## READY TO TAKE THE ENEMY

Ohio Republicans Open the Campaign on the Anniversary of Perry's Victory.

WHITELAW REID THE ORATOR OF THE DAY

He Shows up the Assertion of the Demo crats That Barrison is a Cold Man in its True Light-Historical Facts.

WOODSDALE ISLAND PARK, O., Sept. 10 .-The anniversary of Perry's victory on Lake Erie was chosen by the Ohio League of Republican Clubs to open the campaign in Ohio. Hon, Whitelaw Reid arrived in Cincinnati early this morning, and at 10 o'clock left for the park on a special train with Governor McKinley, ex-Governor Foraker, Hon. H. Clay Evans of Tennessee, Hon. Bellamy Storer, Hon. H. H. Houston of Kentuck?, Hon. J. A. Caldwell, and others. The speakers received an enthusiastic recep-

tion at the park.

Hon. Whiteiaw Reid was the first speaker introduced. He said a campaign opened by such an enthusiastic gathering as this could have but one ending in Ohio. Whenever the republican party of the state is thoroughly aroused, is thoroughly in touch with the younger and more progressive elements of the community and "moves upon the enemy's works," it always carries them. Mr. Reid puid a tribute to the character of Lewis D. Campell of the olden days, to Saimon P. Chase of Cincinnati, to Edwin M. Stanton of Studenville, to Tom Ewing and Tom Corwin, all Ohioans, who had done

tervice to their country.
"Take out these men and their history,"
said be, "and what is left of the soul-silrring
history of Ohio for the last third of a cen-

Referring to political subjects, he said "Our properts are just now in deadly trouble because they say the president is a cold man. Well, I have no doubt he often does cast a chill on them. His grandfather's hat also gave them trouble till they found it was not only a good fit, but the whole country was in The ice cart at the white house door will disappear in like manner from their cam paign literature when they discover that it quite suits the nation. Sixty-five millions of intelligent and self-respecting freemen want to have a president who does not gush, loes not slop over, does not play demagogue; who bears himself with the modest simplicity of a private citizen and yet with the dignity and decorum of the creat station to which they elevated nim; who measures his

which they elevated nim; who measures are words and seeps them."

Continuing Mr. Reid endorsed the provisions of the McKinley bill and concluded by predicting that after the campaign the republicans of Onio would be able, like Commodore Perry, to say: "We have met the enemy and they are ours." [Applause.]

Saloon Trust in Chicago. CHICAGO, Ill., Sept. 10. -A combine was formed yesterday between the breweries of Chicago by which they are to contribute jointly the sum of \$6,000,000 for the purchase of saloons throughout the city. The best paying establishments throughout the city are to be purchased and run in the interest of the trust. Six per cent bonds to the mount of \$6,000,000 secured by the plants of the companies in the combine are to be floated as a means of raising the necessary It is understood that Milwauke brewerles are to become involved in the deat

blocks blew his own brains out. Wright | Hawaii the information that Wilcox has su lost an arm in the Iron Mountain yards last winter and since then he has been leading a

ONE HUNDRED HOMES BURNED, Disastrous Conflagration in the Canadian

Village of Hedleyville, Quenec, Sept. 10.—No less than one hundred wooden buildings in the village of Healevville were burned last evening. The structures were entirely at the mercy of the flames until the French frigate Arethusa and H. M. S. Blake sent details to assist the pour people who occupied them in extinguishing the flames. The English and French sailors worked together in pulling down houses, barns and sheds but the fire cained upon them, and while houses escaped the are wanted to the debris was reduced to ashes on the houses escaped the fire while standing, ground. The sailors were much admired for their courage. Mapy were seen climbing houses all ablaze to fix hooks and grapplings to the upper parts, braving intense heat and suffering smoke and never retiring until they had accomplished their work.

