Omaha	's Jobt	ing Trade I Pace.	Keeps 1	Up a Lively
FRUIT	AND	VEGETABL	E CRO	P SHORT
	y Ray	etail Trade oldly—Some er of People In the C	Gain Emple	in the

After an active summer's business there were those among the jobbers who looked for some decrease in the volume of trade during the present month. It did not appear bardly possible that the demand for all classes of merchandise in a jobbing way would keep up its midsummer pace. So far, nowever, those jobbers who were anticipating a decrease have been, for the most part, happily disappointed. Everything is moving in a most satisfactory manner in jobbing circles and complaints from that source are unheard of.

Dealers in dry goods, hardware, boots and shoes, etc., say that business is good because there is plenty of money in the country. Consumers want the goods and they have the money to pay for them, and they indulge themselves to a greater extent in what might be termed the luxuries, thus increasing the demand for the better grades of goods. Dry goods jobbers say there has been a good de-mand for heavy flannels and other winter

goods. Grocery jobbers have another reason for the good trade which they are experiencing in addition to money being plenty in the country. The failure of the fruit and vegetable crop leaves the people with only corn and wheat, which, though very handy to turn into cash, becomes rather monotonous as a steady bill of fare. Accordingly there is an enormous demand for all kinds of canned fruits and vegetables, dried fraits, cereal goods and in fact for everything that cereal goods and in fact for everything that would naturally help make up for a lack of fresh fruits and vegetables. Prices in these lines are firm and there is no prospect of a decrease in the demand until another sum-mer season rolls around. For these reasons jobbers of greceries are invariably predict ing the continuance of good trade through the present year at least.

Retail Trade,

As the jobbing trade depends entirely upon the retail trade, it is hardly neccessary to a d that ousiness in a retail way in the country is very satisfactory, as otherwise it would be impossible to report the jobbing trade as above. The large crop of Nebraska's staple farm products last year, together with a fair crop the present season, has placed the farmers in very easy circumstances finan-cially, and they are buying freely of the country merchants and paying with reasonable promptness. The retail trade in Omaha continues quiet,

with no immediate prospect of any very great Improvement. There is, however, some rea-ton for anticipating some improvement. There is more work being done in the way of public improvements, and there has been a little more activity noticeable in the building Taking the city as a whole, there trades. are probably a good many more people em-ployed than there were a month or six weeks 120. This would naturally make some dif-ference to the retail trade. The only quest on is as to whether enough more men have been given work to make any very decided improvement in trade.

Manufacturing Interests.

0

Business with all those manufacturers who job goods out through the country is very satisfactory and the majority of the Inctories are quite busy. As a rule the man-stacturers are anticipating a good business during the present fail and the coming winter. They will make a strong effort to in-crease the size of their business and if they can see their way clear many of them will increase their plants. Several firms have miready announced that they are considering the advisability of putting in more machin try. This will as a matter of course necessi Tate the employment of more factory hands which would be of great help to the retail trade. The manufacturers lay great streas upon the home patronage movement and say that if the people wast factories in the city all they have got to do is to buy their product and the manufac-

All the Sca'pers Were Gunning for Leopold Bloom Yesterday. BUT THEY FAILED TO TAKE HIS SCALP Aside from the Bloom Episode All the Trading Was Very Dull and Prices Reached the Bottom Figures

for the Day. CHICAGO, III., Sept. 17 .- The scalping crowd practically all going gunning for one mancopold Bloom-was the spectacle afforded today on 'change. They were working on the theory that the 500,000 or 6 0,000 bushels bought yesteriny by Rumsey & Lightner for Bloom was almost sure to come upon the market if it remained weak, and they were inclined, so confident were they, to anticipate and help the realization of their belief. The scalpers were not quite certain whether \$00,000 bushels or so of wheat which came through Counselman & Day, was or was not part of the

