BOARD OF EDUCATION MEETS

Discussions as to the Proper Length of the Next School Year.

MR. GIBSON READS A LITTLE SPRING POEM

Contractor Smead's Offer to Do Work Causes Some Comparisons of Prices-Contractor Mayo's Time Extended for Finishing the Central School.

The introduction of resolutions formed the opening chapter in the business of the Board of Education last night, as the previous meeting had been discontinued at that point

in the regular proceedings. On resolution of Mr. Eigutter the board geeided to purchase 3,650 copies of De

Garmes' innguage books. On resolution of Mr. Smyth the board voted to instruct the superintendent to transfer the pupils who attend the St. Barnabas school to the Cass school and to transfer the seventh and eighth grade pupils of the Central school to the St. Barnabas school, providing also that those pupils who tive near to the Farnam school may go there Instead, if they so desire, until the new Cen-

tral school is completed.

Mr. W. N. Bancock, from the committee on rules, to which Mr. Martin's resolution looking to the shortening of the school year had been referred, reported in favor of the resolution. The matter was discussed at some length. The resolution provided that resolution. The matter was discussed at some length. The resolution provided that the fall term should begin on the second Monday in September and end on the 24th of December; the winter term should begin on January 2 and end on the last Friday in April. The spring term should begin on the Monday fellowing the first Friday in April and end on the second Friday in June, or such date as to make the length of the school such date as to make the length of the school year thirty-eight weeks in the place of forty weeks, providing also that such change should not cause any reduction in salaries of

Dr. Giobs was opposed to the shortening

Mr. Gibson was in favor of the resolution Mr. Gibson was in layor of the resolution
If it could be made to include a decrease in
the snaries of the teachers corresponding
with the shortened school year. He thought
the teachers should not be paid for time not

given to teaching.

One object of the change was to have the school work all over before the heat of term began in June. The change as provided by the resolution would do away with the spring

vacation. Mr. Gibson Grows Poetic,

Mr. Gibson seized upon this opportunity to read a spring poem to the board. He held that the children loved to get out "when the green got black in the treeses and the butterflies bathed in the breezes." It would be cruel to deny the little ones this week of frolic and fon when all nature seemed giad and gay. Mr. Points offered a substitute to make the school year thirty-nine weeks instead of thirty-eight, ending on the third Friday in June, one week later than provided in the

Martin resolution.

The vote on Mr. Point's substitute stood six for and five against. The chair decided that it was adopted.

Mr. Merrison held that this meant a change

in the rules, and it required a majority vote of the board.

He was called down by several members of the board, who declared that he was out

of order.

Mr. Gibson took the floor and denounced the action of the board as being illegal, be-cause a change in the rules had been made

by only six members.
"Out of order!" "Out of order!" was the cry that greeted his remarks and he finally gave up the fight.
Mr. Martin then moved that the shorten-

ing of the school year should not reduce the salary of the teachers.

Mr. Wehrer amended the motion so as to

give the janitors full ten months' pay for thirty-nine week's work. Mr. Elgutter offered a substitute to cut the teachers' salary one week. His substitute was defeated and Mr. Martin's motion as

amended by Wehrer was adopted. Bids Made on Work,

Bids were then opened for the erection of the new Windsor Place and the Saratoga buildings. Pids for brick work, carpenter work and heating and ventilating apparatus in great number were opened.

The secretary was authorized to tabulate

the bids and they were laid over for further action until this evening, when they will be taken up again by the board.

A peculiar feature about the bids for heat-

Ing and ventilation was the bid of Isanc Smead & Co. to put in their system in these eight-room buildings at \$1,670 each The board paid the Smead company about \$5,000 for builting their system of heating and ventulation into the Kellom school a sixteer room building. Mr. Morrison remarked that Mr. Smead had either swindled the board in the Kellom school contract or was become very reckless in offering to fit out an eightroom building for \$1,670.

Mr. Martin then presented a matter of importance connected with the Central school. Mr. Maye, to whom the centract for the carpenter work had been awarded, had refused to sign the contract because it called for the completion of the work by January 1, 1833. He said it would be impossible for him to complete the work in that time. The difficulty lay, he said, i in that time. The difficulty lay, he said, in getting certain large timbers, needed at an early stage in the work, '2x16 and 28 feet long. There were no such timbers kept in stock, he said, and they would have to be procured by special order, which would require several months time. The board finally decided to extend the time to March 1. the time to March 1.

