WITH THE GREAT GLADIATORS

Eullivan's and Corbett's Condition Commented Upon by an Expert.

HIS OPINION FAVORS THE CALIFORNIAN

Condition of the Men and Their Chances of Winning-What the Other Pugilists Are Doing-National League Games-The Speed Ring.

New York, Aug. 30 .- The Herald this morning publishes, in connection with its account of the exhibitions of Sullivan, and Corbett, the following opinion of an expert in regard to the conditions of the two men and their chances of winning the great battle of September 7.

"I have seen the gladiators at work. I vatched Corbett closely in the Madison square garden yesterday afternoon as he tossed the 'medicine ball' and wrestled, played hand ball, punched the bag, and ran or three hours. I saw Sullivan in his bout with Jack Ashton, in the Clermont avenue rink, Brooklyn, last night. Comparing the work of the two men and its effect on each, there can be but one conclusion-Corbett, as far as condition is concerned, is far the better man.

"Never have I seen a more perfect specimen of the trained athlete than when I looked upon Corbett yesterday. One could trace every muscle of the magnificent back, arms and chest. The clear skin showed the perfect condition of the blood; the tongue, clean and red, proved that the liver and stomach were in perfect order, and the fact that there was no appreciable acceleration of the normal respiration during the westling bout showed that the young Californian's wind is on a par with his muscular strength. "Corbett went at his work as a hungry man goes at his dinner. His trainer was

twice obliged to expostulate with him for continuing his exercise after he had been told to desist. There is no surer sign of perfect physical condition than this appetite for work. His exhibition with the punching bag showed that his eye is wonderfully quick and that his bands are wonderfully ac-Sultivan's Condition.

"Sullivan's appearance was a complete surprise to me. To be sure his eye and skin ware clear, but as he sat in his corner before the beginning of the bout with Ashton last night he looked like anything but a man trained for such a battle as is to take place at New Orieans September 7. When the champion held his head erect loose foids formed on the back of his head—fat. When he leaned forward his close fitting belt seemed to cut his waist. It looked as though one could gather handsful of fat on his sides and stomach. His movements compared with those of Corbett seemed slow. A few seconds of quick work sent the perspiration running off the champion in little streams. And when he sat in his corner at the end of the first brief round, the respira-tion was burried. Three rounds and the respiration seemed to become uneven.

"There is no room for doubt as to Sullivan's strength and speed. His blows were those of a pile driver. There was none of the excess of apimal spirit that marked every movement of the more youthful giant. Two hundred and four pounds, was the answer, 'stripped.' If Mr. Sullivan does not weigh nearer to 230 I am indeed mistaken.

"To sum up from a professional point of view Corbett has on his side youth, agility

and endurance. Sullivan's only advantage, so far as I can see, lies in his superior BILLY MEYER.

He is Down to Weight and Confident of Defeating McAntiffe. NEW ORLEANS, La., Aug. 80.—The Picayune's Streator, Ill., special says: Billy Meyer will enter the ring at New Orleans on the night of Sertember 8 in ac g. od condition

as he was ever before in his life, and confident that he can win the stake. This is the conservative statement made to a correspondent tonight.

During the past few weeks Meyer has found it necessary to work very hard to train down to weight. He has been trained by his brother, Ed Meyer, and John Eckhart, Frank Hoxsie and his backer, Alf Kennedy. The great object in view has been to keep him as near as possible to the weight at which it is supposed McAuliffe will enter the ring. That he will not pursue the same tactics as those used by him in his meeting with McAuliffe at North Judson is shown by the fact that he has been trying to develop the striking powers of his left arm. He and his trainers profess to see a great improve-ment in it. Whether McAuliffe will notice

As a result of his careful training Billy is today in excellent condition and weighs 137 ounds. In an exhibition tonight he boxed rith each of his trainers and showed great strength, activity and science.

In an interview tonight Meyer said: "I do not know whether I shall whip McAuliffe or not. I have a return ticket bought from New Orleans, and if I get licked I can come back to Streater, and I think father and mother will give me three square meals a day until I can get work at my trade. I would not advise any one to bet a dollar on me and have advised all the boys to buy return tickets, though I will do my best to

The Place of the Shooting. OMAHA, Aug. 80. - To the Editor of THE BEE: In you edition of last evening there anpears an article stating that the shooting which took place yesterday was was at Sixteenth and Davenport streets, which is not the case. I have had the house since last November, and allow none but respectable gentlemen and their wives, or single men, in the house. So please do me the kindness to state in your paper that this shooting affair occurred at 308 North Sixteenth, and not at the corner of Sixteenth and Davenport, as they are two separate bouses and run very differently. John A. Hornberger, who is making the race for state superintendent of public in-stitution, was born at York, Pa., in 1861. His early life was was passed at that o. He graduated from the Buck-university at Lowistown, Pa., 1884. He chose teaching as a profession and occupied positions in Iowa un til 1887, when be accepted the position of superintendent of Fremont city schools. After remaining at Fremont three years he as-sumed the principalship of the Norfolk public schools, which position he still holds That Campaign Fund.