Bloom line they had been looking for. Aside from the Blocm episode all the mar kets were very dull and prices tonight were at the bottom figures for the day. The declines amount to be in wheat, be in corn, oats from he to he, hard the for January and ribs for the same month 5c. The feeling was in sharp contrast with the temper which prevalled at the close yesterday. Then there was a good demand and appearance of strength; today there was little inquiry, free selling and extreme weakness. Cables were easy. The estimates of Beer-

bolm telegraphed vesterday that the world's wheat supply was 18,000,000 bu. in excess of its wants, tended to discourage holders. The longs began to liquidate and as there was no demand, prices were steadily reduced and showed very little rallying power. As the wheat traders have in some measure been depending upon the damage to corn to help the rice of their specialty, the absence of further frost was a weakening factor regarding wheat

as well as corn. Heavy local receipts also continued, as they have some time back, to exercise a dispiriting influence. It was a scalping market in corn most of the

It was a scalping market in corn most of the session. It was largely a local market also, as the country was doing but little except sending in conflicting rumors. A few of the private wire houses had buillsh news. One special corresondent wired that the frost of the 14th did great damage to corn on the line of the Northwestern railroad through Nebraska and advised grain men to take a trip and see for themselves. Other private advices were equally bearlsh, asying that frost did no damage and that with the better weather indicated for the month the crop is as good as saved. The Price Current comment was a little mixed. It reported little damage but suit that any hard frost in September will give a great quantity of soft corn. The movement continues heavy to this market. The outsmarket was narrow and dull, ruling weak through symmathy with corn. There was considerable changing from October to May 32c d. fforence. The provision trade was a tame affair, weak in sympathy with corn and influenced by the fine weather. Wright was reported to be doing what he could to support prices, with the packing interests for the most part aparently inclined to take a different view. Treights was reported to Bart aparently inclined to take a different view.

Freights were rather quiet Rates to Buf-lo remained at 2540 for wheat and 2540 close

Monday's estimates are: Wheat, 510 cars; corn. 465 cars; oats. 30) cars; hogs, 31,010 head. The receipts estimated for hogs for the entire

Traders' Talk.

CHICAGO, III., Sept. 15.-Counselman & Day to Cockrell Bros, Commission Co.: Wheat was very dull and fluetuated within narrow limits, closing be lower. The immediate cau of the decline was the unloading of abo 591,000 bushels December by a local specul tor who believed wheat to be low enour for a sa e investment, but who apparently b came discouraged by decreased weekly e ports and the prospect of another large i crease in the visible supply figured Monday. The prospect of 42,600, v sible for the spring wheat moveme vible for the spring wheat movement has fairly commenced to move is the depress-ing influence. Corn dealined far and closed weak on fine weather and prospect of in-creased receipts next week. Shippers from Missouri river points reported a scarcity of cars to move the amounts of offerings, and local operators anticipated considerable liqui-dation of October corn next week boardt for the southwest on the recent frost scare. Oats need of the with orbit racin the scire basis the southwest on the recent frost scare. Oats eased off is with other grain with a fair busi-ness in cush lots at the decline. We should regard the whole list of provisions as a good purchase for a turn except for the speculative lines of October. Land and ribs held at high prices, the liquidation of which would un-doubtedly depress other product, though in considerably less propartion. Considerably less proportion. CHICAGO, Ill., Sept. 1.—Kennett, Hopkins & Co. to S. A. McWhorter: In wheat nothing of interest has occurred today. Early in the ses-sion local bears were impressed with the im-portance of compelling abig liebrew trader to drop 5.0,000 bu, bought by him yesterday. They hammered the market pretty industriously for a couple of hours, but without apparent success. It is many years since a crop was marketed so freely as the present oue and the trade is beginning to realize that there is going to be a letup before liberal receipts caused many timit holders to liberal receipts caused many timid holders to sell out with the expectation of buying cheaper next week. Though there is doubt in the minds of many as to how seriously the corn crop has been damaged by frost, all admit that it has made no per-

grows wearisome at times. The history of the last three days outht to be useful in opening the eves of philosophers who look to No careful observer doubts that the influence of the European epidemic on general trade and finance will be depressing in many ways. Such results might have been, and were pre-dicted with the progress of the plaque, two months or more act. But to take this week's convulsion in prices seriously, as the reflec-tion of anything but venures of more or less unscriptions traders, would be to show great act of insight into Wall street's recent colour failers that the observe as as as calm as if children has inever been here. Prices channed the changes being as was natural, which is an upward direction. The following are the coosing guotations for the loading stocks on the New York Stock ex-tendence today: 47 cows...

