SCENES AT THE LINCOLN FAIR GROUNDS

No Avallable Space Left for Belated Exhibitors--Indications That the Present Affair Will Be the Organization's Most Successful.

LANCOLN, Neb., Sept. 2 .- [Special to THE BRE. .- The twenty-sixth annual exposition of the Nebraska State Agricultural society opened at the state fair grounds today, and although today and tomorrow are simply preparation days, the grounds presented a scene of unwonted activity when visited by THE REE representative, Secretary Furnas moved his office from the Hotel Lincoln to the grounds this morning, and a large force of assistants have been besieged all day by auxious exhibitors desiring to get their entries on the books before it is too late. According to the rules of the association all entries will close tomorrow evening; but the rule is a dead letter this year, for nearly every department has been full for several days and no available space is left for be-

lated exhibitors.
Exhibits for every department are conatently arriving and a long procession of drays and vans file in and out of the big gates at all hours of the day. Exhibitor. are at work in every department getting their displays in shape, while in the live stock department men and boys are bringing in stock and forage. Everything is bustle and confusion, but Superintendent Humphrey states that everything will be in readiness for the fair proper when the gates are thrown open for visitors Monday morning. Glancing at the Exhibits.

Everything is in a chaotic state today, as a matter of course, but still the visitor with a press badge ornamenting his coat tapel is able to see that the exposition will be more that ever complete when everything is in readmess for the reception of visitors. Merchants' hall is rapidly filling up with the display of the finer classes of exhibits and overvising is being at franced in an attractive moner. The agricultural display will be complete in all departments, notwithstand-ing the fact that the season has been some-what unfavorable for the rapid maturing of

The man who never can be convinced that Nepraska is not a great fruit state will have his eyes opened again as usual by the ex-traordinary fine display of fruits of every conceivable class and variety. Machinery hail will be crowded to its utmost rapacity with every form of agricultural implement known to agricultural pursuits and every machine will be in operation. The new dairy building will furnish an attraction for thousands of housewives who will have an opportunity for studying the best and most improved methods of making and preparing butter for market. The poultry ex-hioit contains specimens of every species of domestic fowl known to the breeder, and many novelties have been entered that have never been seen on the grounds pefore. The beet sugar display will be much more comand improved processes of planting and cultivating the saccharine roots will be shown by experts brought here for the purpose. One of the novel attractions of the poultry exhibit will be a patent incubator that will turn out a brood of lively chicks every hour during the fair. The fish exhibit will be here, more complete than ever.

Live Stock Exhibits. The lovers of blooded stock of all classes

will be attracted by the more than usually complete display in every department. Among the breeders who are already on the Among the breeders who are already on the grounds with fine cattle may be mentioned; Makin Bros., Florence, Kan.; H. Paul, Huron Lake, Minn.; H. Elmdorf, Kearney; E. E. Day, Weeping Water; Fuller & Gray, Schuyler; J. Evans & Son, Emerson, la.; L. T. Tanner, Beatrice; W. Miller & Son, Topeka: G. B. Shannon and W. B. Willard, Omaba; J. W. Chappell and J. H. MacColl, Levington, H. Partington, J. Incoln. Balds. Chang, J. W. Chappell and J. H. MacColl, Lexington; H. Partington, Lincoln; Bald-win & Fritz and Isaac Johnson, Lincoln; J. S. Coriyle, Vesta; W. A. McHenry, Denni-son, Ia.; C. F. Ratzloff, Lincoln; Jacob Un-linger, Cortland; T. S. Moberly, Richmond, Kan.; B. O. Cowan, New Point, Mo.; Jersey Cattle company, Lincoln; E. Rife, Lincoln; Dale & Stowell, Cedar Rapids. The above comprise only a minor portion of the long list of entries. A complete representation in every department is assured and every breeder will find his favorites represented by scores of fine animals.

