THE OMAHA BEE. NEWS FROM COUNCIL BLUFFS | carefully dropped her 3-year-old bab COUNCIL BLUFFS.

The occupants of S. Farnsworth's resi

lence on South Eighth street were awaken ed

about midnight Thursday night by a noise of

falling glass down stairs. They at once sur-

mised that a burgiar was paying them a

visit, and a campaign of intimidation was

commenced against him. As there were no

men about the house, this campaign was

somewhat of a mild one, but it had the de-

sired effect and the burglar went. In the

morning an examination of the premises way

made, and it was found that the midnight

visitor had made a protty thorough search. He got in through the laundry door, which had been left unlocked, and after getting in-

to the basement removed his shoes so as not

to be heard, and hung his hat on the cellar stairs that it might not interfere with the

workings of the brain: That he left in quite a hurry was shown by the fact that when he

left he was bareheaded and in his stocking

feet. A large number of burned matches were found in different parts of the house.

He finally succeeded in finding the only oll lamp in the house, but it was empty. In picking it up he knocked off the chimney,

and it was the noise of the breaking glass that aroused the women. He then took the lamp down cellar and tried to fill it out of

empty or the house and all its occupants

would in all probability have been blown into kingdom come, along with the burglar

limself. About that time the noises began to proceed from the second story, and he left unceremoniously, without taking anything with him so far as could be learned.

The same burglar, or one like him, entered the residence of O. P. Wickham, an hour

and a half later, by cutting away the screen door at the rear. Mrs. Wickham happened

to be awage and heard hun wandering abou

in the dining room, Looking in the mirre she could see him occationally as he passed

the door, and saw that he was tall, dark complexioned, and were a black hat. She

whistered to her husband, who awoke and asked, with a suitable growl, what he wanted. The burgiar did not stop to ex-

plain, but made a hasty exit by the back door. When Mr. Wickham went to the dining room he found it a study in silver,

with the spools, knives, and other articles of silverware lying on the table, packed up and

How the Cashler Worked It. B. F. Freeman, cashier of the Little Sioux

Savings bank, is credited with having played an odd game on the institution for which he was working, according to the statements made in a petition filed in the district court yesterday. It alleges that on

the 7th of last February one G. R. Bridge-man owed the plaintiff \$2,025, which was secured by a mortgage on a lot of cattle, and be also owed the defendant \$1,115, which was not secured in any way. On the date above mentioned it states that Freeman took advantage of his position as cashier and con-solidated all his own claims against Bridge-

man with those of the bank, credited his own account with \$1,115, and took that smount out of the bank's funds, with intent to de

HIS HONOR ON THE CITY HALL ARCHITECT

He Discovers Numerous Faults, so He Alleges, in the Construction of the Building - Ordinances Introduced-A Lively, Interesting Meeting.

The members who attended last night's council meeting put considerable snap into their proceedings, transacting the business with promptness and dispatch. The first thing that they did was to knock the mayor and his vetoes but of the box. The mayor was on hand with his veto on the Henry Lehmann frescoing contract, the full text of which was published in yesterday's BEE. The veto was read and when the roll was called and Mr. Howell was the only man who held an opinion that agreed with the

mayor. Upon the question of the surplus funds the mayor handed in this communication, which was referred . "Under the arrangement as at present existing, the city is receiving from the banks interest at the rate of only 2 per cent per annum on the daily balances. I have reason to believe that there is a considerable amount of the city funds that could be made to realize a much larger rate of interest and thereby save several thousand dollars to the city, by investing the same in short-time bonds of the city. Section 102 of the charter provides that it shall be the duty of the mayor and council, by ordinance or concurrent resolution, whenever they deem proper so to do, to require that any money to the credit of any special fund, on accoun of which bonds may have been issued, be in vested in short time bonds of the city or other good and safe securi les. As suggested, believe that by carrying out the provisions of the charter a large sum of money, amount ing to thousands of dollars, could be saved to the city. I respectfully suggest that this matter be referred to the finance committee for its careful investigation and considera-

fully call your attention to the condition the elevator service in the new city hall. is important that the elevators, cages and pumps should be carefully examined and fully tested before acceptance of the same. It is doubtful if the pumps are of sufficient capacity to do the work that will be required. It is certain that the pipe in use with the elevators is of insufficient size and must be changed. The plans for the posts and cages are so defective as to render a portion of the elevators dangerous. Action should be taken without delay to provide new doors for the cages, made on an entirely different plan from those now in use to prevent accidents. Other radical changes must

be made in order to render a portion of the elevators safe. As now run, a child, or even a grown person, is liable to have a hand or even an arm taken off by reason of the arrangement of the elevators and doors and the unreasonable large spaces left in the elevator

