### WILSON LOSES HIS HEAD

Repsal of the Resolution Creating the Position Which He Occupied.

ONE OF THE CITY COUNCIL'S BUSY NIGHTS

Many of the Mayor's Vetoes Rejected-Attention Called to the Unsafe Condition of the Eleventh Street Vladuct-An Interesting Session,

At a meeting of the city council held last night, Mr. Bruner was afforded an opportunity o display his ability as a presiding officer, but he threw that opportunity to the

winds. Mr. Howell moved, that in the absence of President Davis, Mr. Bruner be elected to preside over the geliberation of the body. Mr. Bruner wanted the honor, but said that he had cramps of the stomach and might not be able to sit the meeting out. The explanation was accepted and Mr. Bechel became the

the president pro tem. When the council got down to business the vetoes of the mayor were considered and this was the first one that was presented to the

The Time Did Not Suit His Honor. "I berewith return without my approval

the contract with Andrew Jaicks for paving St. Mary's avenue from Twenty-sixth street to Twenty-seventh street, Improvement District No. 450, for the reason that the time fixed in said contract for the completion of said paving is December 20, 1892. So far as the practical results are concerned the date for completing this paving might as well have been fixed by the Board of Public Works for the next Fourth of July, as about Christmas time. Unless paying with asphaltum can be completed be fore severe cold weather arrives it cannot be completed at all. The outside time for completing this work should not have been later November 1, which would have given Mr. Jaleks forty days for preparation and at least three weeks for doing a small job of paving which should be done within one week's time. I am desirous of favoring com-petition in the laying of asphalium pave-ments, but I am not us favor of postponing until next year work that should be dene this season. Mr. Jaicks has no right to ask and the Board of Public Works has no right to grant, such time for the completion of this work as will take it to a date in the winter season when it is impossible to be done. White I regret to veto this contract, I do not hesitate to do so so far as working delay is concerned. If there is an honest purpose on the part of Mr. Jaicks and the Board of Public Works to have this work done this season a new contract can be presented in one week's time fixing reasonable limits for the completion of the work and which would give Mr. Jaicks all the time necessary for establishing a plant in Omaha and doing the work on or before October 1 or not later than Novem-

Mr. Elsasser was the only member who had anything to say regarding the veto. He remarked that it was wrong to single out one contractor. Mr. Jaicks was the only competitor whom the Barber Asphalt company had ever met, and it was not the correct thing to drive him into the earth. Sources he said, who was at the head of the Barber company, had robbed the city of thousands of dollars and the mayor had not attempted to veto his contracts, though some of them had not been properly signed or prepared. The veto was rejected by a vote of 12 to 4.

Ordinances Vetoed. The mayor vetoed a number of ordinance

ordering the improvement of streets. The vetoes were based upon the grounds that the ordinances failed to state whether the streets vere to be paved, curbed or graded. Mr. Howell wanted to know who drew the ordinances. Mr. Specht, chairman of the committee on

paying, curbing and guttering, threw the re ponsibility upon City Engineer Rosewater by saying that he was the party who drew the ordinances

"Yes," said Mr. Chaffee, "but the ordinances passed through the hands of your committee and were reported correct." The veto was sustained and new and cor-

rected ordinances were introduced.

There was trouble when the mayor returned a veto on some of the items in the appropriation ordinance. He had refused to approve the bills of John A. Wakefield for lumber furnished to the city and used in the laying of sidewalks. In the veto he stated that Wakefield's charges were excessive; that he had not made deductions that he should and, owing to that fact, he advised a cancelation of the contract.

This brought on bursts of oratory. Mr. Howell said that the city attorney had expressed an opinion that the city could not go back on the contract without there was fraud. He said, however, that when the con tract was let Wakefield was the highest old

Mr. Tuttle said that Wakefield was from \$2 to \$3 per 1,000 feet higher than the other

That statement brought Mr. Elsasser to his feet. He wanted to know by what right the contract was awarded if Wakefield was

the highest bidder. City Attorney Connell said that the can celation of the contract meant a lawsuit. If the contract was obtained by fraid or mistake a cancelation would stand, but

Wakefield was honest in his bidding the matter might be different. Mr. Elsasser urged a prompt and speedy effort to find why the contract was not give

to the lowest bidder.
Mr. Chaffee said that he had talked with the comptroller regarding the matter and that that gentlemin had told him that he had checked the Wakefield bills and that his

prices were in accordance with his bids.

