THE SPECULATIVE MARKETS

Wheat Had a Strong Opening and Made a Considerable Gain.

FROST EXPECTED IN THE NORTHWEST

Out of Forty Cars of New Spring Wheat Only Seven Were Up to Contract Grade-Stocks and Bonds.

CHICAGO, Ill., Aug. 29.—Wheat had a strong opening today and made a considerable gain,

but all the advance was not held. strength was due to a number of builish factors, including stronger cables, a partial re-covery of the trade from the choiera panic and a very general impression that the Vienna congress report was likely to prove a builtsh one. But the principal strength was found in the

news from the northwest. Reports from there showed that it had rained continuously for the past twenty-four hours and that farmers were apprehensive of great damage to the erop. It was also said that a cold wave was behind the rainstorm and that a dangerously

were apprehensive of great damage to the crop. It was also said that a cold wave was behind the rainstorm and that a dangerously low temperature was probable. The inspection sheet also went far to confirm the reports of the poor quality of wheat in the northwest, which have been so general of late, as out of forty cars of new spring wheat only seven cars were up to the contract grade.

There was good buying from the start, partly for the long account and partly to cover shorts, and as there was not much offered, firmness was the general rule. The outside buying was apparently on a larger scale than usual. Later on the large herease in the visibly supply and some reason to believe that the carly buillish news from the Vienna congress was not well founded the market lost a good deal of what it had gained. The information as originally circulated purported to be a disputen from Vienna reporting the decrease in the world's wheat supply this year at 227,00,000 bu, and the increase in the rye crop of 200,000,000 bu. September opened at from 76e to 75%c, azainst 75%c at the close on Saturday, worked up to 76%c, receded and closed easy at 76c.

Corn was firmer on reports of cold weather in the southwest and was also sympathetically affected by the streagth in wheat. There was no pressure to soil and with a good demand from shorts and a fair amount of buying for for the long account, the feeling was generally strong and prices averaged considerably higher. September started 20%c to 21½c and prices averaged considerably higher. September started 20%c to 21½c and swere quiet and firm, principality in sympathy with the strength in corn and wheat. Fluctuations were confined to a range of 4¢c, closing unchanged in comparison with starday's last price.

How products were more active and nigher: the liquidation was pronounced and the buying was more liberal, while the strength in grain also helped to make a strong market for rovisions as did comparatively light receipts, but higher prices for ho.s. Pork fluctuated within a ran

British Grain Trade Review.

London. Aug. 29.—The Mark Lane Express in its weekly review of the British grain trade says: The favorable weather of last week has allowed an unprecedently large area of land to be harvested. The probable yield will be 61.373.271 bu. of wheat. 59.261.540 bu. of barley and 112.386.261 bu. of oats. Best new English wheat has sold for 328.50. Wheat was largely offered at 29s and was readily sold. Foreign wheats were aimost unsaleable, and prices declined 2s. American red winter wheat has declined steadily and values lost 28 9d in eleven days. Barley and corn are cheaper. Oats are firm. At today's market English, Russian and Indian wheats were 6d deaver. California wheat was 3d dearer owing to the heavy rains of Saturday, which are regarded as jeopardizing the wheat still in the sheek. Flour was cheaper. Yellow corn was down 6t. American flat corn was steady. Oats were down 3d. Barley was 6d lower. British Grain Trade Review.

Traders' Taik.

CHICAGO, Ill., Auz. 29.—F. G. Logan & Co. to Duncan, Hollinger & Co.: Higher cables along with reported damage in the wheatfields of the northwest caused a strong opening in wheat and September opened at 76c, sold up to 76% (276%c; closed at 760.76%c. December opened at about 70c, sold as high as 70%c, closed at 78%c. The gossip about the world's wheat supply being put at 239,000,000 bushels less than last year, helped the bull feeling, but late cables, saying the domand was checked by the advance and an increase of 3,175,000 bushels in the visible supply, caused some free selling and the deckine to 78%c for December. The sentiment is again in favor of higher prices and with the uncertaintes of the outcome of the Vienna congress deliberations we may have a further advance. The receipts and movement of the spring crops are the great factors in the near future. Corn opened firm at 51%c for Septembet, May at 53%c, the closing prices are 51%c and 53%25.3%c. Weather predictions for tomorrow are light frosts throughout the corn belt and in Dakota and Minnesota. Our stock of corn, about 250,00 bushels is heavy with the demand only moderate to give any further advance. At present it will require damage to corp or a better demand. The out pit is now receiving a great deal of attention, samples are poor and light with no prospect of improvement. All indications are for higher prices. Provisions were duit toward the close.