 MONTANA CATTLE.

241 cows. ... 1034 2 40 13 bulls ... 1452 1 00

241 cows. ...1034 2.40 Is bulls...1452 1.00 Hoos.—The hog market has been a "sway back" again this week-strong at both ends and weak in the middle. Aside from the im-proved demand for heavy hogs for the Mexi-can trade ho new feature have been added to the trade the past week. With rather inboral receipts during the fore part of the week there was a drop of about 15c, but with re-duces supplies during the latter half this de-cline was allowst entirely regained and the market for the week closes strong with prices in very near last Saturday's notches. The run of hogs was nearly 30 per cent In very near last Saturday's notches. The run of hogs was nearly 3) per cent lighter than that of last Saturday, and the quality about the poorest of the week. Nearly all the buyers wanted hogs, and with only a small supply and favorable reports from east-ern markets, he trade was briss from start to bush the original supply and the trade was briss from start to be about the point of the start to be about the start of the start to be about to be about the start to be about to be about the start to be about to be about to be about to be about t orn markets the trade was brisk from start to faish with prices ruling at from 5e to 1 c higher than Friday. Extreme sales of very common light mixed to very good heavy hogs were at from 55.55 to 55.50, with the bulk of the fair to good hogs of all weights at from 55.15 to 55.20 Fri-day, and at from 55.25 to 55.25 Last Saturday. The general average of prices paid was 55.19 for against \$1.25 Friday and 55.25 [ast Saturday. The general average of prices paid was 55.19 for day. Representative sales:

BLOODY INDLAN POLITICS.

Another Shooting Scrape Growing out of the Cnoctaw Nation Traubles.

PARIS, Tex., Sept. 17.-The political troubles in the Choctaw nation resulted in a shooting scrape at Tshhina, I. T., last night At the election in August two Jacason men attempted to vote there, but were forced to leave by the Jones men and given rough treatment. This caused bad feeling. Yes-terday afternoon Judge A. W. Duges met one of the men and began to remonstrate with him in a very vigorous manner. The man ran and Dukes fired on nim breaking one of his legs. A white man took the man in his house and cared for him. During the wight a large heavy of armed money were seen night a large body of armed men were seen roing in the direction of the home of the other Indian and it was feared that they meant mischlef. As he lived several miles from a railroad nothing can be heard from

Wasmington, D. C., Sept. 17. - A message from Iudian Agent Bennett of the Choctaw nation, dated Thursday, states that the situation there is critical, that hundreds of Jones' men, heavily armed, had appeared that afternoon and demanded the surrender of the prisoners, which was refused. Two hun-dred Jones men congregated two miles south in command of Green McCurkine. They expressed dissatisfaction with the peace agreement and declared a determination not to abide by the same. Unless the force dis-bands tomorrow he will have to appeal to the military for aid.

Thos, E. Craig, editor and publisher of the New Haven (Mo.) Notes, says: "I have uset Chamberlain's Colic, Cholera and Diarrhora Remedy with great satisfaction for the ailments of my children. For sale by druggists.

Custom House Receipts.

Following are the receipts at the Omaha custom house for the week ending September 17: Fourteen cases of rough shells for Kilpatrick-Koch & Co ; thirty-five cases whisky and wines for the Alto club, Sait Lake; one case of bulbs for C. Risse: twe carloads of tes for Paxton & Gallagher; one car of toa for Siegfried & Brandenstein; one carload of tin plate for i.ee-Clarke-Anoreesen Hardware company; three cases of earthenware for W. A. Maurer; four crates of earth-enware for Gatch & Lauman.

and larger factories. The only way to solve the question of dull times in Omaha retail trade is to increase the manufacturing inter-ests of the city and thus furnish more work for laboring people.

AS DUN SEES IT.