Mr. Lawry called for the ordinance, but it was not with the veto message. The may or's clerk was sent after the ordinance. When it came in, on its face it showed that the veto covered bills amounting to \$239,24. Then the members voted and Mr. Specht was the only one who stood by the mayor

To it vestigate the overcharge, the president appointed Messrs. Munro, Steel and Howell a committee.

Other Vetoes Rejected.

There was another veto and it was signed the mayor. In that document he stated that the First ward had got all of the cross walks to which it was entitled under the allotment. Notwithstanding that fault the gentleman from that ward had been cunning enough to secure some six or eight more than e was entitled to receive.

Mr. Back, one of the representatives from

the First ward, said that the mayor had not calculated correctly. Instead of that ward having used all of the warks allotted, it had some sixteen or eighteen that had not been or dered

The veto was rejected, Mr. Munro alone voting no. In the general appropriation ordinance there was an allowance of \$50 to Adam

Snyder for damages to a horse which was injured by coming in contact with a water fountain. The chairman of the committee on claims said that the bill had been investi-gated and found correct. This settled it and all of the members voted to override the mayor's veto The item of \$1,500 to aid in the construction

of the bridge over Cut-Off lake was in the appropriation ordinance. The item was vetoed by the mayor, he stating that the expenditure, in his opinion, was illegal and unauthorized and that the Courtland Beach Improvement association had not lived up to its agreement in the way of improving the grounds on the south shore of the lake.

The veto was rejected by a vote of 12 to 4, Messrs. Jacobson, Muarc, Tuttle and Specht being the members who were with the

A Message from the Mayor.

The mayor wrote this regarding the No-On the Stn day of November next a general election will be held in the city of Omaha to elect state officers and for other purposes. In view of the fact that under the purposes. In view of the fact that under the Australian ballot system a general or special election involves a very large expense. It is not only desirable, but absolutely necessary, not only desirable, but absolutely necessary. not only desirable, but sometitely necessary, that any propositions proposed to be submitted to the electors of the city of Omaha should be submitted at the November election. The time is now at hand, not only for the consideration but for taking action with reference to any proposition to be submitted to the people concerning works of public improvement for the next year. If it is proposed to issue additional conds for paving, sewer construction, or any other

paving, sewer construction, or any other

purpose, the matter should be considered by your honorable body without delay, and ordinances should be passed authorizing and directing the submission of such propositions, In view of the unprecedented and unpeces ments during the present year, I am not sure that the electors of the city of Omaha will be disposed to vote additional bonds, but if we are to continue the work of paving and sewer construction additional funds will be

"I much regret the delay which has occurred, and that proper heed was not given to my messages urging prompt action, dating back to my inaugural in January. I trust this communication will receive the attention it deserves, and that unnecessary delays in taking action regarding works of public improvement will cease, and that from this time forward the taxpayers of Omaha will have no cause for the just complaints now being made.

Mr. Munro expressed the opinion that men ould not be hired to serve as judges and cierks at \$3 a day.

Mr. Howell scouted the idea, and said that there were 2,000 men in the city who would

accept such positions. Made Vacant Mr. Wilson's Position. The council picked up Sidewalk Inspector John M. Wilson and dropped thim overboard in short order. They accomplished this by

which was signed by sixteen members: which was signed by sixteen members;

Resolved—the mayor concurring—That resolution No. 30, passed July 21, 1892, be, and the same is hereby repealed and rescinded, and that the city cierk immediately notify any person or persons embloyed undersaid resolution that the same is hereby repealed, and that his, her or their pay will stop immediately upon such notification from the city cierk to him, her or them.

Resolution No. 30 was the one which suttons.

Resolution No. 30 was the one which authorized the Board of Papile Works to employ a competent person to inspect the laying of permanent sidewalks where the same were laid by private parties.