All the available space in the horse stables has been taken and the superintendent of this department has been compelled to improvise quarters in the number of private stables that have been erected on the grounds. Among the horsemen who have made entries are: L. M. Emerson, Bowling Green, Mo.; Frank Iams, St. Paul, Neb.; William Burgess, Crete; J. N. Austin, Tamora, Neb.; Thomas Jacobs, Lincoln; L. B. Goodrich, State Center, Ia.; Henry Frye, B. Goodrich, State Center, Ia.; Henry Frye, York, Neb.; Roberts Bros., and J. H. Granger, Ashiand, Neb.; L. B. Wilson, Creston, Ia.; W. J. McNaughton & Co., Cambridge, Neb.; M. M. Coad, Fremont; N. B. Judd, Dawson, Neb.; Berg & McClellan, Hastings; E. N. Sherill, Lexington; David Cushman, Lincoln; E. F. Black, Raymond; P. J. Cunningham, Lincoln; W. H. Sylvester, Grand Island; F. H. Beerup, Lincoln.

In the Speed Department. The entries in the speed department guarantee fine sport every afternoon. The sum of \$10,000 has been hung up in purses, and this fact has filled the stables with scores of well known western horses. The races will commence Tuesday afternoon and the track will be occupied thereafter every afternoon until the close of the fair. An effort was made to to this end Secretary Furnas telegraphed ner manager at Independence, ia. Mr. Doble telegraphed in answer that the little wonder was to trot at St. Paul on Wednesday and that he would never again put her on the track twice in the same week. The answer was somewhat disappointing to the management, but the lovers of fine racing sport need not stay away because they will not have an opportunity of seeing the fastest neede of horsefiesh on the track. The program as al-ready arranged will furnish them with ample

amusement every afternoon. Typewriters in Canada. Mr. Andrew S. Holland, one of the firm of Holland Bros., senate reporters, Ottawa, Can., called on Mr. E. H. Mayhew, manager for the Smith Premier Typewriter company at Lincoln, on his way to Sidney, Australia. Mr. Holiand at one time was a reporter on the Chicago News, and was also connected with the New York World, New York city. He is a gentleman of about 48 years, while one would take him to be no more than 30; is very bright and prepossessing, and one is instantly inspired with confidence in what he has to say. Mr. Holland at one time represented the Remington in Canada, but for the past two years he and his brother have been representing the Smith Premir Typewriter commany, and, by their wide and exten-ive acquaintance as reporters and type-writing men, they have succeeded in replac-ing nearly every other make of typewriters

with Smith Premier machines in the govern-ment offices of Canada.

This firm write for a large number of the teading shorthand journals of the country, and their articles are always spicy and interesting, which comes from the fact that they are always directly interested in this particular line of work, baving been some fifteen or lixteen years in the typewriter and recording business. and reporting business.

The gentleman who called on Mr. Mayhew predicts that the Smith Premier typewriter will reach a sale far in excess and count more operators of their machine than all the other typewriter concerns have reached to this day, and says all this will occur inside of two years more, and in fact says it is the

two years more, and in fact savs it is the standard typewriter of the world.

In company with Mr. Maylew, Mr. Holiand cailed on Prof. Lillibridge, Profs. Croan and Kingsley, and Profs. Roose and Saylor, and in his conversation with the gentlemen he several times expressed himself as very much surprised at the growth and development of this western country, about which he had so often heard such disparacing and uncomplimentary romarks. about which he had so often heard such dis-paraging and uncomplimentary remarks, and before leaving remarked that if he would sllow himself to be detained two or three days, as was requested of him, he feared that he would not reach his destination; that he would become so infatuated with the country that it would be hardly possible to

Heard in the Court Rooms A curious case made its appearance in the A curious case made its appearance in the district court this morning when S. S. Burtis filed a claim against a forty-acre tract of land west of the sait lake near this city. The land in question is advertised to be sold at sheriff's sale next. Tuesday to satisfy a judgment obtained by C. H. Marsh and others. Burtis alleges in a petition filed to-day that he holds a first mortgage against the premises for \$1,950, which was never filed, owing to the negligence of his attorney. He wants the court to issue an order per-

He wants the court to issue an order per-mitting him to share in the proceeds of the Thomas McGuire has sued the Lincoln Packing and Provision company for \$2,000 damages. Last winter he was employed by the company as an unskilled laborer and was set to work cleaning some complicated ma-chinery which he know nothing about. As a

result his hand was caught in the gearing and mangled so badly that it is useless Mrs. Jeanette Cheever asks the district court to relieve her from the bonds that unite her to her husband for life. She asserts that not only has ber husband neglected to give her a permanent home since their marriage over a year ago, compelling her to live in a covered wagon, but that he has fre-quently threatened to kill her.