A man named La France was badly injured by falling from a window and may die. Several satiors were severely burned while at work. The unfortunate sufferers are camped alongside their broken furniture. The children are crying for food and shelter, while their mothers are bewailing their los homes. The loss will be about \$89,000 with

NEARLY AS BIG AS THE MOON. Brilliant Meteor Flashes Across the Sky and

Is Seen at Boston, Boston, Mass., Sept. 10.—One of the brightest and largest meteors ever seen in

this vicinity sped across the northern sky at 10:39 o'clock last night. It was pear-shaped and its greatest apparent diameter was about half that of the moon. The course of the meteor started very near a great circle through the zenith and the North star, and a little more than half way from the horizon to Polaris. Thence its path was eastward and downward at an angle to the horizon of about sixty degrees. Apart from its size, the meteor was most brilliantly colored. There was a distinct nucleus of a dazzling white, oblong in shape, traveling on its longer axis. Around this was a blazing band of color, mostly deep blue, with a deep orange border. On the outside was a yellowish film, thin in front of the meteor but gradually thickening backward, until it made up most of the tail. There was a triangular dark space directly behind the cen-ter of the nucleus at the base of the conical

Ready for a Western Invasion. KANSAS CITY, Mo., Sept. 10 .- The execu tive committee of the Kansas and Missouri State Board of Health are in session in this city discussing the cho.era situation and providing a mutual arrangement for the prevention or control of the scourge should it appear in the west.

St. Louis, Mo., Sept. 10.—The health department of this city has appointed Dr. Mortiand as medical unspector, to be stated.

Mortiand as medical inspector, to be stationed at the relay depot at East St. Louis-to watch incoming trains and prevent persons infected with cholera or other con tagious diseases from entering this city. All trains from the east and all trains entering St. Louis from the north and south will be subject to his inspectious.

DETROIT, Mich., Sept. 10.-The twenty-day quarentine went into effect yesterday, and already sixty Italian and German immigrants are held in Windsor, Ont., across the river from here. They arrived late last night over the Grand Trunk road boung for western points over the Wabash. The Italians came from Gehoa on the Fulda, and the Germans came from Bremen on the Darmstadt. They had no quarantine certificates, and Inspector Mulkerson decided they could not enter the Luited States. They will be taken have to United States. They will be taken back to Niagara Falis by the ratirond company.

Revolutionists Won in Hawaii. VICTORIA, B. C., Sept. 10.-The French cruiser Du Bourdien reached Esquimault last night from Honoluiu. She brings from

The Coming Meeting of the Manufacturers and Consumers Association. The Page Soap company turned out 4.580 boxes of soap last month, the largest output for any one month since the factory was

The laboring men of the city have expressed themselves as very much pleased with the steer donated by the manufacturers on Labor day.

Denver will doubtless have a good hat facery, as the report in the Review has resulted in an inquiry regarding the feasibility of establishing such an industry in Denver on a large scale.

A number of Beatrice capitalists have just had completed a machine for the manufacture of the Huffman double strand barbed wire and will at once begin the extensive manufacture of the fencing. Their estab-lishment will be located in Beatrice. Five of the machines will be made, each with a capacity of five miles of wire per day.

The Omaha Compressed Yeast company city do not take hold of their goods as readily as they might. It would seem as if the retail grocers of the city, realizing the dull-ness in trade, would be only too anxious to aid in building up a local industry when it is conceded that ail Omaha needs to make trade lively is more manufacturing.

There is no reason why Omaha should not have a good hat factory. Other western cities are embarking in such enterprises and it has been proven that the business is profitable for the stockholders and of great help to the city. Omaha and the surround ing territory could easily support a factory that would employ fifty hatters the year round. That would mean tenants for fifty houses and an addition to the population of at least 150 people,

The Omaha Safe and Irou works has a large force of men at work on thirty-eight election booths for the city. This will make a total of eighty-eight booths made for the city by this company, which is enough to supply all the polling places. The same com-pany is also at work on 300 of G. Andreen's patent iron shutters for the Hammond Packing company at South Omana, besides almost as many more for the Cudahy Packing company. All told there are lifty men employed at good wages by the works, which shows the value of a factory to a city.