Omaha's Local Trade Carefully Reviewed

by an Expert. "The cholera scare has pushed sugar up and possibly stimulated trade in that article, but aside from this the wholesale grocery trade goes on better than ever with collections fairly good and prospects for the fall and winter trade as bright as could be wished. The speaker was W. H. Roberson, the Omaha manager of R. G. Dun & Co.'s mer cantile agency, and then he dropped the fol additional observations regarding local trade: "The dry goods houses continue to be

crowded with orders. The boot and shoe men have a better trade than last week. In hard ware circles everybody is busy, though the dealers in heavy bardware say their city trade is not so good and collections are slower than last mouth. In leather and findings the fail trade is well on and brisk as could be expected. Drugs are in good de-mand, especially for the country trade, and hats and caps, clothing, harness and millinery wholesalets are in excellent spirits Lumber trade is quite as good as last weet and batter than a year ago, but the orders are mainly from the country. The city trade is not improved. Liquor dealers, both wholesale and retail, complain of dull tradand the cool nights of September are reducing the consumption of beer.

"I am sorry to say that retail trade in the city continues very duil. Exceeding in boots and shoes the season has been excep tionally hard on the smalle, retailers. are keeping pretty close to however, as a rule and are than usually careful not to buy. Nothing can resuscitate shore more this branch of the city's commerce excep' an in crease in the number of wage-employing in stitutions.

"Real estate is simply flat so far as sales are concerned, though what are called 'snams' on the street are not often offered, and when offered do not go begging fo takers.

"The commission trade for the week has been rather more quiet than usual and oper-ations have been largely confined to Callfornia fruits.

Bankers are not agreed as to the state of the money market, some claiming to see evi dences of a better demand and others hop ing, but not expecting, an early change in the situation. Money is still easy and interprest low.

"At South Omaha trade was quite active the first part of the week but fell off the last lew days because prices on cattle were ham-mered down. The packing house improvements are approaching nearer completion and everything is being done to get ready for the good fail and winter business confidently expected.

"One of our travelers writing from the Republican Vailey says: 'Crops in the Valley have been unusually good this season, averaging twenty-five wheat to thirty bushels to the acre, some pieces running as high as forty bushels. Corn is also an ex-Figh as forty bushess. Corn is also an "ex-cellent crop and safe or nearly so. Fruit is very scarce. Considerable land is changing hands at prices 25 to 50 per cent above those of one year ago and farmers are happy. Trade and collections only fair. This year's rrop has not yet been felt by the trade. Whoat is very low and farmers are pretty generally able to hold for better prices."

CHURCH NOTICES.

Welsh Presbyterian-North Twenty-fifth and Indiana streets. Rev. J. Moriais Ruchards, pastor. Services : Morning, at 10:30 a. m.; evening, at 7:30 p. m., when Mrs. Davtes, Rachel O. bid. † asked. STOCKS AND BONDS.

Dealings in Securities Were in a Firm Way. NEW YORK, Sent 17.-The operations in Wall

street today reflected only the clearing up of accounts over the end of the week and indicate that many operators who have been suc cessful on the short side have either covered their contracts and withdrawn from the market or have taken the long side for a turn Many professionals who have been promagnt in the decime were conspicuous in bldding stor is up, but the forces at present are so evenly balanced that there was very little progress made in either direction, though the continue | covering of morts gave the market a firm appearance, and the final changes were generally small gains.

To this result the bank statement contributed materially, as it was the first one in many weeks which showed a gain in the surplos reserve, and even though this was accomplished by a heavy withdrawal of deposits suppleby a heavy withdrawal of deposits supple-mented by a decrease in loans nearly as great, the feeling in Wall street is that there is more money to loan on stock co laters , and a dis-tinctly casher tone was inited in the money market. The strong features were in lustrials, especially Gas and Corlas, the dirst named being specialty active. No other focture mar ed the dealines, and the close was quiet and firm at about the best figures of the day. Government bonds have been out re y neg-lected.

LIVE STOCK MARKETS.

