Educating the Deaf. The silent school, which the state has provided for the education of the deaf, opens Wednesday. The damage done by the recent fire cannot be repaired fully, but work has been pushed with such vicor, and the means at hand so judiclously used in temporary provisions, that the school will not be crippled or the comfort of the populs lessened. The laundry is located temporarily in the basement of the printing office. The rnined walls of the laundry building have been restored to the first story, a rooi placed over it, and it will be utilized. In other respects the buildings have been put in such condition that the pupils will suffer no discomfort or inconvenience from the fire

The improvements planned for the vaca tion time have progressed well, and the returning teachers and publis will find many pleasing changes to offset the damage wrought by the blaze. The school house has been supplied with electric bells and speaking tubes, the blackboards have been re-slated, and the paint and scrub brushes have done good work.

There will be few changes in the corps

teachers. Miss Kutie Stevenson will not reinrn, ill health preventing. A new in-structor has been imported from the state institution at Little Rock, Ark., Prof. Bright, who is said to be rightly named, and there is every reason to believe that he will prove a valuable addition.

County Taxes. At the meeting of the supervisors vesterdry some time was devoted to talking up the matter of taxes, although no official action was taken as the school tax levy was still undisposed of. County Attorney Organ stated to the board that he had not had the time to examine the legal points brought forward by Attornevs Ware and Stewart, and that he could not get his opinion ready to be submitted before Tuesday morning In all particulars but this, however, a tax levy resolution was put in shape ready for formal adoption as soon as the county after ney is heard from. The levy is, as follows: State fund, 2 mills; county and poor funds, 4 mills; bridge fund, 2 mills; school fund, 1 mills; brane fund, 1 is mills; extinction of courthouse and juit bonds, 215 mills; soldiers' relief fund, one-fourth of 1 mill. The following certified estimate of City Cierk A. J. Stephenson with reference to the amount required to carry on the city gov-ernment was pigeonholed in the same way: General fund, 10 m lis; bond and loan funds 2 mils; intersection paying and crading funds, 2 mils; intersection sewer fund, 1 mil; general sewer fund, 1 mil; ilbrary fund, 1 mil; park fund, 1 mil; water fund, 5 mils; funded deet, 1 mil; total, 24 mils.

Bort in a Smash-Up.

Mrs. Stueve, who lives in Lewis township. a short distance east of the school for the deaf, was badly burt Sunday evening. She was driving along the road a little way from the institution when a couple of boys who work at Arnold's dairy ran into the rear of her buggy in the darkness, and the collisio resulted in a general smash-up. The wheels were broken off from the ven cle and the bex was hurled to the ground. Mrs. Sineve received a terrible blow about the abdomen. She was picked up and carried home. The injuries were found to be of a very serious nature, although possibly not fatal. It is feared that she has been injured internally, and although she is now doing as well as could be expected, a relapse is by no means

THE OMAHA BEE NEWS FROM COUNCIL BLUFFS

True Love Finds a Way to Get a Widow Out of a Hospital.

MRS. WESLEY GOES WITH HER ADORER

Singular Complications That Bave Come Up in Connection with a Patient at the Woman's Christian Associ-

ation Hospital.

Mention was made in Tax BEE several days ago of a romance at the Woman's Christian Association hospital which had been nipped in the bud by the action of the management of the bospital in forbidding the man in the case from entering the establishment. The man was C. R. Epperson, a well known traveling man of the city, and the woman was Mrs. May Wesley, who has been taking treatment at the hospital for the last three months. Yesterday a new chapter in the affair came to light, Supervisors Graham and Black went to the hospital to look up the case and find if any of the charges which were made by Mr. Epperson against the ladies of the association were true, and whon they arrived they searned that Mrs. Wesley had disappeared. She was last seen at the hospital Friday afternoon, when she lefe to go up town to visit a dentist, Yesterday afternoon a note was delivered at the hospital by Mr. Epperson, bearing the signature of Mrs. Wesley and stating that she had decided to change her place of abode, as Mr. Epperson had found a place where she could be kept more cheaply. She thanked the ladies of the association for doing a great many kindnesses to her that were not laid down in the contract and