"In view of the many blunders made by the present architect, I suggest the desira-bility of securing the services of a competent architect to prepare plans for such changes as may hereafter be necessary. Changes not only in the elevators, but in other places about the building are absolutely required. It is a notorious fact, of which every city official about the building is fully aware, that the present architect does not give any time or attention whatever to the construct ion and completion of the city hall. I have no desire to engage in any controversy with him, and do not propose so to do. I do proquired of me under the charter and to call the attention of your honorable body to these glaring defects, and so far as 1 can possibly do so, protect the interests of the taxpayers of Omaha."

This was referred to the committee on public property and buildings. The city engineer and the Board of Public Works reported upon the condition of the pavement on the Tenth street viaduct. They said that 40 per cent of the blocks had de-cayed, 5 per cent of them were rotten, 10 per cent had rotted to the depth of three inche or more, and that 25 per cent had commenced to decay. They d'd not think that a coating of coal tar would be of much benefit. The

They stated that the depot poince-man, Morris Fleming, drove them from the Union depot and allowed the Omaha Trans-fer company to monopolize the business. The comptroller was instructed to prepare a statement showing the expenditures of each department during the past nine months.

W. B. Musser and others petitioned for the suppression of a house of prostitution, located in the vicinity of the Dellone hotel. The bids for furnishing Venetian blinds for the windows of the city hall were opened and referred to the committee on public property and buildings to be tabulated and reported back. The Fire and Police commission asked the

council to buy a \$4,500 halo water tower. This was referred. The Board of Health and the Fire and Police commission joined in an application for furniture in their rooms. The committee on public property and buildings will report upon this

The comptroller was instructed to advertise for ten days for bids for steam coal. City Boller Inspector Soudenberg was given a leave of absence of ten days, to date from September 1, that he may attend an en-gineers' convention at Atlanta, Ga.

Close Call for William. [Copyrighted 1892 by James Gordon Bennett.] BEILLIN, Aug. 19.- New York Herald Cable-Special to THE BEE.]-A serio-comic corrollary to the standing quarrel between Bismarck and the emperor was supplied Tuesday night. The emperor and Herbert Bismarck had both been invited to the annual banquet of the First dragoon guards at the Belle-Alliance Strasse barracks and both had accepted. On learning that the former minister's son was to be among the guests his majesty was not a little embarrassed. At the last moment he resolved not to attend the feast. The sudden turn in the health of the empress, obliging his majesty to proceed to the Marmox palace, was invoked as an excuse for his absence, and the consequences which his majesty had been forewarned to expect from a chance meeting with his former minister were thus averted.

escape yester day morning from a motor train while driving at the corner of Fourth street and Broad-way. The motorman failed to ring his beil or give any other notice of his approach and the motor struck the horse just as he lan squarely on the track. The shafts of the buggy were broken and the horse was knocked down, but fortunately Mrs. Pryor escaped anything more than a fright. The borse was uninjured.

Governor Boies, Secretary of State Me Farland and Treasurer of State Berson have made an examination of the damage done by the fire at the School for the last week and have made arrangements for repairing the damage so far as it can be do with \$5,000 in ready cash on hand. The greater part of the repairs will have to wait until an appropriation can be made by the legislature, but in the meantime the building will be put in the best shape possible.

d The fruit growers of this vicinity are town in the mouth this year on account of he poor prospects for a good crop. M. E. Meyers says the fruit exhibit, which is usually a feature of the autumn, will probably not be given this year on account of the poor quality of the grape and apple crops which are the principal articles in the fruit growers' repertory. The grain crop, how ever, is sure to be good and the railway com panies are kept busy rustling for cars in which to carry the products of the farms.

