# NEWS FROM COUNCIL BLUFFS

Three Big Guns Attract Hundreds of People to the Railroad Yards.

UNCLE SAM'S MONSTROUS PEACEMAKERS

Arrival of Part of the Monterey's Armament on its Way to the Pacific Coast -Pranks of a Bad Boy at a Church Festival,

Three cannon, weighing in all about 215,000 pounds, passed through Council Bluffs yesterday on their way from Altoona, Pa., where they were manufactured, to San Franeisco, Cal., where they will enter upon their new duties of protecting Uncle Sam's westera boundary from any and all comers. They came in over the Burlington road and were transferred to the Union Pacific during the day, leaving for their destination in the

The largest of the three is one of the most terrific firearms that has ever been turned out of the factory. It is forty feet long and weighs a little over 100,900 pounds. It is forty-five inches across at the breech and will carry a shot a foot in diameter thirty miles, it is said. The barrel would serve as hiding place for several militiamen who might be overtaken by the enemy before they had a chance to get away, and when in actual use the cannon would be able to mow down quite a swathe of men before its force would be spent. This gun is intended to be

used on the coast.

The two "little" ones weigh 57,000 pounds The two "little" ones weigh 57,000 pounds each and are about two-thirds the size of their larger companion. They look rather insignificant beside the big one, but they, in turn, would throw into a deep shadow the ordinary cannon that awakens the people on the Fourth of July. They are to be two of the six cannon that are to be mounted on the new United States warship "Monterey." The three cannon were visited by quite a number of people vesterday afternoon as number of people yesterday afternoon as they rested in the freight yards at the transfer, each in its special car.

The new chemical engine arrived yesterday morning from Chicago and was escorted to the North Main street engine house, where it will be kept in the place now occupled by the Rescue steamer. It is a beauty, and the fire boys get as much pleasure out of polishing the shining brass as a father hunting for the teeth of his first porn. It has a great many advantages over many of the other chemical engines in use over the country, one of the main ones being the fact that it does its own "agitating," after the cylinder containing the chemical is reversed, and the machine from that time on becomes automatic. With it comes 200 feet of one inch hose, which is so light that only one man will be required as a rule to manage it. The Rescue steamer has been sold to Kansas

Chief Nicholson has decided to make the trial of the new engine a public one, as quite number of the citizens have expressed a desire to see it in operation. The trial will take place this morning at 10 o'clock on North Sixth street. A bonfire will be built in the street and the engine will be given a chance to show how well it understands the

### Hot Sight on Broadway.

While walking past 401 Broadway one would naturally think the month of December was here, in place of the pleasant fall of year.

The display of blankets in the four large show windows of the Boston Store look like cold weather. Of course it is coming, and they have prepared for it by showing one of the largest lines of blankets ever shown in this city. As an advertisement for this department they have decided to inaugurate a blanket sale for one week. Every pair of blankets have special prices for this sale, which

BEGINS MONDAY, SEPTEMBER 5. Our window of white blankets represents all qualities, from 67 to \$13.00. Another window shows qualities of

blankets range in price from 67 to to 50c. Natural colored blankets from 924c to This sale is for one week and the

above prices only last during sale. Every blanket in the store will be marked regular prices after this sale.

# Shooting at Manawa.

Hunting season opens September 1 Lake Manawa is full of young ducks and Trains leave Broadway at 11, 2, 8, 4, 5, 6, 7, 8 and 9 o'clock, and on Sundays and special occasions as often as required.

# Spoiled the Festivities.

A little episode took place Thursday night at a church social in the southern part of the city that threw a damper on the enjoyment of a part of those in attendance, but added greatly to the pleasure of the evening for those who were not directly interested. It when the pastor of the church undertoos to sit down in a chair in front of three or four small boys who had been making merry at other people's expense all through the evening. Just at that moment the proclivity of one of the boys for practical joxes got the better of his judgment, and he pulled the chair from beneath the reverend gentleman. The latter had a cup of coffee in his hand when the crisis arrived, but when it was over he had managed to save about half of it. He rose from the floor, carefully preserving the rest of the coffee for future reference, and, after sizing up the young reprobate, let the contents fly in his face. The paster left the social in disgust, the small boy was taken sniveling to a closet in one end of the church and the audience was left to enjoy the little giversion without restraint.

Those who fail to attend the organ recital next Tuesday evening in Broadway church will miss the musical event of the season. Prof. Hall is an expert and Miss Oliver and Mr. Badollet are great favorites.

Buttering. At Meschendorf's meat market, 15c a pound. 333 Broadway.

Gentlemen, the finest line of fall goods in the city, just received. Reiter, the tailor, 310 Broadway.