hospital be delivered to the bearer. The trouble between Epperson and Mrs. Wilson, manager of the hospital, commenced about two weeks ago, when it was learned that Epperson was in the habit of entering the house without knocking and going to the room occupied by Mrs. Wesley. He was at once told that this could not happen again, and he set about trying to find another stopping place for his mamorats. Upon finding a place, he went before the super visors, as stated before, and asked the board to order her moved, as the charges for her care at the new place would be only \$3.50 a week, instead of \$5, as at the hospital. The supervisors declined to interfere, but said that if Mr. Epperson wanted her kept anywhere except at the place already designated be would have to support her himself. Epperson apparently decided to act upon the suggestion.
The woman has been cared for at the ex-

pease of the county, so that her departure is ot a matter for very much regret from s financial standpoint

COUNCIL PROCEEDINGS.

The Prodigal Globe Wants to Eat 1 Fatted Calf.

The city council met last evening with the mayor and a full board of aldermen present, and transacted a large amount of routine

Mayor Lawrence notified the council that he had appointed Alderman Mayne chairman of the committee on police and health, and member of the fire committee, the positions occupied by his predecessor, the rate Alderman Brown. He also read a communication in which he recommended that an amendment be made to the rules, by which a new committee should be instituted, the committee on sewers and Indian creek. Alderman Smith thereupon gave notice that at the next meeting he would make out an amendment to the rules embodying the pro posed change.

A resolution was presented authorizing the clerk to advertise for bids for paving, with brick certain portions of Thirteenth avenue, Sixth street, Teath avenue, First avenue and Eleventh avenue. An ordinance accepting the dedication of

Rice's South Avenue subdivision was passed. An ordinance establishing the grade on Washington avenue from Benton to Frank

of the provisions was that all brick used in paving must by made in Council Bluffs. This clause was taken exception to by Alder man Smith, who thought that the Counci Bluffs brickmakers might take advantage of the opportunity afforded them of doing a little monopoly business and raise the prices. The objectionable clause was stricken out nd the specifications were adopted.

A petition from about half of the property owners on Fourth avenue between highth and Twelfth streets, asking that that por tion of the avenue be paved with brick, was

G. A. Holmes appeared before the council
as attorney for the Globo with reference to its action in refusing to allow that paper its share of the city printing. He thought that democratic citizens should not be compelled o take a paper that was bostile to their po litical views in order to find out what was being done in official circles. His client had said a great many savare things about the but as a paper it had a perfect right to do so. Most of the aldermen had been elected not as republicans or democrars, but as independents, and he thought politics ought to be forgotten in this particular. At his request the matter was referred to the committee of the whole for the par pose of seeing if some satisfactory arrangement could not be made.

A contract for grading was awarded to John Conners, his bid being the lowest. Hiss for furnishing 1,000 feet of fire hose were opened from the New York Plumbing company, E. B. Preston, Harl & Thompson of Akron, O. Chicago Fire Hose company Gutta Percha Manufacturing company, and the Cornelius Callahan company of Boston. Each company had its representative on the field and over twenty samples were pre sented. The matter was referred to the committee of the whole and will be brought up at a meeting this morning at 9 o'clock The council then adjourned and immediately

reconvened as a Board of Health.

City Physrian Jennings recommended that some steps be taken toward compelling property owners to desist from throwing refuse into the streets and alleys. Most of the alleys and many of the streets were in a fifthy condition, although the city's health record was highly satisfactory. He recommended that property owners be allowed to keep covered boxes or barrels in the alleys as receptacles for garbage and that the receptacles be emptied by the garbage master as often as necessary. He suggested that cach policeman be empowered to keep watch of the streets and alleys on his beat and to arrest any who persist in emptying refuse into the streets or alloys, or fail to clean up within twenty-four or forty-eight hours after being ordered by him to do so.

Adderman Van Brunt moved that a com-mittee of three be appointed to draft an ordinance to meet the necessities of the case The motion was carried and the judiciary ommittee of the council was appointed as

Dr. Jennings further recommended that the burnal permit fee of 50 cents be done away with, and that a stricter compliance with the law be demanded from the under takets, who generally do not take out buris permits until the last day of the month while the funeral of the corpse in question may have taken place carly in the month. After the Board of Health had acjourned the council reconvened and voted to abolish

Almost a Lockout.