Bids for the erection of the new sixteen-room Hartman building were opened. Mr. Smead had in a bid for neating and ventila-tion. He effered to fit up the build-ing in fine shape, with his dry closets, etc., for the sum of \$3,850. The Kellom school of exactly the same size was supplied with the Smend system at

cost of \$5,000. The Teachers' Training School.

The secretary was requested to read a peti-tion, spoken of in The Bee last Sunday, signed by thirty-nine graduates of the High school and about fifty citizens of Omaha sking the board to reconstor its action by which it was decided to discontinue the teachers' training school and reopen the

school for beginning classes at the opening of the school year next month.

Mr. W. N. Babcock moved that the netition be referred to a committee to be reported at the next meeting. Mr. Smyth moved as a substitute that the petition be laid on the table. The substitute was lost laid on the table. The substitute was

Measrs, Babcock, Martin, Eligattor and Points were appointed as the committee to take action upon the petition. The board adjourned to meet this evening.

Pure and Wholesome Quality Commends to public approval the California figuid laxative remedy, Syrup of Figs. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort of all who use it, and with mil-lons it is the best and only remedy.

SOUTH OMANA.

Meeting of the City Council-Much Bustness Transacted.

Before convening in regular session last evening the council met as a coard of equalzation to equalize the special assessments levied to pay the cost of sloping banks on Twentieth street from N to Q streets. No seemplaints were received and the board ad lourned sine die,

The committee on water reported that the Water Works company refused to put in a hydrant at Nineteenth and M streets, owing to there being no maius within 656 feet of the location .

The city attorney was instructed to draft an ordinance ordering water hydrants placed at Twenty-seventh and H and Twenty seventh and J streets. An ordinance was in

troduced locating hydrants at Twentieth and M streets and Ninetcenth and M streets. An ordinance was introduced providing for the issuance of grading bonds, and referred. Bonds in the sum of \$7,000 will be issued for district No. 11, \$1,830 for No. 13, \$275 for No. 14, and \$7,500 for No. 15, a total

A list of First ward citizens asked to have

electric lights placed on Twenty-fourth street, at H. F and D streets. The petition was referred to the committee on public lights. Wood from the committee moved that the lights be placed, but finally changed it to one light at Twenty-fourth and F streets.

streets.
Dr. J. J. Solomon asked the council to pass an ordinance compelling physicians to report to the city authorities all births and deaths, and providing a penalty for violation. The communication was referred to the attorney. Chief Smith reported that he had ap-pointed Charles L. Porter captain of fire company No. 1, and the council confirmed

Petitions asking that the grade be estab lished on O street from Twenty-second to Twenty-foorth street and on the alley from N to O streets, between Twenty-third and Twenty-fourth streets, were referred to the

committee or streets. Chief Beckett reported that he had inter-viewed the saloon men who had not paid the occuration tax and they all stated they would

pay within a few days.
The bond of S. C. Hunter and the contract for grading the alley from Missouri avenue to M street, between Eighteenth and Twen-tleth streets, were approved.

The street commissioner was instructed to mil lot 2, block 3, in Missouri Avenue park and the cost be placed against the property. Wood introduced a resolution instructing the inspector of buildings to order the owners of buildings to place iron combs upon all rallways protecting areaways on the streets

A motion prevailed that in the future the treasurer pay no warrants held by parties who are delinquent on their personal or occupation taxes, and payment be withheld until they pay the taxes. Bids for doing the city advertising for the

ensuing year were opened. The Stockman bid 15 cents per square, Drovers' Journal 15 cents and Tribune 25 cents. The printing committee recommended that in view of the te bid that the contract be awarded to the Drovers' Journal. The vote on the adoption Brovers' Journal. The vote on the adoption of the committee's report was voted down, Bulla, Schurz, Wood and Walters voting in the affimative and Bowley, Bruce and Haley in the negative, Bowley and Bruce changed their votes to the affirmative, but the vote baving been announced the mayor declared the change out of order. On motion the printing committee was instructed to readprinting committee was instructed to read-

vertise for bids.

The mayor appointed Thomas Eminger as A W. Adams was appointed poundmaster, to succeed John Phillips, who has left the city. Both appointments were confirmed.

An ordinance ordering L street, from Twenty-fourth to Twenty-seventh streets, and the confirment with viting the program of the confirment with viting the confirment of the confi

paved with vitrified brick was passed. Also an ordinance locating water hydrants in the First and Third.

The council went into committee of the whole. A committee from the Central Labor union was present, and asked permission to sell inquor at Syndicate park on Labor day. B. Jettler, the brewer, has several licenses to sell liquor, and the council was asked to transfer one of the licenses so that liquor may be sold at Nineteenth and G streets. Haley moved that the privilege be granted the Central Labor union to transfer any saloon license in the First ward to Syndicate park on Labor day.