Set for Hearing.

J. Beemer, the lower Broadway saloon keeper who tried to get rid of a lot of unwelcomed visitors by shooting at them Thursday night, has been charged with assault with intent to kill, and he will have a hearing this morning in police court. His victim, John Snarp, is still at his home, and nothing very definite can yet be said with certainty as to the outcome of his injuries. There are hopes of his recovery, provided no

relapse takes place.
W. A. Brown, who shot Oscar Dixon in Price Gibson's saloon Thursday night, will also have a hearing this morning. Dixon has been released from jall on his own recognizance until this morning

"The Old Woman Who Lived in a Shoe," and her children, will give a matinee this afternoon at half past 2 in Hughes' hall. Admission 10c each.

150 people in this city use gis stoves The Gas Co. puts 'em in at cost.

of the kind, for the Wilton, which was ordered at a price of \$690, has gone glimmer-When the council convened last night, Mr. Specht was about the first man who caught the eye of Mr. Chaffee, who held the position of president pro tem. He at once moved to reconsider the action of the council

vacancies.

in ordering Wilton. He said that he did not think it was the proper thing to make a parlor out of the council chamber. The council, he thought, could purchase a good five-ply Brussels and save the city just \$346, and that the carpet would last five years. There was some talk, and when the vote was recorded it stood 8 to 5 in favor of re-

considering. That settled it, and then Mr. Munro moved that the comptroller be instructed to enter into a contract with the owest bidder on Brussels. Mr. Tuttle noved to amend by substitut-ing matting. That did not suit, so the whole

cil chamber. They will, however, do nothing

matter was referred to the committee on public property and buildings. Comptroller Olsen's Report.

Comptroller Osen submitted the following eport upon the condition of city finances: "City Comptrollers Office, OMAHA, Sept. 2.—To the Honorable City Council: Gentlemen—The charter demands that I should, from time to time, communicate with your honorable body in regard to the condition of the finance of the city, and I shail state to you the condition of the various funds as they appear to me after seven months of this year have passed by. The fire fund, police fund and library fund are all in very good condition, if no extra heavy expenses occur for the remainder of the year. The city entered into a contract for the cleaning of the strests, and if the contract is carried out there will be a shortage in the curb, gutter and cleaning fund of about \$1,600, even if no other expenditures are charged to this fund.

"The sewer maintaining fund has been drained heavily through unavoidable ex-penditures, and there will be shortage in this fund no matter bow carefully it is con

ducted.
"The park fund proper is in a most excel lent condition, only a little over \$9,000 having been expended so far out of a fund of over \$45,000. In the park fund for the purchase of park lands is still a balance of about \$177,000. "The judgment fund has been heavily

drained; out of a fund of over \$38,000 there is only left \$5,000. "If the water rent for the last half of the year is not greatly increased there will be some \$10,000 or \$12,000 left.

"In the paying bond fund remains \$5,511.75 after what I have certified to for intersections. And in the sewer bond fund remains \$13,493,66 after what I have certified to.
"In the city hall fund will be left fully \$20,000 after all contracts entered into are provided for and such various things provided as I think necessarily must be done. such as architect fees remaining unpaid of about \$7,000, if his bills are allowed, about

\$500 for globes for electric lights in city hall,

about \$3,000 for changing the entrance, pets about \$5,000, blinds \$900, gates \$500, and say about \$2,000 for little extras.
"The dog fund is in a most excllent condition and at the end of the year there ought to be from \$1,500 to \$2,000 left.
"The Board of Health fund was at the beginning of the year \$3,298.57 and there is remaining to date only \$2,159.08. You will

see it will necessarily run short. "In the lighting fund there was at the beginning of the year about \$46,000, now only remaining about \$15. 000, and even if the expenses of this fund are not increased, which they are, it would leave a shortage of about \$5,000 at the rate we

Condition of the Sub-Funds.

"Now as to the various sub-funds of the general fund, the mayor's department will have money left, as no clerk was en-gaged until last month. The city council will be apt to run short a few hundred dollars of the fund set aside for its expenses, even with the most careful management. The fund set aside for the comptroller's department will hold out, as a cierk has been dispensed with since April, and will be done as long as it possibly can be. With very careful management the fund of the treasurer's department will hold out with the present allotted force, either by ordinance or resolution. The city clerk's de partment will necessarily run short about \$400, caused by the stenographer being charged to this department this year. whereas previously it was charged to a special stenographing department. The legal department will keep within the fund

balance at the end of the year. "There remains in the engineer and sower department fund \$12,156 31, and according to the estimate of the city engineer it will cost about \$15,000 to run the remainder of the year, leaving a shortage of about \$3,000. This not including the reconstruction of the Leavenworth street sower, which will be about \$800, that should be taken out of the already heavily drained sewer maintaining

"The Board of Public Works department may, by careful management, manage to get along with the appropriation set aside for it and the sidewalk inspector.

