a graduated in-come tax; free commerce; a tariff only when sufficient revenue cannot be raised from other sources; election of United States senators by the people; restrictions in dealing in futures on agricultural products; op-position to the force bill and federal interfernce with state elections; no alien ownership of lands.

Governor Buchanan's independent candiday had been expected, and but little surprise was expressed when the published an nouncement appeared. The people's party meet is state convention Thursday next to nominate a candidate for governor, and this fact has led to Governor Buchauan's announcement, for his independent candidacy will be endorsed by this convention. There are now four candidates for governor in this state.

National League of Republican Clubs. NEW YORK, Aug. 15 .- J. S. Clarkson, presiient of the National League of Republican clubs, has issued a notice of the postponement of the league convention.

The postponement of the convention, called for Buffalo, N. Y., September 1, until Thursday, September 15, is done with the concurrence and advice of Chairman Carter and the national committee, and is made be-cause the earlier data would prevent the attendance of a larger number of republican clubs in the western states, where the harvest of the various crops will not have been finished by September 1. By the middle of September the party will have perfected its organization in all parts of the country, and a a much larger number of campaign, marching and uniform clubs will be able to attend the national convention. The cooler weather of the latter date will also be more favorable and induce a larger attendance.