Clerk Ditzen was allowed another assist-

ant in his office at \$40 per month. Couldn't Whip 'Em All,

Frank Emm is a thorn in the side of his family, and several attempts have been made lately to put a quietus upon the old man. Emm and family reside in West Albright, and peace is an unknown item in the house-hold. Saturday night a disturbance arose, and Emm was soundly belabored by his wife with a spindle. He stood punishment well, and came out of the contest as fresh as a datsy. Emm's son conceived the idea Sunday that he could fix the father, and hurled bricks at him, but without much ef-

ect.
A council of war was held within the family circle and a plan agreed upon whereby the old man was to be given a thorough drab-bing and Otto Schulz, his brother-in-law, was chosen to do the work. When Enum showed up Schulz went at him hammer and tongs, and brought to his assistance a 2x4. When time was called Emm was badly worsted and the services of a physician were needed to perform a trepin operation upon the skull, which was badly fractured, and to sew up half a dozen bad scalp wounds. Yesterday he made complaint against Schulz, who will be arrested.

> Notes and Personals. F. Carpenter has returned from Colo-

rado Springs. Sheriff Lisco of Chappell, Deuel county, was in the city yesterday. Mr. and Mrs. Epes Cory returned yester-

Roy and Louis Hough are enjoying a visit from their father and mother, Mr. and Mrs. D C. Hough of Carcago. George Jewitt of the Hammond Packing

company has returned from a trip through Montana and Idaho. Mrs. M. Schlegel has returned to Plattsmouth after paying a visit to her son, Alex Senlegel, of this city.

Danny McClure will have the huge doors of a prison cell close on him before nightfall, and because Johanna Benkeen charges him with assault. The weapon used was a bucket filled with foaming beer. John Bagiey was fined \$5 and costs by

Judge Fowier yesterday for assault upon George Williams. Bagley swore out a com-plaint against Williams charging him with carrying concealed weapons. Extensive preparations are being made for

the grand rally to be beld Saturday evening. The rally is given under the auspices of the Young Men's Republican club, and the open-ing gun of the campaign in South Omaha will be fired at that time.

Mrs. M. A. Buckner has sworn out a complaint against Mrs. Whalen, whom she charges with attempting to kill her son, Freat Buckner, with a knife. Both families reside at Twenty-sixth and P streets, and the outcome is the result of a neighborly quarrel.

Thomas Thompson filled up on Sunday closing liquor and started for home at a late hour Sunday night. He endeavored to get into the wrong house on M street, be-tween Twenty-sixth and Twenty-seventh streets, and when he had kicked down a screen door and was going in he received a well dealt blow upon his head. An occupant of the house had a club in his hand and he plied it indiscriminatively upon Thompson's head. Thompson was arrested.

Swallowed Up by the Earth. SAN FRANCISCO, Cal., Aug. 22.-The steamer Gaelic brings the intelligence that an immense cave-in occurred in the third tween Arayra and Harumori, swallowing up 160 houses and 100 people. The River Naka was filed up and a lake formed, cutting off the tweeters willages, and the passage to various villages, and the rumblings of the ground threatened further disaster any minute. Solits have taken place in the ground in many places in culti-vated land at Ikuno Mura, Katsuara Gun and occasional rumblings are heard, and on the day of the cave-in the village of Tomioka was flooded.

Let's Swap. Gilt-edged wild lands at\$5,00 to \$10.00 per acre in state of Nebraska, whose crops last year aggregated \$100,000,000. Good lots in the city of Omaha, whose population increased from 30,000 in 1880 to 150, 000 in 1890, is good stuff to hold, don't

As we are long on this class of property and short on cash, drop in. During several years successful experience in the real estate business I haxe established a reputation for handling nothing but bargains.

CEMENT PIPE BY MACHINERY

Jeff W. Bedford, After Six Years' Experimenting, is Successful.

HE NOW MAKES SEWER PIPE BY MACHINERY

An Omaha Invention Which Will Revolu tionize the Present Way of Manufacturing Sewer Pipe-Will Be Made in Omaha.