The conflict between labor and capital has struck the boys to the surpliced choir at St. Paul's Emscopal cathedral, and as a consequence the singing on Sunday night lacked something of its usual vim. A few days ago a choir boys union was organized and the members of the choir were put through various degrees by the two large boys in a way that inside their young hair stand on end. The strike was the next thing to be put on foot, and bunday evening was the

time set for the lockout. The business was transacted with so much secreev that it was not until the time for the evening service rolled around that the time state of affairs became known. Then it was discovered that the two large boys who had taken so active a part in organizing the union had prevailed upon three of the smaller boys to walk out with them. The rest went back on the union at the last minute and decided to stay, There are places for five new bors in St. Paul's cheir this week, and no unionists are

SOUTH OMAHA. Interesting Session of the City Council-Report of the Expert Accountant. The city council met last evening. President Walters was in the chair, Mayor Miller being confined to his home byiliness,

The report of J. J. Points, the expert ac countant, who has made a thorough inspection of the city's books in the treasurer's office, was read. The report was a very lengthy one. The report showed ex-Treas-urar Hunt to be indebted to the city in the sum of 532, and ex-Treasurer Greary \$141. He also found that the city was indebted to Treasurer Hoctor in the sum of \$127.77, due him as fees. The indebtedness of the two ex-treasurers is attributable to clerical errors, and when those two gentlemen went out of office it was not discovered. The expert's report was referred to the attorney and tinance committee, to report at as early a date as possible.

The request of John Frey for a transfer of

his saloon license from Twenty-fifth street to 2603 N street was granted. The committee on fire and water was instructed to purchase 300 feet of two-ply cotton hose and 300 feet of double jacket The property owners were given permis-

sion to grade Twenty-first street, from J to K streets, at their own expense, under the supervision of the city's engineer. Chief Smlth reported that the relocation of the following fire plugs would be beneficial to the city's interests: One at Thirty-third and H streets, one on Q street, 400 feet west of Thirty-third street, and one at H street and Boulevard. The chief amended his report to include only the plug at Thirty-third and Q streets. The report was ordered

On ordinance was introduced and referred ordering a sidewalk laid on the west side of Twenty-fifth street, from E to D streets, and on the south side of D street, from Twentyfourth to Twerty-fifth streets. Also an ordinance ordering the alley from Twentieth to Twenty-first streets, between L and M streets, graded and instructing the commit-tee on streets to advertise for bids. The Twenty-fourth street paving muddle

was revived by the presentation of a peti-tion. The petitioners said they were perfeetly satisfied with the pavement laid on Twenty-fourth street by the Stradamant company, and requested the council to take steps to have the company complete the paving of the street from J street north to A street. The petition was signed by L. M. Anderson, Schlitz Brewing company, George W. Boyer, South Omaha Land company, estate of J. J. Josiva and twelve others, representing 1,885 feet frontage out of a total of about 3,000 feet on the street north from J street. The street was passed.

Specifications for paving were read. One petition was referred to the city engineer and committee on streets.

Work of a Burgiar. The festive burglar has again made known

his presence in South Omaha, and took ad vantage of the absence of F. A. Broadwell from home and entered the house by way of the front door with the aid of a skeletor key. The burglar went through the housfrom top to bottom, completely ransacking it, but carried away only a small sum o money, disdaining to take a valuable re colver and any clothes, of which there was clew, but the robbery was undoubtedly th work of some one acquainted with Mr. Broadwell's movements and the premises.

Stopping a Dangerous Sport. The police are determined to put a stop to the practice of small boys boarding and lumping from moving motor trains. Sunday night Officer Thomas arrested Charles Davis and William Piper, two boys about 10 years of age, whose parents reside at Eighteenth and M streets. The boys were stealing a ride upon the street cars and jumped off while the motor was running at a fast rate of speed. Judge Fowler gave the boys a severe ecture and discharged them with a warning neuer to repeat the offence.