"As for the street commissioner's depart-ment, for which there was set aside altogether \$25,000, there remains in the fund \$4. 209.69, and it is evident that it will have to cut its force very materially if this small amount must carry it through the present

"In the fund of the superintendent of building and plumbing there is only \$1,209.86, and the superintendent estimates the expenditures for the remaining five months at \$7,500. This would leave a shortage of about \$1,300, but I think by cutting down the force in both departments this might be avoided. As a matter of fact, for the first seven months of 1891 there were 831 building permits given, with fees amounting to \$1,939.50, and in 1892 for the same time there were

issued only \$16 parmits, with fees of only \$1,743, and the salaries paid for inspection in 1891 for this time were \$3,046.15, and in 1892 for the same time were \$3,750.62, thus show-ing an expenditure in salaries for the first seven months of 1892, in excess of 1891, of of permits were issued and less fees were received; however, I shall remark that during this time the city has saved the salary of an assistant architect for the city hall, which work has been performed by the superin tendent of buildings.

Where a Saving Was Made.

"Of course, in the plumbing department there has been a saving in salaries on account of the two offices being consolidated. "The police court fund, boiler inspector's fund, license inspector's fund, veterinary fund, appraisers' fund, sergeant-at-arms' fund, hospital fund and feeding prisoners'

fund are all in good shape.

"In the gas inspector's fund will be left \$250, and if this official is allowed \$25 per month for horse hire, without which it is

impossible for him to properly do his duty, there will still be money left in the fund.

"In the advertising fund, rent account fund, compiling tax list fund, superintendent of city half fund, there will be money left at the end of the year If no extra expense occurs to drain these funds. curs to drain these funds.
"In the fund for election expenses there

only remains \$1,628.55, and the city clerk computes the expenses for the fall election at \$15,000; this would leave a shortage of over \$11,000, but he, however, in his comput ation figures \$6 for each registrar at each day's sitting.
"In the balance of the general fund there is left out of over \$76,000 only \$32,000, and

as a whote, I hope we can pull through with-out making an overlap, but the city will have to be very guarded and careful in all expen-ditures to do so and be able to collect what is coming to us, otherwise we must run

The committee on viaducts and railways submitted a report approving the action of City Engineer Rosewater in closing the Eleventh street viaduct. The report urged speedy action in repairing the structure and recommended the adoption of the engineer's report, in which he favored the repaving of the floor with creosoted wood.

Mr. Lowry thought that temporary arrangements could be made by which the bridge could be kept open.

The matter was referred to the committee on finance and the comptroller to see if funds could not be located, which could be used in repairing the viaduct. The committee on viaducts and railways

repairing the viaduct.

The city engineer and the city attorney were instructed to report an ordinance looking into the opening and widening of Fifteenth street from Valley street to the north line of Park Forest. Mayor Bemis named Joseph Balley as assistant boiler inspector for the American Casualty Insurance company. The appoint-

ment was confirmed and his bond in the sum of \$3,000 was referred. resigned as appraisers to assess damages arising from the proposed construction of the Fifteenth street viaduct, H. G. Clark

and George J. Paut were appointed to fill the

The ordinance ordering the grading of

Thirty-fifth avenue, from Leavenworth street to the north line of Eliis place, the city to pay the one-half cost, came up for passage.
Mr. Monroe raised the point that there was no money in the grading fund to pay the expense until such time as the county turned

over the city's share of the road fund. The ordinance then went back into the hands of the committee, to be held until the road fund question was settled.

The ordinance ordering the change of grade of St. Mary's avenue, from Twenty-nith to Twenty-sixth street, at a cost of \$6,500, was recommitted to the finance committee and the Fourth ward delegation.

The recommittee the city offices were ordered. By resolution the city offices were ordered closed all day next Wednesday in order to

allow the officials and employes to attend the

Business Which Engaged the Attention o the Board of Education. Members Bulla and Jones were absent from the Board of Education meeting last

The committee on supplies reported that they had done nothing as yet, although several chairs, clocks and other articles are needed for the schools before they open Tuesday. President Check thought the committee work of the board was very poorly attended and there was altogether too much dilly-dally. Pearl of the committee was instructed to purchase the necessary supplies The members of the board resolved themselves into a reasting committee, and C. M.