Chicago, Ill., Aug. 29.—Kennett, Hopkins & Co. to S. A. McWhorter: Stronger cab.es, re-

of improvement. All indications are for higher prices. Provisions were duil toward the close.

Chicago, Ill., Aug. 29.—Kennett. Hopkins & Co. to S. A. McWhorter: Stronger cables, reports of damage by heavy rains in the northwest and fear of frost gave the market a bouyant opening. Later there was another boom on a canard that the Vienna congress had said that the world's wheat crop was 231,000,000 below last year. Near the close there was a reaction of high when it was found that the Vienna report could not be confirmed. Large receipts and heavy increase in the visible supply and estimated receipts of over 500 cars tomorrow also added to the weakness. There may be something of a flurry tomorrow if the Vienna estimate is anyway sensational, but it is not expected to add much to existing statistical information. An effort was made carly to depress corn. Some members of the old buil nool took a hand, but there had been a considerable shake out Saturday. The temperatures were ominously low along the western edge of the corn belt, so that the demand was better than the supply and the market ruled firm to strong an day. Oats fluctuated but little and trade was rather light. Provisions were firmer on moderate arrivals of hors, reduced est mates for tomorrow and a higher market at the yards.

STOCKS AND BONDS.

STOCKS AND BONDS,

Saturday's Bank Statement Had Little Effeet on the Market. New York, Aug. 29.—The bank statement Saturday, while having little or no effect at the time of issue, upon further study shows that the funds of the banks are being dep'eted at a rapid rate and borrowers are now looking for an almost certain advance in money rates in the face. This condition was the moving influence in the stock market today, with the usual result of extreme duli-ness in the general market and special activity, accompanied by falling quotations, in the few stocks in which the bears were encouraged few stocks in which the bears were encouraged to strack. Among those Louisville & Nashville, Reading. Missouri Pacific and Pacific Mail followed each other in order, but as a rule the losses were confined to fractional amounts, the last named being the only important exception. The buils in St. Paul were encouraged by the apparent proximity of a dividend, which hope the statement greatly encouraged, and that stock offered a stub-

Notwithstanding the severe pressure brought against Reading, the decided buil talk upon Lackawanna and Delaware & Hudson served to restrain the selling of the chief member of the coal group and the inconsiderable success met with led to an abandonment of the effort after noon. The advance was the result of the operations of the traders and their taking their cue from the weakness of Louisville & Nashville and the industrials, refused to buy, and later sold freely when it became evident that liquidation by the cliques was in progress. In the last hour the bears became more aggressive and tried not on; Reading but Louisville. Canada Southern, New England, Sugar and some specialties, all of which yielded materially, and the lowest prices of the day were made just before the close. The pressure upon Readin; was severe in the afternoon and the transactions reached very large figures in comparison with the trading in the rest of the market, but Pacific Mail, which was subjected to a severe drive just after noon, scored the heaviest loss of the day. The market closed fairly steady after a slight raily, but at or near the lowest prices. The transactions reached only 27,942 listed and is, 420 unlisted, Reading contributing 93,740.

The feature of the day's fluctuation in prices was Pacific mail, which declined three points from the opening bid on a public announcement that its excussive arrangement with the Paname railway company was in danger of being ruptured on account of lack of agreement between the two companies.

Government bonds have been entirely neglected.

 Eigin Butter Market. Eugin, Ill., Aug. 29.—The butter market is firm; saids, 13,850 lbs at 25c.