An organization has been effected by the farmers alliance with temporary headquar-ters at Bancroft, Nob., and with George Os-born as president, for the purpose of engaging in the manufacture of all kinds of far implements, at a cost to the consumer not to exceed 10 per cent above the actual cost of production. It will have a capital of \$1,000,000; work to begin as soon as \$100,000 shares stock are taken, shares to be \$50 each Mr. George Osborn of that place and J. L. Kid of Bancroft have been appointed a com-mittee on location. Both men left Wednesday on a prospecting tour and will probably locate on the Eikhorn river, near or below Waterloo, provided satisfactory terms for land can be had, as there are many natural advantage to had a start of the satisfactory terms. vantages to be derived from the place in the

way of land and water power. On Monday afternoon at 2 o'clock a meeting of the Manufacturers association will be held for the election of directors for the coming year. As the directors elect the president and other officers of the associapresident and other officers of the associa-tion, the meeting is an important one. A few members of the association have ex-pressed themselves as in favor of sus-pending the payment of dues until the money in the treasury, resulting from the exposition, is exhausted. It is doubtful, however if any such action, is referenced. however, if any such action is taken, as the majority of the business men composing the association will have too much good sense to do anything so foolish. At the time of the last exposition the officers of the association were handicapped in every way by the lack of funds. The expo-sition could never have been made a success under the circumstances had it not been for the liberality of the officers and directors who became personally responsible for the

Hawaii the information that Wilcor has succeeded in regaining his old position as leader of the government. The revolutionists are compromising with their opponents and obtaining power without recourse to arms.

NEBRASKA FACTORY NOTES.

Pforts and in order to conduct such an enterpress there will be need of a large amount of ready money. It would be far better that now, while the money is in the treasury, as ide \$1,000, or more if it is in the treasury, and directing the officers to deposit the secondary of the proposition of the pacific const.

In Washington there was some improvement in August. The condition of crops is as follows: Oats, 78.9; rye, 88.4; barley, 87.4; buckwheat, 89; potatoes, 74.8; tooacco,

money in the bank where it will draw interext and spend it for no other purpose than exposition purposes. If this be done, and men with equal ability are placed in charge, an exposition can be planned and carried out that will place \$10,000 in the treasury of the association. This would place the association in a position where they could buy or build a factory hall or exposition building which they could use for their own expositions and lease for the use of large conven tions. Nothing can do more to introduce Nebraska goods to the trade than state ex positions, and the larger and more success ful these expositions can be made the more influence they will have,

WEATHER C.O. BULLETIN.

Statistics Sent Out by the Department of

Agriculture. WASHINGTON, D. C., Sept. 10 .- The September average of the condition of winter and spring wheat as harvested is 85.3 per cent. The August average for spring wheat was 87.3 and July condition of wheat 89.6. September condition of corn 79.5. The statistician of the Department of Agriculture reports a decline in the September condition of corn from 79.5 to 72.5 in August.

The change is slight in the surplus corn states, except in-Kansas. The present condition is 79 in Ohio; 75 in Indiana; 70 in Illinois; 78 in Iowa; 82 in Missouri; 70 in Kansas and 76 in Nebraska. In other states the average of condition is everywhere higher than the natural average, except in Michigan and Wisconsin. In comparison with September reports of the past ten years only three were lower, 70.1 in 1890; 72.3 in 1887; 76.6 in 1886. The present figures are between 5 and 6 points below the average of ten previous years. The crop is well grown and maturing rapidly, without frost as yet in the eastern states. In the middle states drouth has injured corn and especially New Jersey and Pennsylvania, reducing its condi-5 points in each, white in New York it is only depressed from 80 to 79. In Delaware the last planted corn has been injured. In Maryland drouth has caused a reduction, while from South Carolina around to Texas high condition is well maintained. no figures failing to 9.7, except those of Mississippi and Florida. Rain in this region has interfered with cultivation, and in some districts rotting of the ears is reported. In Texas and Arkansas good yields are assured and a fair crop is made in Tennessee.

Corn has improved in central Onio and de-clined from drouth in the southern country. Decided improvement is reported in Indiana. There has been injury from drouth in Michi-gan, Illinois and Kansas and in less degree in Missouri and Iowa. The crop is late throughout the northwest. No injury from frost is reported.