Tribulations of a Publisher,

The Western Union Telegraph company today filed its answer in the case wherein the publisher of the Lincoln Daily Call asks the court for a perpetual order restraining that company from stopping the delivery of the Associated Press report. The telegraph company alleges that it is not engaged in the collection and dissemination of pays: that it collection and dissemination of news; that it is an interstate company and amenable only to the laws of congress and the courts of the to the laws of congress and the courts of the United States; that it in any way shares in the profits of the Associated Press. It also denies other allegations in the petition filed by the plaintiff. It claims that the plaintiff has not at all times been ready to comply with all regulations or to pay all reasonable or just demands; denies that the dispatches are necessary to the publication of the paper; denies that the dispatches compose that denies that the dispatches compose the greater part of the reading matter of the paper, and denies that the paper can't get news by other means.

Close Call for the Boy. A 12-year-old boy named James Packa was thrown from a garbage wagon at the Jones street dump about 4 o'clock yesterday afternoon and badly bruised about the head and shoulders. The team which he was driving became frightened at the cars and upset the wagon. The lad was taken to his home on the east bottoms by the police. Notice.

All members of the Bricklayers union will meet at their hall at 8:30 a. m., Monday, September 5, to take part in the Labor day parade. By order of the president.

get away, and he would be tempted to remain right here in Nebraska, the garden of DUN'S REVIEW OF THE WEEK

Business Prospects Better Than a Year Ago and All Branches Show an Increase.

FEARS OF CHOLERA DEPRESS PRICES

Money in Good Demand with an Ample Supply-Industries Producing More Than Ever Before-Bradstreet's Review -- Clearing House Figures.

NEW YORK, Sept. 2.-R. G. Dun & Co.'s weekly review of trade says: While industry and business were improving daily and prospects were brighter than ever, the sudden alarm about cholera came to cause some cessession. It is even said that buyer from the south who had departed for thi city, turned back because they were afraid of detention by quarantine here.

There is reason for the utmost precaution against importation of the disease which the city and national authorities are taking with creditable energy. But there is no ground for supposing that the cholera will gain foothold this season.

In all other respects business prospects ar clearly better than a year ago and nearly al accounts show actual increase in business Crop prospects are better, money is i greater demand, but ample supply every where and industries producing more than

ever patore.
Fear that exports may be curtailed by pes tilence in Europe, with causes previously as strong, has depressed the markets. When has dropped to 98% cents, the lowest since 1883, and recovered only to fall off 2 cents for the week. Corn has gropped 6% cents for the week with better western reports the week with better western reports. Cotton rose a shade, but has fallen to 71 cents again with sales of 600,000 bales. Oats have declined 1/2 cent pork 50 cents per barrel; lard 3/2 cents and hors 80 cents per 100 pounds and oil five eighths cent lower. The greater part of these changes came from the unnatural condition of the markets, for some time held up in soits of extraordinary stores in sight. up in spite of extraordinary stocks in sight Wheat receipts in four days were 4,852,29 oushels, but exports were only 963,415 bush els. Stocks of cotton on hand in this country equal two mouths' consumption and in Europe about three months' consumption and in Europe about three months' consumption of American. Current estimates of the coming crop are constantly rising. It has been evident that Europe will take less of our products this year than last, but pestignee there will not greatly diminish the need for fined or eighting. food or clothing.

Manufacturers Prosperous.