Comptroller Olsen reported that the ex-

perses incurred in holding the Nebraska Central bond election amounted to the sum Upon the subject of tearing up and repay-

ing the Tenth street viaduct City Engineer Rosewater and Chairman Birkhauser of the Board of Public Works reported some rotten blocks, but wrote that they did not deem it advisable to order the structure repived at

this time.
Upon the subject of the Eleventh street viaduct the committee appointed to investigate its condition reported a state of affairs as described in last evening's Beg. The committee recommended that steps at once be taken to put the structure in a safe

and passable condition. City Engineer Rosewater said that the repaving alone would cost \$7,500. He could not tell what the replanking under the paving would cost, but estimated it at \$2,500. The vinduct would have to be repaired or closed up at once, as it was in a dangerous The question, however, where was the money to come from to make

Mr. Lowry moved that the report be reerred to the committee on viaducts and railways, the Board of Public Works and the ways, the board of roots of the control of the cont

not have that amount of money on hand with chich to make repairs. Mr. Chaffee said that it was a question of finance and a serious question, too. The street railway company should have been charged a sum for crossing, and that sum should have been saved to pay for making

Mr. Howell moved as an amendment that the committee next Tuesday night report to the council the sum of money that would be required to make the repairs. This motion

prevailed. One week ago the back and baggagemen of the city complained to the council that the Omana Transfer company monopolized the business and space at the union depot. This was referred to the committee on viaducts and railways. Last night this committee re-ported that no relief could be afforded until the completion of the new union depot, as the roads selling tickets to and beyond Omaha had a contract with the Transfer mpany which made it absolutely necessary hat its teams should be at the depot and cupy the limited amount of space about the

Regulating the Speed of Street Cars. The ordinance to regulate the speed of

the running of street cars was passed. This ordinance provides that in all that portion of the city bounded by Twelfth, Sixteenth, Leavenworth and Cuming streets the speed of the cars shall not exceed ten miles per hour. Outside of this district they may run at a rate of speed not exceeding fifteen

The ordinance accepting and approving the clans for the proposed Fifteenth street via fuct was read three times and passed. The time-honored ordinance regulating the kind of wagons to be used in hauling earth over paved streets and compelling all grad-

ing contractors to take out a permit and deosit a forfeit that they will clean up from the streets all earth spilled, was passed by a vote of 10 to 5. By resolution the telephone company was instructed to remove its poles to the curb line on the west side of Twenty fourth from Spaulding street to the north city limits.

The company was given ten days within which to comply with the resolution.

In conjunction and with the assistance of the city engineer, the Board of Public Works was instructed to locate the new election booths when constructed and ready for deliv-

ery to the city F. R. McConneil captured the contract for furnishing the windows of the city ball with

Venetian blinds. Mr. McConnell was the lowest competitor, his bid being 12% certs per square foot. DeWitt's arsaparina cleanses the blood,

### WILL HAVE HOT AIR IN ONE

the Board of Education Mill.

Contracts Discussed at Length by the Board-Arranging to Erect New Buildings.

Some discussion arose among the members of the Board of Education at last night's meeting as to the kind of heating apparatus to be placed in the Windsor Place school. The committee on buildings and property recommended hot air.

Mr. Powell made a strong plea for steam beat. He held that steam was superior to hot air as a medium for furnishing heat. He asked some members of the committee if they had not received word from eastern cities very recently to the effect that steam was being exployed in proference to hot air.

was the case. Eastern cities were using hot air, he said, instead of steam. Mr. Powell then asked again, very point-

matter. President Spalding answered, saying that he had received such telegrams and turned them over to the committee. These elegrams stated, he said, that steam was being adopted in eastern cities.

Wanted to Withdraw His Rid.

The contract for doing the carpenter work n the new Windsor place building was he brick work was awarded to C. P. Stroms-

Mr. Stromsberg had just informed him that he had made a mistage and bid too low. He wanted to withdraw the bid.

Mr. Coryell moved that Mr. Stromsberg

Mr. Morrison and Mr. Smyth made a hard fight against the withdrawal of the check. They declared that such a course would break down all protection in the future and permit the contractors to play horse with he board. If contractors could withdraw their bids at any time they would put in straw bids and manipulate matters to suit

Mr. Stromsberg appeared and made the explanation that he had made an error to calculating the number of brick by about 250,000. This would cost him over \$2,000 more than he had calculated. He hoped the board would let him out of the hole.
Dr. Gibbs pleaded for the contractor, be

cause the poor fellow had made a mistake. He thought it was very evident that the man had made a mistake, because he had bid lower than any of the others by \$2,300.

Mr. Coryell took the ground that the board could not retain the check if Mr. Stromsberg was permitted to withdraw his bid. Even if the board should attempt to hold Stromsberg to his contract and he falled to furnish a satisfactory bond, then the board would, he said, be obliged to let

him out and return his check. Mr. Powell took up the argument holding that the board would be laying down the bars for a long train of frauds by allowing this man to withdraw his check along with his old. Higher bidders could bargain with the lowest bidder at any time to have the lowest bid withdrawn and then divide the profits made by the high-priced contract thus

orced upon the board.