The residents of Oakland avenue who live in the vicinity of the electric light tower have had a good deal of curiosity aroused by an immense flock of birds that gathers ever evening about an hour before sundown on the top of the tower, and stays until the lights are lighted. When the current is turned large numbers of them are instantly killed and the rest immediately fly away, to return the next afternoon. What the attraction is in that part of the city is a puzzler to the people who have been watching them, but they are willing to believe that the birds like the society there.

Ed Cones tried to steal a ride on the Burlington fast mail Thursday evening and was ordered off by the employes of the railway. He knocked one of the mea down and drew a revolver on the rest, but the weapon wa taken away from him and he was overpow-ered before he could do any damage. He was arrested and arraigned in police yesterday morning on the charge of being drunk and disturbing the peace. He was given thirty days in the county jail for the ffence. John Sullivan, the young man who stole an los cream freezer from Charles Goff, was given a like term in the county jail.

The Policeman's Lot.

Officer Claur of the police force is just now being made the target of those who want to make a lot of money with ease and dispatch. A week ago he was served with a notice of a suit for \$2,000 damages which had been commenced in the district court by one Engle, whom he had arrested far drunkenness Engle was discharged on condition that he would behave himself in the future, and he thought the fact warranted him in commence ing an action against the blue-coat. Yesterday Cinar was served with another

notice of the same kind, informing him o the commencement of an action by Albert Schott, a South Main street barness maker, to recover \$1,000 damages for false and malicious arrest. Schott was found lying on the sidewark in front of his store one night fast asloed, and the officer claimed he was drunk, while Schott declared he was only taking usies'a. Some of Schott's influential friends took the matter up and the result of their indignation is the commencement of the suit now pending.

Threw the Baby Overboard. Mrs. B. A. Bonham had an exciting ex-

perience Thursday night while driving with her two children on Lincoln avenue. James Loker, a young man living in the neighbor hood, was driving, when the horses auddenly took fright and commenced to run away. There was a deep ditch on either side of the street and as it was evidently a bad place to have a runaway Mrs. Honham began to make preparations to jump overboard. She leaned over the side of the buggy and

City Attorney Connell reported an ordin-

ance declaring against the further enlargement of conseteries within the city limits. He said that he thought that the city could not pass an ordinance affecting the boundar-les of Prospect Hill, as deeded by the late Byron Reed. President Baldwin of the Prospect Hill lemetery association wrote that it was not the intention to enlarge the cometery, but simply to use the property which was origin-ally intended to go into the cemetery. The An ordinance to enlarge was not necessary

as the cemetery could not be enlarged with out using the streets. Mr. Munro said that it was about time to settle the graveyard question. The ordi-nance prohibiting burials should be passed

and if it was not legal it could be tested in Mr. Prince said that It was not his desire

to injure any person, but he wanted to re-spect the living as well as the dead. A number of affidavits from parties living

near the cemetery were read, showing that 9,000 bodies rested in Prospect Hill, and that on account of such burials the water in the wells in that locality was impure and unfit for use.

All of the papers were referred to the committee on boulevards. Councilman Prince introduced his ordi-

nance for the construction of a steel and iron viaduct along Fifteenth from Leavenworth to Pierce street, adopting and approving the plans prepared by the city engineer and au-thorizing the appointment of three appraisers to assess any damages that may arise to abutting property by the construction of such vinduct.

Ordinances were introduced changing the grade of Douglas and intersecting streets from Twenty eighth street to the west line of Boggs & Hill's addition, amending the ordinance entitled "Street railways." This

ordinance provides that no street railway company shall run its cars at a greater rate of speed than ten miles per hour in that por-tion of the city bounded by Twelfth street on the east, Sixteenth street on the west Leavenworth street on the south and Cuming street on the north, or at a rate of spee

ing street on the morth, or at a rate of speed greater than fifteen miles per hour outside of the territory defined. It also provides that when one train 'is following another such train so following shall not ap-proach within fifty feet of the train that is abead. The dirt hau-ing ordinance was also introduced, read twice and laid over under the rules. This ordinance provides that any person desiring ordinance provides that any person desiring to haulearth in excess of ten cubic yaids shall obtain a permit from the Board of Public Works. When the earth is to be haules over any paved street or alley, the party ap plying for the permit shall denosit a certific check and an agreement that he will clear up and remove all dirt spilles. If the earth so splited is not removed by the person ap-plying for and receiving the permit, the Board of Public Works will cause the re-