Manufacturers in this country have neve been in better condition on the whole that that which reports now indicate. All test tile manufacturers are producing more as consuming more material than ever, and the demand has rarely pressed so closely on the supply. Most woolen mills are running hight and day to meet orders, and cotton mills are crowded, while stocks of goods in

sight are phenominally low.

The, iron and steel industry is rapidly resuming full production, though some mills are held back by repairs. Demand for pig is very good, while mills are pushed for bar, plates, sheets and structural iron. It is enough to say of the woolen manufac-ture that sales at the three chief markets

since the middle of May have been 104,453,-000 pounds, against 83,000,000 last year; an increase of 25.8 per cent. Boot and shoe shipments reported by the Snoe and Leather Reporter show an increase of 5 per cent, and receipts at the western markets show an increase of 22 per cent for the week and 16 per cent for the year thus

Business is active at Omaha; satisfactory, with large receipts of cattle and grain, at kansas City, and strong at St. Louis, a general fall trade being assured. At Denver business is good, and throughout the northvest reports as to collections are very

favorable.

The business failures occurring throughout the country during the past seven days numbered for the United States 148 and for Canada twenty-eight, or a total of 166. For the corresponding week of last year the figures were 218, representing 197 failures in the United States and twenty in the Dominion of Canada.

NEW YORK STOCK MARKET.

Apprehensions in Regard to the Cholera Had a Demoralizing Effect on Prices. New YORK, Sept. 2.-Bradstreet says of the New York stock market: The principal factor in this week's speculation has been a disorganizing one. Apprehensions in regard to the cholers have dominated the situation. The tangible influence of interruption to the country export trade, with an accompanying derangement of foreign exchange, proves to be even more effective tuan what it hoped would be the remote danger of a visitation of the epidemic. The nervous feeling induced by this state of affairs began to display itself early in the week. Liquidation, especially in the manipulated securities which have been leading the advance of prices, began to appear on Monday and Tuesday and when on Wednes day it was announced that cases of the disease had appeared on a vessel arriving from Hamburg a general slump set in, which on Thursday almost attained the dignity of a small sized panic. Prices have suffered all around the list, although, as might have been expected, the principal declines were in se-curities in which artificial activity and strength had created an extended bull in strength had created an extended bull in-terest which it required but little pressure to disjodge. Considerable short sales had, of course, been pre-viously made in anticipation of such proceedings as well as on the belief that the firmer tendency of the money market would justify a decline. The covering of their contracts tended to arrest the fall of values, but, nevertheless, the situation remains a very undecided one, with the tenor of events in favor of the stock market bears. Friday's market showed a recovery in prices, the feature of which was buying by London. There was, however, little buillsh teeling left, and in the latter part of the day further declines were produced by reports of trouble between the Reading and Pennsylvania.

Apart from the influence in question, it might be claimed that another very import-

the correspondingly lower price.

ant element continues to enter with increas-ing force into the tendencies of speculation. Whether the hardening of money rates and the prospect of higher and closer loans dur-ing the autumn months would of itself have checked the manipulation and the support which has kept speculation up on a bulirsh tack is an open question. Such an idea has; however, been prevalent, and it is alleged that some of the operators, whose interests have been upon the long side of the market, had taken profits in anticipation of such an outcome. The steady decrease of the bank reserve, the outflow of money to the west

the indisposition of lenders to make extended engagements at the low rates that have been current and, above all, the renewal of a tendency to scrutinize collaterals for loans, and to reject an undue preservion of values which are regarded as inflated, point in such a direction.

CLEARING HOUSE STATEMENTS.

Omaha's Report is as Usual a Flattering One-Figures from Other Cities. NEW YORK, Sept. 2 -Bradstreet's table gives the clearing house returns for the week ending September 2, 1893, and the percentage of increase and decrease, as com pared with the corresponding week last year:

RRADSTREET'S REPORT.

Fruit Dealers Are the Only Ones So Far Affected by the Cholera Scare.