London Financial Review. [Copyrighted 1872 by James Gordon Bennett.]
London, Aug. 23.—[New York Herald Cable—Special to The Ber.]—In the Stock exchange today attention has been chiefly directed to the pre iminary arrangements for the settlement, new business having almost been at a standstill. Consols are unchanged, but Indian rupes paper and sterling loans have given way is to is owing to the weaknest in silver. Foreign securities close tolerably firm as relards international, a good tone being reported on continental bourses. Home railways have been somewhat dopressed, owing to the unsettled weather, but apart from a fail of is per cent in Northeasiern, is per cent in Metropolitan and Southeastern deferred, changes in others are only fractional. Americans have been more or less weak all day. Several descriptions close slightly lower, including Louisville & Nashville, Eric and Union Pacific but Chicago & Milwaukee are in the day. Mining shares mave been neglected and close without quotable change on the day. Mining shares mave been quiet, but on the whole firm, notably diamond descriptions. Money has been in little demand. With the superabundant supply of floating capital short loans have been easily procurable at it per cent, while bankers enarged life to its per cent would not the wond three month bills have been negotiated at I to lis per cent. LIVE STOCK MARKETS. Receipts Were Light But the Market Had a

Receipts Were Light But the Market Had a

Firm Tone.

OMANA, Aug. 29.—Receipts of both cattle
and bogs were cons derably short of what
deniers in general were looking for, while the
run of sheep was rather I arger than anticlpated. This will in a measure account for the
firmer tone to the trade in cattle and hogs and
the sharp decline in sheep values.

Up to noon or during the hours of active
trading but 87 cars of cattle wore received.
Offerings were very largely westerns, but the
natives made up in quality what they lacked
in quantity. The feeling was one of strength,
and while outsiders were not buying or bidding, there was a very active inquiry from
local dressed beef houses, and prices ruled
strong on all desirable offerings. A two-load
bunch of choice 1.571-16, beeves brought \$5.00,
the first time that figure has been reached for
over a month. Und bunches of common to
fair natives brought from \$1.15 to \$4.23. Westerns, if good, were active and strong, but the
commoner grades of all kinds were slow. Sales
born resistance to the depressing influences,
were at from \$2.00 for Texan to \$4.65 for very
fair westerns. A very fair clearance was
effected.

mixed stock on sale and prices ruled steady to strong with a tolerably free movement throughout. Poor solvery good cows and heifers sold at from \$1.23 to \$2.20, bulls and stags at from \$1.23 to \$2.874. Calves were in good demand and firm at from \$1.25 to \$4.25. The trade in stockers and feeders was not particularly active, but prices were well maintained on all decent grades. Inferior lots were hard to move, even at very low prices. Representative sales:

* yearlings. † Texans.
Hoos.—The supply was light and the quality
of the offerings very common. This is the
usual condition of affairs on Monday as far
as receipts are concerned.

There was a good shipping demand, eastern
reports wore favorable, and as the supply was
light trade was brisk with prices ruling for to
15c higher than Saturday. Poor to good hogs
sold at from \$4.90 to \$5.10 with the big bulk of
the sales at \$5.00, against \$4.85 to \$5.05 Saturday. The pens were empty by 10 o'clock, the
general average of prices paid being \$5.00,
against \$4.87% Saturday and \$5.35% last Monday. Representative sales:

Chicago Live Stock Market.

Chicago, Iil., Aug. 29.—[Special Telegram to The Ber.]—The situation in cattle was unimproved. Common to pretty good native cattle and Texans were in heavy supply and sold slowly at weaker prices. Choice native steers, being scarce, could be disposed of at about former prices, but that grade, too, showed a weaker tendency. The light-Chicago Live Stock Market, steers, being scarce, could be disposed of at about former prices, but that grade, too, showed a weaker tendency. The run of western cattle was light—estimated at 1,000 head—and that market was firm. It was late in the forenoon before the movement developed any activity but the bulk of the stock was finally pushed over the scales. Quotations range from \$1.00 to \$5.00 for inferior to fancy natives, \$1.50 to \$4.15 for westerns and from \$1.25 to \$3.15 for Texans.

The hor market was unevenly higher. The best of the offerings sold 20c above the highest figure reached on \$3.40 day and anything in the shape of a hog was saleable at a 10c advance. The upturn was wholly due to the fact that the receipts were greatly below the recent average. The arrivals were estimated at 18.900 head, about all of which were out of salesmen's hands by the middle of the forenoon, sales making at from \$4.75 to \$5.00 for yeary common to extra medium and heavy weights. There was one sale of fancy 207-1b, hogs at \$5.60 and a little trading in culls and range grassers at from \$4.00 to \$4.50, but from \$4.00 to

eighths of all the hoge on sale. The close was steady.