Status of the Trade in Omaha and the In-

fluences Affecting 1t. Омана, Sept. 17. -Receipts for the past week ompared with those of the week previous show a big decrease in cattle and almost as big an increase in hogs and sheep, and the same remark applies to a comparison with the same week of September last year. The figures are as follows:

Cattle, Hogs, Sheep. Cattle, Hogs, Sheep, Receipts this week, ..., 13,3,31 21,646 8,041 Receipts last week, ..., 21,747 18,611 2,048 Same week last year ... 19,857 16,112 000 Throughout the entire week the course of Throughout the entire week the course of cattle values has been upward. There have been no sensational advances, but with a good healthy demand from all sources and only moderate offerings the feeling of weak-ness following the heavy receipts and bad breaks of the week previous has given place to one of strength. While the ad-vance from day to day has been scarcely quotable the fair to good beef cattle are selling from 15c to 25c better than at the close of last week. The choire fat cattle, both natives and rangers, have sold well all week, but these are always scarce at this senson of the year and generally bring gool figures. Inferior stuff of all kinds has not been so very hard to move as it was a week ago, but there has been no noticeable advance in prices. The market for butchers' stuff and canners has also shown considerable improvement and a good share of the deeline of the week previous has been regained. Fair to good cows and helfers are still at from 20c to 25c higher than at the low time last week and all kinds of mixed stuff have scored a proportionate advance. Old and thin cows are still too plentiful to admit of any upward tendency le prices. cattle values has been upward. There have

kenerally improved conditions and a fair vol-ume of bus ness has been transacted. Coun-ity orders have been good and a number of extensive feeders have been investing heav-ly. The tone to the trade is decidedly better and prices are anywhere from 20c to 30c higher than a week ago. The week ago. The week ago, and the lightest run since the 18th of August, when only 505 cattle were received. Although there were few desirable cattle here, either natives or westerns, the feeling was very strong and buyers not very exacting. Fair to tolerably good cornfed steers weighing from 1.071 to 1.316 lbs. soid at from \$1.55 to \$4.25, while in the western cattle the range was from 5.101 to \$4.40, 11 was a goot, stron , active, healthy market and habout everything had chanzed hands by noon. The offerings of cows and mixed stock wers ingrely westerns, but in general they were proty good start. Sales were in measure in \$30 to \$2, 0. Hulls, oven and stars were in good de-mand and firm. Calves were in measure sup-ply and quotably strong on the basis of from \$1.51 to \$2.5 for yearlings and from \$2.50 to \$2.60 to years in the start of the basis of from \$1.51 to \$2.5 for yearlings and from \$2.50 to \$2.60 to years. 5:00 for yeals. Sto kers and feeders were slower than they have been any time during the week but the trade is never very brisk on Satur day. There was no noticeable weakening i

prices an i everything at all desirable v arm y heid. Sales were at from \$200 to \$1 The deal man has been an occasional boarder at both places for the last four years. argely at \$140 and above. Too Much lee Cream.

H. C. Rohrer, agent of the Missouri Pacific raliway, New Haven, Mo., says: "I suffered a great deal one hot evening last week, (July 21.) had eaten ice cream for supper, and thereseemed to be an internal conflict going A traveling man said he had something on. A traveling man said he had something in his grip at the hoter that he believed would relieve me, and producing a small bot the of medicine gave me a dose. I felt better, and in a few moments took another dose. which entirely relieves me. I believe that such a medicine is worthy of recommendation and that is should be kept in the house during the summer. The bottle was labeled Chamberlain's Colic. Cholera and Diarracea

Remedy." For sale by druggists.

BREATHED-IN GAS FOR HOURS.

Jimes Jones of Illinois Asphysiated in a Room at the GaltHouse. The Gault house house at Eleventh and Farnam street furnished the latest addition ta the list of names of those who blew out

the gas. A young man arrived at the house Friday night, registered as James S. Jones of Bloom-inton, Ill., and was shown to his room.

At 11 o'clock yesterday morning the odor of escaping gas was noticed and the door broken open. The gas was turned on at full broken open. The gas was turned on a blast and the stranger was dead in bed.