NEW YORK, Sept. 2.-Bradstreet's repor says: No reports of timidity of buyers, owing to the cholera scare, have been re ceived. At the east some effect is rumored with respect to the wholesale fruit trade, and importers of millinery, fancy goods notions, dry goods and other German products expect delay and fumigation of merchandise at this port, which points to higher prices, due to checked or damaged importations. There is some advance reported in prices of drugs. Threatened restriction of German and other European purchases of breadstuffs and provisions has depressed the prices of those staples in speculative markets. Wheat is depressed 1% cents, corn 2% cents and oats 1% cents per bushel, lard 17 cents per 100 pounds and mess pork 27% cents per 100 pounds. Cotton is depressed somewhat from the same cause, but with no material change in value. As indicated last week in this report, sugar is up \(^1\_3\) cent on raw and \(^1\_4\) cent on refined, with better demand. Restricted German supplies of beet sugar promise further advances. Live cattle, or small receipts at the coast, are firm, but hogs are off 5 cents per hundred weight. Crop ospects are said to be improved throughou the northwest, though the Minneapolis flour output decreased this week. Large ship nents of staple dry goods, clothing, shoes hats, millinery and hardware are going into the west. San Francisco has sent two more

carroes of barley to the United Kingdom.
Pig iron is selling more freely, but even closer prices at Chicago and some other points, though in some instances terms are kept private. Bar iron retains its recent firmness. Crop movements south are ex-pected to stimulate new business. Boston eports "the south" as buying more freely

ban a year ago.
Exports of wheat (including flour as Exports of wheat (including flour as wheat) from United States seaports, both coasts, this week, as reported to Bradstreet's, equal 3,241,050 bushels, against 4,606,820 bushels the week before and as compared with 5,441,560 bushels in the last week of August, 1891, with 1,576,000 bushels in 1890, 2,690,900 bushels in 1889, and with 2,831,000 bushels in that week of 1888. Montreal exported 296,776, bushels of wheat and treal exported 296,776 bushels of wheat and 32,860 barrels of flour this week.

Wool prices have touched bottom, dealers refusing concessions and manufacturees having secured ample stocks. Carpet wools are strengthened by choiera reports. Job-bers at the east side did as heavy a business during August as ever before and have lighter stocks. The milis are producing in excess of preceding records. Sales of print cloths continue to exceed the output, but the first surplus since June 1 was reported last week. Men's wear woolens are being ordered freely.

Mrs. L. R. Patton, Rockford, Itt., writes: 'From personal experience I can recommond DeWitt's Sarsaparilla, a cure for impure blood and general debility "

Courtesans Carve Each Other. Things have been pretty quiet down in the burnt district lately, but yesterday afternoon the spell was broken. A colored courtesan who goes by the name of Lizzie Payne was brutally assaulted with a butcher knife by May Allison, a white woman, who lives near Ninth and Capitol avenue. The women had a row about a "lover." First they exchanged words, then blows. The Allison woman saw she was getting the worst of it and, arming horself with the knife, struck Payne a terri-ble blow across the top of her head, cutting a deep gash fully six inches long. Both women were taken into custody by the po-lice. At the jail the colored woman's wounds were dressed and she was then locked up and held as complaining witness. May Allison was charged with assault with latent to kill.

### RESURVEYS WILL BE MADE

Grant County Citizens to Waive All Damages in Case of Changes.

FOSTER WILL QUARANTINE HIS FAMILY

One Phase of the Situation Not Relished by a Cabinet Officer-Must Take Their Chances with Other Passengers.

> WASHINGTON BUREAU OF THE BEE, 1 513 FOUNTEENTH STREET, WASHINGTON, D. C., Sept. 2.

Senator Paddock bad another protracted conference today at the Interior department bout the Nebraska resurvey. Assistant secretary Chandler informed him that the aw branch of the department insisted that o resurveys could be made until unanimous consent was received from all parties interested agreeing to waive damages in case of changes of lines. From Grant county all such consents except six have come in, and upon receipt of these the exterior lines of ne county will be run as promised Senator Paddock last week. The senator succeeded in having a sum of money set aside to meet he requirements of the other counties, to be expended as soon as consents were obtained. It will be necessary to have these before the repartment will order the duplication of

Will Quarantine His Family. Secretary Foster has a warm personal in erest in the cholers quarantine at New York. His wife and daughter, accompanied by the daughter of Secretary Rusk, sailed for New York two days ago from Liverpool on the City of New York of the Inman line. on the City of New York of the inman line. The secretary does not know whether the City of New York carries immigrants or not. If she does and there is any sign of cholera on board, the vessel is likely to be subjected to a quarantine delay. The new quarantine regulations do not apply to vessels now afloat, but a quarantine of any length may be declared against a vessel which shows signs of infection.