Of sheep prices were lower today, but not so much lower as might be supposed when the extent of the supply is considered. Not far from 15.00 head were on sale, and buyers were enabled to fill their orders at from 15c to 25c off from last week's closing quotations. Choice sheep changed hands at from 45.40 to 55.5°, and very decent lots changed hands at from \$4.25 to \$4.5°. The best lambs were quoted around \$4.25 and poor stuff was slow at from \$3.50 to \$4.75. Texans were quoted at from \$3.50 to \$4.75. Texans were quoted at from \$3.50 to \$4.50, and westerns at from \$3.25 to \$4.5°.

8475.

Receipts were: Cattle. 20,000 head; hogs, 18,000 head; sheep, 15,000 head.

MALE HELP WANTED. Uncle Sam is Short of Male Clerks in Sev-

eral Departments. It is generally supposed that there are plenty of applicants for positions in government employ, but this seems to be a mistake

with regard to some positions. The following circular has been sent out to the local civil service committees all over the country bearing upon the needs of the

service in different lines: UNITED STATES CIVIL SERVICE COMMISSION. Washington, D. C. Aug. 22.—There is a dearth of applicants for the railway mail service from Arizona, North Dakota, Deleware, Florida, Louisiana, New Mexico and Rhode Island.

From all states and territories there is a dearth of applicants for positions as teachers and physicians in the Indian service, both male and female.

For the position of stenographer and type-

writer in the department service there is a dearth of male applicants.

Persons desiring to take any of these examinations should file applications with the commission and obtain admission cards. Application blanks, instructions and a schedule of the times and places of examinations may be obtained by writing to the civil service commission, Washington, D. C. Postmasters and other government em

ployes who receive this circular are requested to offer it to the newspapers of their vicinity to publish as a news item, without expense to the commission. Very respectfully, Chas. Lyman, president. The next civil service examination for civil service positions will be held in Omaha on November 9 and 10. Applicants for positions in the departmental and Indian service will be examined on November 9 and those wishing to get positions in the railway mail ser-vice will be examined on November 10 at the

PRESIDENT HARRISON'S PLANS.

Omaha postoffice.

His Trip to New York Will be Almost Featureless. NEW YORK, Aug. 29,-The Herald says:

President Harrison's visit to New York this week will not last more than two or three days. He will leave Loon lake on tomorrow evening or Wednesday evening and arrive here the following forenoon. The trip from Loon lake, according to the railroad schedule, takes sixteen hours, and Mr. Harrison will travel at night in order to save daylight working hours. He will come in a private car attached to a regular train. Frank J. Tibbott, his stenographer, will accompany him.

The president will be Whitelaw Reid's guest. The reception will be as simple as possible. There will be no speeches, public coremonies or conferences. The specific purpose of Harrison's visit, if it can be said to have one, is to consult with the candidate for vice president. Both their letters of acceptance are finished and the candidates want to compare them before they are rub-lished. The president will, of course, have many callers, and will doubtless be talked to about the campaign by Chairman Carter and other rebublican field marshais. It is intended to make the visit as coloriess of in-

cident as possible.

Mr. Harrison will dispose of some official business while here perhaps, although the only cabinet officer who has an engagement to meet him is Secretary Tracy.

Visible Supply of Grain. NEW YORK. Aug. 29. - The visible supply of grain is as follows: Wheat, 84,950,000; corn, 7,578,000; oats, 5,281,000; rye, 411,000; bariey,

Mrs. L. R. Patton, Rockford, Itt., writes: 'From personal experience I can recommend DeWitt's Sarsaparilla, a cure for impure blood and general debility.

1,738

Every one suf-fers from Catarrh in the Hoad. Those who don't have it suffer

of the symptoms: Headache, obstruction of nose, discharges falling into throat, some-times profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody, putrid, and offensive; eyes weak, ringing in ears, deafness; offensive breath; smell and taste impaired, and general debility. Only a few of these likely to be present at once. The cure for it—for Catarrh itself, and all the troubles that come from it—a perfect and permanent cure, is Dr. Sage's Catarrh Remedy. The worst cases yield to its mild, soothing, cleansing and healing properties. A record of twenty-five years has proved that to its proprietors—and they're willing to prove it to you.

They do it in this way: If they can't cure your Catarrh, no matter how bad your case, or of how long standing, they'll pay you \$500 in cash. Can you have better proof of the healing power of a medicine? tenacious, mucous, purulent, bloody