Coryell's motion to permit Stromsberg to withdraw his check failed to carry by a vote of 9 to 3. Correll, Points and Webrer voted aye; Globs, Smyth, Martin, Eigutter, W. N. Baocock, Poppleton, Morrison, Gioson and Powell voted against the motion. The contract for the carpenter work on the

The committee recommended that the contract for brick work on the same building be awarded to Deverell Bros. at \$12,633. The

Coryell's Queer Proposition. ecommended that the brick work on the nev Hartman building be let to Brayton & Donnecker at \$19,990 and the carpenter work to Beverley & Wooley at \$17,290. Mr. Corvell brought in a minority report.

He thought the contract for the brick work should be let to Dellone & Cooper because that firm had been the lowest the first time the board advertised for the work on the Hartman building. The board had made a mistake the first time it advertised. Delione & Cooper were the lowest at that time. They were not the lowest bidders on the second advertisement, but as a matter of fairness and encouragement Mr. Coryell thought that Dellone & Cooper ought to have the contract.

Then the fur began to fly. Mr. Poppleton declared that the board should lay aside this idea of sympathy for contractors and proceed on business principles. He held that the lowest responsible bidder should get the con-tract. The first bid on this building was a thing of the past and the board had to deal only with the bids that were received in re-sponse to the second advertisement, for all of the first bids had been rejected.

Will Go to the Lowest Bidder. bers who wanted to let the contract to Delone & Cooper in a vigorous manner. He de-tounced it as a fraud. Brayton & Dou-

ecker were nearly \$1,000 lower than Deilon Cooper, he said, and even if they were but \$500 lower they should be awarded the con-tract rather than Dellone & Cooper. The motion to let the contract to Dellone & Cooper was defeated on the following vote:

Yeas: W. N. Babcock, Coryell, Elgutter, Gibbs, Smyth, Webrer, Nays: Martin, Mor-rison, Points, Poppleton, Powell, Giuson, Spalding. The majority report was then adopted,

A long discussion ensued over the heating apparatus to be selected for the new Hartman The committee recommended the Failer & Warren system of hot air committee held that the Fuller & Warren system was the best that could be put in and eep within the appropriation.

Mr. Smyth and Mr. Powell wanted to see

the Smith system of heating and ventilating adopted, because it was more than \$300 cheaper than the Fuller & Warren system. brick and use common brick so as to cut down the cost and to put in the Holbrook system of steam heat was put and carried Mr. Martin informed the board that Mr Mayo, to whom the contract for the carpenter work on the Central school was awarded had not furnished a bond. ### WEATHER CROP BULLETIN

Result of the Weekly Investigation of the Department of Agriculture. petitioners allege that the said janitress is addicted to the use of intexicating liquor;

GOOD CROPS IS THE PLEASING REFRAIN

But Few Localities Have Made Reports of Poor Prospects-Increasing Promises of Bountiful Harvests-Precipitation and Temperature Record.

WASHINTON, D. C., Aug. 23,-Following is the weather crop bulletin for the week, issued by the Department of Agriculture:

The week was warmer than usual from western Texas, northeastward to Missouri and over all districts from the Mississippi valley eastward to the Atlantic coast. It was also warmer than usual over the plateau regious, and thence westward, including all Pacific coast states. The daily temperature averaged from three degrees to five degrees above the normal from Michigan and northera Indiana eastward to New England, and generally throughout the Pacific coast and plateau districts. In the gulf states the temperatue condicions were normal, or slightly below, nearly normal temperatures prevailed over Nebraska, Kansas, the Da-kotas and Minnesota, while over Montana Wyoming the week was decidedly cooler than usual, slight frosts, causing no injury, however, occurred in Wyoming, Except where severe grought prevails the week, with respect to temperature, has been been very favorable to crops and agricultural pursuits. Wheat narvesting is now well over, and threshing is general. Cotton picking is general in southern Georgia and is progressing elsewhere in the south.