Hunt received the benefit of the major por-tion of the deliberations, Mr. Hunt has tion of the deliberations, Mr. Hunt has leased the board a building at Twonty fourth and H streets for school purposes, and promised to repair the building and grounds. A few repairs have been mane, but the general arrangement and condition of the premises are anything but satisfactory. Janitor Mc-Auley was instructed to see Mr. Hunt and request him to make a few needed improve-The coal question came up and was dis-

cussed at length. The dealers will be in-vited to offer bids for furnishing coal for the schools for the year, and all coal purchased will hereafter be weighed upon the city scales. The estimate of the amount of coal needed is about five tons per week for the High school, 2,500 pounds each for the Brown Park and Fourth ward schools, and four tons for the Third ward. The Albright, Missouri avenue and H street schools are heated with hard coal and no estimate was

Hereafter all adjourned meetings of the board will be held Monday eyenings.

The World's fair educational committee sent in a communication calling attention to the Columbian national memorial celebration to be held in the schools of the United States October 21, and urged the board to secure some merchant to furnish the badges for the scholars, a design of which has been adopted by the committee H street school. This school is for first grade scholars north of J and east of Twenty-

seventh strect. In Error, As Usual, An up town evening paper prints a paragraph which says that the masons employed upon the new buildings at Swift's went out on a strike Thursday night, demanding ! cents per hour increase in their wages. This statement is untrue, and probably originates from the fact that a small number of the men employed upon the stonework were laid off Thursday evening, and a few more ceased work to secure other work which will last longer. There have been employed about fifteen masons upon the foundation for the new addition to the slaughter house, but as that is nearly completed the reducing of the force was a necessity, and there has been no dispute, whatever, raised in regard to wages The statement that the yards are closely guarded by officers and no one is allowed to approach is denied by Chief Garrett of the

Swift police force, who says no guard is placed there and no one is molested, unless he be a loafer, who has no business there. Pleasantly Entertained The Masonic ball was crowded last even ing with a throng of people upon pleasure bent, and they found it in large quantities. The occasion was the social and entertain ment given by Alpha lodge, Daughters of Re bekah, and it was a success in every detail. The evening's entertainment was opened by the carrying out of a well prepared literary and musical program. Refreshments were then served, and all turned to with a hearty will. The lodge hall was cleared of obstru tions, music was on band and all who desired found pleasure in a dance which lasted

Warrants have been issued for the arrest of Fred and John Bedura and Joe Hop, three young boys who reside with their parents in Brown park. The complainant is Mrs. John Gramolich, who lives at Twentieth and Milroy streets. She says the boys have bothered her a great deal of late, and have almost completely rulned her garden and yard. She

wants the boys arrested and taught a lesson that may be beneficial to themselves. An officer has the warrants and will serve them Notes and Personals. Mayor Miller was taken suddenly ill yeserday, but is improving. The democratic club is called to meet at Judge Levy's Monday evening. A. C. Parson of Little York, N. Y., is visiting Mr. and Mrs. E. D. Brown.

The South Oxaha Republican club meet Thursday evening of next week. J. F. Cornish and Dr. W. J. Bell have returned from their trip to Tekamah. A. H. Lee of the Union Stock Yards comy is home from an extended trip through Wyoming.

Manager A. C. Foster of the Swift Pack-ing company and Manager T. W. Talliferro of the Omaha Packing company are in Colorado on a pleasure trip. John O. Owens and bride arrived in the city yesterday from their wedding tour through the west and Mr. Owens is again at his desk in the Union stock yards office.

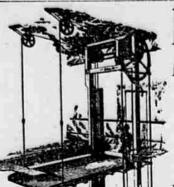

the very least \$5,000; the shortage in the various sub-funds may be made up from what will be left over from some of the others; but there certainly will be a shortage amounting to a good many thousands of oders in the election fund, his matter how we figure to pay the very fifters. And if the Eleventh street viaduct must be repaired this year there will be another expenditure corprobably \$15,000.

"I have also to date certified to grading contracts, of which the city's share amounts to \$5,506,04, and the city's share amounts to \$5,506,04, and the city's share for new election booths will be \$8,185,00. It would be help this fund, of course, if we could collect the long overdue road fund tax coming to the city from Douglas county, and we have also coming from the Nebrassa Central railway for election expenses in the neighborhood of \$5,000, which should be coilected. Taking it as a whole, I hope wecan pull through without the long will be considered. Taking it as a whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and whole, I hope wecan pull through without making and we have also coming from the Nebrassa Central railway for election expenses in the neighborhood of \$5,000, which should be coilected. Taking it as a whole, I hope wecan pull through without making and whole, I hope we are not make the city as a short and the city and an another continued to make the city as a short and to select from.