Secretary Foster said today that, of course

Secretary Foster said today that of course no attempt would be made to take Mrs. Fos-ter off the ship before all the treasury reguations and all the regulations of the health officer of New York had been complied with, nor will be attempt to approach the vessel in a tug until the inspection has been had. The Foster family will take their chances with the other passengers on the City of New York. The Fosters are expected to arrive in New York on the 7th. The secre-tary will go to New York to meet them. Secretary Foster's mail this morning was

filled with communications on the subject of cholera from volunteer correspond-ents. Many of them gave accounts of their experience in other cholera times. All of them were filled with advice. Many letters were directed against the Russian Jews who have been coming into this country in such numbers. Some of the suggestions were to stop their coming and re-turn them as assisted immigrants, to send them to South America, etc. This mail was given to the secretary this morning and then referred to the surgeon general. Hereafter it will be sent to Dr. Wyman without reference to the secretary.

Miscellaneous. The president, accompanied by Private Secretary Halford, left Washington at 7 o'clock this evening for Loon take, via Plattsburg. He spent part of the day in going over his letter of acceptance. He left it at the executive mansion to be given to the press Sunday night. The president expects to devote ten days to rest and recreation. He plans to return to Washington two weeks from today. On his way back he will run through New York state and make some speeches, as plauned for this week.

Up to date the only requests for quarters received by the Grand Army committee from Nebraska are as follows: Cummings post No. 103, Shelby, two comrades; Thorn-burg, twenty-seven; Clarks, fourteen; But-ler, 172; Burchard, four. All of these have een assigned to free quarters. P. S. H.

NEWS FOR THE ARMY. Complete List of Changes in the Regular

WASHINGTON, D. C., Sept. 2.-[Special Celegram to THE BEE. !-The following army orders were issued yesterday:

The order relieving Second Lieutenant George W. Martin, Eighteenth infantry, from duty at the infantry and cavalry school and directing him to join his regiment is re voked. Leave of absence for three days is granted Second Lieutenant John P. Haines, Third artillery. First Lieutenant Andrew S Rowan, Nineteenth infantry, is at his own request relieved from further duty under the Intercontinental railway commission and will proceed to join his company. The ex-tension of ordinary leave of absence granted First Lieutenant Charles C. Walcutt, jr., Third cavalry, (then second lieutenant, Eighth cavalry) June 23, is changed to leave of absence on surgeon's certificate of dis-ability to date from July 26, and is further extended as such to include August 25. Leave of absence for two months, to take effect on or about October 15, with permission to apply for an extension of two months is granted First Lieutenaut Walter H. Chat field, Fifth infantry.

Fate of a Former Kansas Man. ATCHISON, Kan., Sept. 2 .- | Special Telegram to THE BEE. |-Miss Avis Clark, a teacher in the public schools in Grand Junction, Colo., who has been spending her vacation bere, has been called to her home in Salt Lake City by a letter stating that her father, William Clark, is missing. Clark is engaged in the sheep business in Montana. His wife sent him \$1,000 a month ago, which he receipted for, but since that time has not been heard from. Four play is suspected. Clark formerly operated a store at Pardee,

In the Hotbed of Cholera Frank G. Carpenter in next Sunday's Ben gives a graphic description of the causes which in Russia have helped to give full sway to the destructive work of the greatest scourge that has ever cursed mankind in modern times. Throughout the dominions of the world's greatest autocrat there are plague spots where fifth and foul air daily hold high carnival. Don't miss this realistic letter in THE SUNDAY BEE.