These are days of progress, surely, and Omeha keeps pace with the times. Among the most emphatic evidences of this fact is a cement pipe machine that must be rated as one of the most useful inventions of the age and is bound to revolutionize the present way of making sewer pipe. This machine is the result of the combined work of four inventors, whose labors, trials, tests, experiments and lucubrations cover a period of six years before reaching the standard of perfection which has at last been attained. The chief spirit and proprietor of the enterprise is Jeff Bedford, the well known 15th street coal dealer, who in the period mentioned has expended nearly \$60,000 to encom-pass the achievement which has at last so fully crowned his long and persistent effort. But few can comprehend the field

which exists for the work of just such an invention, and an abundant harvest certainly awaits the man who has spent these long years, and a snug little for tune, in its successful completion. Every city of 5,000 inhabitants or more. in this country, and the most advanced of the foreign nations, are putting in sewerage systems in which clay and cement pipe is the one and only factor of construction. The subject of irrigation by storage reservoirs which agitates the whole of the great immeasurable west, and which was recently taken up in congress, when the plans of government lawmakers reach fruition, the demand for pipe will be one of incalculable magnitude. Pipe must be used in carrying the water to the fields from the reservoirs. Already, notwithstanding the present slow rate of manufacture, California has put down thousands of miles of piping and the work is but in its commencement, the industry in its infancy.

The Bedford machine is as certain to revolutionize, as I said in the outset, the present mode and manner of sewer-pipe manufacture as electricity is in time to be the motor power of the whole universe, Already Mr. Bedford is flooded with letters of inquiry from all parts of the United States and many parts of

The machine is so constructed that it will make any size pipe from four to thirty inches in diameter and from two and a half to three feet in length, with either the bell or flange shaped end; or the round, oval or eggshaped with flat base, just as suits the consumer's ideas of what he wants, Heretofore this work has all been accomplished by hand, the results being slow and tedious and entailing an im-mense outlay of money, of course. With the Bedford machine it is different. The ramming of the cement and sand into piping is done by steam, each rammer making from six to seven kundred strikes to the minute. The construction of the whole machine being simple and automatic, it is almost impossible for it to break or get seriously out of order. It works so rapidly that it will make pipe in 2½ feet lengths in lifteen seconds to one and one-half minutes, according to the size. It can be changed from one size to another, and from round to egg-shaped in four inutes. By the present hand process of making pipe four men will make from 60 to 70 feet per day of the larger pipe. while the Bedford machine with eight men will make 1,000 feet per day, or equl ling the work of sixty men at the present process, and at the same time make a better and harder pipe, the compressure by the rammers being the same in all parts, and not varying as it does by hand making. The machine weighs about six tons, and can be run

with a common threshing machine en-The proportions of the material used in the Bedford pipe is one part cement and four parts sand and gravel. It improves with age, has been amply demonstrated, water and moisture being its natural elements. Some pipe of these materials was recently taken up in England that was lain over 100 years ago. It was in an almost thorough state of crystalization, attesting indisputably that the longer it remains in the ground

the stronger and harder it becom Mr. Bedford is vet undecided as to whether Omaha would be the best city in which to organize a home stock company for the United States or to go to Boston or New York.

Consumption Cured. One of the best-known men in Council Bluffs is M. F. Boren, of the car department, U.P. railroad service, residence at 1112, 18th avenue. He is a native of Pottawattamie county, his father settling there at the time of the Mormon immigration... Referring to his recent restoration to health he speaks as

"I have been afflicted with catarrh in my head and throat for years. At times I had an intense head ache. My nose was always stopped up. I alway felt as if a heavy weight was pressing upon my felt as if a heavy weight was pressing upon my breast, and dull pains around my heart and in my hungs, and I was constantly spitting a yellow, thick phlegm. My appetite became poor and I was weak and thin. My rest at night was very poor, and I could scarcely change my clothes without taking cold and having a new attack of headache. Soon I began to have a hacking cough, with soreness all through my chest. My wife and neighbors thought I had the consumption, and to tell the truth all the signs pointed that way to me. I began doctoring and tried many remedies but with ne banefit. At this time a triend advised me to consult Drs. Copeland and Shepard. I did so: in four weeks after begining their treatm at my cough was entirely gone and my nose was as clear as it ever was. I have not had a single headache since. I feel first rate—better than single headache since. I feel first rate-better than for six years. My appetite and strength are ex-cellent, and I realize that I am surely escaping that dreatful mylady—consumption. It will afford me pleasure to parsonally verify this statement to any one calling on me. I have no hesitation in expressing my belief that Drs. Cope and and Shepard are very skillful in the treatment of chronic diseases."

MAIL Comes from the East, West, North and South, bearing testimony of the successful treat-ment of Drs. Copeland and Shepard by mail Symptom Blank Sent to All Applicants.