The "volunteer" campaign contributions secured by the Fake Foundry at the state convention were "volunteered" about as readily and cheerfully as a Russian peasant would deliver himself into the hands of King Cholera. The volunteer artist con-nected with that sheet was sent down from Omaha for the alleged purpose of "accenting" contributions, but he was unable to find the aching void that he was expected to fill. The only painfully throbbing vacant spots that could be discovered were in the pockets of some of the delegates after they had been subjected to a stand and-deliver experience at the hands of the aforesaid v. a., which mesulted in his "accept ing" whatever amount his begging, beseech ing, cajoling and imploring could wring out of the harassed victims The contribution convasser was a compara-tive stranger, and hold up democrats and republicans alike with the utmost impartiality. There were to many strange faces that he frequently approached the same individual more than offee, and one republican state official was held in three times in the rotunds of the Lincon and urged to band over "just a little to fielp make a showing." over "just a little to field make a showing,"
In about nine cases out of ten the "yolunteer contribution" was not made for love of the cause, but on the contrary to get rid of the campaign beggar who bung to his prey with leach like tenacity, while as a matter of fact the immediate vicinity of the "campaign contribution" counter" was the lone-somest and most deserted piece of country within the borders force state of Nebrasia. within the borders of forthe state of Nebraska

LONDON, Aug. 30.-New York Herald Cable [Special to THE BEE.] -The principal feature of the Stock exchange today has been the declaration of a Caledonian dividend. Operators again to some extent have been occupied with the settlement, and little in the way of fresh business has been attempted. The tendency, except in American railway department, is more favorable. Consols are firm at a rise of one-eighth of 1 per cent. The more pientiful supply of stock in the home railway market naturally led to a little weakness in prices, but there is a distinct recovery today and while the investment demand continues while the investment definite has been, no important fall is likely to occur. A smart recovery is shown in deferred stocks of southern lines. Northwestern and Southeastera accorded are up 1% per cent. Brighton de-ferred 1 per cent and Northeastern three-eighths of 1 per cent. The report is made in black and white; it states that within the city limits there were 120 deaths during the month. The two medical officials challenge any city with 145,000 people to show a better record. During the month of July 113 deaths were eported, while during August, 1891, the re ports show that there were 106.

Secretary Crounse on the Nebraska Political Situation.

FEATURES OF THE PRESENT STRUGGLE

Those Incidents of the Last Campaign Calculated to Weaken the Republican Ranks Not in Existence Now-Will No Longer Be Doubtfut,

WASHINGTON BUREAU OF THE BEE, 513 FOURTHENTS STREET, WASHINGTON, D. C., Aug. 30. Assistant Secretary of the Treasury Crounse has returned from Nebraska highly elated over the prospects for a republican victory in that state. He has not yet decided just when he will resign and go into the state campaign.

The Star has interviewed Judge Crounse on the political outlook in Nabraska, in which he says: "The republicans never were more in earnest and the campaign is being entered upon with a determination to win. Two years ago, owing to two successive failures of crops, something unprecedented in the state and the consequent feeling of discontent, Ne-braska fell largely into the alliance move-ment. Again prohibition and anti-prohibition enter a so largely into the campaign that it swallowed up in a great degree those issues upon which the two old parties were divided. Nebraska, which has always been so strongly republican, is today misrepresented in congress and the republicans are resolved to set the state right.

"The alliance party is making no new accessions. On the contrary, many of that party are returning to the republican fold, some participating in the late republican caucuses and conven tions. Again the conditions are changed Instead of two fatigres of crops, two excellent ones have taken their place. The party is being thoroughly organized and more and better campaign work will be done this year than ever before. You may look for a good report from the republicans of Nebraska."

Politics in Alabama. "It is a toss up whether Alabama goes democratic or casts her electoral vote with the opposition," said Congressman Oates of that state today. "It is going to be quite lively down there this fall and comfortably close. In my own district there will probably be a fusion against me and I may be defeated for re-election. There are about 1,500 more colored than white votes in my district. Heretofore I have had an old colored friend who brought to my support at every election enough colored votes to turn the election in my favor, but he died recently and I seriously doubt my own ability to coatrol the situation with a majority against me."