The September average on condition of winter and spring wheat as harvested is 85.3. The August average for spring wheat as harvested was 87.3, and the July condition of winter wheat was 89.6. The average decline since previous reports exceeds three points. In the preceding years the condition was lower in 1883, 1885, 1887, 1888 and 1890. The average of ten years is 90. In the midule states the quality is medium. Rust is reported to some extent. In the south the berry was generally very plump when har-vested, but has been damaged somewhat by prevailing rains. The yield of Illinois wheat has generally met the expectation, and is good in southern Indiana, but disappointing in some districts of the state of Ohio. The fine weather of June produced a large growth of straw in Michigan, while later conditions resulted in a small and shrunken berry. The yield in southern and western Missouri was somewhat better than was expected, though it was disappoint-ing in other sections. Quality is excellent the liberality of the officers and directors who became personally responsible for the necessary expenses of the exposition. Next year every one will be in favor of another exposition which will eclipse all previous

79.9. This is a heavy reduction in every thing except rye and barlow Michigan's Report. LANSING, Mich., Sept. 10.-The Michigan

prop report for September was issued by the recretary of state today. It shows a total yield of wheat in the state of 23,500,000 bushels. It is thought to be of poor quality. Oats will be above the average crop. Pots oes promise 70 per cent of an average crop, The peach crop will be 61 per cent of an

ESCAPED FROM QUARANTINE.

Omaha People Return from Europe, Glad to Get Home. Omaha people who have been summering abroad are returning by almost every train. among the first to get back last week being Mme. Wallace-Carey and Mr. Carey of the S. P. Morse Dry Goods company. Mme. Wallace and her husband arrived last Saturday by the Umbria and were only detained in quarantine twelve hours, the health officer not finding any sickness on board.

Mr. and Mrs. Carey spent the summer in Paris, Trouville and Longon.

Continental in Paris, they saw Mr. and Mrs. Cudaby, Mr. Paxton, Mr. K. C. Barton, Mrs. H. S. Rollins. While in London, Mme. Wallace saw a number of Omaha people, who were hurrying home to avoid the dreaded Asiatic disease. Mme. Wailace's experiences in quarantine were very humorous, notwithstanding that the passes gers on the Umbria were almost panie stricken when the steamer crossed the bar and the passengers received the New York papers. For a time things looked particularly serious for the Umbria people, but after the baggage was disin-fected the health officer permitted the pas-sengers to land, much to their supreme de-

"You can have no idea," Mrs. Waltace said, "now funereal it was in New York harbor, with the Normannia, the Rugia and the other afflicted vessels lying at anchor. floating the yellow flar. It was Providence, I think, which induced Mr. Carey to select the Umbria, for friends on the Normannii were anxious for us to change. But we didn't, and here we are in Omaha and Mr. and Mrs. Webster and Mr. Paxton are still

Produce it Before Leaving Home. Three years ago, while I was visiting relatives at Higginsville, Mo., I was suddenly taken with colic and severe pains in the stomach. My relatives sent to the doctor for medicine, and he sent me a pottle of Chamberlain's Colic, Cholera and Diarrhoga temedy, telling the pearer that if that medicine did not cure me he could not prescribe snything that would. I used it and was immediately relieved.—HENRY A. THOFERN.

Mrs, Mantell Wants a Divorce. NEW YORK, Sept. 10 .- Margaret A. Man tell, whose stage name is Marie S. Sheldon, moved yesterday before Justice Beach of the supreme court, through Howe & Hummell, for a counsel fee and alimony of \$100 a week pending her suit for absolute divorce from Robert B. Mantell.

Knocked Out in Thirteen Rounds. PITTSBURG, Pa., Sept. 10 .- Eddie Gibbons of Jersey City and Jack Burke of McKeesport, middleweights, fought thirteen rounds at Bull Ruo, near McKeesport, for \$125 a side. Burse won easily and Gibbons was terribly punished.

A Model American. New York Tribune.

The death of Daniel Dougherty brings sorrow to a wide circle. A brilliant tawyer, a polished and engaging orator, the possessor of social gifts which made him welcome in any company, a fine gentleman of the old school, he leaves a place which will no readily be filled.