The seasonal temperatures from March 1 o date have not been materially affected by the past week. Nearly normal conditions now prevail eastward of the Mississippi, while to the westward deficiencies exist, amounting from 1° to 2° per day for the Precipitation,

Very heavy rains have fallen over portions of the central gulf states, and more than the usual amount is reported from portions of the lower lake region, upper Missouri valley and over limited ares from north and central Texas to central Kansas. Over much the greater part of the country, however, the rainfall for the week has been decidedly below the average, and over extensive areas from the lower Missouri, central and upper Mississippi valleys to the Atlantic coast no rain, or only very light showers, have failen. The drouth of the previous week has been intensified, and is now general over the principal agricultural states from the Da-

Atlantic coast. The seasonal rainfall from March 1 is about as previously reported, except over the northern and central states east of the Rocky nountains, where the season's excess has been somewhat reduced, owing to the light rainfall of the current week.

otas, Kansas and Nebraska castward to the

growth of corn, although the crop is reported as having made material advance-ment, and with occasional showers and a continuation of sunshine until Santempar 2 the crop will be assured. The total yield, however, will fall considerably below the average of previous years. Threshing is average of previous years. Threshing is well anyanced, showing a good yield of wheat, rye and barley. Oats will not be up to average. Rain is needed for potatoes, pastures

and fall plowing. Nebraska's Experience.

CRETE, Nob., Aug. 23 .- | Special to THE BRE. |-Weather crop bulletin No. 20, of the Nebraska weather service, issued from its central office, Boswell observatory, Doane college, Crete, for the week ending Tuesday, August 28, says:

"The first part of the past week continued hot and dry; the last was much cooler and good rains fell in several sections of the

"The temperature has varied from about the normal to a degree and a haif below the normal with the average amount of sun-

"The rainfall for the week has been very good, and most sections report good rains from the 19th to the 22d. A good rain of an inch and one-half is reported from Dodge and more than an inch from Hayes and Butter counties. Furnas, Keya Paha, Cherry, Thaver, Gage, Franklin, Kearney, Cuming, Madison, Lincoln and Saline counties report nore than half an meh; elsewhere only alight showers.
"Corn has done very well, yet in some lo-

calities is in danger of early frosts.
"Pastures and grass lands seriously damaged by the dry weather of the early part of

HER BURDEN WAS TOO HEAVY.

Poor Lena Schlop Ends a Life That Had Brought Only Suffering. Mrs. Lena Schipp of 2005 Pierce street,

died Monday night, it is supposed from an overdose of morphine. Mrs. Schipp has had her share of the troubles of this world. Two years ago she left her two little children in her house and went over to a neighbor's. The tittle ones got hold of some matches and when sue re-turned there was nothing left but their

charred little bodies.

Her husband is now in the penitentiary erving out a sentence for shooting a diseputable woman for whom he had deserted Marriage Licenses. The following marriage licensus were issued by Judge Eller yesterday: Name and address. Robert E. Clapp, Elk City 41
Anna L. Gelston, Elk City 27

Peter Jensen, Omaha 29 Minnie Jensen, Omaha 23

# Pears Soap

We perspire a pint a day without knowing it; ought to. If not, there's trouble ahead. The obstructed skin becomes sallow or breaks out in pimples. The trouble goes deeper, but this is trouble enough.

If you use Pears' Soap, no matter how often, the skin is clean and soft and open and clear. All sorts of stores sell

all sorts of people use it. PENNYROYAL PILLS

it, especially druggists;

## To Preserve

The richness, color, and beauty of the hair, the greatest care is necessary, much harm being done by the use of worthless dressings. To be sure of have ing a first-class article, ask your druggist or perfumer for Ayer's Hair Vigor. It is absolutely superior to any other preparation of the kind. It restores the original color and fullness to hair which has become thin, faded, or gray. It keeps the scalp cool, moist, and free from dandruff. It heals itching humors, prevents baldness, and imparts to

### THE HAIR

a silken texture and lasting fragrance. No toilet can be considered complete without this most popular and elegans of all hair-dressings.

"My hair began turning gray and falling out when I was about 25 years of age. I have lately been using Ayer's Hair Vigor, and it is causing a new growth of bair of the natural color."-

R. J. Lowry, Jones Prairie, Texas. "Over a year ago I had a severe fever, and when I recovered, my hair began to fall out, and what little remained turned gray. I tried various remedies, but without success, till at last I began to

### USE

Ayer's Hair Vigor, and now my hair is growing rapidly and is restored to its original color." - Mrs. Annie Collins, Dighton, Mass.

"I have used Ayer's Hair Vigor for nearly five years, and my hair is moist, glossy, and in an excellent state of preservation. I am forty years old, and have ridden the plains for twenty-five years,"-Wm. Henry Ott, alias "Mustang Bill," Newcastle, Wyo.