Belgian Miners Entombed.

BRUSSELS, Sept. 2 .- A territic explosion of fire damp occured in the Agraffe coal mine in Hainault. Heavy coal falls blocked the galleries and entombed many of the miners.

Nearly all the men have been accounted for.

Some escaped uninjured. Twenty-five bodies have been recovered. Eight men were rescued alive though seriously injured.

Minister White Sails. NEW YORK, Sept. 2.-Hon. Andrew D. White, ex-minister to Germany and recently appointed minister plenipotentiary to Russia, left for his diplomatic post yesterday morning on the Hamburg-American packet steam er Augusta Victoria. He is accompanied by his wife and daughter.

Twenty-Two Thousand Afghans Killed. London, Sept. 2.—The News' Vienna cor-respondent says: It it reported from Merv that 22,000 Afghans were killed in the last battle by the revolting Hazaras

### TAKE WARNING!

NEGLECT NOT THE SIGNAL'S OF DANGER.

An Object Lesson Taught by the Indians.

If you are ailing, not exactly sick, but net feeling "just right," have a drowsy, dull feeling, bad taste in the mouth,

Let the Way Be Simple and the Remedy

variable appetite, occasional pains in the joints and muscles, and other signs of impending sickness, why not do as the Indian does-drive such symptoms out of the system by the judicious use of their vegetable remedy? Don't neglest such warning. That pain in your shoulder may de-

velop into rheumatism, and a month's scikness deprive you of the income of your toil. That furry tongue denotes your liver is out of order, and typhoid fever would easily take root in your system.

What could you do then? Think of your business, your income, and your family.

Seek safety as you would fly from cholera or smallpox. You are in danger if you neglect these warnings. They may pass off but the chances are against you, and even then the poison in only latent in your system.

Do not, however, put your trust in the numerous so-called 'sarsaparillas' with which the marfet is flooded.

Sarsaparilla bark is not a medicine, it is a flavor ing, nothing more. The action of many of these decections comes from mineral poisons they contain, such as mercury, arsenic, strychine, bismuth lodide of potasium, and the like, and any druggist vill tell you, if he tells you truly, that this is so. Kickapoo Indian Sagwa and other Kickapoo In dian medicines contain only the product of the field and forest, nature's own vegetable growth of roots, barks and herbs, and of necessity are free from all mineral poisons whatever, because the indians have no knowledge of them, depending wholly upon nature's laboratory for their resources ence, in preparing them.

Kickapoo Indian Sagwa. made by the In-dians from roots, barks and herbs of their own gathering and curing, is obtainable of any druggist at one dollar per bottle; six bottles for five dollars.

PREE Send three two cent stamps to pay postage, and we will mail you free a thrilling and interesting book of 175 pages, entitled "Life and Seenes Among the Klekapoo Indians." Tolls all about the Indians. Address HEALY & BIGELOW, Distributing Agents, 521 Grand Ave., New Haven, Conn.

# Ayer's Pills

Are better known and more generally used than any other cathartic. Sugar-coated, purely vegetable, and free from mercury or any other injurious drug, this is the ideal family medicine. Though prompt and energetic in their action, the use of these pills is attended with only the best results. Their effect is to strengthen and regulate the organic functions, being especially beneficial in the various derangements of the stomach, liver, and bowels.

## Ayer's Pills

are recommended by all the leading physicians and druggists, as the most prompt and effective remedy for biliousness, nausea, costiveness, indigestion, sluggishness of the liver, jaundice, drowsiness, pain in the side, and sick headache; also, to relieve celds, fevers, neuralgia, and rheumatism. They are taken with great benefit in chills and the diseases peculiar to the South. For travelers, whether by land or sea,

### Ayer's Pills are the best, and should never be

omitted in the outfit. To preserve their medicinal integrity in all climates, they are put up in bottles as well as boxes. "I have used Ayer's Pills in my

family for several years, and always found them to be a mild and excellent purgative, having a good effect on the liver. It is the best pill used." -Frank Spillman, Sulphur, Ky.
